Swiss Valley Farms, Co. Employees' Pension Plan and Trust

Notes to Financial Statements

December 31, 2018 and 2017

Note 1: Description of the Plan

The following description of the Swiss Valley Farms, Co. Employees' Pension Plan and Trust (the "Plan") provides only general information. Additional information including information about the vesting and benefit provisions and the Pension Benefit Guaranty Corporation's (PBGC) benefit guarantee is contained in the Plan Document and *Summary Plan Description*, which are available from the Plan Administrator.

General

The Plan is a noncontributory defined benefit plan that covers substantially all employees of the former Swiss Valley Farms Cooperative and provides for retirement, death and disability benefits. On April 1, 2017, Prairie Farms Dairy, Inc. (the "Company") acquired 100 percent of the outstanding members' equity of Swiss Valley Farms Cooperative and Subsidiaries. The Plan is subject to provisions of the *Employee Retirement Income Security Act of 1974* (ERISA). Charles Schwab and New York Life were the custodians of the Plan for the period January 1, 2017 to October 17, 2017. Effective October 18, 2017, Country Trust Bank is the trustee and custodian of the Plan. Nyhart acts as the actuary of the Plan.

The Plan is administered by the Company's Advisory Committee ("Committee"), which is a committee of the management and board of directors of the Company. The Committee has overall responsibility for the operation and administration of the Plan. The Committee determines the appropriateness of the Plan's investment offerings, monitors investment performance and reports to the Company's Board of Directors.

Effective January 1, 2004, accumulation of benefits under the Plan were frozen for active participants other than those who were considered 'retirement-eligible.'

Contributions

The Company has agreed to voluntarily contribute such additional amounts that are necessary to provide assets sufficient to meet the benefits to be paid to Plan participants. The Company's present intention is to make contributions in amounts sufficient to annually fund the Plan's current service cost and the initial past-service costs plus interest on them over a period of 30 years. The Plan has met the minimum funding requirements established by ERISA.

Although it has not expressed any intention to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA.

Notes to Financial Statements

Pension Benefits

Benefits under the Plan are based on 1.0 percent of average monthly compensation multiplied by their total number of years of service prior to May 1, 1964 and 1.50 percent of average monthly compensation multiplied by their total number of years of service thereafter, as defined by the Plan. Normal retirement age for Plan benefits is 65. Participants may elect to receive reduced benefits upon early retirement at age 55, provided that they have at least five years of service with the Company. Accrued benefits are payable as an annuity over the participant's lifetime or as a qualified joint and survivor annuity. Participants may elect to receive their portion of the accrued benefits in the form of a lump-sum payment, provided that the participants' nonforfeitable accrued benefit is greater than \$5,000, but not greater than \$15,000.

Death Benefits

If a participant terminates employment with a right to a normal retirement pension, a deferred vested pension, or an early retirement pension, but dies prior to commencement of said pension, or dies prior to the termination of his employment, his beneficiary will receive a death benefit. The death benefit shall be equal to the greater of the sum of the participant's mandatory employee contributions to the Plan with interest or the present value of the normal retirement benefit accrued to the date of the participant's death.

Vesting

Upon completion of five years of vesting service but prior to becoming eligible for a normal retirement benefit, a participant is entitled to a deferred vested termination benefit equal to a percentage of their accrued retirement benefit. Eligible employees are fully vested upon completion of five years of vesting service. As previously described, the Plan was frozen in 2004 for all employees, except certain employees considered to be 'retirement-eligible.' As of December 31, 2018 and 2017, all participants were fully vested.

Note 2: Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets and changes in net assets available for benefits, disclosure of contingent assets and liabilities and the actuarial present value of accumulated plan benefits at the date of the financial statements. Actual results could differ from those estimates.

Valuation of Investments and Income Recognition

Investments are reported at fair value. Quoted market prices, if available, are used to value investments. Corporate bonds, taxable municipal obligations and U.S. Treasury notes are valued on the basis of yields currently available on comparable securities of issuers with similar credit ratings. Investments in common stocks are valued at the quoted market prices. Investments in mutual funds, exchange traded funds and the money market fund are valued at net asset value (NAV) of shares held by the Plan at year-end.

