INDEPENDENT AUDITORS' REPORT

To the Pension Committee and Participants of the Continental NA Pension Plan:

We were engaged to audit the accompanying financial statements of the Continental NA Pension Plan (the "Plan"), which comprise the statements of net assets available for benefits as of December 31, 2018 and 2017, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with generally accepted accounting principles in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audits in accordance with generally accepted auditing standards in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient and appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's ("DOL") Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 ("ERISA"), the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3, which was certified by State Street Bank and Trust Company and KeyBank National Association (collectively, the "Trustees of the Plan"), except for comparing the information with the related information included in the financial statements. The plan administrator has obtained certifications from the Trustees as of and for the years ended December 31, 2018 and 2017, that the information provided to the plan administrator by the Trustees is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient and appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Other Matter

The supplemental schedule of assets (held at end of year) as of December 31, 2018 is not a required part of the financial statements but is required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA and is presented for the purpose of additional analysis and is not a required part of the financial statements. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we do not express an opinion on this supplemental schedule.

Report on Form and Content in Compliance with DOL's Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the Trustees, have been audited by us in accordance with generally accepted auditing standards in the United States of America and, in our opinion, are presented in compliance with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Schedule SB, Part V — Statement of Actuarial Assumptions/Methods

RATIONALE FOR ECONOMIC ASSUMPTIONS

- Cash balance interest accumulation rate – This assumption is based on a long-term view of 30-year Treasury yields.
- Expected investment return – The expected rate of return on plan assets is based on a blend of the hypothetical past performance of the plan's current asset mix, adjusted for current market conditions, and the median simulated investment return using capital market assumptions published in Mercer Investment Consulting's Capital Markets Outlook for the plan's target asset mix. The expected return on assets assumption is net of an adjustment of 20 bps for investment expenses assumed to be paid from plan assets.
- Expenses – Equal to prior year's actual administrative expense rounded to nearest $1,000, adjusted for increase in anticipated PBGC premiums.

DEMOGRAPHIC ASSUMPTIONS

60	2.55%	1.03%	0.95%
65	0.00%	1.44%	0.00%

RATIONALE FOR SIGNIFICANT DEMOGRAPHIC ASSUMPTIONS

- Withdrawal rates, retirement rates and form of payment assumptions are based on the experience study Continental Automotive, Inc. Pension Plans Actuarial Assumptions Review report dated December 21, 2015 using data from 2012 through 2014 and the expectation that the future retirement patterns and circumstances of the employer will not differ significantly from the period studied.
- The benefit commencement age assumption is based on the plan's lack of early retirement subsidy that suggests terminated participants will defer commencement until age 65.
- The disability decrement assumption is 82% of the 1985 Pension Disability Table - Class 1. The plan's relatively small size would not support a credible decrement study therefore use of a standard table is appropriate

ACTUARIAL METHODS FOR FUNDING

Asset Methods

The asset valuation method is an average of the adjusted market value for each year during the last 2 years preceding the valuation date. The adjusted market value is the market value at each determination date adjusted to the valuation date based on actual cash flows and expected interest at the lesser of the expected rate of return and the third segment rate. This amount is

Schedule SB, Part V — Statement of Actuarial Assumptions/Methods

adjusted to be no greater than 110% and no less than 90% of the fair market value, as defined in IRC Section 430.

A characteristic of this asset method is that, over time, it is slightly more likely to produce an actuarial value of assets that is less than the market value of assets than an actuarial value that is greater than the market value.

Participant Methods
Participants or former participants are included or excluded from the valuation as described below:

- **Participants included:** The plan sponsor provides us with data on all employees as of the valuation date.
- **Participants excluded:** No actuarial liability is included for non-vested participants who terminated prior to the valuation date. For this purpose, participants with a break in service on the valuation date are treated as terminated participants.
- **Insurance contracts**: The plan does not have any insurance contracts.

Minimum Funding Methods
The funding target for minimum funding calculations is computed using the traditional unit credit method of funding. The objective under this method is to fund each participant's benefits under the plan as they accrue. Thus, the total pension to which each participant is expected to become entitled at retirement is broken down into units, each associated with a year of past or future credited service.

