(1) Description of Plan

The following description of Greensboro Radiology, P.A. 401(k) Profit Sharing Plan ("Plan") is provided for general information purposes only. Participants should refer to the Plan Agreement for a more complete description of the Plan's provisions.

Effective January 1, 2018, Plan assets of $13,165,770 were transferred to a separate plan of one of Greensboro Radiology, P.A ("Company") affiliates, that previously were included in the Company's Plan.

(a) **General** - The Plan is a qualified defined contribution plan covering all employees of Greensboro Radiology, P.A ("Company") and its affiliates who are at least 21 years of age with six months of eligible service. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). All investments are participant directed.

(b) **Contributions** - Participants may contribute to the Plan, through payroll deduction, amounts up to 100% of their annual earnings, subject to certain limitations. Participants who have attained the age of 50 before the end of the Plan year are eligible to make catch-up contributions. The Company funds a safe harbor contribution of 3% of participant's compensation. The Company also funds, as a regular employer discretionary match, a maximum 1.75% of participant's compensation. Participants must complete one year of service to be eligible for employer contributions.

Each year the Company may make additional discretionary contributions to the Plan. Discretionary contributions of $1,759,032 and $1,918,838 were recorded for 2018 and 2017, respectively.

(c) **Participant Accounts** - Each participant's account is credited with the participant's contribution and an allocation of the Company's contributions, Plan earnings (losses), and administrative fees. Allocations are based on participant earnings or account balances, as defined by the Plan Agreement. The benefit to which a participant is entitled is the benefit that can be provided from the participant's account.

(d) **Vesting** - Participants are immediately vested with respect to their elective deferral contributions and safe harbor contributions and actual earnings thereon. Vesting in regular employer match and discretionary contributions and actual earnings thereon is based on years of continuous service. A participant is 20% vested after two years and vests an additional 20% every year thereafter, until reaching 100% after six years of credited service.

(e) **Forfeitures** - Forfeitures of employer matching and discretionary contributions are used to reduce future employer contributions. During 2018 and 2017, forfeitures of $106,261 and $864 were used to reduce employer contributions, respectively. At December 31, 2018 and 2017, forfeited non-vested accounts totaled $5,822 and $64,863, respectively.

(f) **Payment of Benefits** - In the event of termination of employment, disability, death or retirement (age 59 ½), a participant may elect to receive benefits either by a lump sum distribution or periodic installments over a period of time as described in the Plan Agreement. Distributions of vested account balances of $5,000 or less will generally be made in a single sum payment. Hardship distributions of participant's contributions are permitted.

(g) **Plan Termination** - The Company expects to continue the Plan indefinitely, but reserves the right to terminate the Plan in whole or in part at any time upon giving written notice to all parties concerned subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

- Continued -

(h) **Notes Receivable from Participants** - Effective January 1, 2016, participants may borrow from their fund accounts a minimum of $1,000 up to the lesser of $50,000 or a maximum equal to 50% of their vested account balance. Loan transactions are treated as a transfer to (from) the investment fund from (to) the participant loans funds. Loan terms are based on a five-year term and bear interest at the then current prime rate (5.50% at December 31, 2018) plus 1%. The loans must be adequately secured with at least 50% of the present value of the participant's vested interest in the Plan. Principal and interest are paid through salary reductions each pay period.

(i) **Expenses** - Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements.

(2) Summary of Accounting Policies

(a) **Basis of Accounting** - The financial statements are prepared using the accrual method of accounting.

(b) **Management Estimates** - The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

(c) **Investment Valuation** - The Plan's investments are stated at fair value, except for fully benefit-responsive investment contracts, which are reported at contract value. Contract value is the amount participants normally would receive if they were to initiate permitted transactions under the terms of the Plan. Fair value is the price that would be received to sell an asset in an orderly transaction between market participants at the measurement date.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net investment changes includes the Plan's gains and losses on investments bought and sold as well as held during the year.

(d) **Notes Receivable from Participants** - Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan Agreement.

(3) Fair Value Measurements

FASB ASC 820, Fair Value Measurements, establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority, Level 2 inputs are inputs other than quoted prices included within Level 1 that are observable and Level 3 inputs have the lowest priority and are unobservable inputs of market activity. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. Level 3 inputs were used only when Level 1 or Level 2 inputs were not available.

(4) Guaranteed Investment Contract

During 2018, the Plan entered into a traditional fully benefit-responsive guaranteed investment contract with MassMutual Retirement Services ("MMRS"). The contract is an investment option with a general investment account guarantee that provides a stated rate of return and insulates participants' accounts from daily fluctuations in the market. Contract value represents contributions, plus credited interest, less participant withdrawals and fees. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

Because the guaranteed investment contract meets the criteria to be considered fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. The guaranteed investment contract is presented on the face of the statement of net assets available for benefits at contract value. Contract value, as reported to the Plan by MMRS, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Under the terms of the contract, participants may direct permitted withdrawal and/or transfer transactions of all or a portion of their balance at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The contract value of the investment contract at December 31, 2018 and 2017, was $2,170,762 and $4,655,794, respectively. The crediting interest rate is based on a formula agreed upon with the issuer, and the average rate was 2.34% and 2.88% for 2018 and 2017, respectively. Such interest rates are reviewed on a quarterly basis for resetting.

Certain events may limit the ability of the Plan to transact at contract value with MMRS. Such events include but may not be limited to the following: (1) the complete or partial termination of the Plan; (2) the establishment or activation of, or material change in, any Plan investment fund, or an amendment to the Plan or a change in the administration or operation of the Plan, including the removal of a group of employees from Plan coverage as a result of the sale or liquidation of a subsidiary or division or as a result of group layoffs or early retirement programs. Plan management does not believe that any events that would limited the Plan's ability to transact at contract value with Plan participants or the issuer are probable of occurring.

(5) Tax Status

The Plan is based on a WLR & Associates prototype defined contribution plan. WLR & Associates Administrators, Inc. obtained an opinion letter dated March 31, 2008 in which the Internal Revenue Service stated that the prototype plan is designed in compliance with the applicable requirements of the Internal Revenue Code. The Plan has been amended since receiving this letter. However, the Plan administrator, trustees and tax counsel believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability or asset if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2018 and 2017, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or asset or disclosure in the financial statements. The Plan is not currently under examination for any tax periods. The Plan, by expiration of the stature of limitations, is generally no longer subject to examination by taxing authorities for the years ending December 31, 2015 or earlier.

(6) Information Certified by the Custodian

The investment assets and investment income information in the statements of net assets available for benefits and changes in net assets available for benefits, as well as the Schedule, were summarized from information supplied and certified by the custodian, Reliance Trust Company. The information obtained from the custodian was not audited by independent public accountants as permitted by 29 CFR 2520. 103-5(c) of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

(7) Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for plan benefits.

(8) Subsequent Events

Management has evaluated subsequent events through October 10, 2019, the date which the financial statements were available to be issued.
