**DREAMWORKS ANIMATION SKG, INC. 401(k) PLAN**

**NOTES TO FINANCIAL STATEMENTS**

**AS OF DECEMBER 31, 2018 AND 2017, AND FOR THE YEAR ENDED DECEMBER 31, 2018**

**1. PLAN DESCRIPTION**

General

The following description of the DreamWorks Animation SKG, Inc. (DreamWorks or the Plan) provides only general information. Plan participants should refer to the Plan document and applicable amendments for a more complete description of the Plan's provisions. Copies of these documents are available from the Plan sponsor, DWA Holdings, LLC.

The Plan is a defined contribution plan qualified under Internal Revenue Code (the "Code") Sections 401(a), 401(k) and 401(m) and the Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). The Plan was established effective October 27, 2004. On August 22, 2016, Comcast Corporation ("Comcast") acquired DreamWorks Animation SKG, Inc. Subsequent to the acquisition, DreamWorks Animation SKG, Inc. was converted to a limited liability corporation now known as DWA Holdings, LLC. The Plan's name remains the same.

Effective March 31, 2017, the Plan was frozen to new contributions.

The Plan's assets are invested in the Comcast Corporation Employee Savings Plans Master Trust ("Master Trust") that was established by Comcast. Fidelity Management Trust Company is the appointed Trustee of the Plan. The Master Trust allows Comcast to have a uniform investment line-up across its various defined contribution plans while allowing varying provisions in plan design.

The Plan covers all employees of DWA Holdings, LLC and its participating affiliates (collectively, the Company) who meet the eligibility requirements of the Plan. Subject to specified exceptions, all full-time and part-time employees of the Company become eligible as of the employee's hire date, unless the employee is covered by a collective bargaining agreement for which retirement benefits have been the subject of good faith negotiations. However, employees who are covered by a collective bargaining agreement and are employed by the Company as non-union employees are also considered employees with respect to their employment as non-union employees.

Upon retirement or termination, the fair value of the funds resulting from participant contributions and employer contributions will be available to participants. The fair value of such contributions includes appreciation or depreciation, depending on the participant's choice of mutual funds, in the investments held by these mutual funds and the interest and dividends received. Accordingly, the fair value may be greater or less than the amounts which were actually contributed under the Plan.

The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account balance.

Forfeited balances of terminated participants' nonvested accounts are used to reduce future Company contributions. In 2018, a Qualified Non-Elective Contribution to a Fidelity account in the name of each intern impacted in an operational error was funded from the forfeitures account. (See Note 13) Forfeitures used for the year ended December 31, 2018 amounted to \$349,151. Outstanding forfeitures not yet applied against employer contributions at December 31, 2018 and December 31, 2017 were \$16,263 and \$137,892, respectively.

Participants are immediately vested in their contributions and rollover balances, plus actual earnings thereon. Vesting in the employer contribution portion, plus actual earnings thereon, of their accounts is based on years of service. A participant vests over a three-year period of service, ratably each year.

If an active participant dies, the vesting percentage shall be 100%. At death, benefits shall be paid to the surviving beneficiary.

Upon termination of service, prior to retirement, participants are entitled to receive the fair value of their vested account balance. If the value of the participant's account available for distribution is \$1,000 or less, the distribution shall be in a lump-sum payment as soon as practicable following termination of employment. If the value of the participant's account is greater than \$1,000, distribution shall not commence prior to the normal retirement date (as defined in the Plan document), without the participant's written consent. Such consent may provide for distribution as a lump sum, a rollover into a subsequent employer's qualified plan, or a combination of both.

## **2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

### **Basis of Accounting and Presentation**

The financial statements of the Plan are presented using the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America ("GAAP").

### **Investment Valuation and Income Recognition**

The Plan's investments are stated at fair value, except for investment contracts, which are reported at contract value (see below). Fair value of a financial instrument is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 6 for discussion on fair value measurements.

Investment contracts, such as those included in the Comcast Stable Value Fund, are required to be reported at contract value. Contract value is the relevant measure of fully benefit-responsive investment contracts since that is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan (see Note 5). As required by GAAP, the Statements of Net Assets Available for Benefits and the Statement of Changes in Net Assets Available for Benefits are presented on a contract value basis.

