INDEPENDENT AUDITORS' REPORT

October 11, 2019

Dana Incorporated Investment Committee
Dana Victor Reinz Division Pension Plan for Hourly
Paid Employees at the Robinson, Illinois Plant
Maumee, Ohio

Report on the Financial Statements

We were engaged to audit the accompanying modified cash basis financial statements of the *Dana Victor Reinz Division Pension Plan for Hourly Paid Employees at the Robinson, Illinois Plant* (the "Plan"), which comprise the statements of net assets available for benefits as of December 31, 2018 and 2017, and the related statements of changes in net assets available for benefits for the years then ended (modified cash basis method of accounting), the statement of accumulated plan benefits as of December 31, 2017, and the related statement of changes in accumulated plan benefits for the year then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with the modified cash basis method of accounting described in Note 1; this includes determining that the modified cash basis method of accounting is an acceptable basis for the presentation of the financial statements in the circumstances. Plan management is also responsible for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Independent Auditors' Responsibility

Our responsibility is to express an opinion on these modified cash basis financial statements based on conducting the audits in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the *Basis for Disclaimer of Opinion* paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan Administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to information summarized in Note 2, which was certified by Northern Trust Company, the trustee of the Plan, except for comparing such information with the related information included in the modified cash basis financial statements. We have been informed by the Plan Administrator that the trustee holds the Plan's investment assets and executes investment transactions. The Plan Administrator has obtained certifications from the trustee as of and for the years ended December 31, 2018 and 2017, that the information provided to the Plan Administrator by the trustee is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the *Basis for Disclaimer of Opinion* paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these modified cash basis financial statements.

Basis of Accounting

We draw attention to Note 1 of these financial statements, which describes the basis of accounting. The statements of net assets available for benefits and changes in net assets available for benefits were prepared under the modified cash basis method of accounting, which is a comprehensive basis of accounting other than accounting principles generally accepted in the United States of America. Our disclaimer of opinion is not modified with respect to that matter.

Report on Form and Content in Compliance with DOL Rules and Regulations

The form and content of the information included in the modified cash basis financial statements, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

DANA VICTOR REINZ DIVISION PENSION PLAN FOR HOURLY PAID EMPLOYEES AT THE ROBINSON, ILLINOIS PLANT

NOTES TO FINANCIAL STATEMENTS

1. DESCRIPTION OF THE PLAN AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The following brief description of the *Dana Victor Reinz Division Pension Plan for Hourly Paid Employees at the Robinson, Illinois Plant* (the "Plan") is provided for general information purposes only. Participants should refer to the Plan document for more complete information.

Description of the Plan

General

The Plan is a defined benefit pension plan established to provide pension benefits to individuals who are employed by an indirect subsidiary of *Dana Limited* (the "Company") who are members of the collective bargaining unit represented by District 167 of the International Association of Machinists and Aerospace Workers and its Local No. 2293, AFL-CIO. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended ("ERISA").

Effective May 31, 2007, the Plan was frozen for all participants. Participants who were actively employed at that time became fully vested on that date. Future benefits will be calculated based on a participant's retirement date and credited service through May 31, 2007 ("freeze date"). The monthly benefit amount was also frozen at \$21 per month (for participants who retired on or after April 20, 2000) for each year of credited service earned prior to June 1, 2007.

Dana Incorporated is the Company's parent. The Plan is administered by the Dana Incorporated Investment Committee (the "Investment Committee").

Funding Policy

Minimum required contributions to the Plan are based upon valuations performed by an independent actuary. The Pension Protection Act ("PPA") determines minimum required contributions as the sum of (a) the value of benefits earned during the year, (b) expected administrative expenses paid from the trust during the year, and (c) an amortization of any unfunded obligation over seven years. The Plan has met the minimum funding requirements prescribed by ERISA.

Pension Benefits

Participants are entitled to monthly pension benefits beginning at normal retirement age (65) which are equal to specified rates multiplied by total years of credited service. The benefit is typically paid in the form of a joint and surviving spouse annuity; however, participants may elect to waive the survivor benefit option in the manner prescribed by ERISA. If the present value of the accrued benefit is less than \$1,000, the benefit will be paid to the participant in a single lump-sum without the participant's consent. A participant with an accrued benefit greater than \$1,000 but less than or equal to \$5,000 may be paid in a lump-sum with the participant's written consent or will have their interest in the Plan transferred in a direct rollover to an individual retirement account administered by Vanguard Fiduciary Trust Company if the participant fails to elect a distribution or rollover option.