Purchases and sale of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits

Benefit payments to participants are recorded upon distribution.

Administrative Expenses

Administrative expenses may be paid by the Company or the Plan, at the Company's discretion.

Accumulated Plan Benefits

Accumulated Plan benefits (see Note 6) are those estimated future periodic payments, including lump-sum distributions that are attributable under the Plan's provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to:

- a. Retired or terminated employees or their beneficiaries.
- b. Present employees or their beneficiaries.

Benefits under the Plan are based on 1.0 percent of average monthly compensation multiplied by their total number of years of service prior to May 1, 1964 and 1.50 percent of average monthly compensation multiplied by their total number of years of service thereafter, as defined by the Plan. The accumulated plan benefits for active employees are based on the highest average of the participant's compensation in effect during any five consecutive completed calendar years of the last 10 completed calendar years prior to the date when accruals were frozen. Benefits payable under all circumstances – retirement, death, disability and termination of employment – are included, to the extent they are deemed attributable to employee service rendered to the valuation date. Benefits to be provided via annuity contracts excluded from plan assets are excluded from accumulated plan benefits.

Notes to Financial Statements

December 31, 2018 and 2017

Note 3: Plan Termination

In the event the Plan terminates, the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

- a. Annuity benefits that former employees or their beneficiaries have been receiving for at least three years, or that employees eligible to retire for that three-year period would have been receiving if they had retired with benefits in the normal form of annuity under the Plan.
- b. Other vested benefits insured by the PBGC up to the applicable limitations discussed below.
- c. Vested benefits not insured by the PBGC.

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination. However, there is a statutory ceiling, which is adjusted periodically, on the amount of an individual's monthly benefit that the PBGC guarantees.

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations and may also depend on the financial condition of the Plan sponsor and the level of benefits guaranteed by the PBGC.

Note 4: Fair Value Measurements

Fair value is the price that would be received to sell an asset in an orderly transaction between market participants at the measurement date. Fair value measurements must maximize the use of observable inputs and minimize the use of unobservable inputs. There is a hierarchy of three levels of inputs that may be used to measure fair value:

- Level 1** Quoted prices in active markets for identical assets
- Level 2** Observable inputs other than Level 1 prices, such as quoted prices for similar assets; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets
- Level 3** Unobservable inputs supported by little or no market activity and are significant to the fair value of the assets

Recurring Measurements

The following table presents the fair value measurements of assets recognized in the accompanying Statements of Net Assets Available for Benefits measured at fair value on a recurring basis and the level within the fair value hierarchy in which the fair value measurements fall at December 31, 2018 and 2017.

Following is a description of the valuation methodologies and inputs used for assets measured at fair value on a recurring basis and recognized in the accompanying Statements of Net Assets Available for Benefits, as well as the general classification of such assets pursuant to the valuation hierarchy. There have been no significant changes in the valuation techniques during the year ended December 31, 2018. In addition, the Plan had no assets measured at fair value on a nonrecurring basis.

Swiss Valley Farms, Co. Employees' Pension Plan and Trust

Notes to Financial Statements

December 31, 2018 and 2017

Investments

Where quoted market prices are available in an active market, investments are classified within Level 1 of the valuation hierarchy. If quoted market prices are not available, then fair values are estimated by using quoted prices of investments with similar characteristics or independent asset pricing services and pricing models, the inputs of which are market-based or independently sourced market parameters, including, but not limited to, yield curves, interest rates, volatilities, prepayments, defaults, cumulative loss projections and cash flows. Such investments are classified in Level 2 of the valuation hierarchy. In certain cases where Level 1 or Level 2 inputs are not available, investments are classified within Level 3 of the hierarchy. The Plan has no Level 3 investments.

Note 5: Certification of Plan Trustee

The Plan Administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Country Trust Bank, the trustee of the Plan, has certified the following information included in the accompanying financial statements and supplemental schedules is complete and accurate:

- Investments as shown in the Statements of Net Assets Available for Benefits as of December 31, 2018 and 2017.
- Investment income (loss) for the year ended December 31, 2018 and for the period October 18, 2017 to December 31, 2017, as included in the Statements of Changes in Net Assets Available for Benefits.
- Investment information included in the accompanying Schedule of Assets (Held at End of Year) as of December 31, 2018.
- Investment transactions as shown in the supplemental Schedule of Reportable Transactions for the year ended December 31, 2018.

The Plan's independent auditors did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedules.

Note 6: Accumulated Plan Benefits

An actuary from Nyhart determined the actuarial present value of accumulated plan benefits, which is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal or retirement) between the valuation date and the expected date of payment.

**Swiss Valley Farms, Co. Employees’
Pension Plan and Trust**
Notes to Financial Statements
December 31, 2018 and 2017

The accumulated plan benefit information as of the end of each plan year was as follows:

	2018	2017
Actuarial present value of accumulated plan benefits		
Vested benefits		
Participants currently receiving payments	\$ 12,839,857	\$ 12,073,324
Other participants	5,485,650	6,379,926
Total actuarial present value of accumulated plan benefits	<u>\$ 18,325,507</u>	<u>\$ 18,453,250</u>

Changes in the actuarial present value of accumulated plan benefits were as follows:

	2018	2017
Actuarial present value of accumulated plan benefits, beginning of year	<u>\$ 18,453,250</u>	<u>\$ 18,767,976</u>
Increase (decrease) during the year attributable to		
Change in actuarial assumptions	27,349	(128,157)
Benefits accrued and actuarial experience	170,217	207,718
Interest adjustment	1,065,123	1,082,423
Benefits paid	<u>(1,390,432)</u>	<u>(1,476,710)</u>
Net decrease	<u>(127,743)</u>	<u>(314,726)</u>
Actuarial present value of accumulated plan benefits, end of year	<u>\$ 18,325,507</u>	<u>\$ 18,453,250</u>

Significant assumptions underlying the actuarial computations are:

- Assumed rate of return on investments: 6.0 percent in 2018 and 2017
- Mortality basis: IRS 2019 and 2018 Combined Static Mortality for years ended 2018 and 2017, respectively
- Employee turnover: Table T5 by H.M. Sarason less rates of mortality from the 1951 Group Annuity Mortality Table (male)
- Retirement: At normal retirement age 65
- Marital Assumption: It is assumed that 100 percent of all active participants are married

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits. The computations of the actuarial present value of accumulated plan benefits were made as of January 1, 2019 and 2018. Had the valuations been performed as of the December 31, there would be no material differences.

Notes to Financial Statements

December 31, 2018 and 2017

Note 7: Related Party and Party-in-Interest Transactions

Party-in-interest transactions include those with fiduciaries or employees of the Plan, any person who provides services to the Plan, an employer whose employees are covered by the Plan, an employee organization whose members are covered by the Plan, a person who owns 50 percent or more of such an employer or employee association, or relatives of such persons.

The Plan incurs expenses related to general administration and recordkeeping. Certain expenses and accounting and auditing fees relating to the Plan are paid by the Plan sponsor.

Note 8: Plan Tax Status

The Plan obtained its latest determination letter on October 21, 2009, in which the Internal Revenue Service stated that the Plan and related trust, as then designed, were in compliance with the applicable requirements of the Internal Revenue Code and therefore not subject to tax. The Plan has been amended since it received the determination letter. However, the Plan Administrator believes that the Plan and related trust are currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code.

Note 9: Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the Statements of Net Assets Available for Benefits.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimation and assumption process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

Note 10: Subsequent Events

Subsequent events have been evaluated through September 19, 2019, which is the date the financial statements were available to be issued.

Changes since Prior Valuation and Key Notes

There have been no changes to the plan provisions since the last valuation.

The interest rates and mortality assumptions have been updated as required under the Pension Protection Act, all subsequent legislation, and associated IRS Regulations, including the changes presented by the Bipartisan Budget Act of 2015. These changes resulted in an increase in the Funding Target and the Target Normal Cost.

Since the prior valuation, the ASC 960 mortality assumption was changed to better reflect plan experience. The mortality improvement scale was updated from scale MP-2016 to scale MP-2017. This change resulted in a decrease in the Present Value of Accrued Benefits.
