Notes to Financial Statements
December 31, 2018 and 2017

1. Description of the Plan

General. Forest City Employer, LLC 401(k) Employee Savings Plan & Trust (the “Plan”) is a defined contribution plan covering all employees of Forest City Employer, LLC (the “Company”), a subsidiary of Forest City Realty Trust Inc. (“FCRT”), except contract security, temporary employees, interns, employees covered by collective bargaining agreements that do not permit participation in the Plan and employees of non-legacy Forest City Enterprises, Inc. companies as defined in the Plan, as amended. On December 7, 2018, FCRT completed the planned merger agreement (“Merger Agreement”) between FCRT and Antlia Holdings LLC (“Parent”), an entity affiliated with a Brookfield Asset Management Inc. real estate investment fund, whereby FCRT survived as a wholly owned subsidiary of Parent. Prior to the Merger Agreement, certain employees of RMS Investment Corporation (“RMS”), a former affiliate of the Company, were also covered by the provisions of the Plan. The Company and RMS (prior to December 7, 2018) are herein collectively referred to as the Employer. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (“ERISA”).

The Plan document was amended and restated as of January 1, 2018 to change the formula and frequency of the Employer’s matching contribution and to adjust the participant auto enrollment feature.

Eligibility. Employees who are scheduled to work at least 20 hours per week, completed 90 days of service and have attained age 21 are eligible.

Participant Accounts. Each participant’s account is credited with the participant’s contribution (deferred compensation), the Employer’s matching contribution, and allocation of the Plan’s earnings or losses. The benefit to which a participant is entitled is the benefit that can be provided from the participant’s vested account.

Contributions. Each year, participants may make pretax and Roth post-tax contributions up to 50% of annual compensation, subject to statutory limitations imposed by the Internal Revenue Code (“IRC”). After 90 days, new employees are automatically enrolled at a 3% contribution level unless they affirmatively opt-out. On April 1 of each year, employees contributing between 1% - 14% of pre-tax earnings will receive an automatic 1% increase to their contribution level up to a maximum of 15%. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. Participants direct the investment of their contribution into various investment options offered by the Plan. Each pay period the Employer contributes to the Plan a discretionary matching contribution equal to a percentage of each participant’s contribution, subject to a maximum per participant. The Employer’s matching contribution for 2018 was 100% of the first 3% and 50% of the next 2% of each participant’s deferred compensation for a maximum match of 4%, providing the participant contributed at least 5% of employee wages to the Plan.

Vesting. Participants are immediately vested in all contributions made plus actual earnings thereon.

Payment of Benefits. Lump-sum payments are made for normal retirement, death, termination or financial hardship. In addition, lump sum payments are made upon reaching age 59 1/2, at the election of the participant.

Notes Receivable from Participants. Participants may borrow a minimum of \$1,000 up to a maximum equal to the lesser of (1) \$50,000 reduced by the highest outstanding loan balance in the previous 12 months or (2) 50 percent of the participant’s vested account balance. The loans are secured by the balance in the participant’s account and bear interest at the fixed rate of 1% above prime. The interest rate is fixed at the inception of the loan. Outstanding loans bore interest at 4.25% - 6.25% at December 31, 2018 and 4.25% - 5.25% at December 31, 2017. Loan balances are amortized on a level basis over a period not to exceed five years, except for a loan used to acquire a participant’s principal residence, which may be amortized over a period up to ten years. Principal and interest paid by the participant is credited to the participant’s account.

2. Summary of Significant Accounting Policies

Basis of Accounting. The accompanying financial statements were prepared under the accrual method of accounting.

Use of Estimates. The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition. Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 of the financial statements for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) in fair value of investments includes realized gains and losses and unrealized appreciation and depreciation on those investments.

Administrative Expenses. Certain expenses of maintaining the Plan are paid directly by the Employer and are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in loan origination fees. Investment related expenses are included in net appreciation (depreciation) in fair value of investments.

Notes Receivable from Participants. Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. No allowance for credit losses has been recorded as of December 31, 2018 or 2017. If a participant ceases to make loan repayments and the Plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Payment of Benefits. Benefits are recorded when paid.

Risks and Uncertainties. The Plan provides for various investment options in any combination of Company stock (prior to March 16, 2018), mutual funds and a collective trust fund. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statements of Net Assets Available for Benefits.

3. Fair Value Measurements

Accounting guidance provides a framework for measuring fair value, and requires additional disclosures about fair value measurements. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for the identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Forest City Employer, LLC 401(k) Employee Savings Plan & Trust
Notes to Financial Statements
December 31, 2018 and 2017

Following is a description of the valuation methodologies used for assets measured at fair value.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily Net Asset Value (“NAV”) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

FCRT Common stock (2017): Valued at the closing price reported on the active market on which the individual securities were traded.

Collective trust fund - Stable Value fund: Valued at the NAV of units of the collective trust. The fund is composed primarily of fully benefit-responsive investment contracts that are valued at contract value. NAV is determined to be contract value which is the value participants would receive if they were to initiate permitted transactions under the terms of the Plan. The NAV is used as a practical expedient to measure fair value.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan’s investments at fair value as of December 31:

2018				
	Level 1	Level 2	Level 3	Total

The following table sets forth additional disclosures for the fair value measurement of investments in certain entities that calculate NAV per share (or its equivalent) as of December 31, 2018 and 2017:

Investment Type	Fair Value		Unfunded	Redemption	Redemption
	2018	2017	Commitments	Frequency	Notice Period
Stable Value Fund	\$ 17,622,157	\$ 15,081,515	\$ —	Daily	Daily

4. Collective Trust Fund - Stable Value Fund

The objective of the Stable Value Fund (“Fund”) is to provide maximum current income while maintaining stability of principal. To achieve this objective, the Fund will invest primarily in investments that are designed to provide stability and

a competitive yield, such as, Synthetic Investment Contracts and Guaranteed Investment Contracts. Because such investments are not actively traded in the open market and generally must be held until maturity, there is a risk that, like any investment, one or more of the Fund's holdings could fail to make scheduled interest and principal payments prior to maturity, potentially reducing the Fund's income level and causing a loss of principal. Were the Plan to initiate a full redemption of the collective trust, the investment advisor reserves the right to temporarily delay withdrawal from the Fund in order to ensure that securities liquidations will be carried out in an orderly business manner.

Participants may ordinarily direct the withdrawal or transfer of all of their investment at contract value daily without any limitations. Certain events including, but not limited to, partial or complete legal termination or tax disqualification of the Plan, may limit the ability of participants to transact at contract value; however, the Plan administrator believes that any such events are not probable of occurring.

5. Information Prepared and Certified by the Trustee

The Plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, T. Rowe Price, the Plan's trustee, has certified that the following data included in the accompanying financial statements and supplemental schedule is complete and accurate:

- Investments and notes receivable from participants, as shown in the Statement of Net Assets Available for Benefits as of December 31, 2018.
- Investment income (loss) and interest income on notes receivable from participants, as shown in the Statement of Changes in Net Assets Available for Benefits for the year ended December 31, 2018.
- Schedule H, line 4i - schedule of assets (held at end of year) as of December 31, 2018.

The Plan's independent accountants did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedule.

6. Related Party and Party-In-Interest Transactions

The Plan invests in shares of mutual funds and a collective trust fund managed by T. Rowe Price, which qualify as party-in-interest transactions.

Pursuant to the Merger Agreement, at the effective time of the merger, each share of FCRT Class A common stock issued and outstanding immediately prior to the effective time was converted into the right to receive an amount in cash equal to \$25.35 per share. The cash proceeds from conversion of the Plan's investment in FCRT Class A common stock was reinvested according to each participant's investment allocation election.

Effective March 16, 2018, dividends on FCRT common stock were no longer permitted to be reinvested into FCRT common stock and were instead invested according to each participant's investment allocation election.

The Plan held an investment in FCRT Class A common stock of \$8,558,985 (355,145 shares) at December 31, 2017.

7. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would remain 100 percent vested in their Employer contributions and all unallocated amounts would be allocated to the participants in accordance with the provisions of the Plan.

8. Tax Status

The Internal Revenue Service ("IRS") issued an opinion letter dated August 2, 2017, stating that the form of the prototype plan used by the Plan is acceptable under Section 401 of the IRC. Although the Plan has been amended since the opinion

Forest City Employer, LLC 401(k) Employee Savings Plan & Trust
Notes to Financial Statements
December 31, 2018 and 2017

letter was issued, the Plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and the Plan is exempt from federal income taxes.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2018 and 2017, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

9. Subsequent Events

It is the Company's intent to merge the Plan into the Brookfield 401(k) Savings Plan effective December 31, 2019.
