NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2018 AND 2017

1. DESCRIPTION OF PLAN

The following description of the Plan provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all employees of **Greensfelder, Hemker & Gale, P.C.** (the Company) who have one year of service and are age twenty-one or older. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Plan was restated effective January 1, 2013.

Contributions

Participants can make deferred salary contributions ranging from 1% to 75% of eligible pay. The plan has adopted a cross-tested plan design wherein employer contributions, if any, are discretionary. Additionally the amount of discretionary employer contributions may range from 0% to 12% of the eligible participants for the Plan year reduced by forfeitures of terminated participants' non-vested accounts. Participants may direct the investment of the contributions into various investment options under the Plan. The Plan currently offers various common and collective trust investment options for participants as well as self-managed accounts. Participants also have the option to make after-tax elective salary deferrals to a Roth 401(k). Participants may change their investment options at any time.

Participant Accounts

Each participant's salary deferral and rollover account is credited with the participant's contribution plus actual earnings thereon. Each participant's employer contribution account is credited with an allocation of the Company's contributions and plan's earnings. Allocations of Company contributions are based on participant compensation. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

A participant's salary deferral and rollover accounts are 100% vested at all times. Vesting of a participant's employer contribution account is based on years of continuous service. A participant is 100% vested after five years of credited service or normal retirement or death. The plan uses a graded vesting schedule as follows: 2 years – 20%, 3 years – 40%, 4 years – 60%, 5 years, 100%.

The vesting table is also in accordance with Internal Revenue Code Section 416 for the years the Plan is determined to be top-heavy.

1. DESCRIPTION OF PLAN (CONTINUED)

Payment of Benefits

Except for the special rule for participants who are five percent owners and who have attained age seventy and one-half, a participant's vested amount of his or her individual account shall be paid in the form of a qualified joint and survivor annuity as soon as reasonable after the termination of service, death, disability, or attaining age sixty-five and retiring. Participants waiving the right to a qualified joint and survivor annuity shall be paid as a lump-sum distribution. Participants with less than $1,000 invested in the Plan are required to take a lump-sum distribution.

Administration

The Company is responsible for the majority of the Plan's operating expenses. Mercer Trust Company acts as custodian for the Plan's assets.

Forfeited Accounts

Participants who terminate their employment and are less than 100% vested in their employer's contributions forfeit their non-vested portion. Forfeitures are retained by the Plan to reduce employer contributions. At December 31, 2018, forfeited non-vested accounts totaled $5,083 for terminated participants during the plan year. These accounts will be used to reduce future employer contributions. During 2018, employer contributions were reduced by $13,992 from forfeited non-vested accounts.

Subsequent Events

The Company has evaluated subsequent events through August 22, 2019, the date which the financial statements were available to be issued, for possible recognition or disclosure in the financial statements.

Transactions with Parties-in-Interest

Certain investments of the Plan were in funds managed by Mercer Trust Company, the custodian of the Plan and, therefore, related transactions qualify as party-in-interest transactions.

Legal, accounting, and other professional services were provided by parties-in-interest at reasonable and customary rates.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The accompanying financial statements have been prepared on the accrual basis of accounting.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investments Valuation and Income Recognition

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at measurement date. See Note 4 for a discussion of fair value measurements.

Unrealized appreciation or depreciation of investments held at year end and realized gains and losses on sales of investments during the year are determined based on fair values at the beginning of the year or purchase price if acquired during the year.

Payment of Benefits

Benefits are recorded when paid.

3. INVESTMENTS

Investments

The Plan's investments (including gains and losses on investments bought and sold as well as held during the year) depreciated in value by $3,385,879 for the year ended December 31, 2018.

The following represents significant concentrations held within the investment assets at December 31, 2018 and 2017:

	December 31,	
	2018	2017
Stable Asset Return Fund	**$ 10,482,613**	$ 10,762,313
Collective Trust Funds - Mercer		
Large Cap Equity Fund	**5,750,945**	6,172,385

Assets of the Plan are held by Mercer Trust Company. Investments are valued daily. The investment gains and losses, income and expenses are allocated to the participant's individual account based on the daily valuation.

