Report on the Financial Statements

We have audited the accompanying financial statements of Beck Oil Company of Illinois Employee Stock Ownership Plan (the Plan), which comprise the statements of net assets available for benefits as of December 31, 2018 and 2017, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Plan's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2018 and 2017, and the changes in net assets available for benefits for the years then ended, in accordance with accounting principles generally accepted in the United States of America.

Report on Supplementary Information

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule of assets (held at end of year) as of December 31, 2018, is presented for the purpose of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Such information is the responsibility of the Plan's management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

NOTE 1 DESCRIPTION OF PLAN

The following description of Beck Oil Company of Illinois Employee Stock Ownership Plan (the Plan) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

Beck Oil Company of Illinois (the Company) established the Plan effective April 1, 2010. The Plan was last restated effective January 1, 2017 to conform to recent tax legislation. The Plan is a defined contribution plan intended to constitute a leveraged employee stock ownership plan (ESOP) and is designed to comply with Section 4975(e)(7) regulations thereunder of the Internal Revenue Code (IRC). The Plan covers all employees of the Company who have completed the eligibility requirements including the completion of one year of service and attainment of age 21. An eligible employee will begin participation on January 1 or July 1 following the completion of the eligibility requirements. The Plan excludes leased employees, employees covered by a collective bargaining agreement, nonresident aliens, and independent contracts. The Plan is designed to invest primarily in securities issued by the Company and is authorized to borrow money for such investments. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

The Plan purchased Company common stock using the proceeds of a note payable to the Company and holds the stock in a trust established under the Plan (see Note 5). As the Plan makes debt payments, an appropriate percentage of stock will be allocated to eligible employees' accounts in accordance with applicable regulations under the IRC.

The borrowing is collateralized by the unallocated shares of common stock and is guaranteed by the Company. The Company, as lender, has no rights against shares of common stock once they are allocated to participants in accordance with the terms of the ESOP. Accordingly, the financial statements of the Plan as of December 31, 2018 and 2017 and for the years ended December 31, 2018 and 2017 present separately the assets and liabilities and changes therein pertaining to:

a) the accounts of employees with vested rights in allocated common stock (Allocated) and
b) common stock not yet allocated to employees (Unallocated).

Contributions

The Company is obligated to make contributions in cash to the Plan which, when aggregated with the Plan's dividends and interest earnings, equal the amount necessary to enable the Plan to make its regularly scheduled payments of principal and interest due on its term loan. Contributions may be in the form of shares of common stock or cash. Contributions for each year are never less than the amount required to enable the Plan to discharge its current obligations, without regard to whether some or all of such contribution may fail to qualify for an income tax deduction by the Company. In order to receive an allocation of Company contributions, a participant must complete 1,000 hours of service and be employed on the last day of the Plan year unless termination is due to death, disability, or retirement. Contributions by Plan participants are not permitted by the Plan. Contributions are subject to Internal Revenue Service (IRS) limitations.

NOTE 1 DESCRIPTION OF PLAN (CONTINUED)

Participants Accounts

The Plan is a defined contribution plan under which a separate individual account is established for each participant. Each participant's account is credited as of the last day of each Plan year with an allocation of shares of the Company's common stock released from the unallocated account and forfeitures of terminated participants' nonvested accounts. Only those participants who are eligible employees of the Company on the last day of the Plan year will receive an allocation. Allocations are based on a participant's eligible compensation, relative to total eligible compensation, as defined. Plan earnings or losses are allocated to each participant's account based on the ratio of the participant's account balance. The benefit to which a participant is entitled is the benefit that can be provided by the participant's account.

Vesting

Vesting of participant's accounts is based on years of credited service with the Company. The vesting schedule is as follows:

Years of Service	Vested Percent
Less than 2	0 %
2	20 %
3	40 %
4	60 %
5	80 %
6 or More	100 %

A participant is fully vested upon reaching normal retirement age, death, or permanent disability.

