Notes to Financial Statements

NOTE 1 – DESCRIPTION OF PLAN

The following description of the Directapps, Inc. 401(k) Profit Sharing Plan & Trust (the Plan) provides only general information. Participants should refer to the Plan Agreement, as amended, for a more complete description of Plan provisions.

General – The Plan was a 401(k) salary deferral and profit sharing plan covering substantially all employees of Directapps, Inc., and is subject to provisions of the Employee Retirement Income Security Act of 1974 (ERISA). Directapps, Inc. (the Company) is the Plan's sponsor and serves as plan administrator.

Effective January 9, 2018, the Plan was merged into another qualified plan, WTIA 401(k) Plan maintained by Washington Technology, Industry Association (the sponsor). As a result, the net assets were transferred from the Plan into the WTIA 401(k) Plan, and the statement of changes in net assets reports the transfer. There were no contributions for the period from January 1 to January 9, 2018.

Eligibility – Employees of the Company were eligible to participate in the Plan upon reaching age 21 and after completing six months of service. Participants were required to complete at least 1,000 hours of service during the Plan year, and be employed as of the last day of the Plan year, to be eligible to receive any employer paid profit sharing or employer match contributions.

Contributions

Participant contributions – Each year, participants may have contributed between 1% to 100% of pretax annual compensation, as defined in the Plan. Participants may have also elected to make Roth contributions utilizing after-tax contributions. Participants who had attained age 50 before the end of the Plan year were eligible to make catch-up contributions. Participants may have also contributed amounts representing distributions from other qualified defined benefit or defined contribution plans.

Employer match and profit sharing contributions – The Company may have elected to make discretionary matching and profit sharing contributions to the Plan. In years where the Plan sponsor made safe harbor contributions, they did not make employer matching contributions. Profit sharing contributions were allocated to participants in the same proportion as a participant's compensation bears to the total of all participants' compensation.

Employer safe harbor – The Company also made safe harbor contributions equal to 100% of the participant's contribution up to 3%, plus 50% of the next 2% of contribution.

Contributions were subject to regulatory limitations.

Participant accounts – Each participant's account was credited with the participant's contributions, Company matching and safe harbor contributions as well as allocations of the Company's profit sharing contribution and Plan earnings. Participant accounts were charged with an allocation of administrative expenses that were paid by the Plan. Allocations were based on participant earnings, account balances, or specific participant transactions, as defined. The benefit to which a participant was entitled was the benefit that could be provided from the participant's vested account. Participants directed the investment of their contributions into various investment options offered by the Plan.

Notes to Financial Statements

Vesting – Participants were vested immediately in their contributions and safe harbor employer contributions plus actual earnings thereon.

Vesting in the Company's employer match and profit sharing contribution portion of their accounts was based on years of continuous service based on the following schedule:

Years of Service	Vesting Percentage
Less than 1	0%
1 but less than 2	25%
2 but less than 3	50%
3 but less than 4	75%
4 or more	100%

Notes receivable from participants – Participants could have borrowed from their accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. The loans were issued by the Plan and secured by the balance in the participant's account. All loans were repayable within a period of five years, unless the loan was used to purchase a principal residence, in which case, the loan was repayable within a reasonable period of time not to exceed thirty years. Under the terms of the Plan agreement, plan loans bore a reasonable rate of interest determined by the plan administrator. Principal and interest was paid ratably through weekly and biweekly payroll deductions.

Payment of benefits – On termination of service due to death, disability, or retirement, a participant could elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account, or installments over a period selected by the participant payable on an annual, quarterly, or monthly basis. For termination of service for other reasons, a participant could receive the value of the vested interest in his or her account as a lump-sum distribution. For participants with vested balances below \$1,000, the Plan automatically distributed the amount to the participant. For participants with balances between \$1,001 and \$5,000, the Plan automatically rolled over balances into an eligible plan if the participant did not make an election as soon as administratively feasible.

Forfeitures – Forfeitures were the non-vested portion of a participant's account that was lost upon termination of employment. Forfeitures were retained in the Plan and were used in the subsequent year. They were first used to pay Plan administrative expenses, with any remaining amount used to reduce future Company contributions. As of January 9, 2018 and December 31, 2017, there were no forfeitures.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of accounting – The financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America, using the accrual method of accounting.

Use of estimates – The preparation of financial statements in conformity with generally accepted accounting principles requires the use of estimates and assumptions that may affect certain amounts and disclosures. Accordingly, actual results could differ from those estimates.

Directapps, Inc. 401(k) Profit Sharing Plan & Trust

Notes to Financial Statements

Investment valuation – The investments were stated at fair value. The Plan's custodian, John Hancock Life Insurance Company, certified the fair market value of all investments. If available, quoted market prices were used to value investments.

Fair value is the price that would be received to sell an asset or paid to transfer a liability (the "exit price") in an orderly transaction between market participants at the measurement date.

Income recognition – Purchases and sales of securities were recorded on a trade-date basis. Dividends were recorded on the ex-dividend date. Interest income was recorded on the accrual basis. The net appreciation in fair value of investments consisted of both the realized gains and losses and unrealized appreciation and depreciation of those investments.