A detailed description of the calculation follows:

- The plan's valuation date is the beginning of the plan year.
- An individual's **funding target** is the present value of future benefits based on credited service and average pay as of the beginning of the plan year, and an individual's **target normal cost** is the present value of the benefit expected to accrue in the plan year. If multiple decrements are used, the funding target and the target normal cost for an individual is the sum of the component funding targets and target normal costs associated with the various anticipated separation dates.

Schedule SB, Part V — Statement of Actuarial Assumptions/Methods

- The plan's **target normal cost** is the sum of the individual target normal costs, and the plan's **funding target** is the sum of the individual funding targets for all participants under the plan.

Schedule SB, line 24 — Change in Actuarial Assumptions

The following assumption changes have occurred since the January 1, 2017 valuation.

- The expense component of normal cost increased from $446,000 to $392,000 to reflect our expectations for the current plan year.
- Expected investment return decreased from 4.50% for 2017 to 4.00% for 2018.
- The assumed benefit commencement age for deferred vested participants except the cash balance participants was increased from age 61 to 65.
- The disability decrement assumption was updated to 82% of the 1985 Pension Disability Table – Class 1.
- The form of payment for future disabled participants with a final average earnings benefit was updated to match the future retirement assumption (60% single life, 30% joint and 50% survivor, 10% joint and 100% survivor)

• Covered employees	January 1 or July 1 coincident with or following completion of six months of Vesting Service, but not before January 1, 2008
• Participation	Effective January 1, 2010, the Continental NA Pension Plan for Union Employees (CPP Union) merged into the Plan. Any individual who was a participant in the CPP Union as of December 31, 2009 became a participant in this Plan on that date. Participation in the plan is closed.
• Vesting service	From date of hire.
• Credited service	Elapsed time in years from membership date,
• Pensionable earnings	Eligible compensation includes base pay, bonuses, overtime pay, shift differential, commissions, salary continuation payments, and Section 125 contributions. Compensation shall not exceed the limit described in IRC section 401(a)(17).
• Final average earnings	Certain plan participants had a choice to remain covered by the Final Average Pay formula if age plus vesting points equaled 55 or more on January 1, 2001. All other participants are covered under the Cash Balance formula described later in this section
• Accrued benefit	The pension is greater of (a) or (b): a) 1.125% of AFC up to $12,000 plus 1.50% of such AFC in excess of $12,000, all multiplied by years of Benefit Service. AFC is the average annual Total Cash Compensation in the 4 consecutive plan years out of the last 10 plan years prior to the Normal Retirement date which produces the highest such average. b) The minimum benefit
NORMAL RETIREMENT	
• Eligibility	Later of age 65 or completion of three years of Vesting Service.

Schedule SB, Part V — Summary of Plan Provisions

• Benefit	A life annuity starting at normal retirement equal to the Accrued Benefit.
EARLY RETIREMENT	
• Eligibility	Age 55 with 10 years of Vesting Service.
• Benefit	The annual pension is the accrued benefit deferred to age 65 or if payments commence before age 65, such accrued benefit is reduced by 5/12ths for each of the first 24 months by which the starting date precedes age 62 and by 1/2% for each additional month in excess of 24 months. There is no reduction if the starting date is between ages 62 and 65.
DEFERRED VESTED	
• Eligibility	100% vested with three years of Vesting Service.
• Benefit	The annual pension is determined as in Normal Retirement (a) above, but reduced actuarially if payments begin after age 55 but before age 65.
DISABILITY	
• Eligibility	Ten years of Vesting Service or qualifies for Workmen's Compensation in connection with disability.
• Benefit	The annual pension is the accrued benefit based on Normal Retirement (a) above. The participant shall be credited with Vesting and Benefit Service during the period of disability prior to the earliest commencement of retirement benefits, the participant's death, or the participant's recovery from disability. Benefit Service is not imputed after January 1, 2011. Participants may elect to commence a reduced benefit as early as age 55 reduced in accordance with the Early Retirement provisions.
PRE-RETIREMENT DEATH	
• Eligibility	Eligibility occurs on death after three years of vesting service
• Final Average Pay Participants	50% of the pension the participant would have received under the 50% Joint & Survivor option.
OTHER BENEFITS	

