1. Description of the Plan

The following brief description of the nThrive 401(k) Retirement Plan (the Plan) is provided for general information purposes only. Participants should refer to the Plan document for more complete information.

General

The Plan is a defined contribution plan and is sponsored by nThrive, Inc. (the Company). Employees become eligible to participate in the Plan effective the first day on which employment commences. Employees who are subject to a collective bargaining agreement, leased employees, and nonresident aliens are not eligible to participate in the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

Plan Merger

Effective, January 1, 2018 MedAssets Net Revenue Systems, LLC Retirement Savings Plan, Precyse Solutions, Inc. 401(k), Equation Consulting, Inc. 401(k) Plan, and The Adreima 401(k) Plan merged into the nThrive 401(k) Retirement Plan.

Contributions

Participants may contribute up to 90% of annual compensation subject to annual limitations set forth in Section 402(g) of the Internal Revenue Code (IRC). Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions of up to $6,000. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan. Eligible employees are automatically enrolled with a 6% salary deferral 30 days after their hire date, unless they voluntarily elect not to participate in the Plan. Participants may also elect a deferral percentage other than 6%. For participants automatically enrolled at 6%, the initial rate of pretax contribution increases by 1% each year, on May 1st, until the rate reaches 10%, unless the participant affirmatively elects otherwise.

The Company has elected to contribute a non-discretionary matching contribution whereby participants in the Plan receive 50% of the participant's salary deferrals that do not exceed 6% of the participant's compensation, The Company may also choose to make a discretionary nonelective Company contribution and a qualified nonelective Company contribution.

Participant Accounts

Each participant's account is credited or charged with the participant's contribution and allocations of (a) the Company's contributions and (b) Plan earnings or losses and charged with his or her withdrawals and an allocation of administrative expenses. The participant's and Company's contributions and earnings or losses thereon are invested as directed by the participant into various investment funds. The benefit to which a participant is entitled is that which can be provided from the participant's vested account.

1. Description of the Plan (cont.)

Notes Receivable from Participants

Participants may borrow from their vested fund accounts a maximum equal to the lesser of (a) $50,000 reduced by excess (if any) of the highest outstanding balance of loans during the one-year period ending on the day before the loan is made, over the outstanding balance of loans from the Plan on the date the loan is made, or (b) 50% of their vested account balance. The maximum loan term is five years, except loans issued for the purchase of a primary residence in which case the note receivable term may exceed five years. The loans are secured by the balance in the participant's account and bear interest at a rate commensurate with local prevailing rates as determined by the Plan administrator at the date the loans are issued. Principal and interest are paid through bi-weekly payroll deductions.

Vesting

Participants are vested immediately in their contributions plus actual earnings thereon. Vesting in the Company's contributions is based on years of continuous service. For Adreima 401(k) Plan Company matching and profit-sharing contributions that were transferred to the Plan, a participant is vested 25% after one year of service, 50% after two years of service, and 100% after three years of service. For Equation Consulting, Inc. 401(k) Plan nonelective matching contributions that were transferred to the Plan, a participant is immediately vested. For all other Company matching and nonelective matching contributions, a participant is vested 20% after one year of service, 40% after two years of service, 60% after three years of service, 80% after four years of service, and 100% after five years of service.

Payment of Benefits

Participants are eligible to receive a distribution from their accounts upon retirement, death, disability or separation from service with the Company. The normal form of distribution is a single lump-sum payment; however, participants may elect to receive their distributions in periodic installment payments. The Plan also provides for in-service withdrawals for hardship reasons and for participants who have attained age 59½. Minimum required distributions for participants who have reached age 70½ also apply per the Internal Revenue Service (IRS) regulations.

Forfeitures

Forfeited non-vested accounts totaled $134,383 at December 31, 2018. Forfeitures resulting from the non-vested portions of Company contributions for a terminated participant's account can be used to reduce future Company contributions or administrative fees of the Plan. Forfeitures of $110,029 were used to reduce Plan expenses and $771,592 were used to offset Company contributions for the year ended December 31, 2018.

Plan Expenses

Certain administrative expenses of the Plan are paid by the Plan as provided in the Plan agreement. Certain other administrative expenses of the Plan are paid by the Company at their discretion.

Basis of Accounting

The financial statements of the Plan were prepared using the accrual basis of accounting. The Plan follows accounting standards set by the Financial Accounting Standards Board (FASB). The FASB sets accounting principles generally accepted in the United States of America (GAAP).