The Statement of Changes in Net Assets Available for Benefits reflects the net investment gain (loss) from the Plan's interests in the Master Trust which consists of the realized gains or losses and the unrealized appreciation/(depreciation) in fair value, as well as interest and dividends earned. Purchases and sales of investments are reflected as of the trade date. Realized gains and losses on sales of investments are determined on the moving-average cost basis. Dividend income is recorded on the ex-dividend date. Interest earned on investments is recorded on the accrual basis. Net appreciation/(depreciation) includes gains and losses on investments bought and sold, as well as held during the year.

Management fees and operating expenses charged to the Plan for investments in the mutual funds and common collective trust funds are deducted from income earned and are not separately reflected. Consequently, management fees and operating expenses are reflected as a reduction of investment return for such investments.

### **Risks and Uncertainties**

Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and such changes could materially affect the amounts reported in the financial statements.

### **Use of Estimates**

The preparation of financial statements in conformity with GAAP requires Plan management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, and the related disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

### **Administrative Expenses**

All fees and expenses incurred in connection with the operation and administration of the Plan, including, but not limited to Investment Committee, legal, accounting, actuarial, investment, Trustee, management, and administrative fees are paid out of the Plan, to the extent legally permissible, or by the Company.

### Notes Receivable

Notes receivable from participants represent participant loans that are recorded at their unpaid principal plus any accrued but unpaid interest. Interest income on notes receivable from participants is recorded when it is earned. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2018 or 2017. A participant loan is in default if loan repayments are delinquent beyond the end of the Plan's grace period. Defaulted loans are treated as an offset distribution or deemed distribution for tax purposes and become taxable income to the participant in the year in which the default occurs. In the case of an offset distribution, the participant loan balance is reduced, and a distribution is recorded on the participant account.

### Subsequent events

The Company has evaluated subsequent events through October 14, 2019 the date the financial statement were issued.

### New Accounting Standards

In February 2017, the Financial Accounting Standards Board issued updated guidance to clarify presentation requirements for a plan's interest in a master trust and require detailed disclosures of the plan's interest in the master trust. The update is effective for fiscal years beginning after December 15, 2018. As permitted by the updated guidance, the Plan has early adopted the updated standard and, as required, has applied it retrospectively. The adoption did not have a material impact on the financial statements.

In August 2018, the FASB issued updated guidance to modify the disclosure requirements on fair value measurements. The update applies to all entities that are required to make disclosures about recurring or nonrecurring fair value measurements under existing GAAP and is effective for all fiscal years beginning after December 15, 2019. This update is not expected to have a material impact on the Plan's financial statements and Plan's management is evaluating the impact of the update on the notes to the financial statements.

## **3. INFORMATION CERTIFIED BY THE TRUSTEE**

Certain information related to investments and notes receivable from participants disclosed in the accompanying financial statements and supplemental schedule of assets held, including investments and notes receivable from participants held at December 31, 2018 and 2017 and for the year ended December 31, 2018 was obtained or derived from information supplied to the plan administrator and certified as complete and accurate by the Trustee.

In addition, the unaudited information included in Notes 4 and 6 and the Supplemental Schedule of Assets (Held at End of Year) has been certified by the Trustee, except for the classification of investments by level of fair value measurement.

## **4. INVESTMENTS**

On September 10, 2013, Comcast established the Master Trust to manage the assets of a number of Comcast and NBCUniversal defined contribution plans. The Trustee was appointed by Comcast to hold, administer and invest the assets of the Master Trust. As of December 31, 2018, the Master Trust includes the investment assets of the Plan, Comcast Corporation Retirement-Investment Plan, NBCUniversal Capital Accumulation Plan, Leisure Arts, Inc. 401(k) Savings Plan, Comcast Spectacor 401(k) Plan and the Universal Orlando 401(k) Retirement Plan. Each of the plans in the Master Trust maintains a segregated asset portfolio within the Master Trust. Realized gains (losses) on sales of investments, unrealized appreciation (depreciation) of investments, interest and dividend income, other receipts, other disbursements and administrative expenses are allocated to the segregated asset portfolios within the Master Trust. In accordance with GAAP, the net change in value from participation in the Master Trust is reported as one line item in the Statement of Changes in Net Assets Available for Benefits and the Plan's interest in the Master Trust is reported as a single line item in the Statements of Net Assets Available for Benefits.