Voting Rights

Each participant is entitled to exercise voting rights attributable to the shares allocated to his or her account and is notified by the trustee prior to the time that such rights are to be exercised. The trustee is not permitted to vote any allocated share for which instructions have not been given by a participant. The trustee is required, however, to vote any unallocated shares on behalf of the collective best interest of Plan participants and beneficiaries.

Put Option

Under federal income tax regulations, the Company stock that is held by the Plan and its participants and is not readily tradable on an established market, or is subject to trading limitations, includes a put option. The put option is a right to demand that the Company buy any shares of its stock distributed to participants for which there is no market. The put price is representative of the fair market value of the stock. The Company can pay for the purchase with a secured promissory note that does not exceed five years or in a lump-sum. The purpose of the put option is to ensure that the participant has the ability to ultimately obtain cash.

NOTE 1 DESCRIPTION OF PLAN (CONTINUED)

Diversification

Diversification is offered to participants close to retirement so that they may have the opportunity to move part of the value of their investment in Company common stock into investments which are more diversified. Participants who are at least age 55 with at least 10 years of participation service in the Plan may elect to diversify a portion of their account. Diversification is offered to each eligible participant over a six-year period. In each of the first five years, a participant may diversify up to 25% of the number of shares allocated to his or her account, less any shares previously diversified. In the sixth year, the percentage changes to 50%. Participants who elect to diversify receive a cash distribution.

Payment of Benefits

Distributions on account of death, disability, or retirement are made in a lump-sum in the Plan year following the event. Distributions for other separations from service commence in the fifth Plan year following the separation from service. Benefits are paid according to the following schedule:

- Account value greater than $1,105,000 – In equal annual installments over five years, plus one additional year (but not more than five additional years) for each $195,000 (or fraction thereof) by which the value of the account exceeds $1,105,000.
- Account value greater than $5,000 and less than $1,105,000 – In equal annual installments over five years.
- Account value greater than $1,000 and less than $5,000 – In one lump-sum or as a direct rollover.
- Account value less than $1,000 – In one lump-sum, as soon as practicable following a one-year break-in service.

The amount to be distributed is based upon the account valuation date immediately preceding the distribution. Distributions are made in cash or, if a participant elects, in the form of Company common stock plus cash for any fractional share of common stock. Under the provisions of the Plan, the Company is obligated to repurchase participant shares, which have been distributed under the terms of the Plan if the shares are not publicly traded or if the shares are subject to trading limitations. During 2018 and 2017, the Company repurchased from participants 3,036 and 1,116 shares, respectively, at prices determined from the independent appraisal.

Forfeited Accounts

Plan forfeitures are allocated to each participant's account based upon the relation of the participant's compensation to total compensation for the Plan year. Forfeitures of terminated nonvested shares allocated to remaining participants at December 31, 2018 and 2017 were 352 shares ($30,280) and 350 shares ($28,950), respectively. There were no balances in forfeited nonvested accounts at December 31, 2018 and 2017.

NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates in Preparing Financial Statements

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires the Plan administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosures of contingent assets and liabilities at the date of the financial statements. Actual results may differ from those estimates.

Allocations

The financial statements of the Plan present separately the assets and liabilities and changes therein pertaining to (a) the accounts of employees with rights in allocated stock (allocated) and (b) stock not yet allocated to employees (unallocated), including shares that are committed to be released. Shares are released from collateral and become allocated generally in the period in which debt service is actually paid.

Investment Valuation and Income Recognition

The Plan's investments are valued at fair value. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Benefit Payments

Benefits are recorded when paid.

Administrative Expenses

The Plan's expenses are paid either by the Plan or the Company, as provided by the Plan document. Expenses paid directly by the Company are excluded from these financial statements. Certain expenses incurred in connection with the general administration of the Plan that are paid by the Plan are recorded as deductions in the accompanying statements of changes in net assets available for benefits. In addition, certain investment related expenses are included in net appreciation in estimated fair value of investments presented in the accompanying statements of changes in net assets available for benefits.

