ROSEBUD RESTAURANTS, INC. 401(K) PLAN

Notes to Financial Statements

Note 1 – Description of plan

The following description of the Rosebud Restaurants, Inc. ("The Company") 401(k) Plan provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all full-time employees of the Company who have two months of service and are age eighteen or older. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Eligibility

All employees, except nonresident aliens, leased employees and those governed by a collective bargaining agreement, that have one year of service of at least 1,000 hours and are age 21 or older are eligible to enter the Plan. Eligible employees can enter the Plan on January 1, April 1, July 1, or October 1, following the date the eligibility requirements are met.

Contributions

Participants may contribute up to 100% of their annual compensation, as defined in the Plan, as pretax or Roth contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. Additionally, participants age 50 or older, who are making contributions to the Plan, are allowed to make catch-up contributions as defined in the Plan. Participants direct the investment of their contributions into various investment options offered by the Plan. The Company may make a discretionary contribution on behalf of a participant who is employed on the last day of the plan year and has completed 1,000 hours or more during the plan year. Contributions are subject to certain Internal Revenue Code (IRC) limitations. At December 31, 2018, the Company resolved not to make a discretionary contribution to the Plan.

Participant accounts

Each participant's account is credited with the participant's contribution, allocation of the Company's contribution, Plan earnings (losses), and charged with an allocation of administrative expenses paid by the Plan. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Note 1 – Description of plan, cont'd

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's matching contribution portion of their accounts plus actual earnings thereon is based on years of continuous service. A participant is 100% vested after five years of credited service.

Payment of benefits

Upon termination of service due to death, disability or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account, of annual installments over a period defined in the Plan subject to limitations. For termination of service due to other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution.

Forfeited accounts

Forfeited non-vested accounts are used to reduce future employer contributions, or to pay for administrative costs. For the year ended December 31, 2018, forfeited non-vested accounts totaled $4,606, to be used to reduce future employer contributions.

Note 2 - Significant accounting policies

Basis of accounting

The financial statements of the Plan are prepared using the accrual basis of accounting.

Use of estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Note 2 - Significant accounting policies, cont'd.

Investment valuation and income recognition

The financial statements have been prepared in accordance with generally accepted accounting principles and with the accounting principles required by the Plan, which state that all assets of the trust shall be valued at fair value. All assets are held in the trust by a financial institution and have been valued at fair value. See Note 3 for discussion of fair value measurements. Participant loans receivable are valued at cost, which approximates fair value.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes receivable from participants

Notes receivable from participants are reported at their unpaid principal balances plus any accrued but unpaid interest. Related fees are charged directly to the borrowing participant's account and are included in administrative expenses when incurred. Delinquent participant loans are reclassified as distributions based on the terms of the Plan document.

Payment of benefits

Benefits are recorded when paid.

Administrative costs

Certain expenses of the Plan are paid by the Company and are not included in the statement of changes in net assets available for benefits. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation in fair value of investments.

Date of management's review

Subsequent events were evaluated through October 9, 2019, which is the date the financial statements were available to be issued.

Note 3 - Fair value measurements

The Plan's investments are reported at fair value in the accompanying statement of net assets available for benefits. The methods used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to measure the fair value of certain financial instruments could result in a different fair value at the reporting date.

The fair value measurement accounting literature establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority. Level 2 inputs consist of observable inputs other than quoted prices for identical assets, and Level 3 inputs are unobservable and have the lowest priority. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When applicable, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. Level 2 inputs were used for investments for which Level 1 inputs were not available. Level 3 inputs were used when Level 1 and Level 2 inputs were not available.

Level 1 Fair Value Measurements

The fair value of the mutual funds is based on quoted net asset values of the shares held by the Plan at year-end. The mutual funds held by the Plan are open-end mutual funds registered with the U.S. Securities and Exchange Commission. The funds must be publish their daily net asset value and transact at that price. The mutual funds held by the Plan are considered actively traded.

