Note 1. Plan Description

The following brief description of the Apax Partners, LP 401(k) Retirement Plan (the Plan) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General: The Plan provides employees of Apax Partners, LP (the Employer or the Company) with the opportunity to save for retirement on a tax-advantaged basis. This Plan is a type of qualified retirement plan commonly referred to as a 401(k) Plan. Participants under the Plan may elect to contribute a portion of their compensation to the Plan. In addition, the Employer may make contributions to the Plan on the participants' behalf. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), the Internal Revenue Code (IRC), and other federal and state laws. The provisions of the Plan are subject to revision due to changes in laws or due to pronouncements by the Internal Revenue Service (IRS) or Department of Labor (DOL).

Eligibility: Employees will generally become eligible to participate when they have completed six consecutive months of service and have attained the age of 21. Employees will actually participate once they reach the Entry Date. The Entry Date is defined as the first day of the Plan Year quarter coinciding with or next following the date the employee satisfies the eligibility requirements.

Employee contributions: Eligible employees may contribute a percentage of their pre-tax annual compensation as selected by the participant, as defined by the Plan, and subject to IRC limitations on maximum deferral contributions, which was $18,500 (or $24,500 for eligible employees age 50 or older) for 2018. The annual compensation of each employee taken into account under the Plan may not exceed $275,000 for 2018.

Employer contributions: The Employer may elect to make a discretionary matching contribution not to exceed 6% of the employees' compensation. During the year ended December 31, 2018, the Employer elected to match 100% of 3% of an employee's eligible compensation on an annual basis. This matching contribution is subject to the vesting schedule below. In order to maintain "safe harbor" status, the Employer also makes a non-elective contribution equal to 3% of the employees' compensation, which amounted to $540,668 in 2018. This contribution is 100% vested.

Additionally, the Employer elected to make a discretionary profit-sharing contribution which amounted to $233,985 in 2018. In order to share in the profit-sharing contribution, employees must be credited with 6 or more consecutive months of service during the plan year, and be employed on the last day of the plan year. Employees will always be eligible in the year of their death, disability, or retirement. This contribution is subject to normal vesting.

Vesting: Employees are always 100% vested in their accounts attributable to elective deferrals including catch-up contributions, rollover contributions, and safe harbor contributions. In order to reward employees who remain employed with the Employer for a long period of time, the law permits a "vesting schedule" to be applied to certain contributions that the Employer makes to the Plan. The vested percentage in the participant accounts attributable to the matching contributions and discretionary profit-sharing contributions are determined under the following schedule:

Years of Service	Vesting Percentage
Less than 1	0.00%
1	33.33%
2	66.67%
3	100.00%

Note 1. Plan Description (Continued)

Participant accounts: Each participant's account is credited with the participant's deferral contributions and allocations of the Company's contributions and Plan earnings. The benefit to which a participant is entitled is the benefit that can be provided from the participant's account.

Rollover contributions: Participants may transfer to their Plan accounts part or all of an eligible rollover distribution received from other qualified plans and certain IRAs. Rollover contribution accounts will be subject to the terms of this Plan and will always be fully vested and nonforfeitable.

Distributions from Plan: A participant's vested interest may be distributed only after the participant's disability, termination from employment, attainment of early retirement age 55, the later of age 62 or attainment of normal retirement age (59½), or death. If one of the aforementioned conditions is met, participants may withdraw all or any part of their vested account at any time. Employees may be entitled to receive in-service distributions. However, these distributions are not in addition to other benefits and will therefore reduce the value of the benefits the employee will receive at retirement. These distributions are made at the employee's election and subject to possible administrative limitations on the frequency and actual timing of such distributions. Amounts may be withdrawn from rollover contributions at any time.

Forfeitures: The Plan utilizes all of the forfeited amounts to pay administrative expenses and reduce future contributions made by the Employer. Forfeited nonvested accounts amounted to $134,591 and $89,452 at December 31, 2018 and 2017, respectively.

Administrative expenses: All administrative expenses are paid by the Plan with the exception of professional fees which are paid by the Employer. During the 2018 plan year, the Plan began allocating a formulated portion of interest and dividend income to the forfeiture account to fund administrative expenses. For the year ended December 31, 2018, $39,649 was transferred to the forfeiture account to cover administrative expenses.

Termination of Plan: Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. The Company will instruct the trustee either (a) to continue to administer the Plan until all funds are depleted, or (b) to distribute the assets remaining in the funds. If the funds are to be distributed, the trustee will distribute to each participant the amount credited to his/her account on the distribution date. In the event of Plan termination, participants would become 100% vested in their employer contributions.

