MESA GROUP 401(k) PLAN

NOTES TO FINANCIAL STATEMENTS

Years Ended December 31, 2018 and 2017

A. Description of Plan

General

The following brief description of the Mesa Group 401(k) Plan (the "Plan") is provided for general information purposes only. The Plan is sponsored by Mesa Well Servicing, L.P. (the "Partnership"). Participants should refer to the Plan document for a more complete description of the Plan's provisions.

The Plan was amended and restated effective January 1, 2015, and is a defined contribution plan covering substantially all employees of the Partnership as well as related employers (the "Group"), who have at least three months of service and are age 18 or older. The Group consists of the Partnership and Mesa Southern CWS Acquisition, LP. Eligible employees can enter the Plan the first day of the quarter coinciding with or next following the date they satisfy the eligibility requirements. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

The purpose of the Plan is to encourage the Group's employees to save and invest, systematically, a portion of their current compensation so that they and their families may have a source of additional income upon their retirement, or in the event of death.

Contributions

Participants may contribute up to 90% of their pre-tax and/or post-tax annual compensation, as defined by the Plan. Contributions are subject to limitations on annual additions and other limitations imposed by the Internal Revenue Code (the "Code") as defined by the Plan document. Eligible participants may make rollover contributions to the Plan.

Participants who are eligible to make salary deferral contributions under the Plan and who have attained age 50 before the close of the Plan year may make catch-up contributions in accordance with, and subject to, the limitations imposed by the Code.

The Plan provides that the Group may make matching contributions equal to a discretionary percentage to be determined by the Group of the participants' elective deferrals, as defined by the Plan. Participants must complete three months of service to be eligible to receive the employer matching contributions. Effective January 2015, the Group ceased matching contributions indefinitely. The Group may also make discretionary non-elective contributions to the Plan. Participants must complete one year of service to be eligible to receive the employer discretionary non-elective contributions. For the years ended December 31, 2018 and 2017, the Group made no discretionary non-elective contributions to the Plan.

A. Description of Plan – continued

Participant Accounts

Each participant's account is credited with participant contributions and an allocation of the Group's contributions and Plan earnings. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's account.

Vesting

Participants are immediately vested in their voluntary contributions plus actual earnings thereon. Vesting in the Group's matching and non-elective contributions portion of accounts, plus actual earnings thereon is as follows:

Years of Service	Vesting Percentage
Less than 2 years	0%
At least 2 years but not more than 3	20%
At least 3 years but not more than 4	40%
At least 4 years but not more than 5	60%
At least 5 years but not more than 6	80%
More than 6 years	100%

In the event of reaching normal retirement age, disability, or death, a participant will become fully vested.

Notes Receivable from Participants

Participants may borrow from their accounts a minimum of $1,000 up to a maximum amount equal to the lesser of $50,000 or 50% of their vested account balances. Loan terms range up to five years, or longer for the purchase of a primary residence. The loans are secured by the balance in the participant's account and bear interest at a rate equal to the prime rate plus 2%. As of December 31, 2018, interest rates ranged from 5.25% to 7.25%. As of December 31, 2017, interest rates ranged from 5.25% to 6.25%. Principal and interest is paid ratably through payroll deductions. Participant loans are classified as notes receivable from participants in the Plan's financial statements.

A. Description of Plan – continued

Benefit Payments

Participants withdrawing during the year for reasons of service or disability, retirement, death, or termination are entitled to their vested account balances. Benefits are distributed in the form of rollovers or lump-sum payments. If withdrawing participants are not entitled to their entire account balances, the amounts not received are forfeited.

Certain in-service withdrawals are allowed. A participant may also elect to withdraw all or a portion of his or her salary reduction contributions while employed after reaching age 59 ½. A participant may receive a hardship distribution from salary reduction contributions if the distribution meets one of the following conditions: (1) on account of uninsured medical expenses incurred by the participant, his or her spouse, or dependents; (2) to purchase (excluding mortgage payments) a principal residence for the participant; (3) for the payment of post-secondary tuition expenses for the participant, his or her spouse, or dependents; (4) needed to prevent eviction of the participant from his or her principal residence or foreclosure upon the mortgage of the participant's principal residence; (5) for funeral expenses for the participant, his or her parent, spouse or dependents; or, (6) for payments to repair the participant's principal residence that would qualify for a casualty loss deduction.