Level 2 Fair Value Measurements

The value of pooled separate accounts are based on quoted net asset values available on comparable mutual funds of issuers of similar such securities. The net asset value, as provided by the custodian, is used as a practical expedient to estimating fair value. Net asset value is based on the fair value of the underlying investments held by the account less its liabilities.

Note 3 - Fair value measurements, cont'd.

Level 3 Fair Value Measurements

The collective investment trust with a financial institution is not actively traded and significant other observable inputs are not available. The collective investment trust is valued based upon net asset value, which approximates fair value, and is determined using an income approach by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the credit-worthiness of the issuer.

The following sets forth by level within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2018 and 2017.

		Fair Value Measurements Using:		
	Fair Value	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
December 31, 2018				
Mutual funds	$ 32,714	$ 32,714	$ -	$ -
Collective investment trust	933,957			$ 933,957
Pooled separate accounts	261		261	
Total	$ 966,932	$ 32,714	$ 261	$ 933,957
December 31, 2017				
Mutual funds	$ 69,579	$ 69,579	$ -	$ -
Collective investment trust	1,056,772			$ 1,056,772
Pooled separate accounts	83,359		83,359	
Total	$ 1,209,710	$ 69,579	$ 83,359	$ 1,056,772

Note 3 - Fair value measurements, cont'd.

The following tables reconcile the beginning and ending balances of fair value measurements using significant unobservable inputs (Level 3) of the investment contract with an insurance company for the years ended December 31, 2018 and 2017:

December 31, 2018	
Beginning balance	$ 1,056,772
Total gains or losses (realized and unrealized) included in changes in net assets available for benefits	-
Purchases, sales, issuances and settlements (net)	(122,815)
Ending balance	$ 933,957

December 31, 2017	
Beginning balance	$ 965,630
Total gains or losses (realized and unrealized) included in changes in net assets available for benefits	-
Purchases, sales, issuances and settlements (net)	91,142
Ending balance	$ 1,056,772

Gains and losses (realized and unrealized) included in changes in net assets available for benefits for the year ended December 31, 2018 are reported in net depreciation in fair value of investments.

Note 4 – Plan termination

The Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions to ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

Note 5 – Tax status

The Internal Revenue Service has determined and informed the Company by a letter dated March 31, 2008, that the Plan and related trust are designated in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the Plan administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC, and therefore believe that the Plan is qualified and tax exempt.

The Plan administrator believes the Plan is no longer subject to income tax examinations for the years ending prior to 2015.

Note 6 – Notes receivable from participants

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum of $50,000 or half their vested interest. The loans are secured by the balance in the participant's account and bear interest at a fixed rate equal to one percentage point over prime lending rate at time of issue, which was between 5.25% and 7.25% for the year ended December 31, 2018. Principal and interest payments are made weekly over a period generally not to exceed five years, unless for the purchase of a principal residence, which the Plan may permit a longer repayment term.

Note 7 – Information prepared and certified by trustee (unaudited)

The following information included in the accompanying financial statements and supplementary schedule was obtained from data that has been prepared and certified to as complete and accurate by the trustee.

	2018	2017
Mutual funds at fair value	$ 32,714	$ 69,579
Collective investment trust at fair value	933,957	1,056,772
Pooled separate accounts at fair value	261	83,359
Participant loans	27,419	46,321
Investment income (loss)	(75,215)	190,067
Benefits paid to participants	230,700	114,231

Note 8 – Related party and party-in interest transactions

Certain Plan investments are collective trusts and pooled separate accounts managed by Principal Trust Company. The Principal Trust Company is a custodian as defined by the Plan for the investment management services are included in net appreciation in fair value of investments, as they are paid through revenue sharing, rather than a direct payment. As described in Note 2, the Plan made direct payments to the third-party administrator of $16,207 for the year ended December 31, 2018, which was not covered by revenue sharing. The plan sponsor pays directly any other fees related to the Plan's operation.

Certain receivables and loans to participant employees of the Company and, therefore, these transactions are considered party-in-interest transactions.

Note 9 – Risk and uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, credit, and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of the investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.
