1. Description of the Plan

The following description of the Revman International, Inc. 401(k) Profit Sharing Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for complete information.

General

The Plan, sponsored by Revman International, Inc. (the Company), is a safe harbor plan. Under the terms of the Plan, an employee who is 21 years of age is eligible for participation in the Plan after completing three months of service. Entry into the Plan is permitted on the first day of January, April, July and October of the Plan year. Any participant who meets these eligibility requirements and is employed on the last day of the Plan year is eligible for any discretionary profit-sharing contributions made by the Company. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA).

All newly hired eligible employees are automatically enrolled in the Plan at a pre-tax contribution rate of 5% of eligible compensation, unless the employee affirmatively elects not to participate in the Plan or elects to participate at a different rate. Prior to being automatically enrolled in the Plan, each newly hired eligible employee is provided a notice of the Plan's automatic enrollment provisions and is given 30 days, prior to becoming eligible, to opt out of the Plan participation. All participants, including those who are automatically enrolled, may change or suspend their level of Plan contributions on the first day of each month.

On January 19, 2017, the Board of Directors of the Company resolved that the Kaltex America 401k Trust be merged into, and become a part of, the Plan. Effective May 1, 2017, the Kaltex America 401k Trust ceased to exist as an independent entity. Assets and all participants' accounts were transferred to the Plan, and Kaltex America, Inc. became a participating employer, with their employees being eligible to participate in the Plan. In addition, on May 1, 2017, all assets of the Plan were transferred to a new custodian, and the Plan adopted the CMFG Life Insurance Company Defined Contribution Volume Submitter Plan and Trust.

Contributions

Participants were eligible to make salary deferral contributions to the Plan up to 20% of compensation, subject to the statutory maximum allowed by the Internal Revenue Code (IRC). Effective May 1, 2017, participants may make salary deferral contributions to the Plan, subject to the statutory maximum allowed by the IRC. Participants who have attained the age of 50 or will attain the age of 50 before the last day of the Plan year may defer additional catch-up contributions, subject to the limit imposed by the IRC. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. The Company matches 100% of the first 3% of base compensation that a participant contributed to the Plan and, in addition, matches 50% on contributions exceeding 3% up to 5% of compensation contributed to the Plan (the Company safe harbor matching contribution). The Company may make an additional discretionary profit-sharing contribution to the Plan, as determined by the Company's management. For the years ended December 31, 2018 and 2017, the Company did not make profit-sharing contributions to the Plan.

Participant Accounts

Each participant's account is credited with the participant's contributions and Company matching contributions, as well as allocations, if any, of the Company's profit-sharing contributions and Plan earnings and charged with withdrawals and loan fees, if any, and allocations of Plan losses. Allocations are based on participant earnings, deferrals or account balances, as defined. Profit-sharing contributions are allocated to participants based on the ratio that a participant's compensation for the Plan year bears to compensation for that Plan year of all participants entitled to share in that contribution. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

All participants are immediately vested in their contributions and Company safe harbor matching contributions plus earnings thereon. Participants vest in Company profit-sharing contributions at a rate of 20% for each year of service, with 100% vesting in five years.

Notes Receivable from Participants

Participants may borrow from their accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balances. Loan terms range from one to five years and may be for a longer term when used for the purchase of a primary residence. The loans are secured by the participant's account balance and bear interest at a rate commensurate with local prevailing rates, as determined by the Plan administrator at the time of the loan. Interest rates on notes receivable at December 31, 2018 ranged from 4.25% to 9.25%. Principal and interest are paid ratably through payroll deductions. Notes receivable are recorded at their outstanding balances plus unpaid accrued interest.

Payment of Benefits

Upon termination of service due to death, disability, retirement, or hardship, a participant may elect to receive a lump-sum amount or other options (as defined in the Plan agreement) equal to the value of the participant's vested interest in his or her account. For termination of service due to other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution or may transfer it to another qualified plan or individual retirement account.