Subsequent Events

The Plan has evaluated subsequent events through October 14, 2019, the date the financial statements were available to be issued.

NOTE 3 INVESTMENTS

The Plan's initial investment in Company securities consisted of 36,037.50 shares of the outstanding common stock of Beck Oil Company of Illinois. The shares were acquired on June 25, 2010 for $12.67 per share, which was the estimated fair market value, as determined by independent appraisal, at that time. The estimated fair market value, as determined by independent appraisal as of December 31, 2018 and 2017 was $86.08 and $82.61 per share, respectively.

During 2018 and 2017, 3,164 and 3,309 shares were released and allocated to participants.

The Plan's investments, at December 31, 2018 and 2017, are in the common stock of the Company. This investment is summarized in the following table:

	2018		2017	
	Allocated	Unallocated	Allocated	Unallocated
Beck Oil Company of Illinois Common Stock:				
Number of Shares	33,019.00	3,018.50	29,855.00	6,182.50
Cost	$ 418,241	$ 38,234	$ 378,163	$ 78,312
Estimated Fair Value	$ 2,842,276	$ 259,832	$ 2,466,322	$ 510,736

NOTE 4 FAIR VALUE OF INVESTMENTS

The fair value measurement framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1 − Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly, such as:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

NOTE 4 FAIR VALUE OF INVESTMENTS (CONTINUED)

Level 3 − Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the valuation methodologies used at December 31, 2018 and 2017.

Beck Oil Company of Illinois Common Stock: The fair value of the Company common stock held by the Plan is valued at estimated fair value based upon an independent appraisal. This appraisal was based upon income valuation techniques consistent with prior years. The appraiser took into account historical and projected cash flows and net income. Plan management has concluded that a market participant would also recognize a discount for lack of marketability.

The valuation process involves Plan management's selection of an independent appraiser. Plan management accumulates the data for the appraiser from the reviewed financial statements of the Company. The appraiser prepares a preliminary report which Plan management, along with the ESOP trustee, reviews in detail, discusses, and approves.

Money Market Fund: Valued at the net asset value (NAV) as reported by the fund. The money market fund seeks to maintain a NAV equal to $1.00. The money market fund held by the Plan is deemed to be actively traded.

The following tables set forth by level, within the fair value hierarchy, the Plan's investment assets at fair value as of December 31:

	2018			
	Level 1	Level 2	Level 3	Total
Beck Oil Company of Illinois Common Stock	$ -	$ -	$ 3,102,108	$ 3,102,108

Money Market Fund	1,401	-	-	1,401
Total Investments at Fair Value	$ 1,401	$ -	$ 2,977,058	$ 2,978,459

NOTE 4 FAIR VALUE OF INVESTMENTS (CONTINUED)

The table below sets forth a summary of changes in the fair value of the Plan's Level 3 investment assets for the years ended December 31:

	2018	2017
Balance - Beginning of Year	$ 2,977,058	$ 2,530,193
Unrealized Appreciation Relating to Shares Still Held at the Reporting Date	125,050	446,865
Balance - End of Year	$ 3,102,108	$ 2,977,058

NOTE 5 NOTE PAYABLE

On June 25, 2010, the Plan entered into a $456,475 term loan agreement with the Company. The proceeds of the loan were used to purchase the Company's common stock. Unallocated shares are collateral for the loan. Shares are released from collateral and allocated to participants as payments of principal and interest are made. The Plan has a note payable related to the purchase of Company stock on December 31 as follows:

Description	2018	2017
Note Payable - Beck Oil Company of Illinois, interest fixed at 5.00%, due December 31, 2019; secured by unallocated Beck Oil Company of Illinois common stock purchased with proceeds from this note and cash contributions from the Company.	$ 45,648	$ 91,295

While the Company reserves the right to change the amounts and the timing of contributions to the Plan, the scheduled amortization of the Plan's loan and related Plan contributions until maturity is as follows:

Year Ending December 31,	Amount
2019	$ 45,648

NOTE 6 PLAN TERMINATION

The Company reserves the right to terminate the Plan at any time, subject to Plan provisions. Upon such termination of the Plan, the interest of each participant in the trust fund will be distributed to such participant or his or her beneficiary at the time prescribed by the Plan terms and the IRC. Upon termination of the Plan, the Plan administrator shall direct the trustee to pay all liabilities and expenses of the trust fund and to sell shares of financed common stock held in the loan suspense account to the extent it determines such a sale to be necessary in order to repay the loan. In the event of Plan termination, participants will become 100% vested in their accounts.

NOTE 7 PLAN TAX STATUS

The IRS has determined and informed the Company, by a letter dated November 9, 2016, that the Plan and related trust are designed in accordance with applicable requirements of the IRC and, therefore, the related trust is exempt from taxation. The Plan has been amended since receiving the determination letter. However, the Plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC. Therefore, they believe that the Plan is qualified, and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more-likely-than-not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

NOTE 8 RISKS AND UNCERTAINTIES

The Plan investments consist primarily of the Company's common stock, which is exposed to various risks such as interest rate, market, and credit risks, as well as valuation assumptions based on earnings, cash flows, and/or other such techniques. Due to the level of risk associated with the investment in the common stock and to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in the value of the common stock will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

NOTE 9 RELATED PARTY AND PARTY-IN-INTEREST TRANSACTIONS

The Plan's assets, which consist principally of Company common stock, are held by the trustee of the Plan.

Company contributions are held and managed by the trustee, which invests cash received, interest, and dividend income and makes distributions to participants. The trustee also administers the payment of interest and principal on the loan.

Certain administrative functions are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan.

The Plan invests in Company common stock and had indebtedness guaranteed by the Company. These are related party and party-in-interest transactions. As the Company is the Plan Sponsor, transactions involving Company common stock qualify as party-in-interest transactions. All of these party-in-interest transactions are exempt from the prohibited transaction rules of ERISA.

Report on the Financial Statements

We have audited the accompanying financial statements of Beck Oil Company of Illinois Employee Stock Ownership Plan (the Plan), which comprise the statements of net assets available for benefits as of December 31, 2018 and 2017, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Plan's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2018 and 2017, and the changes in net assets available for benefits for the years then ended, in accordance with accounting principles generally accepted in the United States of America.

Report on Supplementary Information

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule of assets (held at end of year) as of December 31, 2018, is presented for the purpose of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Such information is the responsibility of the Plan's management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

NOTE 1 DESCRIPTION OF PLAN

The following description of Beck Oil Company of Illinois Employee Stock Ownership Plan (the Plan) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

Beck Oil Company of Illinois (the Company) established the Plan effective April 1, 2010. The Plan was last restated effective January 1, 2017 to conform to recent tax legislation. The Plan is a defined contribution plan intended to constitute a leveraged employee stock ownership plan (ESOP) and is designed to comply with Section 4975(e)(7) regulations thereunder of the Internal Revenue Code (IRC). The Plan covers all employees of the Company who have completed the eligibility requirements including the completion of one year of service and attainment of age 21. An eligible employee will begin participation on January 1 or July 1 following the completion of the eligibility requirements. The Plan excludes leased employees, employees covered by a collective bargaining agreement, nonresident aliens, and independent contracts. The Plan is designed to invest primarily in securities issued by the Company and is authorized to borrow money for such investments. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

The Plan purchased Company common stock using the proceeds of a note payable to the Company and holds the stock in a trust established under the Plan (see Note 5). As the Plan makes debt payments, an appropriate percentage of stock will be allocated to eligible employees' accounts in accordance with applicable regulations under the IRC.