Forfeitures

Forfeited balances of terminated participants' non-vested accounts shall be used to pay Plan administrative expenses or to reduce Group contributions.

There were no forfeitures used to offset Group contributions for the years ended December 31, 2018 or 2017. Approximately $4,000 and $23,000 of forfeitures were used to offset Plan expenses in the years ended December 31, 2018 and 2017, respectively. There were approximately $2,000 and $6,000 of unallocated forfeitures as of December 31, 2018 and 2017, respectively.

Investment Options

Upon enrollment in the Plan, a participant may direct his or her salary deferrals in 1% increments into any of the Plan's available investment options.

Plan Expenses

Employees of the Group perform certain administrative functions with no compensation from the Plan. All administrative expenses are paid by the Group and are not reflected in the accompanying financial statements.

B. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are presented on the accrual basis of accounting in conformity with accounting principles generally accepted in the United States of America ("GAAP").

Investments held by a defined contribution plan are required to be reported at fair value, except for fully benefit-responsive investment contracts. Contract value is the relevant measure for the portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants normally would receive if they were to initiate permitted transactions under the terms of the Plan.

Use of Estimates

The preparation of financial statements requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from these estimates.

Contributions

Contributions from the Group and participants are accrued as they become obligations of the Group, as determined by the plan administrator, and in the period in which they are deducted, in accordance with salary deferral agreements.

Investment Valuation and Income

The investments of the Plan are stated at fair value (except for fully benefit-responsive investment contracts, which are reported at contract value) as of the end of the year and are subject to market or credit risks customarily associated with equity investments. Fair value measurements are determined in accordance with GAAP, which defines fair value, establishes a framework for measuring fair value, and expands disclosures about assets and liabilities measured at fair value. See Note C for information related to the Plan's valuation methodologies.

Investment gains and losses are accounted for using the average cost basis of the securities sold. The net realized and unrealized gains on investments include realized gains and losses on sales of investments during the year and unrealized increases or decreases in the market value of investments held at year-end. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Notes Receivable from Participants

Notes receivable from participants are recorded at the unpaid principal balance plus accrued but unpaid interest.

B. Summary of Significant Accounting Policies – continued

Payment of Benefits

Benefits are recorded when paid.

C. Fair Value Measurements

GAAP defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date and establishes a three-tier hierarchy that is used to identify assets and liabilities measured at fair value. The hierarchy focuses on the inputs used to measure fair value and requires that the lowest level input be used. The three levels defined are as follows:

- Level 1 – observable inputs that are based upon quoted market prices for identical assets or liabilities within active markets.

- Level 2 – observable inputs other than Level 1 that are based upon quoted market prices for similar assets or liabilities, based upon quoted prices within inactive markets, or inputs other than quoted market prices that are observable through market data for substantially the full term of the asset or liability.

- Level 3 – inputs that are unobservable for the particular asset or liability due to little or no market activity and are significant to the fair value of the asset or liability. These inputs reflect assumptions that market participants would use when valuing the particular asset or liability.

GAAP requires that management describe the methodologies used to measure the fair value of assets and liabilities. The methodologies used to measure the fair value of the Plan's investments are as follows:

- Pooled separate accounts are valued using the accumulation of numerous mutual funds and other investments whose values are determined by quoted markets. While a majority of the underlying asset values are based on quoted prices, the net asset value ("NAV") of the pooled separate account is used as a practical expedient to estimate fair value. The NAV is determined by the investment account manager as of the financial statement date.

C. Fair Value Measurements – continued

There have been no changes in the methodologies used at December 31, 2018 and 2017. As of December 31, 2018 and 2017, there were no investments included in the fair value hierarchy, as the pooled separate accounts are at NAV as a practical expedient. Investments are classified in their entirety based on the lowest priority level of input that is significant to the fair value measurement. The assessment of the significance of a particular input to the fair value measurement requires judgment and may affect the placement within the levels of the fair value hierarchy.