Because the Plan's portfolio is segregated from the other plans that participate in the Master Trust, the Plan does not have an undivided interest in each investment in the Master Trust. Rather, the Plan has a specific percentage interest in each investment that differs from the overall percentage interest in the Master Trust.

The following is a summary of the Master Trust's Net Assets, and the Plan's divided interest in the Master Trust, as of December 31, 2018 (in thousands):

## 5. COMCAST STABLE VALUE FUND

As described in Note 2, included in the Comcast Stable Value Fund are fully benefit-responsive investment contracts, which are carried at contract value. The rate at which interest is credited to the Plan is that determined under the contract, consistent with reflecting participant balances at contract value as opposed to the market value of the underlying assets. Interest rates are reset quarterly by the issuers of the investment contracts.

There are certain events, such as the Plan's failure to qualify under Section 401(a) or 401(k) of the Code, which can limit the fund's ability to transact at contract value. At this time, the occurrence of any such limiting event is not probable.

A contract issuer may terminate a contract at any time. Settlement upon termination will be at contract value unless the terms of the contract were not met or the Trustee's authority over the Plan is limited or terminated.

## 6. FAIR VALUE MEASUREMENTS

Accounting Standards Codification (ASC) 820, *Fair Value Measurements and Disclosures*, establishes a hierarchy that prioritizes fair value measurements based on the types of inputs used for the various valuation techniques. The levels of the hierarchy are described below:

- |         |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |
|---------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Level 1 | Consists of financial instruments whose values are based on quoted market prices for identical financial instruments in an active market.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              |
| Level 2 | Consists of financial instruments that are valued using models or other valuation methodologies. These models use inputs that are observable either directly or indirectly and include: <ul style="list-style-type: none"><li>• Quoted prices for similar assets or liabilities in active markets;</li><li>• Quoted prices for identical or similar assets or liabilities in markets that are not active;</li><li>• Pricing models whose inputs are observable for substantially the full term of the financial instrument; and</li><li>• Pricing models whose inputs are derived principally from or corroborated by observable market data through correlation or other means for substantially the full term of the financial instrument.</li></ul> |
| Level 3 | Consists of financial instruments whose values are determined using pricing models that use significant inputs that are primarily unobservable, discounted cash flow methodologies, or similar techniques, as well as instruments for which the determination of fair value requires significant judgment or estimation.                                                                                                                                                                                                                                                                                                                                                                                                                               |

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement.

The valuation methodologies used for assets measured at fair value are as follows:

Mutual funds: Valued at the closing price of shares held by the Plan at year-end. The mutual funds held by the Plan are classified as Level 1 investments as their investment values are based on quoted market prices for identical financial instruments in an active market.

Separate accounts and common collective trusts: Valued at the net asset value of shares held by the Plan at year-end. The net asset value as provided by the Trustee is used as a practical expedient to estimate fair value and, as a result, all are included in the investments measured at net asset value. The redemption frequency of each of these investments is daily. There are no unfunded commitments. Certain withdrawals for other than normal benefit payments and participant-directed transfers may require up to 30 days' notice.

The methods described may produce a calculated fair value that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes these valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date. There have been no changes in the methodologies used as of December 31, 2018 and 2017.

The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period. For the years ended December 31, 2018 and 2017, there were no transfers between levels.

The table below sets forth by level, within the fair value hierarchy, the Master Trust's investments at fair value as of December 31, 2018 (in thousands):

|                                                  | Level 1             | Level 2     | Level 3     | Total               |

- (a) In accordance with ASC Subtopic 820-10, certain investments that were measured at net asset value per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented on the Statements of Net Assets Available for Benefits.