DANA VICTOR REINZ DIVISION PENSION PLAN FOR HOURLY PAID EMPLOYEES AT THE ROBINSON, ILLINOIS PLANT

NOTES TO FINANCIAL STATEMENTS

Participants are eligible for early retirement upon attaining age 60 with 10 years of credited service. Early retirement benefits are generally equal to the accrued normal retirement benefit actuarially reduced for retirement prior to age 65. Benefits for participants who do not commence receiving payments until after they reach normal retirement age are actuarially increased to take into account the number of months after the normal retirement date, excluding months in which the pension benefit was suspended because the participant worked for the Company.

Death and Disability Benefits

If an active or terminated vested participant dies prior to benefit commencement, a benefit is payable to the beneficiary equal to 50% of the participant's accrued normal retirement benefit, as stated in the Plan document. Such benefit is reduced for payments made prior to age 65 and for election of the joint annuitant option.

A participant with 15 or more years of credited service that becomes permanently and totally disabled is eligible to receive disability benefits under the Plan.

Vesting

All participants are fully vested in their benefits.

Administrative Expenses

Certain of the Plan's administrative expenses are paid directly by the Company and, accordingly, they are not reflected in the Plan's financial statements. Administrative fees and expenses for investment consulting, legal, actuarial, audit and record keeping services, Pension Benefit Guaranty Corporation ("PBGC") insurance premiums and services provided by the trustee, investment managers and administrative service providers are generally borne by the Plan. These expenses are party-in-interest transactions, which qualify for exemption from prohibited transaction rules under ERISA.

Summary of Significant Accounting Policies

Basis of Accounting

The accounts of the Plan are maintained under the modified cash basis method of accounting, which is a comprehensive basis of accounting other than accounting principles generally accepted in the United States of America. Consequently, contributions are recognized when received rather than when earned and Plan expenses are recognized when paid rather than when the obligation is incurred.

Use of Estimates

The preparation of financial statements in conformity with the modified cash basis method of accounting requires Plan management to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein, disclosures of contingent assets and liabilities, the recorded amounts of additions to and deductions from Plan assets and the actuarial present value of accumulated plan benefits at the date of the financial statements, and changes therein. Actual results could differ from those estimates.

DANA VICTOR REINZ DIVISION PENSION PLAN FOR HOURLY PAID EMPLOYEES AT THE ROBINSON, ILLINOIS PLANT

NOTES TO FINANCIAL STATEMENTS

Master Trust Agreement

The Plan's net assets, along with the net assets of three other Company pension plans (two plans prior to September 1, 2017), are held by the trustee, Northern Trust Company ("Northern Trust") in the Dana Master Pension Trust (the "Master Trust"). The net assets of the participating plans have been commingled in the Master Trust for investment purposes only. Employer contributions, benefit payments and certain administrative expenses are identified with each respective participating plan whereas earnings and administrative expenses not specifically related to each plan are allocated proportionately to the participating plans. The allocation is based on the relative dollar value investment of the participating plans in the Master Trust, with the exception of income related to certain investments, which is allocated to each plan to match the duration of the associated pension liability.

Investment Valuation and Income Recognition

The Master Trust's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Investment Committee determines the Master Trust's valuation policies utilizing information provided by the investment managers and trustee. See Note 3 for a discussion of the Master Trust's fair value measurements.

Net investment income of the Master Trust includes interest, dividends and distributions received on such investments and net income from swaps and swaptions. Net (depreciation) appreciation in fair value of investments includes the Plan's interest in the Master Trust's aggregate gains and losses on investments bought and sold as well as held during the year. Investment income of the Master Trust is recorded when earned on the accrual basis. Dividend income is recorded on the ex-dividend date.

Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits consist of those future benefit payments attributable, in accordance with the Plan provisions, to participants credited with service through the freeze date. These accumulated benefits are expected to be paid to retired or terminated vested participants or their surviving spouses, or presently eligible participants or their surviving spouses. Future estimated plan benefits used to measure accumulated plan benefits include amounts payable in the event of retirement, death, disability or termination of employment to the extent they are deemed attributable to credited service through the freeze date.

The Company utilizes the services of an independent actuary to determine the actuarial present value of accumulated plan benefits. The actuarial present value of accumulated plan benefits is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money and the probability of payment between the valuation date and the expected date of payment.

