Note A. Description of the Plan

The following brief description of the Syufy Enterprises Retirement Plan (the "Plan") provides only general information. Participants should refer to the Plan document and subsequent amendments for a more complete description of the Plan's provisions.

General

The Plan is a safe harbor 401(k) defined contribution retirement plan covering substantially all employees of Syufy Enterprises (the “Company”) and entities under common ownership who have attained the age of 21 and have completed three months of service with the Company. The Plan was formed on January 1, 1997 and most recently restated on August 13, 2018. The Plan is subject to the provisions of the Employee Retirement Income Security Act ("ERISA") of 1974. The Company is the Plan Sponsor and serves as the Plan Administrator. The financial statements are prepared in accordance with accounting principles accepted in the United States of America.

Contributions

Each year, participants may contribute up to 100% of pretax annual compensation, as defined in the Plan. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans (rollover).

The Company contributes a safe harbor contribution of 100% of the first 4% of base compensation that a participant contributes to the Plan. Additional amounts may be contributed at the option of the Company. Contributions are subject to certain IRS limitations.

Participant Accounts

Each participant's account is credited with the participant's contributions and allocations of (a) the Company's contributions when made and, (b) Plan earnings (losses), and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined and provided for in the Plan document. The benefit to which a participant is entitled is limited to the amount that can be provided from the participant's vested account balance. The investment direction for the account is provided by the participant.

Vesting

Participants become immediately vested in their elective deferrals, rollover and transfer contributions, plus actual earnings thereon. Participants are likewise immediately vested in the Company's safe harbor matching contributions, and Company non-elective and qualified non-elective contributions.

Note A. Description of the Plan (continued)

Notes Receivable from Participants

Participants may borrow from their fund accounts for a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. The loans are secured by the balance in the participant's account and bear interest between 5.00% and 6.50%. Loan terms, unless for the purchase of a principal residence, are not to exceed five years. Principal and interest are paid ratably through payroll deductions. Delinquent loans are treated as distributions based upon the terms of the plan document.

Payment of Benefits

Upon termination of service due to death, disability, retirement, or other reasons, a participant may elect to receive a lump-sum payment in an amount equal to the value of the participant's vested portion of his or her account. In the event of termination of employment before retirement, a participant will be entitled to receive his or her vested account balance. If a terminated participant's vested account balance is greater than $5,000, such participant may leave his or her funds in the Plan. If the terminated participant's vested account balance is equal to or less than $5,000, the Company may elect to distribute the participant's funds without consent. Participants may withdraw all or a portion of their vested account balances for specific hardship reasons, subject to approval of the Company.

Note B. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America require the Plan Administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2018, or 2017.

Note B. Summary of Significant Accounting Policies (continued)

Investment Valuation and Revenue Recognition

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note D for a discussion of fair value measurements.

Securities transactions are accounted for on the trade date (the date the order to buy or sell is executed). Net appreciation or depreciation in fair value of investments includes the change in market value of all Plan investments (including investments bought and sold as well as those held during the year) and all gains, including amounts reinvested.

Benefits Paid to Participants

Benefit payments to participants are recorded when paid.

Expenses

Certain expenses of maintaining the Plan are paid by the Plan, unless otherwise paid by the Company. Expenses that are paid by the Company are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included as a reduction of net appreciation in fair value of investments.

Note C. Information Certified and Provided by the Trustee

The following is a summary of the Plan's asset information as of December 31, 2018 and 2017, and for the year ended December 31, 2018, included throughout the Plan's financial statements and supplemental schedule, that was prepared by or derived from information provided by Fidelity Management Trust Company (the "Trustee") furnished to the Plan Administrator. The Plan Administrator has obtained certifications from the trustee that information provided to the Plan Administrator related to the following assets is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the United States Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditor not to perform any auditing procedures with respect to information which appears throughout the financial statements and supplemental schedule related to the following assets at December 31:

Description	2018	2017
Mutual funds	$ 25,547,327	$ 25,443,602
Notes receivable from participants	304,922	220,970

The Trustee also certified to the completeness and accuracy of $3,162,912 of net depreciation in the fair value of investments, $1,751,716 of interest and dividend income, and $14,631 of interest income on notes receivable from participants related to the assets listed above for the year ended December 31, 2018.

Note D. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1	Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
Level 2	Inputs to the valuation methodology include: • quoted prices for similar assets or liabilities in active markets; • quoted prices for identical or similar assets or liabilities in inactive markets; • inputs other than quoted prices that are observable for the asset or liability; • inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.
Level 3	Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

There have been no changes in the methodologies used at December 31, 2018 and 2017.

