Note 1: Description of the Plan

The following description of the Arizona College 401(k) Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan that was established on October 1, 2011 covering all eligible employees of Eduvision, Inc. dba Arizona College (the Company). All Company employees who complete sixty days of service are eligible to participate in the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

Participants may elect to contribute up to 100% of compensation, as defined by the Plan, not to exceed the limits of the Internal Revenue Code. The Plan allows catch-up contributions on a pre-tax basis, by participants age 50 or older, subject to certain Internal Revenue Service (IRS) limitations. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans.

The Plan includes provisions under which the Company matches 50% of elective deferrals, limited to three percent of total compensation paid during the year to participants. For the year ended December 31, 2018, the Company made matching contributions of $107,485, net of forfeitures. The Company may also make a discretionary contribution. For the year ended December 31, 2018, there were no discretionary contributions.

Participant Accounts

Each participant's account is credited/debited with the participant's contribution and allocations of (a) the Company's contribution and (b) Plan earnings/losses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately 100% vested in their elective contributions plus actual earnings thereon. Participants vest in the Company's matching and discretionary contribution plus actual earnings thereon based on years of continuous service. A participant vests 20% each year and is 100% vested in Company contributions after five years of credited service.

Note 1: Description of the Plan, Continued

Investment Options

The Plan provides participants with several investment options. These options consist of various pooled separate accounts and a common collective trust. Plan participants may direct the change of these investments in accordance with the Plan guidelines.

Notes Receivable from Participants

Participants may borrow from their accounts a minimum equal to $1,000 and a maximum equal to the lesser of $50,000 or 50% of the vested interest in their account. The transactions are treated as a transfer to (from) the investment fund from (to) the participant notes receivable. Notes receivable from participants terms range from one to five years. The notes receivable are secured by the balance in the participant's account and bear a reasonable rate of interest. Principal and interest are paid ratably through payroll deductions. An outstanding note receivable can be paid in full, at any time and must be repaid before a new note receivable can be made.

Payment of Benefits

Upon termination of service due to death, disability or retirement, a participant may elect to receive a lump-sum amount equal to the value of the participant's vested interest in his or her account. For termination of service due to other reasons, a participant may receive or rollover into a qualified plan the value of the vested interest in his or her account as a lump-sum distribution, net of tax withholdings, if applicable. The Plan allows for in-service withdrawals by participants who have attained the normal retirement age of 59 ½. A participant may also receive hardship withdrawals, subject to certain limitations, as defined in the Plan document.

Forfeitures Account

Forfeitures are used by the Plan for several purposes such as the payment of Plan expenses and any remaining forfeitures are used to reduce employer contributions. During the year ended December 31, 2018, $3,676 of forfeitures were used to pay administrative expenses and $8,633 were used to reduce employer contributions.

Note 2: Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared using the accrual method of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Note 2: Summary of Significant Accounting Policies, Continued

Notes Receivable from Participants

Notes receivable from participants are reported at their unpaid balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based on the terms of the Plan document.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value in accordance with the provisions of accounting guidance issued by the Financial Accounting Standards Board (FASB) on fair value measurements (Note 4). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Purchases and sales of securities are recorded on a trade-date basis. Net appreciation and depreciation include the Plan's gains and losses on investments bought and sold as well as held during the year. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Payment of Benefits

Benefits are recorded when paid.

Plan Administrative Expenses

Plan administrative expenses are primarily paid by the Company, but forfeitures may also be used to pay plan expenses. Certain administrative processing fees are charged to the participants and therefore, are reflected on the accompanying statement of changes in net assets available for benefits as administrative expenses.

Financial Statement Presentation

Certain amounts in the 2017 financial statements have been reclassified to conform to the 2018 presentation.

New Accounting Pronouncement

In August 2018, the FASB issued Accounting Standards Update (ASU) No. 2018-13, *Fair Value Measurement* (Topic 820) - *Changes to the Disclosure Requirements for Fair Value Measurement*, which modifies the disclosure for fair value measurements by removing, modifying, or adding certain disclosures. The amended guidance is effective for all entities for fiscal year, and interim periods within those fiscal years, beginning after December 15, 2019. Early adoption is permitted for any removed or modified disclosures. The amended guidance will become effective for the Plan on January 1, 2020. The plan administrator is currently evaluating the impact of this new standard on the financial statements and financial statement disclosures of the Plan.

