Beam Pension Plan

Report on the financial statements

We were engaged to audit the accompanying financial statements of Beam Pension Plan (the "Plan"), which comprise the statements of net assets available for benefits as of December 31, 2018 and 2017, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management's responsibility for the financial statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for disclaimer of opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the certified information described in Note E, except for comparing such information with the related information included in the financial statements. We have been informed by the Plan administrator that the certifying entity meets the requirements of 29 CFR 2520.103-8. The Plan administrator obtained certifications from this entity as of December 31, 2018 and 2017, and for the years then ended, stating that the certified information provided to the Plan administrator is complete and accurate.

Disclaimer of opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Supplementary information

The supplemental schedule of assets (held at end of year) as of December 31, 2018, and schedule of reportable transactions for the year ended December 31, 2018 are presented for purposes of additional analysis and are not a required part of the financial statements, but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we do not express an opinion on the supplemental schedules.

Report on form and content in compliance with DOL rules and regulations

The form and content of the information included in the financial statements and supplemental schedules, other than that derived from the certified information described in Note E, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

NOTES TO FINANCIAL STATEMENTS
December 31, 2018 and 2017

NOTE A - DESCRIPTION OF PLAN

General

The Beam Pension Plan (the “Plan”) is a non-contributory defined benefit plan for salaried, non-union hourly, and union hourly employees of Beam Global Spirits & Wine, Inc., Jim Beam Brands Co., and Maker’s Mark Distillery, Inc. (collectively the “Company” or “Beam”). Beam Global Spirits & Wine, Inc. is a wholly-owned subsidiary of Beam Suntory Inc. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (“ERISA”), as amended.

The following provides a brief description of the Plan. Participants should refer to the Plan document for a more complete description of the Plan’s provisions, which is available from the Plan administrator.

Effective January 1, 2008, the Plan closed to new entrants with the exception of special rules that apply to certain transferred employees as outlined in the Plan document. Effective December 31, 2011, the Plan was frozen for non-union employees and no additional benefits shall accrue under the Plan on behalf of any non-union participant; provided, however, that each non-union participant on the freeze date shall continue to be credited with vesting service on and after December 31, 2011 in accordance with the terms of the Plan.

On October 2, 2018, U.F.C.W. Clermont participants were offered a voluntary option to freeze their benefit under the Plan effective December 31, 2018, and to receive enhanced benefits under the Jim Beam Brands Company Union 401(k) Plan, such as employer matching and non-elective contributions. Eligible participants had until November 30, 2018 to elect to participate in this offer. Effective December 31, 2018, the Plan was frozen for those participants who elected to participate and no additional benefits shall accrue under the Plan on behalf of such participants.

Pension Benefits

Employees become fully vested after five years of vesting service. Participants are eligible for monthly pension benefit payments beginning at the normal retirement age (the later of age 65 or after five years of vesting service in the Plan if their employment is terminated with all Beam entities). Benefits are calculated according to an integrated benefit formula based upon total years and months of credited service multiplied by either a percentage of monthly earnings or a flat dollar amount (for Clermont union employees). Effective January 1, 2008, the benefits formula used to calculate benefits for participants with less than 15 years of credited service, was reduced.

The normal form of pension benefit for a participant with no eligible spouse is an annuity payable for the participant’s lifetime only. The normal form of pension benefit for a participant with an eligible spouse is an annuity payable at an actuarially reduced amount for the participant’s lifetime and, thereafter, at a specific percentage of such amount for the eligible spouse’s lifetime.

Beam Pension Plan**PLAN NUMBER: 002, EIN: 36-4054676****NOTES TO FINANCIAL STATEMENTS - CONTINUED****December 31, 2018 and 2017**

A participant may elect to modify the normal form of pension benefit by exercising one of several options, including a single-life annuity, various joint and survivor annuities or various period-certain annuity options. Reduced benefits are payable upon early retirement after attaining age 55 with a minimum of ten years of vesting service. A participant is eligible for a deferred vested pension if his or her employment is terminated with the Company before death or retirement after completing at least five years of vesting service.

The Plan also provides for disability and deferred pension benefits. A participant is considered disabled as long as he or she meets the definition of totally and permanently disabled in the Plan. During the period of disability, participants continue to earn both vesting service and benefit service to the retirement date.

Contributions

The Company contributes such amounts as are necessary on an actuarial basis to provide the Plan with assets sufficient to meet the benefits to be paid to Plan participants. The minimum funding requirements of ERISA were satisfied in 2018 and 2017.

Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan's provisions to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA. In the event the Plan terminates, participants will become fully vested in their accrued benefits, and the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations. In addition, the Pension Benefit Guaranty Corporation ("PBGC") insures certain benefits for beneficiaries and vested participants under the Plan if the Plan terminates.

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency of the Plan's net assets at the termination date to provide these benefits and may also depend on the financial condition of the Plan Sponsor and on the level of benefits guaranteed by the PBGC.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES***Basis of Accounting***

The accompanying financial statements are prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America ("GAAP").

Beam Pension Plan**PLAN NUMBER: 002, EIN: 36-4054676****NOTES TO FINANCIAL STATEMENTS - CONTINUED****December 31, 2018 and 2017**

Use of Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, and changes therein, disclosure of contingent assets and liabilities, and the actuarial present value of accumulated Plan benefits at the date of the financial statements. Actual results could differ from those estimates.

Investment Valuation

The Plan's investments are reflected at fair value. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability (an exit price) in an orderly transaction between market participants at the measurement date in the principal or most advantageous market for the asset or liability. Inputs are used in applying the various valuation techniques and broadly refer to the assumptions that market participants use to make valuation decisions, including assumptions about risk. See note D for discussion of fair value measurements.

Investment Income

Purchases and sales of securities are reflected on a trade-date basis. Gain or loss on sales of securities is based on average cost. Dividend income is recorded on the ex-dividend date. Interest and other income are recorded as earned on an accrual basis. Net realized and unrealized appreciation (depreciation) is recorded in the accompanying financial statements as net (depreciation) appreciation in fair value of investments.

Payment of Benefits

Benefit payments to participants are recorded when paid.

Administrative Expenses

The Plan provides for payment of certain administrative expenses from Plan assets, including fees paid to the trustee, investment managers, the actuary, the PBGC and other various Plan-related expenses. Such expenses are reflected as administrative expenses in the accompanying statements of changes in net assets available for benefits.

NOTE C - TAX STATUS

The Plan obtained its latest determination letter on January 31, 2018, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code (the "IRC"). The Plan has been amended since receiving the

Beam Pension Plan**PLAN NUMBER: 002, EIN: 36-4054676****NOTES TO FINANCIAL STATEMENTS - CONTINUED****December 31, 2018 and 2017**

determination letter. However, Plan management believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC.

GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS or other applicable taxing authorities. Plan management has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2018 and 2017, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, the Plan is not currently under audit with respect to any tax periods in progress.

NOTE D – FAIR VALUE MEASUREMENTS

The Plan's management established a three-tiered hierarchy of inputs to establish a classification of fair value measurements for disclosure purposes. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements).

The three levels of the fair value hierarchy are as follows:

Level 1 inputs are unadjusted quoted prices in active markets for identical assets or liabilities that the reporting entity has the ability to access at the measurement date. An active market for the asset or liability is a market in which transactions for the asset or liability occur with sufficient frequency and volume to provide pricing information on an ongoing basis.

Level 2 inputs are other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly, including:

1. Quoted prices for similar assets or liabilities in active markets.
2. Quoted prices for identical or similar assets or liabilities in inactive markets.
3. Inputs other than quoted prices that are observable for the assets or liabilities (including volatilities).
4. Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Beam Pension Plan**PLAN NUMBER: 002, EIN: 36-4054676****NOTES TO FINANCIAL STATEMENTS - CONTINUED****December 31, 2018 and 2017**

Level 3 inputs are unobservable for the asset or liability (including the entity's own assumptions about the assumptions that market participants would use in pricing the asset or liability) and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Plan management uses the following valuation methods and significant assumptions to estimate fair value of investments held by the Plan. There have been no changes in the methodologies used at December 31, 2018 and 2017.

The investments held by the Plan are valued as follows:

Collective funds: Valued at the net asset value ("NAV") of each bank collective trust fund. The NAV, as provided by the investment manager of each collective fund, is used as a practical expedient and is based on the fair value of the underlying investments held by the funds less their liabilities. Were the Plan to initiate a full redemption of a collective fund, the investment manager of the fund generally reserves the right to temporarily delay withdrawal from the fund in order to ensure that securities liquidations will be carried out in an orderly business manner.

Hedge fund and Partnership: Valued at the NAV as reported to the Plan from the respective hedge fund or partnership's manager. The NAV is used as a practical expedient and is calculated based on the Plan's share of the respective entity's total net assets at fair value.

Interest bearing cash: Valued at the holding amount.

Other: Valued at the closing price reported on the active market on which the security is traded.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in different fair value measurement at the reporting date.

Beam Pension Plan**PLAN NUMBER: 002, EIN: 36-4054676****NOTES TO FINANCIAL STATEMENTS - CONTINUED****December 31, 2018 and 2017**

- (a) This fund is a segregated portfolio company that seeks to generate attractive returns over a full market cycle by investing in a range of alternative investment opportunities with sources of return that have a low correlation to the broader financial markets, while also seeking to preserve capital. Each investment into the fund is subject to a one year lock-up period and thereafter, may be redeemed with 95 days' notice semi-annually as of the last business day of June or December. There are no unfunded capital commitments.
- (b) This fund is a multi-strategy fund of hedge funds investing in multiple strategies and asset classes to provide investment returns uncorrelated to other asset classes. Liquidity is gated and subject to approval by the fund manager. There are no unfunded capital commitments.

Beam Pension Plan**PLAN NUMBER: 002, EIN: 36-4054676****NOTES TO FINANCIAL STATEMENTS - CONTINUED****December 31, 2018 and 2017**

NOTE E - INFORMATION CERTIFIED BY TRUSTEE

Plan management has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, The Northern Trust Company ("Trustee"), the Plan's trustee, has certified that the following data included in the accompanying financial statements is complete and accurate:

- Investments, accrued interest and dividend income, due from broker for securities sold, and due to broker for securities purchased, as shown in the statements of net assets available for benefits as of December 31, 2018 and 2017.
- Investment (loss) income as shown in the statements of changes in net assets available for benefits for the years ended December 31, 2018 and 2017.
- Schedule H, line 4i – schedule of assets (held at end of year) as of December 31, 2018.
- Schedule H, line 4j – schedule of reportable transactions for the year ended December 31, 2018.

The Plan's independent accountants did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedules.

NOTE F - ACCUMULATED PLAN BENEFITS

Accumulated Plan benefits are those future periodic payments that are attributable under the Plan's provisions to service employees have rendered. The actuarial present value of accumulated Plan benefits is determined by the Plan's actuary and is the amount that results from applying actuarial assumptions to adjust the accumulated Plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal or retirement) between the valuation date and the expected date of payment.

Beam Pension Plan**PLAN NUMBER: 002, EIN: 36-4054676****NOTES TO FINANCIAL STATEMENTS - CONTINUED****December 31, 2018 and 2017**

The significant actuarial assumptions used in the valuations as of December 31, 2017, were as follows:

Life expectancy of the participants	RP-2017 collar adjusted mortality table adjusted with MP-2017 generational mortality improvement scale (2016 - RP-2014 mortality table adjusted with experience from the MP-2016 mortality improvement scale)
Retirement age assumptions	The age at which current active employees are assumed to retire varies between ages 55 and 70 and the average age is 60. All employees age 70 are assumed to retire.
Discount rate	6.35% (2016 – 6.35%)

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated Plan benefits.