The borrowing is collateralized by the unallocated shares of common stock and is guaranteed by the Company. The Company, as lender, has no rights against shares of common stock once they are allocated to participants in accordance with the terms of the ESOP. Accordingly, the financial statements of the Plan as of December 31, 2018 and 2017 and for the years ended December 31, 2018 and 2017 present separately the assets and liabilities and changes therein pertaining to:

a) the accounts of employees with vested rights in allocated common stock (Allocated) and
b) common stock not yet allocated to employees (Unallocated).

Contributions

The Company is obligated to make contributions in cash to the Plan which, when aggregated with the Plan's dividends and interest earnings, equal the amount necessary to enable the Plan to make its regularly scheduled payments of principal and interest due on its term loan. Contributions may be in the form of shares of common stock or cash. Contributions for each year are never less than the amount required to enable the Plan to discharge its current obligations, without regard to whether some or all of such contribution may fail to qualify for an income tax deduction by the Company. In order to receive an allocation of Company contributions, a participant must complete 1,000 hours of service and be employed on the last day of the Plan year unless termination is due to death, disability, or retirement. Contributions by Plan participants are not permitted by the Plan. Contributions are subject to Internal Revenue Service (IRS) limitations.

NOTE 1 DESCRIPTION OF PLAN (CONTINUED)

Participants Accounts

The Plan is a defined contribution plan under which a separate individual account is established for each participant. Each participant's account is credited as of the last day of each Plan year with an allocation of shares of the Company's common stock released from the unallocated account and forfeitures of terminated participants' nonvested accounts. Only those participants who are eligible employees of the Company on the last day of the Plan year will receive an allocation. Allocations are based on a participant's eligible compensation, relative to total eligible compensation, as defined. Plan earnings or losses are allocated to each participant's account based on the ratio of the participant's account balance. The benefit to which a participant is entitled is the benefit that can be provided by the participant's account.

Vesting

Vesting of participant's accounts is based on years of credited service with the Company. The vesting schedule is as follows:

Years of Service	Vested Percent
Less than 2	0 %
2	20 %
3	40 %
4	60 %
5	80 %
6 or More	100 %

A participant is fully vested upon reaching normal retirement age, death, or permanent disability.

Voting Rights

Each participant is entitled to exercise voting rights attributable to the shares allocated to his or her account and is notified by the trustee prior to the time that such rights are to be exercised. The trustee is not permitted to vote any allocated share for which instructions have not been given by a participant. The trustee is required, however, to vote any unallocated shares on behalf of the collective best interest of Plan participants and beneficiaries.

Put Option

Under federal income tax regulations, the Company stock that is held by the Plan and its participants and is not readily tradable on an established market, or is subject to trading limitations, includes a put option. The put option is a right to demand that the Company buy any shares of its stock distributed to participants for which there is no market. The put price is representative of the fair market value of the stock. The Company can pay for the purchase with a secured promissory note that does not exceed five years or in a lump-sum. The purpose of the put option is to ensure that the participant has the ability to ultimately obtain cash.

NOTE 1 DESCRIPTION OF PLAN (CONTINUED)

Diversification

Diversification is offered to participants close to retirement so that they may have the opportunity to move part of the value of their investment in Company common stock into investments which are more diversified. Participants who are at least age 55 with at least 10 years of participation service in the Plan may elect to diversify a portion of their account. Diversification is offered to each eligible participant over a six-year period. In each of the first five years, a participant may diversify up to 25% of the number of shares allocated to his or her account, less any shares previously diversified. In the sixth year, the percentage changes to 50%. Participants who elect to diversify receive a cash distribution.

Payment of Benefits

Distributions on account of death, disability, or retirement are made in a lump-sum in the Plan year following the event. Distributions for other separations from service commence in the fifth Plan year following the separation from service. Benefits are paid according to the following schedule:

- Account value greater than $1,105,000 – In equal annual installments over five years, plus one additional year (but not more than five additional years) for each $195,000 (or fraction thereof) by which the value of the account exceeds $1,105,000.
- Account value greater than $5,000 and less than $1,105,000 – In equal annual installments over five years.
- Account value greater than $1,000 and less than $5,000 – In one lump-sum or as a direct rollover.
- Account value less than $1,000 – In one lump-sum, as soon as practicable following a one-year break-in service.