3. INVESTMENTS (CONTINUED)

Investments (continued)
Self-managed accounts are held by TD Ameritrade and consist of accounts in which the participants may invest cash and cash equivalents, mutual funds, stock and other securities. These investments are solely directed by the participants.

Investment Contracts at Contract Value
The Plan holds a stable value fund that invests in fixed income, fully benefit-responsive guaranteed investment contracts, synthetic investment contracts and separate account guaranteed investment contracts in which an investment contract is issued by various insurance companies or financial services institutions (American General Life Insurance Co., Prudential Insurance Co. of America, and Voya). Investment contracts valued at contract value totaling $10,482,613 and $10,762,313 for the years ended December 31, 2018 and 2017, respectively. Mercer Trust Company maintains contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The contract issuer agrees to pay a stated interest over the term of the contract and repay principal at the end of its term.

This fund meets the fully benefit-responsive investment contract criteria and therefore is reported at contract value. Contract value is the relevant measure for fully benefit-responsive investment contracts because it is the amount received by the participants if they were to initiate permitted transactions in terms of the Plan. Contract value as reported to the Plan by Mercer Trust Company, represents contributions made under the contract, plus earnings, less participant withdrawals, and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. The Plan's ability to receive amounts due is dependent on the issuer's ability to meet its financial obligations. The issuer's ability to meet its contractual obligations may be affected by future economic and regulatory developments.

Employer initiated events, if material, may affect the underlying economics of the investment contracts. These events include plant closings, layoffs, plan termination, bankruptcy or reorganization, merger, early retirement incentive programs, tax disqualification of a trust or other events. The occurrence of one or more employer initiated events could limit the Plan's ability to transact at contract value with the issuers. Except for the employer initiated events above, the guaranteed investment contracts do not permit the issuers to terminate the agreement prior to the scheduled maturity date at an amount different from contract value. As of December 31, 2018, the Company does not believe that the occurrence of an event that would limit the ability of the Plan to transact at contract value with the issuers is probable.

4. FAIR VALUE MEASUREMENTS

Financial accounting standards establish a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 inputs) and the lowest priority to unobservable inputs (level 3 inputs). The three levels of the fair value hierarchy under the standards are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are significant unobservable inputs.

The asset or liabilities fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2018 and 2017:

- Collective trust funds – valued based on the number of units of beneficial interest. Each unit represents and equal pro rata interest in the net assets of each fund. The funds hold investments that fall in line with the investment's stated strategy.

- Self-managed accounts – Valued on the basis of readily determinable market prices in actively traded markets held in the accounts at year-end.

- Stable value fund – valued based on the number of units of beneficial interest. Each unit represents an equal pro rata interest in the net assets of each fund. The stable value fund invests in investment contracts issued by insurance companies, banks and certain other financial institutions.

4. FAIR VALUE MEASUREMENTS (CONTINUED)

The inputs or methodologies used for valuing investments may not be an indication for the risk associated with investing in those securities. Furthermore, the Plan believes its valuation methods are appropriate and consistent. The use of different methodologies or assumptions could result in a different fair value measurement at the reporting date.

The following is a summary of the inputs used, as of December 31, 2018 and 2017, involving the Plan's assets carried at fair value:

		Fair Value Measurements at Reporting Date Using		
Description	**Total**	**(Level 1)**	**(Level 2)**	**(Level 3)**

Collective trust funds	$ 10,504,030	7,930,769	2,573,261	-

(a) In accordance with Subtopic 820-10, certain investments that were measured at net asset value per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in the table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statement of net assets available for benefits.

5. PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, all amounts credited to the participants' accounts will become 100% vested. Any unallocated assets of the Plan shall be allocated to participants' accounts and distributed in cash.

6. TAX STATUS

The plan obtained its latest determination letter on February 15, 2013, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The Plan has been amended since receiving the determination letter. However, the plan administrator and the Plan's tax counsel believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal revenue Code. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Financial accounting standards for uncertain tax positions prohibit financial statement recognition of the impact of a tax position if the position is not "more likely than not" to be sustained on audit, based on the technical merits of the position. The Plan's Annual Return/Report of Employee Benefit Plan remains subject to examination by taxing authorities, generally for three years after they have been filed. As of August 22, 2019, no returns have been selected for examination.
