MBA Poultry 401(k) Plan

Notes to Financial Statements

December 31, 2018 and 2017

1. Plan Description

The following brief description of the MBA Poultry 401(k) Plan (the Plan) is provided for general informational purposes only. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Plan was established in July 2006 to provide retirement benefits for the employees of Tecumseh Poultry, LLC (the Company).

Employees are eligible to make salary reduction contributions after attaining age 21 and completing one year of service with at least 1,000 hours. Eligible employees become participants on the first day of the quarter following completion of the eligibility requirements.

Participants are eligible for discretionary matching and discretionary profit sharing contributions if they are employed on the last day of the Plan year and have completed 1,000 hours during the Plan year.

Effective January 30, 2019, the Plan was merged into the Tyson Retirement Savings Plan (See Note 9).

Contributions

Participants may make voluntary salary deferral pre-tax and after-tax Roth designated contributions up to the maximum dollar limits allowable by law. Participants may also contribute amounts representing distributions from other qualified plans. All participants who are eligible to make deferral contributions and who are projected to obtain the age of 50 before the close of the calendar year shall be eligible to make catch-up contributions. The Company may make discretionary matching and profit sharing contributions. Contributions are subject to certain limitations.

Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of (a) the Company's discretionary matching contribution, (b) the Company's discretionary profit sharing contribution and (c) Plan earnings or losses, and (d) charged with an allocation of administrative expenses. The Company's discretionary matching contribution is allocated among participants based upon each eligible participant's elected salary deferral. The Company's discretionary profit sharing contribution is allocated among participants based upon compensation of eligible participants. Plan earnings or losses are allocated on the basis of actual results of the investments selected by each participant. Investments are maintained in individual member accounts by United of Omaha Life Insurance Company (United).

MBA Poultry 401(k) Plan

Notes to Financial Statements

December 31, 2018 and 2017

Vesting

Participants are immediately vested in their contributions plus actual earnings or losses thereon. Company contributions credited to participants' accounts are vested based on years of continuous service. A participant is 20% vested after two years of service and vesting increases 20% per year until a participant is 100% vested after six years of service.

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. The notes are secured by the balance in the participant's account and bear interest at rates which are commensurate with local prevailing rates. Principal and interest are paid through payroll deductions.

Payment of Benefits

Upon termination, retirement, disability, or death, the participant or beneficiary may elect to receive a lump sum payment equal to the value of the vested funds allocated to the participant's account. Distributions under \$1,000 will be paid out to the participant or beneficiary in the event the participant or beneficiary does not elect a payout option. The Plan requires that distribution payments between \$1,000 and \$5,000 be directly rolled over to an individual retirement account designated by the plan administrator in the event that the participant does not elect otherwise. Benefits payments are recorded when paid.

Forfeitures

Upon a participant's termination of employment before normal retirement, disability, or death, the portion of their Company contributions not then vested shall be forfeited. The forfeited portion of any participant's account will be used to reduce future Company contributions and may also be used to offset Plan expenses. There were no forfeited, non-vested accounts at December 31, 2018 and 2017.

Deposits with Insurance Companies

The guaranteed investment account, which is part of the investment contract with United, credits interest daily. The average crediting interest rate for the years ended December 31, 2018 and 2017 was 1.17% and 0.87%, respectively.

2. Summary of Significant Accounting Policies

A summary of the significant accounting policies consistently applied in the preparation of the accompanying financial statements is set forth below.

Basis of Accounting

The accompanying financial statements have been prepared on the accrual basis and in conformity with accounting principles generally accepted in the United States of America.

Presentation of Participant-Directed Funds

The Plan's presentation of participant-directed investments is in accordance with the Financial Accounting Standards Board (FASB), Accounting Standards Codification (ASC) 962, *Plan Accounting – Defined Contribution Pension Plans*.

Uses of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value, except for fully benefit-responsive investment contracts. Fair value is the price that would be received to sell an investment in an orderly transaction between market participants at the measurement date. See Note 4 for further discussion of fair value measurements.

Fully benefit-responsive investment contracts are reported at contract value. Contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Company invests in investment contracts through a guaranteed investment account.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

MBA Poultry 401(k) Plan

Notes to Financial Statements

December 31, 2018 and 2017

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant notes are reclassified as distributions based upon the terms of the Plan document.

Excess Participant Contributions Payable

Excess participant contributions represent amounts withheld from participants in excess of Internal Revenue Code limitations that are to be refunded at year-end. As of December 31, 2018 and 2017, \$42,192 and \$42,115 of excess contributions were recorded and refunded to participants. Excess participant contributions are netted against contributions in the statements of changes in net assets available for benefits.