Notes receivable from participants – Notes receivable from participants were measured at amortized cost, which represented unpaid principal balance plus accrued but unpaid interest. Delinquent notes receivable from participants were reclassified as distributions upon the occurrence of a distributable event, based on the terms of the Plan Agreement. No allowance for credit losses has been recorded at January 9, 2018 and December 31, 2017.

Payment of benefits – Benefits were recorded when paid.

Expenses – Certain expenses of maintaining the Plan were paid directly by the Company and were excluded from these financial statements. Fees related to the administration of notes receivable from participants were charged directly to the participant's account and were included in administrative expenses. Investment management, distribution and loan transaction fees were paid by the Plan participants.

Subsequent events – Subsequent events are events or transactions that occur after the statement of net assets available for benefits date but before the financial statements are available to be issued. The Plan recognizes in the financial statements the effects of all subsequent events that provide additional evidence about conditions that existed at the date of the statement of net assets available for benefits, including the estimates inherent in the process of preparing the financial statements. The Plan's financial statements do not recognize subsequent events that provide evidence about conditions that did not exist at the date of the statement of net assets available for benefits but arose after the statement of net assets available for benefits date and before the financial statements are available to be issued.

The Plan has evaluated subsequent events through October 8, 2019, which is the date the financial statements were available to be issued.

NOTE 3 – INVESTMENTS

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at January 9, 2018 and December 31, 2017.

Pooled separate accounts – Units held in pooled separate accounts (PSAs) are valued using the net asset value practical expedient (NAV practical expedient) of the PSA as reported by the account managers. The NAV practical expedient is based on the fair value of the underlying assets owned by the PSA, minus its liabilities, and then divided by the number of units outstanding.

Directapps, Inc. 401(k) Profit Sharing Plan & Trust

Notes to Financial Statements

Stable value fund – A stable value fund that is composed primarily of fully benefit-responsive investment contracts is valued using the NAV practical expedient, an estimate of fair value. This NAV practical expedient would not be used if it is determined to be probable that the Plan will sell the investment for an amount different from the reported net asset value. Participant transactions (purchases and sales) may occur daily. If the Plan initiates a full redemption of the trust, the issuer reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner.

The Plan invests in the following PSAs:

DFA U.S. Targeted Value Fund – The fund seeks to capture long-term capital appreciation by attempting to capture the returns and diversification benefits of a broad cross-section of U.S. small value companies.

Directapps, Inc. 401(k) Profit Sharing Plan & Trust

Notes to Financial Statements

Washington Mutual Investors Fund – The fund seeks to produce income and provide the opportunity for capital appreciation. The Fund's portfolio counselors consider companies that currently pay dividends, have the potential to pay future dividends, and companies that offer the potential for long-term capital appreciation.

All of the investments in the Plan calculate NAV practical expedient per share. There are no unfunded commitments, redemption frequency restrictions, redemption notice periods, or any redemption restrictions.

The valuation methods used by the Plan may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

NOTE 4 – TAX STATUS

The Plan document was a volume submitter defined contribution plan that received a favorable opinion letter from the Internal Revenue Service on March 31, 2008, which stated that the Plan, as then designed, was in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the opinion letter, the plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

In accordance with guidance on accounting for uncertainty in income taxes, the plan administrator has evaluated the Plan's tax positions and does not believe the Plan has any uncertain tax positions that require disclosure or adjustment to the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

NOTE 5 – RISKS AND UNCERTAINTIES

The Plan invested in various investment securities. Investment securities are exposed to various risks, such as interest rate, market volatility, and credit risks. It was reasonably possible, given the level of risk associated with investment securities, that changes in the values of the investments in the near term could have materially affected a participant's account balance and the amounts reported in the statement of net assets available for benefits.

NOTE 6 – INFORMATION CERTIFIED BY THE CUSTODIAN

The plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, John Hancock Life Insurance Company, the custodian of the Plan, has certified to the completeness and accuracy of:

- Investments reflected on the accompanying statement of net assets available for benefits as of December 31, 2017.
- Net appreciation in fair value of investments and dividends reflected on the accompanying statement of changes in net assets available for benefits for the period from January 1 2018 to January 9, 2018.

NOTE 7 – PARTY-IN-INTEREST TRANSACTIONS

Plan investments included shares of pooled separate accounts managed by John Hancock Asset Management Company. John Hancock Life Insurance Company was the custodian of the Plan and an affiliate of John Hancock Asset Management Company and, therefore, transactions with these entities qualified as exempt party-in-interest transactions.

John Hancock Asset Management Company received revenue from pooled separate account service providers for services they provide to the accounts. This revenue was used to offset certain amounts owed to John Hancock Asset Management Company for its administrative services to the Plan. If the revenue received from such pooled separate account service providers exceeded the amount due to John Hancock Asset Management Company, the excess was remitted to the Plan's trust on a quarterly basis. Such amounts may have been applied to pay Plan administrative expenses or allocated to the accounts of the participants. During the period from January 1, 2018 to January 9, 2018, there were no excess amounts.