2. Summary of Significant Accounting Policies

Use of Estimates

The preparation of financial statements in conformity with GAAP requires the Plan's management to make estimates and assumptions that affect the reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Investment Valuation and Income Recognition

The investments of the Plan are reported at fair value. The fair value of a financial instrument is the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (the exit price).

Purchases and sales of securities are recorded on a trade-date-basis. Dividends are recorded on the ex-dividend date. Investment income is recorded on the accrual basis. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2018. If a participant ceases to make loan repayments and the Plan administrator deems the participant loan to be in default, the participant loan balance is reduced, and a benefit payment is recorded.

Payment of Benefits

Benefit payments to participants are recorded upon distribution.

Subsequent Events

Management has evaluated subsequent events through October 14, 2019, which is the date the financial statements were available to be issued and concluded that no additional disclosures were required.

3. Certified Information

The Plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Fidelity Management Trust Company (Fidelity), has provided a certification that the financial information included in the financial statements as of December 31, 2018, and for the year then ended provided to the Plan is complete and accurate. The information as to investment assets and transactions therein, and investment income included in the accompanying financial statements and supplemental schedule as of December 31, 2018, and for the year then ended is covered by such certification.

The Plan's independent accountants did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedule.

4. Fair Value Measurements

GAAP establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs in which little or no market data exists (Level 3 measurements). The three levels of the fair value hierarchy under GAAP are described below:

Basis of Fair Value Measurement

Level 1 - Unadjusted quoted prices in active markets that are accessible at the measurement date for identical, unrestricted assets or liabilities;

Level 2 - Quoted prices in markets that are not considered to be active or financial instruments for which all significant inputs are observable, either directly or indirectly;

Level 3 - Prices or valuations that require inputs that are both significant to the fair value measurement and unobservable.

The asset's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2018.

Mutual Funds - Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Common Collective Trust - The Vanguard Retirement Savings Trust Fund is a common collective trust fund that is valued at the net asset value using NAV as the practical expedient based on the last reported sales price of the underlying investments held. The Plan's interest in the collective trust was based on information using the audited financial statements of the collective trust at year-end. The investment income (loss) was allocated to participants based on their proportionate share of the net assets of the fund.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while management believes its valuation method is appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

4. Fair Value Measurements (cont.)

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2018.

December 31, 2018	Level 1	Level 2	Level 3	Total
Mutual funds	**$ 155,427,466**	**$ -**	**$ -**	**$ 155,427,466**
	$ 155,427,466	**$ -**	**$ -**	**155,427,466**
Common collective trust measured at NAV*				**5,728,792**
Total investments at fair value				**$ 161,156,258**

* In accordance with Subtopic 820-10, certain investments that were measured at NAV per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statement of net assets available for benefits.

Fair value of investments, in certain entities that calculate NAV per share (or its equivalent) follows:

Investment	Fair Value at December 31, 2018	Unfunded Commitments	Redemption Frequency	Redemption Notice Period
Common collective trust	**$ 5,728,792**	**N/A**	**Daily**	**Daily**

5. Tax Status

The Plan is based on the Volume Submitter Profit Sharing Plan with CODA of Fidelity Management & Research Co., which received an opinion letter from the IRS dated March 31, 2014, stating that the Volume Submitter Profit Sharing Plan with CODA was designed in accordance with the provisions of the IRC. Although the Plan has been amended since the date of the opinion letter, the Plan administrator believes that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC.

GAAP requires plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2018, there are no uncertain positions taken or expected to be taken. The Plan has recognized no interest or penalties related to uncertain tax positions. The Plan is subject to routine audits by taxing jurisdictions, however, there are currently no audits for any tax periods in progress.

6. Plan Termination

Although it has not expressed an intention to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their Company contributions.

7. Party-In-Interest Transactions

Certain Plan investments are managed by Fidelity Investments, a related company to Fidelity. These transactions, as defined by the Plan, qualify as party-in-interest transactions. Notes receivable from participants are also defined by ERISA as party-in-interest transactions. Such transactions are exempt from the prohibited transaction rules.

8. Excess Participant Contributions Payable

The Plan failed the discrimination test for the year ended December 31, 2018. Excess contributions amounting to $183,750 are recorded as a liability in the accompanying statement of net assets available for benefits. The Plan reimbursed these excess contributions to its participants in 2019.

9. Risks and Uncertainties

The Plan's investments include funds which invest in various types of investment securities and in various companies within various markets. Investment securities are exposed to several risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and those changes could materially affect the amounts reported in the statement of net assets available for benefits.

10. Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of the statement of net assets per the financial statements at December 31, 2018 to the Schedule H of the Form 5500:
