Notes to Financial Statements

1. Description of the Plan

The following description of the Nucleus Central Inc. 401(k) Salary Reduction Plan & Trust (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering substantially all employees of Nucleus Central Inc. (the "Company"). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Contributions

Each year, participants may contribute up to 100 percent of their pretax annual compensation, as defined in the Plan, subject to certain Internal Revenue Code ("IRC") limitations. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans (rollovers). Participants direct the investment of their contributions into various investment options offered by the Plan. The Company makes a safe harbor matching contribution to the account of each eligible participant in an amount equal to 100 percent of the amount of the participant's elective deferrals up to 4 percent of the participant's elective deferrals.

Participant Accounts

Each participant's account is credited with the participant's contributions and the Company's matching contributions, as well as allocations of Plan earnings. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are vested immediately in their salary deferrals, rollover contributions plus actual earnings thereon. For employees hired on or before December 31, 2013, vesting in the Company's matching contributions plus actual earnings thereon is based on years of continuous service, whereby participants vest 50 percent after one year of credited service and are 100 percent vested after two years of credited service. For employees hired after December 31, 2013, vesting in the Company's matching contributions plus actual earnings thereon is based on years of continuous service, whereby participants vest 33 percent after one year of credited service, 66 percent after two years of credited service and are 100 percent vested after three years of credited service.

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50 percent of the participant's vested account balance. The loans are secured by the balance in the participant's account. The interest rate on notes receivable is set at 2 percent above the prime rate, as defined. Principal and interest are paid ratably through payroll deductions.

Nucleus Central Inc. 401(k) Salary Reduction Plan & Trust

Notes to Financial Statements

Payment of Benefits

On termination of service, death, disability, retirement, or age 59½, a participant may elect to receive the value of the participant's vested interest in his or her account through lump-sum payment or in substantially equal installments. Withdrawals from the Plan may also be made upon circumstances of financial hardship, in accordance with provisions specified in the Plan. All vested balances less than \$1,000 may be automatically distributed as a lump-sum at the discretion of the Company. Vested balances between \$1,000 and \$5,000 can be rolled over at the discretion of the Company to a qualified individual retirement account.

Forfeited Accounts

Forfeited non-vested accounts may be used to reduce future employer contributions or to pay for Plan expenses. At December 31, 2018 and 2017, forfeited non-vested accounts totaled \$38,777 and \$40,980, respectively. Forfeitures of \$61,210 were utilized during 2018.

2. Summary of Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for a discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation/depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants

Notes receivables from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2018 and 2017.

Payment of Benefits

Benefits are recorded when paid.

Nucleus Central Inc. 401(k) Salary Reduction Plan & Trust

Notes to Financial Statements

Expenses

Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Fees related to administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation/depreciation of fair value of investments.

3. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under FASB ASC 820, Fair Value Measurement, are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability; and
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2018 and 2017.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-ended mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value ("NAV") and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Collective Trust Fund: Valued using the NAV of units of a collective trust. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment of an amount different than the reported NAV. There were no unfunded commitments to purchase investments as of December 31, 2018 and 2017.

Nucleus Central Inc. 401(k) Salary Reduction Plan & Trust

Notes to Financial Statements

The Putnam Stable Value Fund primarily holds investments in fully benefit-responsive insurance contracts. The fair values of participation units held in the stable value fund are based on NAV after adjustments to reflect all fund investments at fair value, including direct and indirect interests in fully benefit-responsive contracts. The stable value fund generally permits redemptions daily. If the fund experiences periods of insufficient liquidity then the stable value fund may defer honoring any payment request until liquidity is sufficient. The fair values of the Plan's interest in the stable value fund are based on quoted market prices in active markets and securities and contracts are valued using observable inputs. The Plan is permitted to redeem investment units at NAV on the measurement date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2018 and 2017:

<i>Assets at fair value as of December 31, 2018</i>	Level 1	Total
Mutual funds	\$ 19,467,338	\$ 19,467,338
Collective trust measured at NAV*		49,177
Total assets at fair value	\$ 19,467,338	\$ 19,516,515

<i>Assets at fair value as of December 31, 2017</i>	Level 1	Total
Mutual funds	\$ 19,634,922	\$ 19,634,922
Collective trust measured at NAV*		28,950
Total assets at fair value	\$ 19,634,922	\$ 19,663,872

*Certain investments that are measured at fair value using the NAV per share practical expedient have not been categorized in the fair value hierarchy. The fair value amounts presented in these tables are intended to permit reconciliation of the fair value hierarchy to the amounts presented in the statements of net assets available for benefits.

4. Information Certified by Fidelity

The Plan Administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Fidelity has certified that the following data included in the accompanying financial statements and supplemental schedule are complete and accurate.

<i>December 31,</i>	2018	2017
Mutual funds	\$ 19,467,338	\$ 19,634,922
Collective trust fund	\$ 49,177	\$ 28,950
Notes receivable from participants	\$ 142,421	\$ 199,276

<i>Year Ended December 31,</i>	2018
Net depreciation in fair value of investments	\$ (2,509,330)
Dividend income from mutual funds	\$ 970,204
Interest income on notes receivable from participants	\$ 10,961

Nucleus Central Inc. 401(k) Salary Reduction Plan & Trust

Notes to Financial Statements

The Plan's independent accountants did not perform auditing procedures with respect to this information, except for comparing such information with the related information included in the financial statements and supplemental schedule.

5. Related Party and Party-in-Interest Transactions

Certain Plan investments are managed by Fidelity. Therefore, these transactions qualify as party-in-interest transactions. The Plan paid administrative fees of \$52,534 to Fidelity during 2018. Fees incurred by the Plan for investment management services are included in net depreciation of fair value of investments. Notes receivable from participants also qualify as exempt party-in-interest transactions.

6. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of the Plan termination, no contributions would thereafter be made to the Plan and participants would become 100 percent vested in their employer contributions.

7. Tax Status

The Plan is a non-standardized prototype plan and the Plan prototype has received an opinion letter from the IRS dated March 31, 2014, stating that the Plan is qualified under Section 401(a) of the IRC and, therefore, the related trust is exempt from taxation. In accordance with Revenue Procedure 2002-6 and Announcement 2001-77, the Plan Sponsor has determined that it is eligible to and has chosen to rely on the current IRS prototype plan opinion letter. Once qualified, the Plan is required to operate in conformity with the IRC to maintain its qualification. The Plan Administrator believes that the Plan is being operated in compliance with the applicable requirements of the IRC and, therefore, believes that the Plan is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

8. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statement of Net Assets Available for Benefits.

9. Subsequent Events

The Plan has evaluated subsequent events from the date of the Statement of Net Assets Available for Benefits through October 14, 2019, the date the financial statements were available to be issued. There were no material recognizable subsequent events identified.

Notes to Financial Statements

1. Description of the Plan

The following description of the Nucleus Central Inc. 401(k) Salary Reduction Plan & Trust (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering substantially all employees of Nucleus Central Inc. (the "Company"). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Contributions

Each year, participants may contribute up to 100 percent of their pretax annual compensation, as defined in the Plan, subject to certain Internal Revenue Code ("IRC") limitations. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans (rollovers). Participants direct the investment of their contributions into various investment options offered by the Plan. The Company makes a safe harbor matching contribution to the account of each eligible participant in an amount equal to 100 percent of the amount of the participant's elective deferrals up to 4 percent of the participant's elective deferrals.

Participant Accounts

Each participant's account is credited with the participant's contributions and the Company's matching contributions, as well as allocations of Plan earnings. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are vested immediately in their salary deferrals, rollover contributions plus actual earnings thereon. For employees hired on or before December 31, 2013, vesting in the Company's matching contributions plus actual earnings thereon is based on years of continuous service, whereby participants vest 50 percent after one year of credited service and are 100 percent vested after two years of credited service. For employees hired after December 31, 2013, vesting in the Company's matching contributions plus actual earnings thereon is based on years of continuous service, whereby participants vest 33 percent after one year of credited service, 66 percent after two years of credited service and are 100 percent vested after three years of credited service.

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50 percent of the participant's vested account balance. The loans are secured by the balance in the participant's account. The interest rate on notes receivable is set at 2 percent above the prime rate, as defined. Principal and interest are paid ratably through payroll deductions.

Notes to Financial Statements

Payment of Benefits

On termination of service, death, disability, retirement, or age 59½, a participant may elect to receive the value of the participant's vested interest in his or her account through lump-sum payment or in substantially equal installments. Withdrawals from the Plan may also be made upon circumstances of financial hardship, in accordance with provisions specified in the Plan. All vested balances less than \$1,000 may be automatically distributed as a lump-sum at the discretion of the Company. Vested balances between \$1,000 and \$5,000 can be rolled over at the discretion of the Company to a qualified individual retirement account.

Forfeited Accounts

Forfeited non-vested accounts may be used to reduce future employer contributions or to pay for Plan expenses. At December 31, 2018 and 2017, forfeited non-vested accounts totaled \$38,777 and \$40,980, respectively. Forfeitures of \$61,210 were utilized during 2018.

