Extraco Corporation Profit Sharing Plan

Notes to Financial Statements

December 31, 2018 and 2017

(1) Description of Plan

The following description of the Extraco Corporation Profit Sharing Plan (the "Plan") provides only general information. Participants should refer to the Plan Agreement for a more complete description of the Plan's provisions.

(a) General

The Plan is a defined contribution plan covering substantially all employees of Extraco Corporation (the "Company") and its subsidiaries (the "Companies"), who are at least twenty-one years of age. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). The Trustee is responsible for oversight of the Plan, including determining the appropriateness of the Plan's investment offerings and monitoring investment performance.

(b) Contributions

Participants may contribute up to 100 percent of pretax annual compensation, as defined in the Plan, not to exceed the specific dollar amount determined by the Internal Revenue Service. Participants who have attained age fifty before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan. The Companies may contribute to the Plan the amount determined by the Companies at its discretion a matching or profit sharing contribution. A discretionary contribution to the Plan by the Companies cannot exceed fifteen percent of eligible wages actually paid to active participants for the plan year. The Companies may choose not to contribute to the Plan for a particular plan year. Excess contributions are returned to certain active participants to satisfy certain nondiscrimination provisions of the Plan, and are reflected as a reduction in participants' contributions.

(c) Participant Accounts

Each participant's account is credited with the participant's contributions, Company's matching contributions, as well as allocations of the Company's profit sharing contribution, and Plan earnings. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant annual earnings, account balances, or specific participant transactions, as defined in the Plan. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

(Continued)

(1) Description of Plan (continued)

(d) Vesting

Participants are vested immediately in their contributions plus actual earnings thereon. Company contributions are 20% vested to the participant after two full years of service, 20% for each additional year of service and 100 % vested after six years. Participants become 100% vested in all accounts upon death, disability or retirement at or after age sixty.

(e) Payment of Benefits

On termination of service due to death, disability or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account or annual installments. For termination of service due to other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution.

(2) Summary of Significant Accounting Policies

(a) Basis of Accounting

The financial statements of the Plan are prepared under the accrual method of accounting in accordance with accounting principles generally accepted in the United States of America

(b) Investments

The Plan's investments are stated at fair value (except for fully benefit responsive investment contracts, which are reported at contract value). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 9 for further discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes to Financial Statements
(Continued)

(2) Summary of Significant Accounting Policies (continued)

(c) Payment of Benefits

Benefits are recorded when paid.

(d) Administrative Expenses

The Plan's administrative expenses are paid either by the Plan or the Company, as provided in the Plan Agreement. Expenses that are paid by the Company are excluded from these financial statements. Certain expenses incurred in connection with the general administration of the Plan that are paid by the Plan are recorded as deductions in the accompanying Statements of Changes in Net Assets Available for Benefits. In addition, certain investment-related expenses are included in net appreciation (depreciation) of fair value of investments presented in the accompanying Statements of Changes in Net Assets Available for Benefits.

(e) Income Taxes

The Plan recognizes the effect of income tax positions only if those positions are more likely than not of being sustained. Recognized income tax positions are measured at the largest amount that is greater than 50% likely of being realized. Changes in recognition or measurement are reflected in the period in which the change in judgment occurs.

(f) Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

Extraco Corporation Profit Sharing Plan

Notes to Financial Statements
(Continued)

(3) Investments

The Plan's investments, all of which are participant directed, consisted of the following at December 31, 2018 and 2017:

	2018	2017
Mutual funds	$ 30,995,090	35,187,432
Investment contact with an insurance company	5,325,230	5,380,137
	$ 36,320,320	40,567,569

(4) Information Certified by the Custodian

The financial information included in the financial statements, except for employer contributions receivable, participant contributions receivable, other receivables, contributions, benefits paid to participants, and administrative expenses, have been derived from information certified as complete and accurate by Mid Atlantic Trust Company, the custodian of the Plan, in accordance with Section 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure, under ERISA.

(5) Plan Termination

Although it has not expressed any interest to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their employer accounts.

(6) Tax Status

The Plan is using a standardized prototype profit-sharing plan document. In a letter dated March 31, 2014, the Internal Revenue Service ("IRS") indicated the standardized form of the Plan is acceptable under Section 401 of the Internal Revenue Code (the "Code"). The opinion of the IRS on the acceptability of the form of the Plan is not a ruling or determination as to whether the Plan qualifies under Code section 401(a). Although the Plan has been amended since receiving this acceptability letter, the Plan Administrator believes the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Extraco Corporation Profit Sharing Plan

Notes to Financial Statements
(Continued)

(7) Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

(8) Party-In Interest Transactions

The Plan has not considered Company contributions to the Plan or benefits paid by the Plan to participants as party-in-interest transactions.

(9) Fair Value Hierarchy and Measurements

Generally accepted accounting principles establish a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to measurements involving significant unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are as follows:

- Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities in active markets that the Plan has the ability to access at the measurement date

- Level 2 inputs are inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly.

- Level 3 inputs are unobservable inputs for the asset or liability.

The level in the fair value hierarchy within which a financial instrument in its entirety falls is based on the lowest level input that is significant to the fair value measurement in its entirety.

The following methods and assumptions were used to estimate the fair value of each class of financial instruments:

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-ended mutual funds that are registered with the SEC. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

(9) Fair Value Hierarchy and Measurements (continued)

Investment contract with an insurance company – general account: The Plan's investment contract with an insurance company – general account is valued using the net asset value (NAV) of the units as determined by Metropolitan Life Insurance Company ("MetLife"). The NAV is used as a practical expedient to estimate fair value. This practical expedient would not be used if it is determined to be probable that MetLife would sell the underlying investment for an amount different than the reported NAV. Participant transactions (purchases and sales) may occur daily. If the Plan initiates a full redemption of the contract with MetLife, MetLife reserves the right to require 30 days notification in order to ensure that securities liquidations will be carried out in an orderly business manner. There are no unfunded commitments as of December 31, 2018 and 2017.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2018 and 2017:

			Fair Value Measurements Using		
		Fair Value December 31, 2018	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Mutual funds	$	30,995,090	30,995,090	-	-
Total assets in the fair value hierarchy		30,995,090	30,995,090	-	-
Investments measured at net asset value (a)		5,325,230			
Investments at fair value	$	36,320,320

(9) Fair Value Hierarchy and Measurements (continued)

		Fair Value Measurements Using		
	Fair Value December 31, 2017	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Mutual funds	$ 35,187,432	35,187,432	-	-

Investments measured at net asset value (a)	5,380,137			
Investments at fair value	$ 40,567,569			

(a) In accordance with generally accepted accounting principles, certain investments that were at net asset value per share (or its equivalent) have not been classified in the fair value hierarchy.