Forfeitures

Forfeited balances of terminated participants' non-vested accounts are first used to reduce employer contributions, then any remaining forfeitures shall be used to offset the Plan's administrative expenses. At December 31, 2018 and 2017, forfeited balances were $0.

During the years ended December 31, 2018 and 2017, employer contributions were reduced by $1,684 and $4,858, respectively, from forfeited non-vested accounts.

Administrative Expenses

The administrative expenses of the Plan are paid by either the Plan or the Company, as provided by the Plan document. For the years ended December 31, 2018 and 2017, participant loan origination

and related maintenance fees were paid by the respective Plan participant. All other expenses of administering the Plan were paid by the Company. Expenses that are paid by the Company are excluded from these financial statements.

2. Summary of Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP) requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from these estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion on fair value measurements.

Purchases and sales of investments are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividend income is recorded on the ex-dividend date. Net (depreciation) appreciation includes the Plan's gains and losses on investments bought and sold, as well as held during the year.

Management fees and operating expenses charged to the Plan for investments in the mutual funds are deducted from income earned on a daily basis and are not separately reflected. Consequently, management fees and operating expenses are reflected as a reduction of net (depreciation) appreciation in fair market value of investments for such investments.

Payment of Benefits

Benefits are recorded when paid.

3. Information Certified by the Plan's Custodian and Trustee

The Plan administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the Plan administrator instructed the Plan's independent auditors not to perform, and they did not perform, any auditing procedures with respect to the following information certified by Matrix Trust Company (the Custodian) as of December 31, 2018 and 2017, and for the year ended December 31, 2018 and the period from May 1, 2017 through December 31, 2018, and Bank of America, N.A. (the Trustee) for the period from January 1, 2017 through May 1, 2017, except for comparing such information certified by the Custodian and the Trustee to information included in the Plan's financial statements and supplemental schedule. The Plan administrator has obtained certification from the Custodian and the Trustee that such information is complete and accurate.

4. Fair Value Measurements

U.S. GAAP establishes a framework for measuring fair value and expands the disclosures about fair value measurements. The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under U.S. GAAP are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets
- quoted prices for identical or similar assets or liabilities in inactive markets
- inputs other than quoted prices that are observable for the asset or liability
- inputs that are derived principally from or corroborated by observable market data by correlation or other means

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2018 and 2017:

Mutual Funds

The mutual funds are valued using quoted prices on national securities exchanges.

The Plan had no financial assets that were measured at fair value on a non-recurring basis during the year ended December 31, 2018. There were no transfers between levels during the year ended December 31, 2018.

5. Tax Status

Prior to May 1, 2017, the Plan was based on a non-standardized prototype document of the Trustee of the Plan, which received a favorable letter, dated March 31, 2014, from the Internal Revenue Service (IRS) stating that the prototype, as then designed, was in compliance with the applicable requirements of the IRC. The Plan was amended since the date of the opinion letter. However, management believes that the Plan was designed and operated in compliance with the applicable requirements of the IRC.

Effective May 1, 2017, the Plan is based on a volume submitter document of the Custodian of the Plan, which received a favorable opinion letter dated March 31, 2014, from the IRS stating that the volume submitter document, as then designed, was in compliance with the applicable requirements of the IRC. The Plan has been amended since the date of the opinion letter. However, the Plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC.

U.S. GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator does not believe there are any uncertain tax positions taken or expected to be taken. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits in progress.

6. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their employer contributions.

7. Risks and Uncertainties

The Plan provides for various investment instrument options. Investment securities, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

8. Related-Party Transactions and Party-in-Interest Transactions

Certain Plan investments were managed by an affiliate of the Custodian and, therefore, these transactions qualify as party-in-interest transactions. Participant loans also qualify as party-in-interest transactions.

9. Subsequent Events

Plan management has evaluated all transactions and events that occurred after December 31, 2018 through October 11, 2019, the date the financial statements were available to be issued.