2. Summary of Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for a discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation/depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants

Notes receivables from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2018 and 2017.

Payment of Benefits

Benefits are recorded when paid.

Nucleus Central Inc. 401(k) Salary Reduction Plan & Trust

Notes to Financial Statements

Expenses

Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Fees related to administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation/depreciation of fair value of investments.

3. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under FASB ASC 820, Fair Value Measurement, are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability; and
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2018 and 2017.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-ended mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value ("NAV") and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Collective Trust Fund: Valued using the NAV of units of a collective trust. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment of an amount different than the reported NAV. There were no unfunded commitments to purchase investments as of December 31, 2018 and 2017.

Nucleus Central Inc. 401(k) Salary Reduction Plan & Trust

Notes to Financial Statements

The Putnam Stable Value Fund primarily holds investments in fully benefit-responsive insurance contracts. The fair values of participation units held in the stable value fund are based on NAV after adjustments to reflect all fund investments at fair value, including direct and indirect interests in fully benefit-responsive contracts. The stable value fund generally permits redemptions daily. If the fund experiences periods of insufficient liquidity then the stable value fund may defer honoring any payment request until liquidity is sufficient. The fair values of the Plan's interest in the stable value fund are based on quoted market prices in active markets and securities and contracts are valued using observable inputs. The Plan is permitted to redeem investment units at NAV on the measurement date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2018 and 2017:

<i>Assets at fair value as of December 31, 2018</i>	Level 1	Total
Mutual funds	\$ 19,467,338	\$ 19,467,338
Collective trust measured at NAV*		49,177
Total assets at fair value	\$ 19,467,338	\$ 19,516,515

<i>Assets at fair value as of December 31, 2017</i>	Level 1	Total
Mutual funds	\$ 19,634,922	\$ 19,634,922
Collective trust measured at NAV*		28,950
Total assets at fair value	\$ 19,634,922	\$ 19,663,872

*Certain investments that are measured at fair value using the NAV per share practical expedient have not been categorized in the fair value hierarchy. The fair value amounts presented in these tables are intended to permit reconciliation of the fair value hierarchy to the amounts presented in the statements of net assets available for benefits.

4. Information Certified by Fidelity

The Plan Administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Fidelity has certified that the following data included in the accompanying financial statements and supplemental schedule are complete and accurate.

<i>December 31,</i>	2018	2017
Mutual funds	\$ 19,467,338	\$ 19,634,922
Collective trust fund	\$ 49,177	\$ 28,950
Notes receivable from participants	\$ 142,421	\$ 199,276

<i>Year Ended December 31,</i>	2018
Net depreciation in fair value of investments	\$ (2,509,330)
Dividend income from mutual funds	\$ 970,204
Interest income on notes receivable from participants	\$ 10,961

Nucleus Central Inc. 401(k) Salary Reduction Plan & Trust

Notes to Financial Statements

The Plan's independent accountants did not perform auditing procedures with respect to this information, except for comparing such information with the related information included in the financial statements and supplemental schedule.

5. Related Party and Party-in-Interest Transactions

Certain Plan investments are managed by Fidelity. Therefore, these transactions qualify as party-in-interest transactions. The Plan paid administrative fees of \$52,534 to Fidelity during 2018. Fees incurred by the Plan for investment management services are included in net depreciation of fair value of investments. Notes receivable from participants also qualify as exempt party-in-interest transactions.

6. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of the Plan termination, no contributions would thereafter be made to the Plan and participants would become 100 percent vested in their employer contributions.

7. Tax Status

The Plan is a non-standardized prototype plan and the Plan prototype has received an opinion letter from the IRS dated March 31, 2014, stating that the Plan is qualified under Section 401(a) of the IRC and, therefore, the related trust is exempt from taxation. In accordance with Revenue Procedure 2002-6 and Announcement 2001-77, the Plan Sponsor has determined that it is eligible to and has chosen to rely on the current IRS prototype plan opinion letter. Once qualified, the Plan is required to operate in conformity with the IRC to maintain its qualification. The Plan Administrator believes that the Plan is being operated in compliance with the applicable requirements of the IRC and, therefore, believes that the Plan is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

8. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statement of Net Assets Available for Benefits.

9. Subsequent Events

The Plan has evaluated subsequent events from the date of the Statement of Net Assets Available for Benefits through October 14, 2019, the date the financial statements were available to be issued. There were no material recognizable subsequent events identified.