Schedule SB, Part V — Summary of Plan Provisions

• Benefit	Certain operating companies receive special minimum benefits based on the terms of agreement when they entered the Siemens Pension Plan. In addition, certain benefit provisions from prior plans that were subsequently merged into the Plan continue.
CASH BALANCE FORMULA	
• Account Balance	The Cash Balance formula applies to all participants except for those who chose to remain under the Final Average Pay formula. The cash balance account is increased monthly with Pay and Interest Credits (no additional pay credits accrued after plan freeze)
• Interest Credits	Based on the 30 year Treasury rate for the August immediately preceding the Plan Year.
• Pay Credits	Based on Vesting Service: Service — Pay Credit <5 — 3.00% 5 – 9 — 3.75% 10 – 14 — 4.50% 15 – 19 — 6.00% 20 – 24 — 7.50% 25 – 29 — 9.00% 30 + — 11.25%
PRE- RETIREMENT DEATH	Account balance payable to beneficiary determined as of beneficiary commencement date (as early as participant's date of death but no later than participant's age 65).
UNPREDICTABLE CONTINGENT EVENT BENEFITS	
• Event	N/A
• Eligibility	N/A
• Benefit	N/A

Schedule SB, Part V — Summary of Plan Provisions

FORM OF BENEFITS	
• Automatic form for unmarried participants	Life annuity
• Automatic form for married participants	50% joint and survivor annuity
• Optional forms	• Joint and survivor annuity (100%, 75%, 66 2/3%, 50%) • 120 months certain and life. • Lump Sum (for Cash Balance participants only)
• Lump sum cash-out	Benefit paid immediately to participant as a lump sum if the Actuarial Equivalent of the age-65 monthly retirement benefit payable as a Life Annuity is less than $5,000
• Optional form conversion factors (excluding lump sum payments)	7.00% interest and UP 1984 mortality table
• Optional form conversion factors (lump sum payments)	IRC Section 417(e) mortality table for the applicable year and interest based on 3-segment yield curve with 4 month look-back (with comparison to 5 month look-back for 2015 only).
MISCELLANEOUS	
• Maximum benefits	Annual benefits may not exceed the limits in IRC Section 415. This limit is indexed annually. When plan benefits were frozen, the limit was $195,000.

Schedule SB, Part V — Summary of Plan Provisions

Benefits Included or Excluded

Unless noted below, all benefits provided by the plan, as restated and amended January 1, 2015, including the Second Amendment, are included in this valuation.

- **Most recent plan amendments included:** Second Amendment effective September 1, 2017.
- **Plan amendments excluded:** None
- **Late retirement increases:**
  - *Active participants:* The plan applies late retirement actuarial increases for all participants who defer retirement beyond their normal retirement date and this valuation includes those increases.
  - *Deferred vested participants:* Current deferred vested participants over normal retirement age are valued including the late retirement actuarial increase.
- **Internal Revenue Code limitations:** The limitations of Internal Revenue Code Section 415(b) and 401(a)(17) have been incorporated into our calculations.
- **IRC Section 416 rules for top-heavy plans:** We did not test whether this plan is top-heavy (when the present value of benefits for key employees equals or exceeds 60% of the present value for all participants). However, we expect that the plan is not top-heavy due to the large number of rank-and-file participants; therefore, the funding target and target normal cost do not reflect any liability for top-heavy benefit accruals.

PLAN PROVISIONS SPECIFIC TO FUNDING

Additional Benefits Included or Excluded

- **IRC Section 436 benefit restrictions:**
  - *Unpredictable contingent event benefits:* This valuation excludes restricted contingent event benefits that occurred before the valuation date but includes contingent event benefits which are expected to occur on or after the valuation date regardless of anticipated funding-based limitations.
  - *Plan amendments:* See above.

Schedule SB, Part V — Summary of Plan Provisions

- *Prohibited payments:* Limitations on prohibited benefits (if any) are reflected for annuity starting dates before the valuation date but are ignored for annuity starting dates on or after the valuation date.

- *Benefit accruals:* The plan's funding target does not reflect any limitation on benefit accruals. The target normal cost does not reflect any limitation on benefit accruals.

- **Unpredictable contingent event benefits:** The plan does not have any unpredictable contingent event benefits.