NOTE G - RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the value of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits and the statements of changes in net assets available for benefits.

Plan contributions are made and the actuarial present value of accumulated Plan benefits is reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

NOTE H - RELATED-PARTY AND PARTY-IN-INTEREST TRANSACTIONS

Certain Plan investments are collective trusts managed by the Trustee and Aon, the service provider for benefit payment processing and plan data administration; therefore, these transactions qualify as party-in-interest transactions.

NOTES TO FINANCIAL STATEMENTS - CONTINUED

December 31, 2018 and 2017

NOTE I – SUBSEQUENT EVENTS

Effective September 16, 2019 through November 1, 2019, the Plan is offering a special program, called the 2019 Special Election Opportunity, which offers certain eligible terminated vested participants who have not yet commenced his or her pension benefit, a one-time opportunity to elect a lump sum payment of accrued pension benefits payable under the Plan at the time of the offer, rather than taking it as an annuity. For eligible terminated vested participants who are not eligible to commence benefits as of December 1, 2019, the 2019 Special Election Opportunity offers them to receive an annuity option as described in the Plan.

Management of the Plan has evaluated subsequent events from December 31, 2018 through October 9, 2019, the date these financial statements were available to be issued. Other than previously disclosed, there were no subsequent events that require recognition or additional disclosure in these financial statements.

Form of payment	Participants are assumed to elect the normal form.
Percent married	80% of males; 80% of females. Used to value pre-retirement surviving spouse benefits and in determining the optional forms expected to be elected at commencement
Spouse age	Wife three years younger than husband
Covered pay	Assumed plan compensation for the year beginning on the valuation date was determined as actual pensionable earnings provided by the employer for the prior year adjusted at the assumed compensation increase rate.
At-risk assumptions	For at-risk calculations, all participants eligible to elect benefits during the current and subsequent ten plan years are assumed to commence benefits at the earliest possible date under the plan, but not before the end of the current plan year, except in accordance with the regular valuation assumptions. In addition, all participants (not just those eligible to begin benefits within the next 11 years) are assumed to elect the most valuable form of benefit under the plan.
Timing of benefit payments	Annuity payments are payable monthly at the beginning of the month and lump sum payments are payable on date of decrement.

Methods

Valuation date	First day of plan year
Funding target	Present value of accrued benefits as required by regulations under IRC§430.
Target normal cost	Present value of benefits expected to accrue during the plan year plus plan-related expenses expected to be paid from plan assets during the plan year as required by regulations under IRC §430.

Actuarial value of assets for determining minimum required contributions

Average of the fair market value of assets on the valuation date and 12 and 24 months preceding the valuation date, adjusted for contributions, benefits, administrative expenses and expected earnings of 6.35% for 2017 and 6.65% for 2016 (with such expected earnings limited as described in IRS Notice 2009-22). The average asset value must be within 10% of market value, including discounted contributions receivable (discounted using the effective interest rate for the 2017 plan year.)

The method of computing the actuarial value of assets complies with rules governing the calculation of such values under the Pension Protection Act of 2006 (PPA). These rules produce smoothed values that reflect the underlying market value of plan assets but fluctuate less than the market value. As a result, the actuarial value of assets will be lower than the market value in some years and greater in other years. However, over the long term under PPA's smoothing rules, the method has a significant bias to produce an actuarial value of assets that is below the market value of assets.

Benefits not valued

All benefits described in the Plan Provisions section of this report were valued. Towers Watson has reviewed the plan provisions with Beam Suntory, Inc. and, based on that review, is not aware of any significant benefits required to be valued that were not.

Sources of Data and Other Information

Beam, through its third party administrator, furnished participant data as of January 1, 2018. Data were reviewed for reasonableness and consistency, but no audit was performed. Based on discussions with the plan sponsor, assumptions or estimates may have been made when data were not available, and the data was adjusted to reflect any significant events that occurred between the date the data was collected and the measurement date. In consultation with the plan sponsor, the following assumptions were made for missing or apparently inconsistent data elements: missing birth dates for beneficiaries of retirees with joint and survivor payment forms were assumed to be three years prior to the retirees' birth dates if the retirees were female and three years after the retirees' birth dates if the retirees were male; missing gender for beneficiaries was assumed to be opposite of the retirees' gender.

We are not aware of any errors or omissions in the data that would have a significant effect on the results of our calculations.

Assumptions Rationale - Significant Economic Assumptions

Discount rate	The basis chosen was selected by the plan sponsor from among choices prescribed by law, all of which are based on observed market data over certain periods of time.
Expected return on plan assets	We understand that the expected return on assets assumption reflects the plan sponsor's estimate of future experience for trust asset returns, reflecting the plan's current asset allocation and any expected changes during the current plan year, current market conditions and the plan sponsor's expectations for future market conditions.
Rate of Compensation Increase	While salaried retirement plan participants have frozen accrued benefits so that this assumption is not needed for this group, the assumption is needed for certain union participants whose pension benefit formula is based upon the greater of an hourly multiplier and a pay-based formula. The negotiated increase for certain union groups is 3%.

Assumptions Rationale - Significant Demographic Assumptions

Mortality

- **Healthy**
Assumptions used for funding purposes are as prescribed by IRC §430(h). Note that the plan sponsor has decided, as allowed by regulation §1.430(h)(3)-1, to delay until the 2019 plan year updating the required mortality table to reflect the RP-2014 study and subsequent Society of Actuaries studies.
- **Disabled**
Assumptions used for funding purposes are as prescribed by IRC §430(h). Note that the plan sponsor has decided, as allowed by regulation §1.430(h)(3)-1, to delay until the 2019 plan year updating the required mortality table to reflect the RP-2014 study and subsequent Society of Actuaries studies.

Termination

Termination rates were based on an experience study conducted in 2011, with annual consideration of whether any conditions have changed that would be expected to produce different results in the future. Rates vary by salaried, Clermont union, and other union participants because of the differences in behavior observed among the groups.

Retirement	Retirement rates were based on an experience study conducted in 2011, with annual consideration of whether any conditions have changed that would be expected to produce different results in the future. Rates vary by salaried, Clermont union, and other union participants because of the differences in behavior observed among the groups.
Benefit commencement date for deferred benefits:	Terminated vested pension participants are assumed to retire (i.e. elect to have their benefit payments commence) at age 62 if a union participant, at age 64 if a salaried participant who was not early retirement eligible at the time of termination, or at age 62 if a salaried participant who was early retirement eligible at the time of termination (i.e. age 55 with 10 years of service). This assumption is based in part upon an experience study from 2011 and modified in 2014 due to the greater level of subsidy such participants can receive.
Form of payment	All participants are assumed to take their benefit in the normal form of payment (a single life annuity if the participant has no spouse as of the date payments commence, otherwise a 50% joint & survivor annuity). This assumption is based upon anticipated future plan experience.
Marital Assumptions:	
■ Percent married	The assumed percentage married is based on anticipated future experience.
■ Spouse age	The assumed age difference for spouses is based on general population statistics of the age difference for married individuals of retirement age.

Source of Prescribed Methods

Funding methods	The methods used for funding purposes as described in Appendix A, including the method of determining plan assets, are "prescribed methods set by law", as defined in the actuarial standards of practice (ASOPs). These methods are required by IRC §430, or were selected by the plan sponsor from a range of methods permitted by IRC §430.