Note 3: Information Certified by the Custodian

The plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Principal Life Insurance Company (Principal), the custodian of the Plan, has certified that the following information included on the accompanying financial statements and supplemental schedule is complete and accurate:

- Investments as shown on the statements of net assets available for benefits as of December 31, 2018 and 2017.
- Net depreciation in fair value of investments for the year ended December 31, 2018, as included on the statement of changes in net assets available for benefits.
- The schedule of assets (held at end of year) as of December 31, 2018, as shown on Schedule H, Line 4i.

At the request of the plan administrator, the Plan's independent certified public accountants did not perform procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedule. All other information has been audited in accordance with auditing standards generally accepted in the United States of America.

Note 4: Fair Value Measurement

The FASB Accounting Standards Codification (ASC) 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). There are three levels of the fair value hierarchy under FASB ASC 820. Level 1 inputs are quoted market prices in active markets for identical investments that the Plan has the ability to access at the measurement date. Level 2 inputs are inputs other than quoted market prices included within Level 1 that are observable for the Plan's investments, either directly or indirectly. Level 3 inputs are unobservable inputs for the Plan's investments.

The following is a description of the valuation methodologies used for the investments measured at fair value, including the general classification of such instruments pursuant to the valuation hierarchy.

Pooled separate accounts - These investments are valued at the NAV of units held in a collective trust. The NAV, as provided by the custodian, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. The collective trust is invested in mutual funds, separate accounts and collective trusts. The investment objectives and underlying investments of the common collective trusts vary with the objective of long term growth of capital and current income with the investment strategy within a specified expected retirement age. There were no unfunded commitments and the investment can be redeemed on a daily basis.

Note 4: Fair Value Measurement, Continued

Common collective trust - This is a stable value collective investment trust (CIT) for which the NAV is based on the contract value. Investments held by a CIT are required to be reported at fair value, however, contract value is the relevant measurement characteristic for that portion of the net assets of a CIT attributable to fully benefit-responsive investment contracts. This is because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the underlying plans. The NAV of the CIT is not publicly quoted but is available to current investors via the Employer website and published materials available to plan participants and as such is classified within Level 1 of the valuation hierarchy. The investment can be redeemed on a daily basis.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan has concluded that its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

A summary of Plan investments measured at fair value is as follows:

	Fair Value	Fair Value Measurement Quoted Market Price (Level 1)
December 31, 2018		
Common collective trust	$ 1,901	$ 1,901
Pooled separate accounts	1,152,256	1,152,256
	$ 1,154,157	$ 1,154,157
December 31, 2017		
Common collective trust	$ 1,880	$ 1,880
Pooled separate accounts	841,445	841,445
	$ 843,325	$ 843,325

There were no assets measured at fair value on a non-recurring basis at December 31, 2018 and 2017.

Note 5: Parties-in-interest Transactions

Certain Plan investments are managed by Principal, the custodian of the Plan. Any transactions with Principal would be considered party-in-interest transactions. The Plan incurred administrative expenses of $9,686 for the year ended December 31, 2018.

Note 6: Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their employer contributions.

Note 7: Tax Status

The Plan adopted a Prototype Non-standardized Profit Sharing Plan with CODA that the IRS approved by a determination letter dated March 31, 2014. The plan administrator believes that the Plan is currently being operated in compliance with the applicable requirements of the Internal Revenue Code and therefore believes that the Plan is qualified and the related trust is tax-exempt.

U.S. GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and believes there are no uncertain positions taken or expected to be taken that would be require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions, however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2015.

Note 8: Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near-term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Note 9: Delinquent Participant Contributions

As presented on Schedule H, Line 4a, Schedule of Delinquent Participant Contributions, the Company did not remit certain participant contributions and loan repayments to the Plan in a timely manner, as defined by ERISA. Late participant contributions and loan repayments totaled $140,013 and $175,121 for the years ended December 31, 2018 and 2017, respectively. These participant contributions and loan repayments are considered nonexempt party-in-interest transactions. The Company made the participants whole for any lost earnings resulting from the delay in submittal of participant contributions and loan repayments. The lost earnings on the participant contributions and loan repayments totaled $181 and $198 for the years ended December 31, 2018 and 2017, respectively, and were corrected in 2018.
