Charles Cole Memorial Hospital Retirement Savings Plan

Notes to Financial Statements

December 31, 2018 and 2017

Note 1: Description of the Plan

General

The following description of Charles Cole Memorial Hospital Retirement Savings Plan (Plan) provides only general information. Participants should refer to the Plan Document for a more complete description of the Plan's provisions.

The Plan is a defined contribution plan sponsored by Charles Cole Memorial Hospital (Hospital) for the benefit of its employees. Employees are immediately eligible to participate in the Plan as a contributing participant upon commencement of employment with the Hospital. Participants are required to have six months of service to qualify for employer contributions. Scholarship recipients and temporary employees who have completed less than 1,000 hours of service during the current Plan year are not eligible for employer contributions.

The Plan is subject to the provisions of the *Employee Retirement Income Security Act of 1974* (ERISA). The Board of Directors of the Hospital serves as the trustee of the Plan. Reliance Trust Company serves as Plan custodian and Metropolitan Life Insurance Company (as an agent for Reliance Trust Company) and FASCore, LLC serve as record keepers for the Plan.

Contributions

The Plan permits eligible employees, through a salary deferral election, to have the Hospital make annual contributions of up to 100% of eligible compensation. Effective July 1, 2017, the Plan was amended to include an employer match of 50% of the first 4% of eligible compensation contributed, and 25% of the next 2% of eligible compensation contributed for a maximum match of 2.5% of eligible compensation. As part of this amendment, the discretionary 1% employer contribution was eliminated.

Prior to the July 1, 2017 amendment, the Hospital made discretionary matching contributions equal to 50% of participants' deferrals to the Plan up to a maximum of 3% of compensation. The Hospital also made nonelective contributions that are at the sole discretion of the Hospital. Any nonelective contributions were calculated by using 1% of the participant's compensation calculated each payroll.

Contributions are subject to certain limitations. Employee rollover contributions are also permitted. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions.

Participant Investment Account Options

Investment account options available include various mutual funds and a fixed annuity account. Each participant has the option of directing contributions into any of the investment account options selected by the Hospital and may change the allocation to the extent permitted by the individual agreements.

Charles Cole Memorial Hospital Retirement Savings Plan

Notes to Financial Statements

December 31, 2018 and 2017

Effective as of March 1, 2017, the Plan Document also includes an automatic deferral feature whereby all new participants are treated as electing to defer 3% of eligible compensation after six months of service, unless the participant made an affirmative election otherwise. Effective as of May 1, 2018, this automatic deferral feature was extended to all participants without an existing deferral agreement.

Participant Accounts

Each participant's account is credited with the participant's contribution, the Hospital's contributions and Plan earnings and is charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in all contributions plus earnings thereon.

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their account balance. The loans are secured by the balance in the participant's account. The loan interest rate, determined daily, is set at 2% above the prime rate, as defined. All loans are covered by demand notes and are repayable over a period not to exceed five years (except for loans for the purchase of a principal residence). Principal and interest is paid ratably through ACH payments from the participants' personal bank accounts.

Payment of Benefits

Upon termination of service due to death, disability or retirement, or other reasons, a participant may elect to receive either a lump-sum amount equal to the value of his account or installment payments. A participant may elect to receive a distribution of their rollover contributions at any time. Withdrawals other than for termination are permitted under circumstances provided by the Plan.

Forfeited Accounts

At December 31, 2018 and 2017, forfeited nonvested accounts totaled \$1,777 and \$1,664, respectively. These accounts will be used to reduce future employer contributions. Also, in 2018 and 2017, no employer contributions were reduced from forfeited nonvested accounts.

Other Unallocated Assets

In accordance with the service agreement with the Hospital, a portion of the Strategic Value Annuity account represents a Plan-level expense account that is primarily funded by expense reimbursements provided by Metropolitan Life Insurance Company. The balance of this account was \$14,324 and \$6,385 at December 31, 2018 and 2017, respectively. The Hospital has the ability to use these funds to pay for future Plan expenses. Plan expenses of \$18,000 and \$25,483 were paid for investment management services from this account in the years ended December 31, 2018 and 2017, respectively. This account is regarded as an asset of the Plan for financial statement and Form 5500 reporting.

Note 2: Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements are prepared on the accrual basis of accounting.

Investment contracts held by a defined contribution plan are required to be reported at fair value, except for fully benefit-responsive investment contracts. Contract value is the relevant measure for the portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts, because contract value is the amount participants normally would receive if they were to initiate permitted transactions under the terms of the Plan.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets and changes in net assets and disclosure of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value, except for fully benefit-responsive investment contracts, which are reported at contract value. Quoted market prices, if available, are used to value investments. Mutual funds are valued at the net asset value (NAV) of shares held by the Plan at year end.

Fully benefit-responsive investment contracts are valued at contract value. Contract value represents contributions made under the contract, plus interest at the contract rate, less participant withdrawals and administration expenses.

Charles Cole Memorial Hospital Retirement Savings Plan

Notes to Financial Statements

December 31, 2018 and 2017

The fair value of the life insurance policies are calculated by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the creditworthiness of the issuer.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) in the fair value of investments includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan Document.

Payment of Benefits

Benefit payments to participants are recorded upon distribution.

Administrative Expenses

Administrative expenses may be paid by the Hospital or the Plan, at the Hospital's discretion.

Transfers Between Fair Value Hierarchy Levels

Transfers in and out of Level 1 (quoted market prices), Level 2 (other significant observable inputs) and Level 3 (significant unobservable inputs) are recognized on the last day of the Plan year.

Note 3: Certification of Plan Custodian

The Plan Administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Metropolitan Life Insurance Company, as an agent for Reliance Trust Company, the custodian of the Plan, has certified the following information included in the accompanying financial statements and supplemental schedule is complete and accurate:

- Investments and notes receivable from participants as shown in the statements of net assets available for benefits as of December 31, 2018 and 2017, exclusive of the life insurance policies.

Charles Cole Memorial Hospital Retirement Savings Plan

Notes to Financial Statements

December 31, 2018 and 2017

- Investment income and interest income from notes receivable from participants as shown in the statements of changes in net assets available for benefits for the years ended December 31, 2018 and 2017, exclusive of the life insurance policies.
- Investment information and notes receivable from participants included in the accompanying schedule of assets (held at end of year) as of December 31, 2018, exclusive of the life insurance policies.

The Plan's independent auditors did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedule.

Note 4: Related-Party and Party-in-Interest Transactions

Party-in-interest transactions include those with fiduciaries or employees of the Plan, any person who provides services to the Plan, an employer whose employees are covered by the Plan, an employee organization whose members are covered by the Plan, a person who owns 50% or more of such an employer or employee association, or relatives of such persons.

Certain Plan investments are a fixed annuity account or life insurance policies managed by Metropolitan Life Insurance Company, which is the record keeper for the Plan. Therefore, these transactions qualify as party-in-interest transactions. Fees incurred by the Plan for the investment management services are included in net appreciation (depreciation) in fair value of the investment, as they are paid through revenue sharing, rather than a direct payment. The Hospital pays directly certain other fees related to the Plan's operations.

The Plan also paid \$98,627 and \$94,224 of administrative fees to Metropolitan Life Insurance Company during 2018 and 2017, respectively. Individually nonmaterial expenses paid to other parties-in-interest aggregated \$30,907 and \$25,483 for 2018 and 2017, respectively. The Hospital provides certain administrative services at no cost to the Plan and pays for certain accounting and administrative costs.

Note 5: Plan Amendments

Effective March 1, 2017, the Plan was amended to add an automatic deferral feature whereby a participant is treated as electing to defer 3% of eligible compensation after six months of service unless the participant makes an affirmative election otherwise. This amendment applies to all new participants whose entry dates are on or after the effective date.

Effective July 1, 2017, the Plan was amended to change the formula for the Hospital's matching contributions. The Hospital will now contribute 50% of employee deferrals up to 4% of eligible compensation and 25% of employee deferrals between 4% and 6% of eligible compensation. As part of this amendment, the discretionary 1% employer contribution was eliminated.

Charles Cole Memorial Hospital Retirement Savings Plan

Notes to Financial Statements

December 31, 2018 and 2017

Effective as of May 1, 2018, the Plan was amended to add a one-time automatic deferral feature whereby all participants without a salary reduction agreement as of the effective date are treated as electing to defer 3% of eligible compensation, unless the participant makes a subsequent affirmative election otherwise. The previous auto enrollment provisions of the Plan have applied only to newly hired employees.

Effective June 1, 2018, the Plan was amended to allow participant forfeitures to be used to reduce employer non-elective and matching contributions, which is to occur in the Plan year following the Plan year in which the designated forfeitures occur.

Effective March 1, 2018, the Plan was amended to credit prior employment by participants at the University of Pittsburgh Medical Center as years of employment at the Plan Sponsor for eligibility and vesting purposes.