PLAN PROVISION CHANGES SINCE PRIOR VALUATION

The Continental Voluntary Pension Election Window Program was added effective September 1, 2017, offering a one-time opportunity to certain deferred vested participants to receive their entire pension benefit in the form of a lump sum.

INDEPENDENT AUDITORS' REPORT

To the Pension Committee and Participants of the Continental NA Pension Plan:

We were engaged to audit the accompanying financial statements of the Continental NA Pension Plan (the "Plan"), which comprise the statements of net assets available for benefits as of December 31, 2018 and 2017, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with generally accepted accounting principles in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audits in accordance with generally accepted auditing standards in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient and appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's ("DOL") Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 ("ERISA"), the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3, which was certified by State Street Bank and Trust Company and KeyBank National Association (collectively, the "Trustees of the Plan"), except for comparing the information with the related information included in the financial statements. The plan administrator has obtained certifications from the Trustees as of and for the years ended December 31, 2018 and 2017, that the information provided to the plan administrator by the Trustees is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient and appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Other Matter

The supplemental schedule of assets (held at end of year) as of December 31, 2018 is not a required part of the financial statements but is required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA and is presented for the purpose of additional analysis and is not a required part of the financial statements. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we do not express an opinion on this supplemental schedule.

Report on Form and Content in Compliance with DOL's Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the Trustees, have been audited by us in accordance with generally accepted auditing standards in the United States of America and, in our opinion, are presented in compliance with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

1. DESCRIPTION OF PLAN

The following description of the Continental NA Pension Plan (the "Plan") provides only general information. Participants should refer to the plan document for a more complete description of the Plan's provisions.

General - The Plan is a noncontributory defined benefit plan which was established by Continental Automotive, Inc. (the "Employer"), effective January 1, 2008 as a result of Continental AG acquiring all of the stock of Siemens VDO Holding Company ("Siemens"). Continental Automotive, Inc., a subsidiary of Continental AG, adopted the Plan to benefit individuals who were participants in the Siemens Pension Plan on December 31, 2007 who became employees of Continental Automotive Systems US, Inc. or Continental Diesel Systems US, LLC (the "Employing Companies") as a result of the Siemens acquisition, as well as certain former employees of Siemens that satisfy all requirements for eligibility under the Plan on or after January 1, 2008. Individuals that were in the Siemens Pension Plan will retain their accrued benefit balance and their status as of January 1, 2008 and will participate in accordance with the terms and conditions of the Plan. Employees hired or rehired by Siemens or an affiliated company prior to April 1, 2006 were eligible to participate after six months of vesting service. Employees hired or rehired after April 1, 2006 are not eligible to participate. Effective December 31, 2009, Continental Automotive Systems US, Inc. employees at the Blythewood, SC facility are ineligible to participate in the Plan. Effective December 31, 2009, the Continental NA Pension Plan for Union Employees ("Union Plan") was merged into the Plan. Union employees hired on/or after January 1, 2008, with six months of service with the Employing Companies and covered by a collective bargaining agreement entered into by the Employing Companies, are eligible to become participants in the Plan. Effective December 31, 2010, prior plan participants, who are defined in the plan document as any member under the Siemens Pension Plan on December 31, 2007, who were employed on or before December 31, 2007 and became a participant in the Plan on January 1, 2008, will have future benefit accruals under the Plan ceased. Cash balance participants will cease to be credited with pay credits but will continue to receive interest credits after December 31, 2010. Participants formerly in the Union Plan will continue to accrue benefits. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Master Trust - The assets of the Plan are maintained, for investment purposes only, on a commingled basis with the assets of the Pension Plan for Hourly-Paid Employees of Continental Automotive, Inc. and Certain Affiliated Companies, the Pension Plan for Salaried Employees of Continental Automotive, Inc. and Certain Affiliated Companies, the Continental NA Automotive Union Pension Plan (Huntsville), the Pension Plan for Hourly Employees of Continental NA Automotive and the ContiTech USA, Inc. Defined Benefit Plan (collectively, the "Participating Plans") in the Master Trust. These plans do not own specific assets of the Master Trust, but rather a proportionate beneficial interest or investment percentage. Accordingly, each plan's investment percentage changes regularly, based on daily transactions specific to each plan. Investment income for each fund is allocated to each plan based on the relationship of each plan's beneficial interest in the fund to the total beneficial interest of all plans in the fund.