Changes in Assumptions and Methods

Change in assumptions and methods since prior valuation

- The segment interest rates used to calculate the funding target and target normal cost were updated to the current valuation date as required by IRC 430.
- The mortality table used to calculate the funding target and target normal cost was updated to include on additional year of projected mortality improvement, as required by IRC §430.
- The assumed plan-related expenses added to the target normal cost were changed from \$2,767,467 for the prior valuation to \$2,084,000 for the current valuation.
- The decrement timing assumption was changed from beginning of year decrements to the rounded middle of year decrement timing model.

Schedule SB, Line 25 Change in Method

The decrement timing used in the valuation was changed from alternative middle of year to rounded middle of year. Under rounded middle of year decrement timing, all decrements are assumed to occur at the middle of the year and eligibility for benefits, commencement and cessation of benefits, and other events are assumed to occur at the middle of the year. Under alternative middle of year decrement timing, all decrements, and commencement of immediate benefits for actives, are assumed to occur at the middle of the year, and all other events are assumed to occur on valuation date anniversaries. The change in funding method meets the parameters for automatic approval of software changes under IRS Rev. Proc. 2017-56.

Schedule SB, Part V Summary of Plan Provisions

Effective Date July 1, 1965. Last restated effective January 1, 2012. Last amended December 31, 2017

Plan Year Calendar Year

Beam Salaried

Covered employees Certain former participants in the Jim Beam Salaried Employees' Pension Plan ("Prior Plan"), and all salaried or clerical employees of the company not covered by a union contract.

Participation date Beam transferred employees who were participants as of May 31, 2001 (prior plan participants) continue as participants. Each other employee becomes a participant on the first day of the month following the first anniversary of the date of hire if 1,000 hours of employment are completed, otherwise on the first day of the month following the first calendar year in which 1,000 hours of employment are completed.

Effective January 1, 2008, the plan is closed to new hires.

Definitions

Vesting service Total service from the date of hire to date of termination using elapsed time, less any breaks in service.

Benefit service Service credited prior to the effective date, determined under the plan as in effect on December 31, 1975, plus service credited after the effective date and prior to January 1, 1994, determined under the plan as in effect prior to January 1, 1994, plus the sum of the number of plan years on or after January 1, 1994 in which 1,000 hours of employment are completed. Benefit service is limited to 35 years. Effective December 31, 2011, benefit service is frozen.

Pensionable pay Compensation paid after December 31, 2011 is not taken into account.

Monthly preretirement death benefit

For participants with less than 10 years of vesting service: 50% of the amount that would have been payable if the participant had terminated employment on the date of death (if not already terminated), deferred payment to age 65, and then elected 50% joint and survivor form of payment.

For participants with 10 years of vesting service: 50% of the amount that would have been payable if the employee had terminated employment on the date of death (if not already terminated), survived to his or her earliest retirement age (if not already eligible for retirement), and then begun to receive a 50% joint and survivor annuity.

Minimum benefits also apply for participants with a Geyser Peak benefit.

Eligibility for Benefits

Normal retirement

Retirement on NRD

Early retirement

Age 55 and 10 years of vesting service.

Postponed retirement

Retirement after NRD

Vested termination

Five years of vesting service

Disability

Participants entitled to benefits under the company's long-term disability plan.

Preretirement death benefit

Vested plan participant who dies before commencing plan benefits and married throughout the one-year period ending on the date of the participant's death.

Otherwise, benefits are paid in the form of a 50% joint and survivor annuity option or, if the participant elects and the spouse consents, another actuarially equivalent optional form offered by the plan.

Optional forms are a 50%, 75%, or 100% joint and survivor annuity, a ten-year or fifteen-year certain and life annuity, or (for married participants) a life annuity. Actuarial equivalence is based on 6.00% interest rate and the RP-2000 Combined Healthy Mortality Table blended 50% male and 50% female with no age setbacks.

The plan provides age 62 and age 65 Social Security level income options for the prior plan accrued benefit.
