## **NTESS SAVINGS AND INCOME PLAN**

Notes to Financial Statements

December 31, 2018 and 2017

### **NOTE 1      DESCRIPTION OF PLAN**

The following description of the NTESS Savings and Income Plan (formerly Sandia Corporation Savings and Income Plan) (the Plan) provides only general information about the Plan's provisions. Participants should refer to the Plan document and Summary Plan Description for a more complete description of the Plan's provisions.

#### General

At 12:01 a.m., Mountain Daylight Time, on May 1, 2017, Lockheed Martin Corporation (Lockheed Martin) transferred ownership of Sandia Corporation (Sandia), then a wholly owned subsidiary of Lockheed Martin, to National Technology & Engineering Solutions of Sandia, LLC (Old NTESS), a wholly owned subsidiary of Honeywell International, Inc. (Honeywell). At 12:02 a.m., Mountain Daylight Time, on May 1, 2017, Old NTESS merged with and into Sandia (the Merger), with Sandia being the surviving corporation in the Merger. In connection with the Merger, Sandia converted from a Delaware corporation into a Delaware limited liability company and changed its name to National Technology & Engineering Solutions of Sandia, LLC (New NTESS or the Corporation and the Conversion). By virtue of the Merger and the Conversion, New NTESS became the plan sponsor (the Plan Sponsor) of the Sandia Corporation Savings and Income Plan, which was renamed the NTESS Savings and Income Plan. The Plan is a defined contribution plan subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA) which covers the majority of employees of NTESS who have attained age 21. Fidelity Management Trust Company (FMTC) serves as the trustee of the Plan, and Fidelity Investments Institutional Operations Company, Inc. (FIIOC) serves as the record-keeper of the Plan. The Employee Benefits Committee of NTESS is the plan administrator (the Plan Administrator). On May 1, 2017, in conjunction with the Merger and Conversion, the Plan Administrator filed a Form 15 which disclosed that, effective April 30, 2017, the Plan no longer offers Lockheed Martin common stock, par value \$1.00 per share, as an investment option under the Plan. Therefore, interests in the Plan no longer require registration; and that, accordingly, the Form 15 was being filed solely to suspend the Plan's duty to file reports under Section 15(d) of the Exchange Act.

#### Contributions

Annually, participants may contribute from 2% to 75% of their eligible earnings, as defined in the Plan document, in 1% increments, on a pre-tax, Roth and after-tax basis. The total allotment of pre-tax, Roth and after-tax contributions cannot exceed the maximum amount permitted under the Internal Revenue Code.

In addition, each payroll period the Corporation contributes 66 <sup>2</sup>/<sub>3</sub>% of the sum of each participant's pretax, Roth and after-tax contribution up to 6% of eligible earnings. The Plan allows participants aged 50 or older to make catch-up contributions.

## NTSS SAVINGS AND INCOME PLAN

Notes to Financial Statements

December 31, 2018 and 2017

### NOTE 1 DESCRIPTION OF PLAN *(continued)*

#### Contributions *(continued)*

Nonunion employees hired on or after January 1, 2009 are eligible for Enhanced (non-elective) Contributions, which are contributions made by the Corporation in the amount of 6% of eligible earnings per pay period up to the completion of 15 years of service and then 7% is contributed thereafter. Office and Professional Employees International Union members hired on or after July 1, 2009, and Metal Trades Council members and Security Police Association members hired on or after July 1, 2010 are also eligible for Enhanced Contributions.

#### Participant Accounts

Each participant's account is credited with the participant's and the employer's contributions and the respective investment earnings or losses, less expenses, of the individual funds in which the account is invested.

#### Benefit Payments

The Plan provides for the payment of benefits upon termination, death, or retirement based on the balance in the participant's vested account. Lump-sum or periodic payment elections may be made. Hardship and in-service withdrawals are also permitted, if certain conditions are met.

#### Vesting

All participants are immediately vested in their contributions, the Corporation match and actual earnings thereon. Enhanced Contributions are 100% vested after the completion of three years of vesting service.

#### Forfeited Accounts

At December 31, 2018 and 2017, forfeited nonvested accounts totaled \$47,000 and \$121,000, respectively. These accounts will be used to reduce future employer matching contributions, Enhanced Contributions, and/or pay administrative expenses of the Plan. In 2018, employer contributions were reduced by \$563,000 from forfeited nonvested accounts.

#### Notes Receivable from Participants

Participants may borrow from their accounts a minimum of \$1,000 up to a maximum of the lesser of \$50,000 less the highest loan balance in the past 12 months, or 50% of their vested account balance. Loan terms range from 12 months to 56 months. The loans are secured by the balance in the participant's account and bear interest at the prime rate at the date of the loan. Principal and interest are paid ratably through payroll deductions. A maximum of two loans are permitted at one time. Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest.

### **NOTE 1      DESCRIPTION OF PLAN *(continued)***

#### Plan Termination

While it has not expressed any such intent, the Corporation may terminate the Plan at any time upon submission of written notice to the investment custodian, subject to the provisions of ERISA and any applicable collective bargaining agreements. In the event of the Plan's termination, participants will receive a payment equal to the total vested and unvested value of their accounts.