Funding Policy - The Plan's funding policy is for the Employer to contribute an amount which will meet or exceed the annual ERISA minimum funding requirement. For the year ended December 31, 2017, the Employer made contributions totaling $6,200,000. The Employer's contributions for the year ended December 31, 2017 exceeded the minimum funding requirements of ERISA. For the year ended December 31, 2018, no Employer contributions were necessary to meet the minimum funding requirements of ERISA.

Pension Benefits - Non-union participants accrue benefits based on either a cash balance formula or a final average pay formula which was in effect for participants hired or rehired prior to January 1, 2001. All participants in the Plan are 100% vested at all times. Under the cash balance formula, eligible participants earn interest credits based on a percentage of their account balance and pay credits based on their years of vesting service. Under the final average pay formula, benefits are calculated using average compensation and years of service. Under both methods participants may elect to receive benefits under one of several actuarial equivalent forms of payment.

Union participants accrue benefits based on a cash balance formula. Under the cash balance formula, eligible participants earn interest credits based on their account balance and pay credits based on their years of vesting service. Participants may elect to receive benefits under one of several actuarial equivalent forms of payment. Participants that were part of the Union Plan on December 31, 2007 are 100% vested in the Plan. Participants that were not part of the Union Plan on December 31, 2007 will become vested upon completing three years of service or attaining normal retirement age.

Effective September 1, 2017, the Employer amended the Plan to offer a voluntary pension election window program to provide certain deferred vested participants a one-time opportunity to receive distribution of their vested accrued benefit under the Plan in the form of a single lump sum payment or in the form of an immediate annuity. During the year ended December 31, 2017, benefit payments that resulted from this voluntary early retirement window policy totaled approximately $3,700,000.

Death and Disability Benefits - If a non-union participant using the cash balance formulas dies while still employed, the Plan provides that the participant's beneficiary shall be paid the participant's accrued benefits commencing on a benefit commencement date elected by the beneficiary.

If a non-union participant using the final average pay formula dies before retirement or after retirement but prior to their benefit commencement date, the surviving spouse will receive a life annuity equal to 50% of the vested benefit. Benefit payments to the surviving spouse will commence on the later of the first day of the month following the participant's death or first day of the month following the 55th anniversary of the participant's birth date.

Cash balance non-union participants, who become disabled prior to retirement will continue to accrue interest credits through their benefit commencement date, but will not continue to accrue pay credits after the date they are determined to be disabled.

Final average pay non-union participants, who either received workers compensation in connection with the disability or having completed at least ten years of employment, shall have the period of the participant's disability treated as benefit service and employment under the Plan.

If a union participant dies while still employed, the participant becomes 100% vested. The Plan provides that the participant's beneficiary shall be paid the participant's accrued benefits commencing on a benefit commencement date elected by the beneficiary.

Union participants, who become disabled prior to retirement, will continue to accrue interest credits through their benefit commencement date, but will not continue to accrue pay credits after the date they are determined to be disabled. Participants will be credited with employment for vesting purposes for the period of the participant's disability up to 12 months. If the period of participant disability exceeds 12 months the participant becomes 100% vested.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting - The accompanying financial statements have been prepared on the accrual basis of accounting.

Use of Estimates - The preparation of financial statements in accordance with generally accepted accounting principles in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein; disclosure of contingent assets and liabilities; and the actuarial present value of accumulated plan benefits at the date of the financial statements, and changes therein. Actual results could differ from those estimates. Any adjustments applied to estimated amounts are recognized in the year in which such adjustments are determined.

Concentration of Credit Risk - As of December 31, 2018, the Master Trust and the Plan place their temporary cash and cash equivalents with high credit quality financial institutions. At times, such cash may be in excess of the Federal Depository Insurance Corporation insurance limit. The plan administrator believes these financial institutions have strong credit ratings and that credit risk related to these deposits is minimal.

Investment Valuation and Income Recognition - Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants as of the measurement date. See Note 4 for disclosure of fair value measurements.

Investments, and the income and losses therein, are allocated to the Participating Plans based on each plan's participation in investment options within the Master Trust. Accordingly, the Plan's investment income and losses, includes its allocable share of the Master Trust's interest income and net appreciation (depreciation) in fair value of investments.

The Plan's interest-bearing cash held outside of the Master Trust records purchases and sales of securities on a trade-date basis. Interest income is recorded on the accrual basis.

Payment of Benefits - Benefit payments to participants are recorded upon distribution.

Administrative Expenses - The Plan's expenses are paid either by the Plan or by the Employer, as provided in the plan document. Expenses that are paid directly by the Employer are excluded from the accompanying financial statements. Certain expenses incurred in connection with the general administration of the Plan that are paid by the Plan are recorded as deductions in the accompanying statements of changes in net assets available for benefits. In addition, certain investment related expenses are reflected as a reduction of the Plan's interest in the Master Trust's income (loss) in the accompanying statements of changes in net assets available for benefits.

Subsequent Events - In preparing the financial statements, the plan administrator has evaluated subsequent events through October 9, 2019, which is the date the financial statements were available to be issued.

3. INFORMATION CERTIFIED BY TRUSTEES

The following is a summary of the Plan's asset information as of December 31, 2018 and 2017, and for the years then ended, included in the financial statements and supplemental schedule, that was prepared by, or derived from, information prepared by State Street Bank and Trust Company ("State Street") and KeyBank National Association (collectively, the Trustees of the Plan), and furnished to the plan administrator. The plan administrator has obtained certifications from the Trustees that such information is complete and accurate as of and for the years ended December 31, 2018 and 2017.

	2018	2017
Assets:		
Interest-bearing cash	$ 555,550	$ 561,776
Plan interest in the Master Trust (Note 5)	$ 121,847,098	$ 129,062,413

Plan interest in the Master Trust's income (loss) (Note 5)	$ (2,638,918)	$ 9,332,184
Interest income	$ 1,528	$ 1,289

4. FAIR VALUE MEASUREMENTS

Generally accepted accounting principles in the United States of America provide the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under generally accepted accounting principles in the United States of America are described as follows:

Level 1 — Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Master Trust and the Plan have the ability to access.

Level 2 — Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 — Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used as of December 31, 2018 and 2017.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value ("NAV") and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Collective trust funds: Valued at the NAV of units of a bank collective trust. The NAV, as provided by the Trustees, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Participant transactions (purchases and sales) may occur daily. Were the Plan to initiate a full redemption of the collective trust, the investment advisor reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner. There are no unfunded commitments as of December 31, 2018 and 2017.

Government and corporate bonds: Valued using pricing models maximizing the use of observable inputs for similar securities. This includes basing value on yields currently available on comparable securities of issues with similar credit ratings.

Common stocks: Valued at the closing price reported on the active market on which the individual securities are traded.

Interest-bearing cash: Valued as of the ending cash balance plus any accrued interest held by the Plan as of year-end.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the plan administrator believes the Master Trust's and the Plan's valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine fair value of certain financial instruments could result in a different fair value measurement as of the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2018. The following table does not include the Plan's interest in the Master Trust because that information is presented in a separate table (Note 5).

	Level 1	Level 2	Level 3	Total
Interest-bearing cash	$ 555,550	$ -	$ -	$ 555,550

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2017. The following table does not include the Plan's interest in the Master Trust because that information is presented in a separate table (Note 5).

	Level 1	Level 2	Level 3	Total
Interest-bearing cash	$ 561,776	$ -	$ -	$ 561,776

5. INTEREST IN MASTER TRUST

The value of the Plan's interest in the Master Trust is based on the beginning of year value of the Plan's interest in the trust plus actual contributions and allocated investment income less actual distributions and allocated administrative expenses. As of December 31, 2018 and 2017, the Plan's interest in the net assets of the Master Trust was approximately 14%. Investment income (loss) and administrative expenses relating to the Master Trust are allocated to the individual plans based upon the amount of the time the Plan's assets were invested in the Master Trust.

The following is a summary of the net assets of the Master Trust as of December 31, 2018 and 2017, and for the years then ended, that was prepared by, or derived from, information prepared by State Street and furnished to the plan administrator. The plan administrator has obtained certifications from State Street that such information is complete and accurate as of and for the years ended December 31, 2018 and 2017.

6. RISKS AND UNCERTAINTIES

The Master Trust and the Plan's investments include funds which invest in various types of investment securities and in various companies within various markets. Investment securities are exposed to several risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the accompanying statements of net assets available for benefits.