DANA VICTOR REINZ DIVISION PENSION PLAN FOR HOURLY PAID EMPLOYEES AT THE ROBINSON, ILLINOIS PLANT

NOTES TO FINANCIAL STATEMENTS

The significant actuarial assumptions used in the valuation as of and for the year ended December 31, 2017 (most recent information available), are as follows:

Actuarial Cost Method	Projected unit credit
Rates of Mortality	Based upon the RP 2014 with blue collar and no collar adjustments projected generationally using the MP 2017 scale modified to use a 0.75% Long-Term Improvement Rate, a 13-year convergence period and a reduction in long-term improvements for individuals over age 85 by 0.075% per year of age until 0% is reached at age 95
Rates of Turnover and Disability	Based upon actual experience
Retirement Age	Based upon age stated in the Plan document and actual experience
Valuation Interest Rate	6.00%

All actuarial methods and assumptions used in 2017 were consistent with those used in 2016 except that the MP 2017 mortality projection scale was used in place of the MP 2016 mortality projection scale.

These actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

NOTES TO FINANCIAL STATEMENTS

2. MASTER TRUST

The Master Trust includes the net assets of four defined benefit pension plans sponsored by the Company (three plans prior to September 1, 2017). The Master Trust is administered under the supervision of the Board of Directors of Dana Incorporated which has appointed the Investment Committee to oversee the administration of the investments. The Investment Committee executes this duty by appointing Northern Trust and various investment managers to direct the Master Trust's investments. The Plan's interest in the Master Trust represents 1.14% and 1.10% of the net assets of the Master Trust at December 31, 2018 and 2017, respectively.

The Plan Administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Northern Trust has certified the completeness and accuracy of all investment information reflected in (1) the Plan interest in Dana Master Pension Trust included in the accompanying statements of net assets available for benefits as of December 31, 2018 and 2017, (2) the related Plan interest in Dana Master Pension Trust net investment income and net (depreciation) appreciation in fair value of investments reflected in the statements of changes in net assets available for benefits during 2018 and 2017, and (3) the information summarized below.

The following presents the net assets available for benefits of plans participating in the Master Trust at December 31:

3. FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Master Trust has the ability to access.

Level 2: Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability; and
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

DANA VICTOR REINZ DIVISION PENSION PLAN FOR HOURLY PAID EMPLOYEES AT THE ROBINSON, ILLINOIS PLANT

NOTES TO FINANCIAL STATEMENTS

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The fair value measurement level within the fair value hierarchy of each of the assets and liabilities of the Master Trust is based on the lowest level of any input that is significant to the fair value measurements. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets and liabilities measured at fair value. For the financial assets and liability recorded at fair value, the description includes an indication of the level of the fair value hierarchy in which the assets and liability are classified. There have been no changes in the methodologies used at December 31, 2018 and 2017.

Equity securities: The Level 1 fair value measurement for most equity securities is based upon closing prices reported in an active market. For securities classified as Level 2, fair value is determined based on bids received by industry vendors.

Collective trust funds: These investments are public investment securities valued using the net asset value ("NAV") provided by the issuer and are classified as "other" and are not assigned to a level in the fair value hierarchy. The NAV is used as a practical expedient to estimate fair value. This practical expedient is not used when it is probable that the Plan will sell the investment for an amount different than the reported NAV.

U.S. government and agency securities: Fair value is based on yields currently available for comparable securities and these investments are classified as Level 2.

Corporate debt instruments: Fair value is based on yields currently available for comparable securities and these investments are classified as Level 2.

State and local bonds: Fair value is measured based on yields currently available for comparable securities and these investments are classified as level 2.

Core real estate investment funds: Fair value of certain funds is based on the NAV's provided by the fund managers or determined by a third party and the unit price is based on the values of the underlying net assets of these funds. These funds are classified as "other" and are not assigned to a level in the fair value hierarchy. The NAV is used as a practical expedient to estimate fair value. This practical expedient is not used when it is probable that the Plan will sell the investment for an amount different than the reported NAV.

Interest-bearing cash: Fair value is determined based on exchange rates sourced by Reuters and these investments are classified as Level 2.

Swaps and swaptions: Fair value is determined based on quotes received by industry vendors and are classified as Level 2.