The amount to be distributed is based upon the account valuation date immediately preceding the distribution. Distributions are made in cash or, if a participant elects, in the form of Company common stock plus cash for any fractional share of common stock. Under the provisions of the Plan, the Company is obligated to repurchase participant shares, which have been distributed under the terms of the Plan if the shares are not publicly traded or if the shares are subject to trading limitations. During 2018 and 2017, the Company repurchased from participants 3,036 and 1,116 shares, respectively, at prices determined from the independent appraisal.

Forfeited Accounts

Plan forfeitures are allocated to each participant's account based upon the relation of the participant's compensation to total compensation for the Plan year. Forfeitures of terminated nonvested shares allocated to remaining participants at December 31, 2018 and 2017 were 352 shares ($30,280) and 350 shares ($28,950), respectively. There were no balances in forfeited nonvested accounts at December 31, 2018 and 2017.

NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates in Preparing Financial Statements

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires the Plan administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosures of contingent assets and liabilities at the date of the financial statements. Actual results may differ from those estimates.

Allocations

The financial statements of the Plan present separately the assets and liabilities and changes therein pertaining to (a) the accounts of employees with rights in allocated stock (allocated) and (b) stock not yet allocated to employees (unallocated), including shares that are committed to be released. Shares are released from collateral and become allocated generally in the period in which debt service is actually paid.

Investment Valuation and Income Recognition

The Plan's investments are valued at fair value. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Benefit Payments

Benefits are recorded when paid.

Administrative Expenses

The Plan's expenses are paid either by the Plan or the Company, as provided by the Plan document. Expenses paid directly by the Company are excluded from these financial statements. Certain expenses incurred in connection with the general administration of the Plan that are paid by the Plan are recorded as deductions in the accompanying statements of changes in net assets available for benefits. In addition, certain investment related expenses are included in net appreciation in estimated fair value of investments presented in the accompanying statements of changes in net assets available for benefits.

Subsequent Events

The Plan has evaluated subsequent events through October 14, 2019, the date the financial statements were available to be issued.

NOTE 3 INVESTMENTS

The Plan's initial investment in Company securities consisted of 36,037.50 shares of the outstanding common stock of Beck Oil Company of Illinois. The shares were acquired on June 25, 2010 for $12.67 per share, which was the estimated fair market value, as determined by independent appraisal, at that time. The estimated fair market value, as determined by independent appraisal as of December 31, 2018 and 2017 was $86.08 and $82.61 per share, respectively.

During 2018 and 2017, 3,164 and 3,309 shares were released and allocated to participants.

The Plan's investments, at December 31, 2018 and 2017, are in the common stock of the Company. This investment is summarized in the following table:

	2018		2017	
	Allocated	Unallocated	Allocated	Unallocated
Beck Oil Company of Illinois Common Stock:				
Number of Shares	33,019.00	3,018.50	29,855.00	6,182.50
Cost	$ 418,241	$ 38,234	$ 378,163	$ 78,312
Estimated Fair Value	$ 2,842,276	$ 259,832	$ 2,466,322	$ 510,736

NOTE 4 FAIR VALUE OF INVESTMENTS

The fair value measurement framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1 − Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly, such as:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

NOTE 4 FAIR VALUE OF INVESTMENTS (CONTINUED)

Level 3 − Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the valuation methodologies used at December 31, 2018 and 2017.

Beck Oil Company of Illinois Common Stock: The fair value of the Company common stock held by the Plan is valued at estimated fair value based upon an independent appraisal. This appraisal was based upon income valuation techniques consistent with prior years. The appraiser took into account historical and projected cash flows and net income. Plan management has concluded that a market participant would also recognize a discount for lack of marketability.