Plan contributions are made, and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and participant demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

7. TAX STATUS

The Internal Revenue Service has determined and informed the Employer by a letter dated August 26, 2016, that the Plan and related trust are designed in accordance with the applicable sections of the Internal Revenue Code ("IRC"). Although the Plan has been amended since receiving the determination letter, the plan administrator and the Plan's tax counsel, believe that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC and, therefore, believe that the Plan is qualified, and the related trust is tax-exempt.

Generally accepted accounting principles in the United States of America require management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the taxing authorities. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2018 and 2017, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the accompanying financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits of any tax period in progress.

8. PLAN TERMINATION

Although it has not expressed any intention to do so, the Employer has the right under the Plan, pending approval of applicable requirements under the collective bargaining agreements, to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA. In the event the Plan terminates, the net assets of the Plan will be allocated as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

- Annuity benefits that former employees or their beneficiaries have been receiving for at least three years, or that employees eligible to retire for that three-year period would have been receiving if they had retired with benefits in the normal form of annuity under the Plan. The priority amount is limited to the lowest benefit that was payable (or would have been payable) during those three years. The amount is further limited to the lowest benefit that would be payable under Plan provisions in effect at any time during the five years preceding the Plan's termination.
- Other vested benefits insured by the Pension Benefits Guaranty Corporation ("PBGC") (a U.S. government agency) up to the applicable limitations.
- All other vested benefits (that is, vested benefits not insured by the PBGC).
- All nonvested benefits.

Any funds remaining after the satisfaction of all liabilities under the Plan with respect to participants, transferred retirees or their beneficiaries shall be returned to the Employer. In the event of a partial termination of the Plan, the interests in the Plan of all participants affected by such partial termination shall be fully vested and non-forfeitable to the extent funded as of the date of such partial termination.

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivors' pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination.

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations and may also depend on the financial condition of the Employer and the level of benefits guaranteed by the PBGC.

9. TRANSACTIONS WITH PARTIES-IN-INTEREST

Certain investments of the Master Trust and the Plan are managed by the Trustees, as defined by the master trust agreement and plan document, and therefore, these transactions qualify as exempt party-in-interest transactions. The Trustees receive investment and administrative fees as a result of these activities. Certain other third party administrative expenses were paid by the Employer on behalf of the Plan. These transactions qualify as exempt party-in-interest transactions.

10. SUBSEQUENT EVENT

Effective January 1, 2019, Continental Powertrain USA, LLC (a related employer) formed a new pension plan named the Continental Powertrain Pension Plan and the accrued benefits of certain participants (the "Powertrain Transfer Group") under this plan were transferred to the Continental Powertrain Pension Plan. In connection with the transfer, all participants in the Powertrain Transfer Group are entitled to benefits after the transfer that are equal to or greater than the benefits provided by the Plan. Total assets transferred from the Plan to the Continental Powertrain Pension Plan were approximately $15,353,000.

11. ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS

Accumulated plan benefits are those future periodic payments, including lump sum distributions that are attributable under the Plan's provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries. Benefits under the plan are accumulated based on employees' compensation during each year of credited service. The accumulated plan benefits for active employees will equal the accumulation, with interest, of the annual benefit accruals as of the benefit information date. Benefits payable under all circumstances (retirement, death, disability, and termination of employment) are included, to the extent they are deemed attributable to employee service rendered to the valuation date. Benefits to be provided via annuity contracts excluded from plan assets are excluded from accumulated plan benefits. The actuarial present value of accumulated plan benefits is determined by an independent actuary and is that amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment. The computations of the actuarial present value of accumulated plan benefits were made as of January 1, 2018. Had the valuation been performed as of December 31, 2017, there would be no material differences.