DANA VICTOR REINZ DIVISION PENSION PLAN FOR HOURLY PAID EMPLOYEES AT THE ROBINSON, ILLINOIS PLANT

NOTES TO FINANCIAL STATEMENTS

The preceding methods may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although management of the Master Trust believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth, by level within the fair value hierarchy, the Master Trust assets and liability measured at fair value at December 31:

DANA VICTOR REINZ DIVISION PENSION PLAN FOR HOURLY PAID EMPLOYEES AT THE ROBINSON, ILLINOIS PLANT

NOTES TO FINANCIAL STATEMENTS

The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period. Plan management evaluates the significance of transfers between levels based upon the nature of the financial instrument and size of the transfer relative to total net assets available for benefits. There were no transfers of assets between levels during 2018 and 2017.

The following table sets forth additional disclosures for the fair value measurement of investments in certain entities that calculate net asset value per share (or its equivalent) as of December 31:

Investment Type	Fair Value (in thousands)		Unfunded Commitments	Redemption Frequency	Redemption Notice Period
	2018	2017			
Collective trust funds	\$ 358,054	\$ 498,274	\$ -	Daily	Daily
Core real estate investment funds	20,741	34,695	-	Quarterly	Quarterly

The following is a description of the investment strategies for investments in certain entities that calculate net asset value per share (or its equivalent) at December 31, 2018 and 2017.

Collective trust funds: These funds invest in a wide variety of investment categories including equities and fixed income securities with the goal of providing growth and offsetting changes in the value of the Plans' benefit obligations due to changes in interest rates.

Core real estate investment funds: These funds invest in stabilized, income-flowing properties using primarily commingled fund vehicles. These investments are part of the return-seeking diversified pool of assets for the purpose of generating an incremental return with an acceptable level of risk.

4. RELATED-PARTY AND PARTY-IN-INTEREST TRANSACTIONS

The Plan invests in the Northern Trust Collective Government Short Term Investment Fund, which is a collective trust fund managed by Northern Trust Global Investments, the investment advisor division of Northern Trust, trustee of the Plan. The balance within the net assets available for benefits of the Master Trust related to this fund was \$18,146,518 and \$18,534,578 at December 31, 2018 and 2017, respectively. The Plan is not charged directly for investment management services associated with this fund. Fees paid by the Master Trust for investment management services associated with this fund as well as other collective trust funds and core real estate investment funds are included as a reduction of the net investment income of the funds.

DANA VICTOR REINZ DIVISION PENSION PLAN FOR HOURLY PAID EMPLOYEES AT THE ROBINSON, ILLINOIS PLANT

NOTES TO FINANCIAL STATEMENTS

Administrative fees and expenses relating to services provided by Northern Trust, investment advisors and managers, administrative service providers and auditors are party-in-interest transactions. These transactions qualify for exemption from prohibited transaction rules under ERISA. Plan expenses paid through the Master Trust to parties-in-interest were \$131,148 in 2018 and \$112,865 in 2017.

5. INCOME TAX STATUS

The Internal Revenue Service ("IRS") has determined and informed the Company by a letter dated August 24, 2017, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code ("IRC"). The Plan Administrator and the Plan's legal counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and, therefore, that the Plan is qualified and the related Master Trust is tax exempt.

The Plan Administrator has analyzed the tax positions taken by the Plan to determine if the Plan has taken any uncertain tax positions that more likely than not would not be sustained upon examination by the IRS, and has concluded that, as of December 31, 2018, there are no uncertain positions taken or expected to be taken. The Plan may be subject to routine audits by the IRS; however, there are currently no audits for any tax periods in progress. Generally, the Plan is no longer subject to income tax examinations for years prior to 2015 under the IRS three-year statute of limitations.

6. PLAN TERMINATION

The Company expects to continue the Plan as long as necessary to pay accumulated plan benefits. However, the Company reserves the right to terminate the Plan, in whole or in part, at any time as prescribed by the Board of Directors of Dana Incorporated, the Company's parent.

Upon the complete termination of the Plan, the assets then remaining in the Plan, after providing for the expenses of the Plan, would be allocated (to the extent that they are sufficient) for the purpose of providing benefits that have accrued to participants or their beneficiaries as of the date of such termination, in a manner that is consistent with the order of precedence prescribed by Section 4044 of ERISA.

Any assets remaining in the fund because of variations in actual experience from actuarial estimates, after the complete satisfaction of all liabilities under the Plan in accordance with the preceding paragraph, would revert to the Company.