Other

Investment related expenses are paid by the Plan and are included in net appreciation (depreciation) of fair value of investments. Other certain expenses specifically incurred by or attributable to individual participants are paid from the applicable participants' accounts and are included in administrative expenses. Audit fees and record-keeping expenses are paid by the Company and are excluded from these financial statements.

Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Subsequent Events

Subsequent events are events or transactions that occur after the statement of net assets available for benefits date but before the financial statements are available to be issued and may require potential recognition or disclosure in the financial statements. Management has considered such events or transactions through September 26, 2019. See Notes 1 and 9 for a description of a subsequent event.

3. Information Certified by United

The plan administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the plan administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the following information certified by United, except for comparing such information certified by the custodian to information included in the Plan's financial statements and supplementary information.

MBA Poultry 401(k) Plan

Notes to Financial Statements

December 31, 2018 and 2017

The following table presents the value of participant-directed Plan assets that were certified by United as of December 31,:

	<u>2018</u>	<u>2017</u>
Investments at Fair Value	\$ 3,352,363	\$ 3,116,584
Investments at Contract Value	213,098	171,449
	<u>\$ 3,565,461</u>	<u>\$ 3,288,033</u>

United has certified to the completeness and accuracy of the following related to the aforementioned investments for the years ended December 31,:

	<u>2018</u>	<u>2017</u>
Net Appreciation (Depreciation) in Fair Value of Investments	\$ (245,584)	\$ 450,909
Interest from Investments	2,007	932
Net Investment Income (Loss)	<u>\$ (243,577)</u>	<u>\$ 451,841</u>

4. Fair Value Measurements

FASB ASC 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

MBA Poultry 401(k) Plan

Notes to Financial Statements

December 31, 2018 and 2017

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used as of December 31, 2018 and 2017.

Pooled Separate Accounts: Valued at the Net Asset Value (NAV) of its underlying investments. The accounts include investments in fixed securities, mutual funds, common stocks or real estate which have observable level 1 or level 2 pricing inputs, including quoted prices for similar assets in active or non-active markets. FASB ASC 820, Fair Value Measurement, allows NAV per share to estimate the fair value as long as certain requirements are met. It is the Plan's assessment that these accounts meet those requirements. Since the participants have the ability to redeem the accounts at NAV, as of the measurement dates on a daily basis, the accounts are properly categorized as a Level 2 fair value measurement. The accounts also have no unfunded commitments.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table presents by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2018.

	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Total</u>
Pooled Separate Accounts	\$ -	\$ 3,352,363	\$ -	\$ 3,352,363

The following table presents by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2017.

MBA Poultry 401(k) Plan

Notes to Financial Statements

December 31, 2018 and 2017

The following table summarizes Level 2 investments measured at fair value based on the NAV per share as of December 31, 2018 and 2017, respectively.

December 31, 2018	Fair Value	Unfunded Commitments	Redemption Frequency	Redemption Notice Period
Pooled Separate Accounts	\$ 3,352,363	None	Daily	1 Day

December 31, 2017	Fair Value	Unfunded Commitments	Redemption Frequency	Redemption Notice Period
Pooled Separate Accounts	\$ 3,116,584	None	Daily	1 Day

5. Investment Contracts with United

The Plan has entered into investment contracts with United. United maintains the contributions in pooled separate accounts and a guaranteed investment account. The accounts are credited with earnings on the underlying investments and charged for Plan withdrawals and administrative expenses charged by United.

The pooled separate accounts, as reported to the Plan by United, are included in the financial statements at fair value, (which represents contributions made under the contract, plus earnings, less withdrawals and administrative expenses).

As the guaranteed investment account is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. Contract value, as reported to the Plan by United, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

The Plan's ability to receive amounts due in accordance with fully benefit-responsive contracts is dependent on the third-party issuer's ability to meet its financial obligations. The issuer's ability to meet its contractual obligations may be affected by future economic developments. No events are probable of occurring that might limit the ability of the Plan to transact at contract value with the contract issuers and that also would limit the ability of the Plan to transact at contract value with the participants.

6. Tax Status

The Plan is qualified as a profit sharing plan under Section 401(a) of the Internal Revenue Code and is exempt from federal income taxation under Section 501(a) of the Internal Revenue Code.

The plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, no provision for income taxes has been included in the financial statements.

MBA Poultry 401(k) Plan

Notes to Financial Statements

December 31, 2018 and 2017

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the applicable taxing authority. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2015.

7. Related Party Transactions

Certain Plan investments are pooled separate accounts and a guaranteed investment account managed by United. United is the custodian of the Plan, and therefore, these transactions qualify as party-in-interest transactions.

8. Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits as of December 31, 2018 and 2017 to the Form 5500:

Effective January 30, 2019, the Plan was merged into the Tyson Retirement Savings Plan.