Note 6: Disclosures About Fair Value of Plan Assets and Liabilities

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Fair value measurements must maximize the use of observable inputs and minimize the use of unobservable inputs. The hierarchy comprises three levels of inputs that may be used to measure fair value:

- Level 1** Quoted prices in active markets for identical assets or liabilities
- Level 2** Observable inputs other than Level 1 prices, such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities
- Level 3** Unobservable inputs supported by little or no market activity and that are significant to the fair value of the assets or liabilities

Notes to Financial Statements

December 31, 2018 and 2017

Recurring Measurements

The following table presents the fair value measurements of assets recognized in the accompanying statements of net assets available for benefits measured at fair value on a recurring basis and the level within the fair value hierarchy in which the fair value measurements fall at December 31, 2018 and 2017:

	Fair Value	Fair Value Measurements Using		
		Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
December 31, 2018				
Mutual funds	\$ 18,364,324	\$ 18,364,324	\$ -	\$ -
Life insurance policies	11,767	-	11,767	-
Investments at fair value	<u>\$ 18,376,091</u>	<u>\$ 18,364,324</u>	<u>\$ 11,767</u>	<u>\$ -</u>
December 31, 2017				
Mutual funds	\$ 18,611,704	\$ 18,611,704	\$ -	\$ -
Life insurance policies	12,245	-	12,245	-
Investments at fair value	<u>\$ 18,623,949</u>	<u>\$ 18,611,704</u>	<u>\$ 12,245</u>	<u>\$ -</u>

Following is a description of the valuation methodologies and inputs used for assets measured at fair value on a recurring basis and recognized in the accompanying statements of net assets available for benefits, as well as the general classification of such assets pursuant to the valuation hierarchy. There have been no significant changes in the valuation techniques during the years ended December 31, 2018 and 2017. The Plan had no liabilities measured at fair value on a recurring basis. In addition, the Plan had no assets or liabilities measured at fair value on a nonrecurring basis.

Investments

Where quoted market prices are available in an active market, securities are classified within Level 1 of the valuation hierarchy. If quoted market prices are not available, then fair values are estimated by using quoted prices of securities with similar characteristics or independent asset pricing services and pricing models, the inputs of which are market-based or independently sourced market parameters, including, but not limited to, yield curves, interest rates, volatilities, prepayments, defaults, cumulative loss projections and cash flows. Such securities are classified in Level 2 of the valuation hierarchy. In certain cases where Level 1 or Level 2 inputs are not available, securities are classified within Level 3 of the hierarchy.

Charles Cole Memorial Hospital Retirement Savings Plan

Notes to Financial Statements

December 31, 2018 and 2017

Note 7: Investment Contract with Insurance Company

The Plan invests in the Strategic Value Annuity account, a traditional fully benefit-responsive fixed annuity investment contract with Metropolitan Life Insurance of Connecticut (MetLife). MetLife maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate guaranteed to the Plan.

The fixed annuity investment contract is fully benefit responsive; therefore, contract value is the relevant measurement. Contract value, as reported to the Plan by MetLife, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against the contract value for credit risk of the contract issuer or otherwise.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the Plan Documents (including complete or partial plan termination or merger with another plan), (2) changes to Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the plan sponsor or other plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA.

Certain versions of the Strategic Value Annuity include a market value adjustment formula in the event of contract termination. The Plan Administrator does not believe the occurrence of any such value event, which would limit the Plan's ability to transact at contract value with participants, is probable.

The fixed annuity investment contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

Note 8: Plan Termination

Although it has not expressed any intent to do so, the Hospital has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would remain 100% vested in their employer contributions.

Charles Cole Memorial Hospital Retirement Savings Plan

Notes to Financial Statements

December 31, 2018 and 2017

Note 9: Tax Status

The Plan, together with the investment vehicles, is intended to be a tax-sheltered annuity plan under Section 403(b) of the Internal Revenue Code of 1986, as amended. The Plan has not requested or obtained a determination letter. However, the Plan Administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code and not subject to tax.

Note 10: Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the participants' account balances and the amounts reported in the statements of net assets available for benefits.

Note 11: Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements at December 31, 2018 and 2017, to Form 5500:

	<u>2018</u>	<u>2017</u>
Net assets available for benefits per the financial statements	\$ 25,332,044	\$ 25,452,409

Net assets per Form 5500	<u>\$ 25,297,891</u>	<u>\$ 25,428,148</u>

The following is a reconciliation of the change in net assets available for benefits per the financial statements for the years ended December 31, 2018 and 2017, to net income per Form 5500:
