MUSEUM OF FLIGHT TAX-SHELTERED ANNUITY PLAN

Notes to Financial Statements For the Year Ended December 31, 2018

Note 1 - Description of Plan

The following description of the Museum of Flight Tax-Sheltered Annuity Plan (the Plan) provides only general information. Participants should refer to the plan document for a more complete description of the Plan's definitions, benefits, eligibility and other matters.

General - The Plan is a defined contribution plan that was established effective January 1, 1988 for the benefit of employees of the Museum of Flight Foundation (the Sponsor or Foundation). The Plan is intended to be a plan that meets requirements under Section 403(b) of the Internal Revenue Code (IRC). The Variable Annuity Life Insurance Company (VALIC) is the recordkeeper and issuer of the Plan's annuity contracts. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

Plan Merger - Effective January 1, 2018, the Museum of Flight Voluntary Tax-Sheltered Annuity Plan (non-ERISA) was merged into the Plan. Assets transferred into the Plan as a result of the merger included variable annuity contracts of \$3,757,904 and fixed annuity contracts of \$2,472,474.

Eligibility - All employees of the Foundation are eligible to make elective deferrals into the Plan and receive employer matching contributions upon completion of one year of service. Employees must work at least 1,000 hours in order to fulfill the one year service requirement.

Contributions - Participants are permitted to make pre-tax contributions or Roth contributions. Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions. Participants are also allowed to contribute amounts representing distributions from other eligible retirement plans.

The Foundation made matching contributions at a rate equal to 4% of the employee's compensation, plus one-tenth of 1% (0.1%) of the employee's compensation times the employee's years of service.

Contributions are subject to certain Internal Revenue Service (IRS) limitations.

Participant Accounts - Participant contributions to the Plan are voluntary. Participants are allowed to direct the investment of all contributions into various investment options that offer a diversity of investment risk and return. Each participant's account is credited with the participant's contribution, if applicable, and allocations of (a) the Foundation's contribution and, (b) Plan earnings. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Allocation Provisions - Interest income and net realized and unrealized investment gain or loss of each investment shall be allocated to the accounts of each participant based on the participant's proportionate share of the various investments held in their investment account.

Vesting - Participants are immediately vested in their elective deferral contributions and employer matching contributions plus actual earnings thereon.

Notes to Financial Statements For the Year Ended December 31, 2018

Note 1 - Continued

Policy Loans - Participants may borrow from funds owned by VALIC (not directly from a participant's account). Accordingly, policy loans are not reported on the statements of net assets available for benefits and related interest income is not reported on the statements of changes in net assets available for benefits. When a participant takes a loan, the participant account is not reduced; however, a portion of the participant account serves as collateral for the loan.

The amount is equal to the original principal of the loan requested plus the first quarter interest due and potential surrender charges. The participant pays interest to VALIC at the loan interest rate. The loan interest rate is determined at the end of each quarter based on Moody's Average Corporate Yield. There were \$96,575 and \$14 of loans outstanding as of December 31, 2018 and 2017, respectively.

Payment of Benefits - Upon termination of service, death, disability, or retirement, a participant may receive a lump-sum amount equal to the vested portion of his or her account. The distribution may also be in the form of installment payments or annuity distribution options. The Plan also provides for hardship withdrawals.

Note 2 - Significant Accounting Policies

Basis of Accounting - The financial statements of the Plan are prepared on the accrual basis of accounting.

Investments held by a defined contribution plan are required to be reported at fair value, except for fully benefit-responsive investment contracts. Contract value is the relevant measure for the portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants normally would receive if they were to initiate permitted transactions under the terms of the Plan.

Use of Estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America (U.S. GAAP) requires management to make estimates and assumptions that affect the reported amount of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition - Investments are reported at fair value (except for fully benefit-responsive investment contracts, which are reported at contract value). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements. Purchases and sales are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Net appreciation or depreciation in fair value of investments represents the change in fair value of assets from one period to the next and realized gains and losses on investments.

Payment of Benefits - Benefits are recorded when paid.

Administrative Expenses - The Plan's investment options are subject to investment and administrative fees based on a percentage of invested assets. All such fees are charged directly against investment performance and not separately disclosed in the accompanying financial statements. Certain fees and expenses of the Plan for legal, accounting, and other administrative services are paid directly by the Foundation on behalf of the Plan.

Subsequent Events - The Sponsor has evaluated subsequent events through October 11, 2019, the date on which the Plan's financial statements were available to be issued.

Note 3 - Fair Value Measurements

U.S. GAAP establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3).

The three levels of the fair value hierarchy are described as follows:

Level 1 - Unadjusted quoted prices available in active markets for identical assets or liabilities;

Level 2 - Inputs other than Level 1 that are observable, either directly or indirectly, such as quoted prices in active markets for similar assets or liabilities, quoted prices for identical or similar assets or liabilities in markets that are not active, or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities; or

Level 3 - Unobservable inputs that are significant to the fair value measurement.

A financial instrument's level within the fair value hierarchy is based upon the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2018 and 2017.

Variable Annuity Accounts - Variable annuity accounts are valued by VALIC daily by multiplying the number of units held with the accumulation unit value (AUV). The AUV is determined based on the net asset value (NAV) of shares of the underlying fund, the fund's dividends, and any charges to the accounts. The NAV per accumulate unit is used as a practical expedient for measuring fair value. Participants may transfer all or a portion of their account value among the Plan's variable annuity accounts. VALIC allows eligible participants to withdraw the fair value of their variable annuity accounts, in whole or in part, at any time without penalty.

Fixed Annuity Contracts - The Plan's fixed annuity contracts that are not considered fully benefit-responsive and measured at fair value is offered through the fixed account plus (FAP) contract type. Under FAP contracts, participant initiated transfers and withdrawals may be subject to restrictions and surrender charges. FAP contracts are reported at contract value which is the aggregation of contributions, plus interest, less any withdrawals. Contract value approximates a discounted cash flow value (fair value) calculated using an appropriate risk-adjusted market discount rate which correlates closely with the contract's historical crediting rates.

Fair value is determined annually for financial statement reporting purposes. In determining the reasonableness of the methodology, the Plan's management evaluates a variety of factors including review of existing contracts, historical returns, market conditions, and overall credit ratings. Certain unobservable inputs are determined through review of contract terms (e.g. historical crediting rates) while others are substantiated utilizing available market data (e.g. Treasury yields).

A description of the significant investment strategies for investments measured using the NAV per share (or its equivalent) practical expedient are required to be disclosed unless the investment files a Form 5500 as a direct filing entity. The titles of the investments presented below show the investment strategies for these investments. Only those investments that are greater than 5% of total net assets as of December 31, 2018 and 2017 are presented below:

Note 4 - Fully Benefit-Responsive Investment Contracts

In addition to the nonbenefit-responsive fixed annuity contracts described in Note 3, the Plan also holds benefit-responsive fixed annuity contracts through the short-term fixed account contract type. Short-term fixed account contracts provide for full participant-directed liquidity and are reported at contract value. Contract value is the aggregation of contributions, plus interest, less withdrawals.

VALIC maintains contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. VALIC is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan. The rate of credited interest for any period of time will be determined by VALIC. The rate credited is the rate in effect on the day when each deposit is directed to the fixed annuity contracts.

No events are probable of occurring that might limit the ability of the Plan to transact at contract value with VALIC and that also would limit the ability of the Plan to transact at contract value with participants.

Note 5 - Certified Investments

The plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Investments held at December 31, 2018 and 2017, and investment income or loss and transactions for the year ended December 31, 2018, that is disclosed in the accompanying financial statements and supplementary information, was obtained or derived from information supplied to the plan administrator and certified as complete and accurate by VALIC. The Plan's independent accountants did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplementary information.

Note 6 - Plan Termination

Although it has not expressed any intent to do so, the Sponsor has the right under the Plan to terminate the Plan subject to the provisions of the ERISA.

Note 7 - Exempt Party-in-Interest Transactions

Plan investments are variable and fixed annuity contracts issued by VALIC and, therefore, transactions with the Plan's investments qualify as party-in-interest transactions.

Note 8 - Income Tax Status

The Plan has been designed to qualify under Section 403(b) of the IRC. The Plan is required to operate in conformity with the IRC to maintain the tax-exempt status for plan participants under Section 403(b). Management believes it has operated the Plan in a manner that did not jeopardize the tax benefits associated with these arrangements.

The Plan is subject to audits by the Internal Revenue Service; however, there are currently no audits for any tax periods in progress.

Note 9 - Risks and Uncertainties

The Plan's investments invest in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Note 10 - Concentrations of Credit Risk

Financial instruments that potentially subject the Plan to concentrations of credit risk consist principally of the fixed annuity contracts issued by VALIC. This investment represents approximately 31% and 25% of total Plan investments at December 31, 2018 and 2017, respectively. The Plan's management seeks to limit its credit exposure by placing its contracts with high-credit quality institutions.