The valuation process involves Plan management's selection of an independent appraiser. Plan management accumulates the data for the appraiser from the reviewed financial statements of the Company. The appraiser prepares a preliminary report which Plan management, along with the ESOP trustee, reviews in detail, discusses, and approves.

Money Market Fund: Valued at the net asset value (NAV) as reported by the fund. The money market fund seeks to maintain a NAV equal to $1.00. The money market fund held by the Plan is deemed to be actively traded.

The following tables set forth by level, within the fair value hierarchy, the Plan's investment assets at fair value as of December 31:

	2018			
	Level 1	Level 2	Level 3	Total
Beck Oil Company of Illinois Common Stock	$ -	$ -	$ 3,102,108	$ 3,102,108

NOTE 4 FAIR VALUE OF INVESTMENTS (CONTINUED)

The table below sets forth a summary of changes in the fair value of the Plan's Level 3 investment assets for the years ended December 31:

	2018	2017
Balance - Beginning of Year	$ 2,977,058	$ 2,530,193
Unrealized Appreciation Relating to Shares Still Held at the Reporting Date	125,050	446,865
Balance - End of Year	$ 3,102,108	$ 2,977,058

NOTE 5 NOTE PAYABLE

On June 25, 2010, the Plan entered into a $456,475 term loan agreement with the Company. The proceeds of the loan were used to purchase the Company's common stock. Unallocated shares are collateral for the loan. Shares are released from collateral and allocated to participants as payments of principal and interest are made. The Plan has a note payable related to the purchase of Company stock on December 31 as follows:

Description	2018	2017
Note Payable - Beck Oil Company of Illinois, interest fixed at 5.00%, due December 31, 2019; secured by unallocated Beck Oil Company of Illinois common stock purchased with proceeds from this note and cash contributions from the Company.	$ 45,648	$ 91,295

While the Company reserves the right to change the amounts and the timing of contributions to the Plan, the scheduled amortization of the Plan's loan and related Plan contributions until maturity is as follows:

Year Ending December 31,	Amount
2019	$ 45,648

NOTE 6 PLAN TERMINATION

The Company reserves the right to terminate the Plan at any time, subject to Plan provisions. Upon such termination of the Plan, the interest of each participant in the trust fund will be distributed to such participant or his or her beneficiary at the time prescribed by the Plan terms and the IRC. Upon termination of the Plan, the Plan administrator shall direct the trustee to pay all liabilities and expenses of the trust fund and to sell shares of financed common stock held in the loan suspense account to the extent it determines such a sale to be necessary in order to repay the loan. In the event of Plan termination, participants will become 100% vested in their accounts.

NOTE 7 PLAN TAX STATUS

The IRS has determined and informed the Company, by a letter dated November 9, 2016, that the Plan and related trust are designed in accordance with applicable requirements of the IRC and, therefore, the related trust is exempt from taxation. The Plan has been amended since receiving the determination letter. However, the Plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC. Therefore, they believe that the Plan is qualified, and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more-likely-than-not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

NOTE 8 RISKS AND UNCERTAINTIES

The Plan investments consist primarily of the Company's common stock, which is exposed to various risks such as interest rate, market, and credit risks, as well as valuation assumptions based on earnings, cash flows, and/or other such techniques. Due to the level of risk associated with the investment in the common stock and to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in the value of the common stock will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

NOTE 9 RELATED PARTY AND PARTY-IN-INTEREST TRANSACTIONS

The Plan's assets, which consist principally of Company common stock, are held by the trustee of the Plan.

Company contributions are held and managed by the trustee, which invests cash received, interest, and dividend income and makes distributions to participants. The trustee also administers the payment of interest and principal on the loan.

Certain administrative functions are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan.

The Plan invests in Company common stock and had indebtedness guaranteed by the Company. These are related party and party-in-interest transactions. As the Company is the Plan Sponsor, transactions involving Company common stock qualify as party-in-interest transactions. All of these party-in-interest transactions are exempt from the prohibited transaction rules of ERISA.