### **NOTE 2      SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

#### Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

#### Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States (U.S. GAAP) requires management to make estimates that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

#### Payment of Benefits

Benefits are recorded when paid.

#### Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term. The changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

#### Investment Valuation and Income Recognition

Investments are reported at fair value, with the exception of fully benefit-responsive investment contracts, which are reported at contract value. Fair value is the price that would have been received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Contract value is the relevant measurement attributable to fully benefit-responsive contracts because it is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The contract value represents contributions, plus earnings, less participant withdrawals and administrative expenses. See Note 3 for discussion of fair value measurements and fully benefit-responsive contracts.

### NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES *(continued)*

#### Investment Valuation and Income Recognition *(continued)*

Purchases and sales of investments are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes gains and losses on investments bought and sold as well as held during the year. Interest income on notes receivable from participants is recorded on the accrual basis.

#### Administrative Expenses

The Corporation pays substantially all administrative expenses of the Plan, except for investment-related expenses, which are paid by the Plan. Expenses paid by the Plan are shown on the statement of changes in net assets available for benefits, and expenses paid by the Corporation are excluded from these financial statements.

#### Recent Accounting Pronouncement

In August 2018, the Financial Accounting Standards Board issued Accounting Standards Update (ASU) 2018-13, *Disclosure Framework - Changes to the Disclosure Requirements for Fair Value Measurement*, which amends Accounting Standards Codification 820, *Fair Value Measurement*. This ASU modifies the disclosure requirements for fair value measurements by removing, modifying, or adding certain disclosures. The effective date is January 1, 2020, with early adoption of the entire standard permitted or only the provisions that eliminate or modify disclosure requirements. The Plan's management is currently evaluating the impact of the standard on the financial statements and related disclosures.

#### Reclassifications

Certain prior-year balances have been reclassified to conform to the current year's presentation.

#### Subsequent Events

The Corporation evaluated subsequent events and transactions through June 24, 2019, the date these financial statements were available to be issued.

### NOTE 3 INVESTMENTS

Investment information disclosed in the accompanying financial statements and supplemental schedule, for investments held at December 31, 2018 and net depreciation in fair value of investments, interest, and dividends for the year ended December 31, 2018, was obtained or derived from information provided to the plan administrator and certified as complete and accurate by Fidelity Management Trust Company, the trustee of the Plan.

## NTSS SAVINGS AND INCOME PLAN

Notes to Financial Statements

December 31, 2018 and 2017

### NOTE 3 INVESTMENTS *(continued)*

#### General

The Plan invests in an interest income fund that holds synthetic guaranteed investment contracts (GICs) that are fully benefit-responsive with insurance companies and other financial institutions. Since the synthetic GICs are fully benefit-responsive, contract value is the most relevant measurement attribute for that portion of net assets available for benefits attributable to synthetic GICs. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. There are no reserves against the contract value for credit risk of the contract issuer or otherwise.

A synthetic GIC is a wrap contract paired with an underlying investment or investments, usually a portfolio of high-quality, intermediate term fixed income securities. A synthetic GIC credits a stated interest rate for a specified period of time. Investment gains and losses are amortized over the expected duration of the underlying investments through the calculation of the interest rate applicable to the Plan on a prospective basis. Synthetic GICs provide for a variable crediting rate and the issuer of the wrap contract provides assurance that future adjustments to the crediting rate cannot result in a crediting rate less than zero. The crediting rate is primarily based on the current yield-to-maturity of the covered investments, plus or minus amortization of the difference between the fair value and contract value of the covered investments over the duration of the covered investments at the time of computation. The crediting rate is most impacted by the change in the annual effective yield-to-maturity of the underlying securities, but is also affected by the differential between the contract value and the fair value of the covered investments. This difference is amortized over the duration of the covered investments. Depending on the change in duration from reset period to reset period, the magnitude of the impact to the crediting rate of the contract to market difference is heightened or lessened. The crediting rate is adjusted monthly.

Certain events limit the ability of the Plan to transact at contract value. Upon the occurrence of certain events, such as the Plan's failure to maintain its tax qualified status, the fair value of the investment in the synthetic GICs (if lower than its book value) may be repaid. No such events are currently known to have occurred, nor are any such events contemplated as probable by management of the Plan.

Under certain circumstances, investment contracts may be terminated. Settlement upon termination will be at contract value unless the terms of the contract were not met or other events as described above trigger payment at fair value.

The Plan owns the investments underlying the synthetic GICs, which consist primarily of U.S. Government securities, corporate debt obligations, and mortgage-backed and other asset-backed securities. As of December 31, 2018 and 2017, the contract values of the wrap contracts were not material.

### NOTE 3 INVESTMENTS (continued)

#### General (continued)

Primarily as a result of the Plan's investment in certain common/collective trusts, the Plan's assets may be invested from time to time in derivative financial instruments. These financial instruments are generally used for liquidity purposes. The Plan's exposure to derivatives is limited to its investment in these common/collective trusts.