The fair value of the pooled separate accounts measured using the NAV per share practical expedient was $1,718,619 and $1,679,357 as of December 31, 2018 and 2017, respectively. The pooled separate accounts held by the Plan provide for daily redemptions at reported NAV with no advance notice requirement. The Plan is permitted to redeem investment units at NAV on the measurement date. There are no unfunded commitments.

D. Fully Benefit-Responsive Investment Contract

The Plan holds units of the Transamerica Stable Value Core Option Fund (the "Stable Value Fund"), which is a guaranteed annuity contract comprised of assets in the Transamerica Life Insurance Company ("Transamerica") general account. This contract meets the fully benefit-responsive investment contract criteria and, therefore, is reported at contract value. Contract value is the relevant measure for fully benefit-responsive investment contracts because this is the amount received by participants if they were to initiate permitted transactions under the terms of the Plan. Contract value represents contributions made under each contract, plus earnings, less participant withdrawals and administrative expenses.

There is no specific portfolio of assets in which the Stable Value Fund investment choices invest. The credited interest rate is backed by the income received from assets held in the general account. Regardless of the activity of the general fund, Transamerica pays the stated interest rate and backs the capital deposit where the risk is measured by Transamerica's credit rating. The Stable Value Fund is a depository liability with no formal underlying maturities, and it is considered fairly valued at contract value because of this specific distinction.

Prior to January 1st and July 1st, the effective annual rate of interest is established for the corresponding six month period. Interest is credited, based upon the daily balance, at a rate that is the daily equivalent of the effective annual rate of interest applicable for the six month period. There is no stated minimum or maximum interest rate for the Stable Value Fund investment choices.

No events are probable of occurring that might limit the ability of the Plan to transact at contract value with the contract issuers and that also limit the ability of the Plan to transact at contract value with the participants.

E. Information Certified by the Custodian

The Plan administrator elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the plan administrator limited auditing procedures with respect to investments certified by the custodian, which included total investments as of December 31, 2018 and 2017, and total investment income (loss) for the years ended December 31, 2018 and 2017, and all information included in the supplemental Form 5500, Schedule H, Line 4i – Schedule of Assets (Held at End of Year).

F. Tax Status

Effective January 1, 2015, the Plan adopted the Nova 401(k) Associates Volume Submitter Profit Sharing Plan with CODA, which has a favorable advisory letter from the Internal Revenue Service ("IRS") dated March 31, 2014. This advisory letter states that the form of the prototype plan is acceptable under Section 401 of the Code. The Group may rely on this letter with respect to the qualification of the Plan under Code Section 401(a) with certain limitations.

Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualification. The basic Plan document has been amended since receiving the advisory letter; however, the Group believes that the Plan is being operated in compliance with the applicable requirements of the Code and, therefore, believes that the Plan was qualified and the related trust was tax exempt as of the financial statement date.

GAAP requires management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan and has concluded that as of December 31, 2018, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

G. Plan Termination

Although it has not expressed any intention to do so, the Group has the right under the Plan to terminate the Plan subject to the provisions set forth in ERISA. In the event the Plan terminates, all amounts credited to participants' accounts will become 100% vested.

H. Party-in-Interest Transactions

Party-in-interest transactions include those with fiduciaries or employees of the Plan, any person who provides services to the Plan, an employer whose employees are covered by the Plan, an employee organization whose members are covered by the Plan, a person who owns 50% or more of such an employer or employee organization, or relatives of such persons.

H. Party-in-Interest Transactions – continued

The Plan invests in the Stable Value Fund managed by Transamerica, the custodian. Transactions with such investment, as well as notes receivable from participants, qualify as party-in-interest transactions, which are exempt from the prohibited transaction rules. The Plan paid certain expenses related to Plan operations and investment activity to various service providers. These transactions are party-in-interest transactions under ERISA.