The significant actuarial assumptions used in the valuations as of December 31, 2017 were:

Discount rate	3.70%
Mortality basis after normal retirement age	RP-2014 separate annuitant/non-annuitant generational tables back projected to 2006 using MP-2014 with future improvement using the MP-2017 projection scale
Expected long-term return on assets	3.70%, net of expenses in the amount of $230,000

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

The total actuarial present value of accumulated plan benefits as of December 31, 2017, was as follows:

Vested benefits:	
Active participants	$ 31,401,659
Inactive participants receiving benefits	78,061,240
Inactive participants with deferred benefits	27,390,177
Total vested benefits	136,853,076
Nonvested benefits	26,547
Actuarial present value of accumulated plan benefits as of end of year	$ 136,879,623

The change in the actuarial present value of accumulated plan benefits for the year ended December 31, 2017, was as follows:

Actuarial present value of accumulated plan benefits as of beginning of year:	$ 136,211,615
Increase (decrease) during the year attributable to:	
Increase for interest due to decrease in discount period	5,535,357
Change in actuarial assumptions	6,440,336
Benefits paid	(11,017,683)
Benefits accumulated and gains	(290,002)
Net change	668,008
Actuarial present value of accumulated plan benefits as of end of year	$ 136,879,623

RATIONALE FOR ECONOMIC ASSUMPTIONS

- Cash balance interest accumulation rate – This assumption is based on a long-term view of 30-year Treasury yields.
- Expected investment return – The expected rate of return on plan assets is based on a blend of the hypothetical past performance of the plan's current asset mix, adjusted for current market conditions, and the median simulated investment return using capital market assumptions published in Mercer Investment Consulting's Capital Markets Outlook for the plan's target asset mix. The expected return on assets assumption is net of an adjustment of 20 bps for investment expenses assumed to be paid from plan assets.
- Expenses – Equal to prior year's actual administrative expense rounded to nearest $1,000, adjusted for increase in anticipated PBGC premiums.

RATIONALE FOR SIGNIFICANT DEMOGRAPHIC ASSUMPTIONS

- Withdrawal rates, retirement rates and form of payment assumptions are based on the experience study Continental Automotive, Inc. Pension Plans Actuarial Assumptions Review report dated December 21, 2015 using data from 2012 through 2014 and the expectation that the future retirement patterns and circumstances of the employer will not differ significantly from the period studied.
- The benefit commencement age assumption is based on the plan's lack of early retirement subsidy that suggests terminated participants will defer commencement until age 65.
- The disability decrement assumption is 82% of the 1985 Pension Disability Table - Class 1. The plan's relatively small size would not support a credible decrement study therefore use of a standard table is appropriate

ACTUARIAL METHODS FOR FUNDING

Asset Methods

The asset valuation method is an average of the adjusted market value for each year during the last 2 years preceding the valuation date. The adjusted market value is the market value at each determination date adjusted to the valuation date based on actual cash flows and expected interest at the lesser of the expected rate of return and the third segment rate. This amount is

Schedule SB, Part V — Statement of Actuarial Assumptions/Methods

adjusted to be no greater than 110% and no less than 90% of the fair market value, as defined in IRC Section 430.

A characteristic of this asset method is that, over time, it is slightly more likely to produce an actuarial value of assets that is less than the market value of assets than an actuarial value that is greater than the market value.

Participant Methods
Participants or former participants are included or excluded from the valuation as described below:

- **Participants included:** The plan sponsor provides us with data on all employees as of the valuation date.
- **Participants excluded:** No actuarial liability is included for non-vested participants who terminated prior to the valuation date. For this purpose, participants with a break in service on the valuation date are treated as terminated participants.
- **Insurance contracts**: The plan does not have any insurance contracts.

Minimum Funding Methods
The funding target for minimum funding calculations is computed using the traditional unit credit method of funding. The objective under this method is to fund each participant's benefits under the plan as they accrue. Thus, the total pension to which each participant is expected to become entitled at retirement is broken down into units, each associated with a year of past or future credited service.

A detailed description of the calculation follows:

- The plan's valuation date is the beginning of the plan year.
- An individual's **funding target** is the present value of future benefits based on credited service and average pay as of the beginning of the plan year, and an individual's **target normal cost** is the present value of the benefit expected to accrue in the plan year. If multiple decrements are used, the funding target and the target normal cost for an individual is the sum of the component funding targets and target normal costs associated with the various anticipated separation dates.

Schedule SB, Part V — Statement of Actuarial Assumptions/Methods

- The plan's **target normal cost** is the sum of the individual target normal costs, and the plan's **funding target** is the sum of the individual funding targets for all participants under the plan.