#### Fair Value of Assets

The accounting standard for fair value measurements defines fair value, establishes a market-based framework or hierarchy for measuring fair value, and expands disclosures about fair value measurements. The standard is applicable whenever assets and liabilities are measured and included in the financial statements at fair value.

The fair value hierarchy established in the standard prioritizes the inputs used in the valuation techniques into three levels as follows:

*Level 1:* Quoted prices in active markets for identical assets and liabilities;

*Level 2:* Observable inputs other than Level 1 prices, such as quoted prices for similar instruments, quoted prices for identical or similar instruments in inactive markets, and amounts derived from valuation models where all significant inputs are observable in active markets; and

*Level 3:* Unobservable inputs where valuation models are supported by little or no market activity that one or more significant inputs are unobservable and require us to develop relevant assumptions.

The following table presents the fair value of the assets in the Plan by asset category and their level within the fair value hierarchy as of December 31, 2018 (in thousands):

##### Valuation Techniques

There are no financial assets or liabilities categorized as Level 3 in the Plan as of December 31, 2018 or December 31, 2017.

The Corporation reclassified \$168,581,000 of managed separate accounts into cash, cash equivalents, equities, mutual funds and common/collective trusts classifications for 2017 to provide further detail on the Plan's portfolio of assets and their fair value measurement methodology. This 2017 reclassification was due to management's re-evaluation of the classification of investments directly owned by the Plan and does not impact the 2017 financial statements or the total Plan assets previously reported rather just the presentation of the components of the Plan's assets in the table above.

The fair value of the Company Common Stock Fund, which consists primarily of Lockheed Martin common stock, is the combined fair value of the underlying common stock and short-term cash position of the fund. The fair value of the common stock portion of the fund is based on the closing price of the common stock on its primary exchange. The short-term cash portion of the fund is recorded at cost, which approximates fair value.

On April 30, 2018, all remaining investments in the Company Common Stock Fund were liquidated, and participant balances were transferred to a Vanguard Target Retirement Trust Plus based on date of birth and assumed retirement age of 65.

### **NOTE 3      INVESTMENTS** *(continued)*

#### Valuation Techniques *(continued)*

Cash equivalents are comprised of money market funds managed to provide a stable share price of \$1.00.

Equities are comprised of common and preferred stocks valued at quoted market prices.

Mutual funds are valued at the net asset value of shares held by the Plan at year-end reported on the active market on which the individual securities are traded.

Common/collective trusts are valued at the net asset value of units held by the Plan at year-end; the net asset value for these investments is corroborated by observable market data (e.g., purchases or sales activity). Units in common/collective trusts may be redeemed on a daily basis.

The valuation methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while management believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

### **NOTE 4      PARTIES-IN-INTEREST TRANSACTIONS**

The following transactions are considered to be party-in-interest transactions for which a statutory exemption from the prohibited transaction regulations exist:

The Plan held 496,117 shares of Lockheed Martin common stock within the Company Common Stock Fund as of December 31, 2017. As of May 1, 2017, Lockheed Martin was no longer a party-in-interest to the Plan.

The Plan paid \$1,119,305 in expenses to FMTC, the trustee and FIIOC, the record-keeper, for the year ended December 31, 2018. Certain Plan investments are managed by affiliates of the Plan's trustee.

In addition, notes receivable from participants are considered to be party-in-interest transactions for which a statutory exemption from the prohibited transaction regulation exists.

## **NTESS SAVINGS AND INCOME PLAN**

Notes to Financial Statements

December 31, 2018 and 2017

### **NOTE 5 INCOME TAX STATUS**

The Plan has received a determination letter from the Internal Revenue Service (IRS) dated March 13, 2014, stating that the Plan is qualified under Section 401(a) of the Internal Revenue Code (the Code) and, therefore, is exempt from taxation.

The Plan has been amended since issuance of the determination letter. However, the Plan Administrator the Corporation's counsel believe that the current design and operations of the Plan are in compliance with applicable provisions of the Code.

U.S. GAAP requires plan management to evaluate uncertain tax positions taken by the Plan. The financial statement effects of a tax position are recognized when the position is more-likely-than-not, based on the technical merits, to be sustained upon examination by the IRS. The Plan Administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2018, there are no uncertain tax positions taken or expected to be taken. The Plan has recognized no interest or penalties related to uncertain tax positions. The Plan is subject to routine audits by taxing jurisdictions. The Plan Administrator believes it is no longer subject to federal tax examinations for years prior to 2015.

### **NOTE 6 RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500**

The accompanying financial statements present fully benefit-responsive investment contracts at contract value. The Form 5500 requires fully benefit-responsive investment contracts to be reported at fair value. Therefore, there is a variance between the reported total net assets available for plan benefits on the financial statements to the reported total net assets available for plan benefit on the Form 5500's Schedule H of \$5,021,000 and \$1,052,000 as of December 31, 2018 and 2017, respectively. The reported total additions to net assets available for plan benefits on the financial statements is higher by \$3,969,000 than on the Form 5500's Schedule H for the year ended December 31, 2018. The variances are due to the differences between fair value and contract value of the fully benefit-responsive investment contracts.