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal-age retirement benefits, early retirement benefits, and certain disability and survivor's benefits. However, the PBGC does not guarantee all types of benefits under the Plan and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination, subject to a statutory ceiling on the amount of an individual's monthly benefit. Should the Plan terminate, the payment of certain benefits not covered by the PBGC would depend on the sufficiency of the Plan's assets.

DANA VICTOR REINZ DIVISION PENSION PLAN FOR HOURLY PAID EMPLOYEES AT THE ROBINSON, ILLINOIS PLANT

NOTES TO FINANCIAL STATEMENTS

7. RISKS AND UNCERTAINTIES

The Master Trust invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the fair values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits and the statements of changes in net assets available for benefits.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

8. RECONCILIATION OF FINANCIAL STATEMENTS TO SCHEDULE H OF FORM 5500

Schedule SB, Part V Statement of Actuarial Assumptions/Methods

Effective at the stroke of midnight at the end of the day, August 31, 2017, the Dana Combined Hourly Employees' Pension Plan and the Dana Retirement Plan were restructured through a combination of spinoffs and mergers. In addition to transferring obligations and assets between those plans, the spinoffs also created a new Plan titled 'Dana U.S.W. Hourly Employees' Pension Plan'.

The following former plans compose the Dana Retirement Plan (Plan 001): 001, 003 (only select locations), 006, 013, 027, 033, 040, 044, 062, 113, 124, 133, and 134.

The following former plans compose the Dana Combined Hourly Employees' Pension Plan (Plan 003): 003 (only select locations), 026, 028, 029, 034, 048, 054, 055, 069, 078, 115, 126, 127, 130, and 131.

The following former plans compose the Dana U.S.W. Hourly Employees' Pension Plan (Plan 148): 004, 005, 008, 118, and 129.

The assumptions detailed herein are as of January 1, 2018 and reflect the restructuring.

Expenses

Expenses included in the Funding Target Normal Cost include: PBGC premiums, benefit administration fees, audit fees, and trust eligible actuarial fees.

Special at-risk assumptions

For at-risk calculations, all participants eligible to elect benefits during the current and subsequent ten plan years are assumed to commence benefits at the earliest possible date under the plan, but not before the end of the current plan year, except in accordance with the regular valuation assumptions. In addition, all participants (not just those eligible to begin benefits within the next 11 years) are assumed to elect the most valuable form of benefit under the plan.

Shutdown

Provisions for Future Shutdowns

Should a plant shutdown occur and a plant's shutdown benefits become payable and/or a significant number of early retirements occur, there would be significant changes in the plan's financial conditions, affecting cash flow as well as present values. Actuarial techniques which are practical for establishing the cost of other types of pension benefits are not applicable to group termination benefits, because a practical provision for the occurrence cannot be determined. Therefore, this actuarial valuation contains no numeric measurement of the potential costs of such shutdown benefits.

Locations Currently Shutdown

For plans with shutdown locations, eligible plan participants will receive special early retirement benefits attributable to the shutdown. If the participant is subsequently re-employed by Dana Limited, the special early retirement benefits are forfeited.

If applicable, this actuarial valuation assumes that participants eligible to receive special early retirement benefits do so unless data supplied by Dana indicates they have been transferred to another position within Dana. They are treated as terminated vested participants and are assumed to commence benefits at the earliest, most valuable age.

Marriage

Assumes that 80% of all employees are married and that the male spouse is three years older than the female spouse.

Actuarial Methods

Actuarial Cost Method	Present value of Accrued Benefits
Actuarial Value of Assets	Fair market value as of the valuation date including discounted contributions receivable for the prior plan year.
Benefits Not Valued	All benefits described in the Plan Provisions section of this report were valued and special benefits granted under plant closings or work-force reductions at certain on-going locations. Willis Towers Watson is unaware of any event which has occurred that would trigger these special benefits for plant closings or work-force reductions, except where noted. The cost for these benefits will be recognized in the valuation after the triggering event occurs.

Data Sources

Participant Data:	Dana Limited, their administrator, and the plan's Trustee provided census and asset information. Willis Towers Watson is aware of no potential material biases due to imperfect data. Willis Towers Watson checked the data for reasonableness and consistency, but no audit was performed. While it is possible that future data corrections could have a material impact on results, we believe the data provided were sufficient for reasonable valuation results, and we are aware of no errors or omissions that would have a significant effect on the results of our calculations.

Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.