## 7. NOTES RECEIVABLE FROM PARTICIPANTS

A participant may borrow from his/her Plan account subject to the approval of the Plan Sponsor in accordance with applicable regulations issued by the Internal Revenue Service ("IRS") and the Department of Labor. In general, a participant may borrow a minimum of \$500 up to a maximum of the lesser of \$50,000 or 50% of the participant's non-forfeitable accrued benefit on the valuation date (as defined by the Plan) last preceding the date on which the loan request is processed by the Plan Sponsor. The maximum term of a loan made pursuant to the Plan is five years. Loans with terms of greater than five years are permissible for the purchase of a primary residence or may exist under the Plan as a result of rollovers from merged plans.

Interest accrues at the rate of prime plus 1% as of the month the loan application is approved. Principal and interest are paid through payroll deductions or participant-initiated payments. Interest rates ranged from 3.25% to 6.25% as of December 31, 2018. Maturities on outstanding loans ranged from 2019 to 2027 as of December 31, 2018. Loan transactions are treated as a transfer between the investment fund and notes receivable from participants.

Effective after a calendar quarter of non-repayment, a loan is considered to be in default. Defaulted loans are treated as distributions for tax purposes and become taxable income to the participant in the year in which the default occurs.

A participant may withdraw all or a portion of his/her benefits derived from salary reduction on account of hardship, as defined by the Plan and applicable IRS regulations. Under these rules, the participant must exhaust the possibilities of all other distributions, loans, etc. available under the Plan and meet certain other requirements. Upon receiving a hardship withdrawal, the participant's elective contributions are suspended for six calendar months.

## 8. RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500

A reconciliation of net assets available for benefits per the financial statements to the total net assets per the Form 5500 as of December 31, 2018 and 2017 and the increase in net assets available for benefits per the financial statements to the net income per the Form 5500 for the year ended December 31, 2018 is as follows (in thousands):

## 9. ADMINISTRATION OF THE PLAN

The NBCUniversal Investment Committee, as Plan Administrator, has the authority to control and manage the operation and administration of the Plan and may delegate all or a portion of these responsibilities to one or more persons.

## 10. EXEMPT PARTY-IN-INTEREST TRANSACTIONS

The Plan allows for transactions with certain parties who may perform services or have fiduciary responsibilities to the Plan, including the Company. Certain Plan investments are shares of various mutual funds that are owned and managed by the Trustee, who has been designated investment manager. The Plan issues loans to participants which are secured by the vested balances in the participants' accounts.

## **11. PLAN TERMINATION**

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, each affected participant's account balance will become fully vested.

## **12. INCOME TAX STATUS**

The underlying volume submitter plan has received an opinion letter from the Internal Revenue Service (IRS) dated March 31, 2014, stating that the form of the plan is qualified under Section 401 of the IRC, and, therefore, the related trust is tax exempt. In accordance with Revenue Procedure 2011-49, the Plan Sponsor has determined that it is eligible to and has chosen to rely on the current IRS volume submitter plan opinion letter. Once qualified, the Plan is required to operate in conformity with the IRC to maintain its qualification. Although the Plan has been amended since receiving the determination letter, the Plan Administrator and the Plan's tax counsel believe that the Plan is designed in compliance with the applicable requirements of the Internal Revenue Code. The Plan Administrator believes that the Plan is currently being operated in compliance with the requirements of the Internal Revenue Code and, therefore, the Plan is qualified and the related trust is tax-exempt.

GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan Sponsor believes it is no longer subject to income tax examinations for years prior to 2015.

## **13. NON-EXEMPT PROHIBITED TRANSACTIONS**

During an operational review of the Plan by the Plan Sponsor, two operational errors were discovered. First, it was determined that elective deferrals and matching contributions were made to the Plan with respect to compensation paid to former employees that would constitute severance. Second, it was determined that certain paid interns were not provided with the opportunity to participate in the Plan contrary to the terms of the Plan. The company took steps to correct the two operational errors. The estimated impact of these errors as of December 31, 2017 resulted in the Plan recording a payable to participants of \$1,385,648 and employer and participant receivables of \$184,778 and \$146,961, respectively.