Loan provisions: Only active employees who participate in the Plan and have a minimum vested account balance of $2,000 may request a loan. Loans can be requested in the range of $1,000 to $50,000 or 50% of the vested balance, whichever is less. The number of loans a participant may have outstanding at any time is two. The loans are secured by the vested balance in the participant's account. The loans bear interest at rates that range from 4.25% to 8.75%, which are commensurate with local prevailing rates as determined quarterly by the Plan Administrator. Principal and interest is paid ratably through payroll deductions.

Hardship withdrawals: Participants may withdraw their employee pre-tax contributions (but not the earnings on the pre-tax contributions) and rollover contributions, if applicable, to satisfy immediate and heavy financial needs. In accordance with IRS regulations, participants must first exhaust all other assets available before obtaining a hardship withdrawal. All hardship withdrawals must be approved by the Plan Administrator.

Note 2. Summary of Significant Accounting Policies

Basis of accounting: The accompanying financial statements of the Plan are prepared on the accrual basis of accounting.

Use of estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America (GAAP) requires the Plan's management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of additions and deductions during the reporting period. Actual results could differ from those estimates.

Investment valuation and income recognition: Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes receivable from participants: Participant loans are classified as notes receivable from participants, which are segregated from Plan investments and measured at their unpaid principal balance plus any accrued but unpaid interest. Form 5500 presents notes receivable from participants as an investment.

Recent accounting pronouncement: In August 2018, the FASB issued ASU 2018-13, *Fair Value Measurement (Topic 820): Disclosure Framework—Changes to the Disclosure Requirements for Fair Value Measurement*. This ASU modifies the disclosure requirements on fair value measurements based on the concepts in the FASB Concepts Statement, *Conceptual Framework for Financial Reporting—Chapter 8: Notes to Financial Statements*. Among other changes, the ASU removes the disclosure requirements of the valuation processes and reconciliation of opening to closing balances (rollforward) of Level 3 instruments, and the changes in unrealized gains and losses for Level 3 instruments held at the end of the reporting period. In lieu of a rollforward for Level 3 instruments, the ASU requires disclosure of purchases and issues of Level 3 instruments, and amounts of and reasons for transfers into and out of Level 3. For investments in certain entities that calculate net asset value (NAV), the ASU requires disclosure of the timing of liquidation of an investee's assets and the date when restrictions from redemption might lapse only if the investee has communicated the timing to the entity or announced the timing publicly. If the timing is unknown, the entity shall disclose that fact and how long the restriction has been in effect. The ASU is effective for fiscal years beginning after December 15, 2019, with early adoption permitted. Plan management is currently evaluating the impact this Update will have on the Plan's financials statements.

Payment of benefits: Benefits are recorded when paid.

Subsequent events: The Plan has evaluated subsequent events from December 31, 2018 and through October 14, 2019, the date on which the financial statements were issued and no additional disclosures were required.

Note 3. Investments Certified or Provided by Great-West Life & Annuity Insurance Company of New York and Great-West Trust Company, LLC

The following information included in the accompanying financial statements and supplemental schedule was obtained from data that has been prepared and certified as complete and accurate by Great-West Life & Annuity Insurance Company of New York and Great-West Trust Company, LLC, the Custodian of the Plan. Accordingly, as permitted by 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the information that appears throughout the financial statements and supplemental schedule related to the investment assets, notes receivable from participants and related income.

Great-West Life & Annuity Insurance Company of New York and Great-West Trust Company, LLC, the Custodian, certified to the completeness and accuracy of the investments totaling $24,789,124 and $24,973,190 as of December 31, 2018 and 2017, respectively, and certified to the completeness and accuracy of notes receivable from participants as of December 31, 2018 and 2017, totaling $30,559 and $25,376, respectively.

In addition, the Plan's Custodian also certified to the completeness and accuracy of $(2,980,593) of net depreciation in fair value of investments, $1,532,242 of dividend and interest income related to the aforementioned investments and $1,767 of interest income on notes receivable from participants for the year ended December 31, 2018.

Note 4. Fair Value Measurements

Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820, *Fair Value Measurements and Disclosures*, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets.
- Quoted prices for identical or similar assets or liabilities in inactive markets.
- Inputs other than quoted prices that are observable for the asset or liability.
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

All transfers between fair value hierarchy levels are recognized by the Plan at the end of each reporting period. There were no significant transfers among Levels 1, 2 and 3 during 2018.

Note 4. Fair Value Measurements (Continued)

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value, including the general classification of such instruments pursuant to the valuation hierarchy. There have been no changes in the methodologies used at December 31, 2018 and 2017.

Mutual funds: Mutual funds are based on the net asset value (NAV) that is quoted on an active market and are classified within Level 1 of the fair value hierarchy.

The plan sponsor is responsible for the determination of fair value. Accordingly, they perform periodic analysis on the prices received from the pricing services used to determine whether the prices are reasonable estimates of fair value. As a result of these reviews, the plan sponsor has not historically adjusted the prices obtained from the pricing services. The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with those of other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables sets forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2018 and 2017:

	Investments at Fair Value as of December 31, 2018			
	Level 1	Level 2	Level 3	Total
Mutual funds	$ 23,484,032	$ -	$ -	$ 23,484,032
Total investments at fair value	$ 23,484,032	$ -	$ -	$ 23,484,032

	Investments at Fair Value as of December 31, 2017			
	Level 1	Level 2	Level 3	Total
Mutual funds	$ 23,765,985	$ -	$ -	$ 23,765,985
Total investments at fair value	$ 23,765,985	$ -	$ -	$ 23,765,985

Note 5. Key Guaranteed Portfolio Fund

In 2009, the Employer entered into a benefit-responsive contract with First Great-West Life & Annuity Insurance Company (GWLA). Participants may elect to make contributions or make transfers from other Plan funds into the Key Guaranteed Portfolio Fund, which provides a guarantee of principal and a guaranteed quarterly interest rate that is backed by the general account assets of GWLA. The interest crediting rate is based on the earnings of the underlying assets in the entire medium-long term new portfolio and reset quarterly. The minimum interest crediting rate is 0%. In 2018, the average credit rate was 1.10%.

Either party may terminate the contract at any time. Upon written request, either party has the right to declare a Contribution Cessation Date (Cessation Date), which must specify the exact date within the request and be at least 90 days from the request. After a Cessation Date is declared, no further contributions will be made. On the Cessation Date, the Employer may elect one of three options. One of the available options limits the ability of the Plan to transact at contract value. If the Employer elects to receive payment at book value, GWLA would pay the Employer the sum of the Participant Annuity Account Value in the Key Guaranteed Portfolio Fund in a lump sum; however, GWLA reserves the right to defer payment of this amount up to 12 months from the Cessation Date. Despite the existence of such an option, participants may transfer their account balances at any time with no restrictions or penalties. The Employer does not believe that any events which would limit the Plan's ability to transact at contract value with participants are probable of occurring

Note 6. Income Tax Status

The plan sponsor adopted a prototype nonstandardized profit sharing plan with a cash or deferral arrangement, which received a favorable opinion letter from the IRS on March 31, 2014, stated that the Plan as designed is qualified under Section 401(a) of the IRC. Although the Plan has been amended since receiving the opinion letter, the Plan Administrator believes that the Plan is still designed and is currently being operated in compliance with the applicable requirements of the IRC.

GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan Administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2018, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements.

Note 7. Party-in-Interest Transactions

The plan participants invest in a guaranteed annuity contract issued by the Plan's record keeper, GWLA of New York. These transactions with GWLA qualify as exempt party-in-interest transactions.

Note 8. Risks and Uncertainties

The Plan may invest in various types of investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and those changes could materially affect the amounts reported in the statements of net assets available for benefits.

The Plan's exposure to a concentration of credit risk is limited by diversification of investments across all participant-directed fund elections. Additionally, the investments within each participant-directed fund election are further diversified into various financial instruments.

The Plan may indirectly invest in securities with contractual cash flows, such as asset backed securities,

Note 8. Risks and Uncertainties (Continued)

collateralized mortgage obligations and commercial mortgage backed securities, including securities backed by subprime mortgage loans. The value, liquidity and related income of these securities are sensitive to changes in economic conditions, including real estate value, delinquencies or defaults, or both, and may be adversely affected by shifts in the market's perception of the issuers and changes in interest rates.

The Guaranteed Portfolio Fund represents approximately 5.1% and 4.7% of the Plan's net assets as of December 31, 2018 and 2017, respectively, and represents an obligation from GWLA to repay as amounts come due. The Plan Administrator does not believe that any events would limit the Plan's ability to transact at contract value.
