Global Tech Retirement Plan
Notes to Financial Statements

Note 1: Description of Plan

The following description of the Global Tech Retirement Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all employees of Global Tech, Inc., doing business as (d/b/a) eGlobalTech ("eGlobal" or the "Company"). All full time or part time employees who are age 21 or older and have completed three months of service are eligible to make salary deferrals and receive the Company's contributions to the Plan which include profit sharing contributions and a discretionary matching percentage. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Plan Trustee is responsible for oversight of the Plan. The Plan Trustee determines the appropriateness of the Plan's investment offerings and monitors investment performance. Effective March 1, 2018, the Plan was amended to include an auto-enrollment provision.

Contributions

Each year, participants may contribute any combination of pre-tax or Roth elective deferrals, not to exceed the limits of the Internal Revenue Code, as defined in the Plan. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined contribution plans (rollovers). The Plan includes an auto-enrollment provision whereby newly eligible employees are automatically enrolled in the Plan unless they affirmatively elect not to participate in the Plan. Automatically enrolled participants have their deferral rate set at 3 percent of eligible compensation and their contributions invested in a designated investment fund until changed by the participant. Participants direct the investment of their contributions into various investment options offered by the Plan. The Company contributes a discretionary matching contribution that is equal to that percentage of each qualifying contributing participant's elective deferral which the Trustee, in its sole discretion, determines. In addition, the Company may make discretionary profit sharing contributions every year. The Company's contributions are invested in accordance with the participant's investment choices.

Participant Accounts

Each participant's account is credited with the participant's contributions and Company discretionary match contributions, as well as allocations of the Company's profit sharing contributions and Plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings, specific participant transactions, or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Note 1: Description of Plan (continued)

Vesting

Participants are vested immediately in their contributions plus actual earnings thereon. Vesting in the Company's discretionary match and profit sharing contributions portions of participants' accounts is based on years of continuous service. A participant is fully vested after four years of credited service. In the event of death, disability or satisfaction of conditions for early retirement age, participants become fully vested in their respective accounts.

Notes Receivable from Participants

Participants may borrow from the pre-tax balances of their accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested interest in the Plan. The notes are secured by the balance in the participants' accounts and bear interest at the prime rate, as defined. Principal and interest are paid ratably through payroll deductions.

Payment of Benefits

On termination of service due to death, disability, retirement, or other reasons, a participant may receive the value of the vested interest in his or her account as a partial or lump-sum distribution. An involuntary distribution can be made in the form of a lump sum distribution at the Plan's discretion for participants who have terminated service and who have an account with a vested interest value of $5,000 or below. An in-service distribution may be taken by any participant that has attained the age of 59 and ½.

Forfeited Accounts

Forfeitures occur when a former employee has five consecutive years of a break in service. These amounts will be used to reduce future employer contributions. At December 31, 2018 and 2017 forfeited non-vested accounts totaled $285,343 and $180,077, respectively. No forfeited non-vested account amounts were used to reduce employer contributions during 2018.

Note 2: Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Trustee to make estimates and

Note 2: Summary of Significant Accounting Policies (continued)

assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results may differ from those estimates.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan Trustee determines the Plan's valuation policies utilizing information provided by the investment advisors and custodian. See Note 5 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2018 or 2017. If a participant ceases to make note repayments and the Trustee deems the participant note to be in default, the participant note balance is reduced and a deemed distribution is recorded.

Excess Contributions Payable

Amounts payable to participants for contributions in excess of amounts allowed by the IRS are recorded as a liability with a corresponding reduction to contributions and net depreciation in fair value of investments. The Plan distributed the 2018 excess contributions to the applicable participants prior to March 15, 2019.

Payment of Benefits

Benefits are recorded when paid.

Expenses

Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Fees related to benefit payments and the administration of notes receivable from participants are charged directly to the participants' accounts and are included in administrative expenses. Investment related expenses are included in net depreciation in fair value of investments.

Note 2: Summary of Significant Accounting Policies (continued)

Subsequent Events

For the year ended December 31, 2018, the Trustee has evaluated subsequent events for potential recognition and disclosure through October 3, 2019 the date on which the financial statements were available to be issued.

Note 3: Tax Status

The Internal Revenue Service has opined and informed eGlobal by a letter dated March 31, 2014 that the Plan is designated in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the letter, the Plan Administrators believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and, therefore, believe that the Plan is qualified, and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan may be subject to a routine audit by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. Plan management believes the Plan is no longer subject to income tax examinations for years prior to 2015.

Note 4: Information Certified by Custodian

The Trustee has elected the method of compliance as permitted by 29 § CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA for 2018 and 2017. Accordingly, Ascensus, Inc. (acting on behalf of Ascensus Trust Company, the custodian) has certified the completeness and accuracy of the investment activity for the years ending December 31, 2018 and 2017, including the information summarized in Note 5.

Note 5: Investments and Fair Value Measurement

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Note 5: Investments and Fair Value Measurement (continued)

Level 2: Inputs to the valuation methodology include

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability; and
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs. There have been no changes in the fair value methodologies used at December 31, 2018 and 2017.

Following is a description of the valuation methodologies used for assets measured at fair value.

Money Market Funds: Valued at cost plus accrued interest.

Mutual Funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Investment allocations between levels may change from year to year based on new investment choices available to Plan participants. The following tables set forth by level, within the fair value hierarchy, the Plan's investments.

Investments at Fair Value as of December 31, 2018

	Level 1	Level 2	Level 3	Total
Mutual funds	$ 11,752,848	$ --	$ --	$ 11,752,848
Money market funds	--	72,257	--	72,257
Total investments at fair value	$ 11,752,848	$ 72,257	$ --	$ 11,825,105

Note 5: Investments and Fair Value Measurement (continued)

Investments at Fair Value as of December 31, 2017

	Level 1	Level 2	Level 3	Total
Mutual funds	$ 10,944,639	$ --	$ --	$ 10,944,639
Money market funds	--	18,724	--	18,724
Total investments at fair value	$ 10,944,639	$ 18,724	$ --	$ 10,963,363

During 2018, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) depreciated in value by $1,132,419.

Note 6: Party-in-Interest Transactions

Certain Plan investments are shares of mutual funds managed by The Vanguard Group, Inc. Ascensus, Inc., acting on behalf of Ascensus Trust Company, the custodian as defined by the Plan, certifies the investments of the Plan. The Vanguard Group Inc. is a related entity of Ascensus, Inc. and, therefore, these transactions qualify as party-in-interest transactions. Fees incurred by the Plan for the investment management services are included in administrative expenses.

Note 7: Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100 percent vested in their employer contributions.

Note 8: Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investments securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statements of Net Assets Available for Benefits.

Note 9: Compliance Matters

During 2018, the Company failed to timely remit to the Plan withheld employee contributions on multiple occasions and in the aggregate amount of $464,811 in accordance with the plan asset provisions of the Department of Labor ("DOL") Regulation 2510.3-102, resulting in prohibited, or nonexempt, transactions. The accompanying Schedule of Delinquent Participant Contributions discloses this transaction in accordance with the

Note 9: Compliance Matters – (continued)

DOL's Rules and Regulations for Reporting and Disclosure under ERISA. The Company is in the process of calculating the required corrections to the Plan to reflect forgone earnings that would have been credited to the participants' accounts if the late remittances had been made on a timely basis.

In addition, during the year, Plan management discovered that it had erroneously calculated vested amounts for certain employees who took distributions resulting in either an over or under payment of distributions. Given that the amounts payable to/receivable from the plan were insignificant, the Plan chose to self-correct this error as permitted under IRS regulations.