Following is a description of the valuation methodologies used for assets measured at fair value.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective or future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Note D. **Fair Value Measurements** (continued)

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2018:

	Level 1	Level 2	Level 3	Total
Mutual funds	$ 25,547,327	$ -	$ -	$ 25,547,327

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2017:

	Level 1	Level 2	Level 3	Total
Mutual funds	$ 25,443,602	$ -	$ -	$ 25,443,602

Note E. **Party-In-Interest Transactions**

Party-in-interest transactions include those with fiduciaries or employees of the Plan, any person who provides services to the Plan, an employer whose employees are covered by the Plan, an employee organization whose members are covered by the Plan, a person who owns 50% or more of such employer association, or relatives of such person. Fidelity Management Trust Company, the Plan's trustee, Fidelity Workplace Services, the Plan's record keeper, and Pisenti and Brinker LLP, the Plan's auditor are both considered parties-in-interest according to Section 3(14) of ERISA.

Note F. **Plan Termination**

Although the Company has not expressed any intent, the Company has the right under the Plan to discontinue, amend or modify and terminate the Plan without any liability for such termination subject to the provisions of ERISA. In the event of a Plan termination, participants would become 100% vested in any unvested portion of their accounts.

Note G. **Income Tax Status**

The Plan document is a volume submitter plan that received a favorable opinion letter from the Internal Revenue Service ("IRS") on March 31, 2014. The Plan has never requested a tax determination letter from the IRS. However, the Plan Administrator believes that the Plan is designed and is currently being operated in compliance with applicable provisions of the IRC and that the related trust was tax exempt as of the financial statement date.

Accounting principles generally accepted in the United States of America requires plan management to evaluate tax positions taken by the plan and recognize a tax liability if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the applicable taxing authorities. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note H. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Note I. Reconciliation to Form 5500

The following is a reconciliation of net assets available for benefits as reported in the financial statements to Schedule H of Form 5500 as of December 31:

	2018	2017
Net assets available for benefits per the financial statements	$ 25,898,972	$ 25,711,553
Current year employer contributions receivable	(46,723)	(46,981)

The following is a reconciliation of change in net assets per the financial statements for the year ended December 31, 2018 to Schedule H of Form 5500:

Net increase in net assets per financial statements	$ 187,419
Prior year employer contributions receivable	46,981
Current year employer contributions receivable	(46,723)
Net decrease in assets available for benefits as reported in Schedule H of Form 5500	$ 187,677

Note J. Subsequent Events

In preparing these financial statements, the Plan has evaluated events and transactions for potential recognition or disclosure through October 4, 2019, the date the financial statements were available to be issued.

Note A. Description of the Plan

The following brief description of the Syufy Enterprises Retirement Plan (the "Plan") provides only general information. Participants should refer to the Plan document and subsequent amendments for a more complete description of the Plan's provisions.

General

The Plan is a safe harbor 401(k) defined contribution retirement plan covering substantially all employees of Syufy Enterprises (the “Company”) and entities under common ownership who have attained the age of 21 and have completed three months of service with the Company. The Plan was formed on January 1, 1997 and most recently restated on August 13, 2018. The Plan is subject to the provisions of the Employee Retirement Income Security Act ("ERISA") of 1974. The Company is the Plan Sponsor and serves as the Plan Administrator. The financial statements are prepared in accordance with accounting principles accepted in the United States of America.

Contributions

Each year, participants may contribute up to 100% of pretax annual compensation, as defined in the Plan. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans (rollover).

The Company contributes a safe harbor contribution of 100% of the first 4% of base compensation that a participant contributes to the Plan. Additional amounts may be contributed at the option of the Company. Contributions are subject to certain IRS limitations.

Participant Accounts

Each participant's account is credited with the participant's contributions and allocations of (a) the Company's contributions when made and, (b) Plan earnings (losses), and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined and provided for in the Plan document. The benefit to which a participant is entitled is limited to the amount that can be provided from the participant's vested account balance. The investment direction for the account is provided by the participant.

Vesting

Participants become immediately vested in their elective deferrals, rollover and transfer contributions, plus actual earnings thereon. Participants are likewise immediately vested in the Company's safe harbor matching contributions, and Company non-elective and qualified non-elective contributions.

Note A. Description of the Plan (continued)

Notes Receivable from Participants

Participants may borrow from their fund accounts for a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. The loans are secured by the balance in the participant's account and bear interest between 5.00% and 6.50%. Loan terms, unless for the purchase of a principal residence, are not to exceed five years. Principal and interest are paid ratably through payroll deductions. Delinquent loans are treated as distributions based upon the terms of the plan document.

Payment of Benefits

Upon termination of service due to death, disability, retirement, or other reasons, a participant may elect to receive a lump-sum payment in an amount equal to the value of the participant's vested portion of his or her account. In the event of termination of employment before retirement, a participant will be entitled to receive his or her vested account balance. If a terminated participant's vested account balance is greater than $5,000, such participant may leave his or her funds in the Plan. If the terminated participant's vested account balance is equal to or less than $5,000, the Company may elect to distribute the participant's funds without consent. Participants may withdraw all or a portion of their vested account balances for specific hardship reasons, subject to approval of the Company.

Note B. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America require the Plan Administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2018, or 2017.

Note B. Summary of Significant Accounting Policies (continued)

Investment Valuation and Revenue Recognition

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note D for a discussion of fair value measurements.

Securities transactions are accounted for on the trade date (the date the order to buy or sell is executed). Net appreciation or depreciation in fair value of investments includes the change in market value of all Plan investments (including investments bought and sold as well as those held during the year) and all gains, including amounts reinvested.

Benefits Paid to Participants

Benefit payments to participants are recorded when paid.

Expenses

Certain expenses of maintaining the Plan are paid by the Plan, unless otherwise paid by the Company. Expenses that are paid by the Company are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included as a reduction of net appreciation in fair value of investments.

Note C. Information Certified and Provided by the Trustee

The following is a summary of the Plan's asset information as of December 31, 2018 and 2017, and for the year ended December 31, 2018, included throughout the Plan's financial statements and supplemental schedule, that was prepared by or derived from information provided by Fidelity Management Trust Company (the "Trustee") furnished to the Plan Administrator. The Plan Administrator has obtained certifications from the trustee that information provided to the Plan Administrator related to the following assets is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the United States Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditor not to perform any auditing procedures with respect to information which appears throughout the financial statements and supplemental schedule related to the following assets at December 31:

Description	2018	2017
Mutual funds	$ 25,547,327	$ 25,443,602
Notes receivable from participants	304,922	220,970

The Trustee also certified to the completeness and accuracy of $3,162,912 of net depreciation in the fair value of investments, $1,751,716 of interest and dividend income, and $14,631 of interest income on notes receivable from participants related to the assets listed above for the year ended December 31, 2018.

Note D. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1	Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
Level 2	Inputs to the valuation methodology include: • quoted prices for similar assets or liabilities in active markets; • quoted prices for identical or similar assets or liabilities in inactive markets; • inputs other than quoted prices that are observable for the asset or liability; • inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.
Level 3	Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

There have been no changes in the methodologies used at December 31, 2018 and 2017.

Following is a description of the valuation methodologies used for assets measured at fair value.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective or future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Note D. **Fair Value Measurements** (continued)

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2018:

	Level 1	Level 2	Level 3	Total
Mutual funds	$ 25,547,327	$ -	$ -	$ 25,547,327

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2017:

	Level 1	Level 2	Level 3	Total
Mutual funds	$ 25,443,602	$ -	$ -	$ 25,443,602

Note E. **Party-In-Interest Transactions**

Party-in-interest transactions include those with fiduciaries or employees of the Plan, any person who provides services to the Plan, an employer whose employees are covered by the Plan, an employee organization whose members are covered by the Plan, a person who owns 50% or more of such employer association, or relatives of such person. Fidelity Management Trust Company, the Plan's trustee, Fidelity Workplace Services, the Plan's record keeper, and Pisenti and Brinker LLP, the Plan's auditor are both considered parties-in-interest according to Section 3(14) of ERISA.

Note F. **Plan Termination**

Although the Company has not expressed any intent, the Company has the right under the Plan to discontinue, amend or modify and terminate the Plan without any liability for such termination subject to the provisions of ERISA. In the event of a Plan termination, participants would become 100% vested in any unvested portion of their accounts.

Note G. **Income Tax Status**

The Plan document is a volume submitter plan that received a favorable opinion letter from the Internal Revenue Service ("IRS") on March 31, 2014. The Plan has never requested a tax determination letter from the IRS. However, the Plan Administrator believes that the Plan is designed and is currently being operated in compliance with applicable provisions of the IRC and that the related trust was tax exempt as of the financial statement date.

Accounting principles generally accepted in the United States of America requires plan management to evaluate tax positions taken by the plan and recognize a tax liability if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the applicable taxing authorities. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note H. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Note I. Reconciliation to Form 5500

The following is a reconciliation of net assets available for benefits as reported in the financial statements to Schedule H of Form 5500 as of December 31:

	2018	2017
Net assets available for benefits per the financial statements	$ 25,898,972	$ 25,711,553
Current year employer contributions receivable	(46,723)	(46,981)
Net assets available for benefits as reported in Schedule H of Form 5500	$ 25,852,249	$ 25,664,572

The following is a reconciliation of change in net assets per the financial statements for the year ended December 31, 2018 to Schedule H of Form 5500:

Prior year employer contributions receivable	46,981
Current year employer contributions receivable	(46,723)
Net decrease in assets available for benefits as reported in Schedule H of Form 5500	$ 187,677

Note J. Subsequent Events

In preparing these financial statements, the Plan has evaluated events and transactions for potential recognition or disclosure through October 4, 2019, the date the financial statements were available to be issued.
