Notes to Financial Statements

Note 1: Description of Plan

The following description of the Thermoflex Corp. 401(k) Plan (the "Plan") provides only general information. Participants should refer to the plan document for a more complete description of the Plan's provisions.

General

The Plan, as restated effective January 1, 2016, and most recently amended December 21, 2017, is a defined contribution plan covering all eligible employees of Thermoflex Corporation (the "Company"). Effective January 1, 2018, the Plan was amended through adoption of a volume submitter plan (Note 8). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended. The Company is the plan administrator. Principal Trust Company (Principal) is the Plan's Trustee, custodian of the Plan's investment assets, and recordkeeper.

Eligibility

Employees, including all employees of the Company and employees leased to the Company, as defined, are eligible to participate in making elective deferral contributions upon reaching the age of 21 and completing 90 days of service, provided the employee is not a nonresident alien. Eligible employees may enter the Plan on the first day of the month following their fulfillment of the eligibility requirements.

Contributions

Each year, participants may contribute a portion of their annual compensation, as defined in the Plan, as either a pretax or after tax (Roth) deferral. Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans (rollovers). Participants direct the investment of their contributions into various investment options offered by the Plan under a group annuity contract.

The Plan does not provide for Company matching, discretionary, or qualified nonelective contributions. However, the Company provides for a safe harbor matching contribution equal to 100% of the participant's deferrals up to 3% of eligible compensation, plus 50% of the participant's deferrals from 3% to 5% of eligible compensation with such matching contributions being remitted to the Thermoflex Corp. Employee Stock Ownership Plan (the "ESOP").

Participant Accounts

Individual accounts are maintained for each plan participant. Each participant’s account is credited with the participant’s voluntary deferral and rollover contributions and an allocation of plan earnings (losses). Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant’s vested account.

Note 1: Description of Plan (Continued)

Vesting

Participants are immediately vested in their voluntary contributions, plus actual earnings thereon, and qualified matching contributions made to the ESOP.

Notes Receivable From Participants

Participants may borrow from their fund accounts a minimum of $500, up to a maximum equal to the lesser of 50% of their vested balance or $50,000, reduced by any outstanding loan balance, if any, during the one-year period ending on the day before the new loan is made. The notes are secured by the balance in the participant's account and bear interest at rates commensurate with local prevailing rates as determined by the plan administrator. Interest rates on loans outstanding at December 31, 2018 ranged from 5.25% to 6.25%. Principal and interest are repaid ratably through payroll deductions.

Payment of Benefits

Upon termination of service due to death, disability, retirement, or other reasons, as defined, a participant will receive a lump-sum amount equal to the value of the participant's vested interest in his or her account. In addition, hardship distributions out of the participant's voluntary contributions account are permitted if certain criteria are met. The Plan also allows for in-service distributions upon attaining age 59 1/2. At December 31, 2018 and 2017, there were no amounts owed to former participants whose employment had been terminated and who requested payout of their account balances.

Forfeitures

Forfeitures are portions of participants' accounts that participants surrender by terminating employment prior to becoming fully vested. Forfeitures may be used to pay administrative expenses. At December 31, 2018 and 2017, there were no forfeited nonvested accounts and there were no forfeited nonvested amounts used to pay administrative expenses during the year ended December 31, 2018.

Note 2: Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements of the Plan are prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States (GAAP).

Use of Estimates

The preparation of financial statements in accordance with GAAP requires the Plan's management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results may differ from these estimates.

Note 2: Summary of Significant Accounting Policies (Continued)

Administrative Expenses

Plan expenses directly attributable to a participant, such as loan fees and withdrawal fees, are paid by the applicable participant. Professional fees and certain administrative expenses incurred by the Plan are paid by the Company. Expenses paid by the Company are excluded from these financial statements. To the extent not covered by the Company, all other expenses are paid by the Plan. Investment-related expenses are included in net depreciation in fair value of investments.

Investment Valuation and Income Recognition

The Plan's investments are reported at fair value, except for its fully benefit-responsive investment contract (FBRIC). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net depreciation includes the Plan's gains and losses on investments bought and sold, as well as held, during the year.

FBRIC's are reported at contract value (Note 4), which is the amount participants would normally receive if they were to initiate permitted transactions under the terms of the Plan.

Notes Receivable From Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2018 and 2017. Delinquent participant notes receivable are recorded as benefit payments on the basis of the terms of the plan document.

Excess Contributions Payable

At December 31, 2018, amounts payable to participants totaling $20,854 for contributions in excess of amounts allowed by the Internal Revenue Service (IRS) are recorded as a liability with a corresponding reduction to contributions. The Plan distributed the 2018 excess contributions to the applicable participants in September 2019. There were no excess contributions payable at December 31, 2017.

Payment of Benefits

Benefit payments are recorded when paid.

Subsequent Events

The Plan has evaluated subsequent events through October 14, 2019, which is the date the financial statements were available to be issued.

Note 3: Fair Value Measurements

GAAP specifies a three-tier fair value hierarchy, which prioritizes the inputs used in estimating fair value. These tiers include Level 1, defined as observable inputs such as quoted market prices in active markets; Level 2, defined as inputs other than quoted market prices in active markets that are either directly or indirectly observable; and Level 3, defined as unobservable inputs in which little or no market data exists, therefore requiring an entity to develop its own assumptions.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used as of December 31, 2018 and 2017.

Mutual funds: Funds are valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the U.S. Securities and Exchange Commission. These funds are required to publish their daily NAV and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Collective investment trust funds: Fair values are based on the NAV of shares held by the Plan at year-end as reported by the fund managers based on the value of the underlying assets at year-end. The NAV is used as a practical expedient to estimate fair value.

Pooled separate accounts: Investments in pooled separate accounts are represented by a "unit of account," whose value is the result of the accumulated values of the underlying investments. Their underlying investments are public investment vehicles valued using the NAV provided by the administrator of the mutual fund investments. The NAV is based on the value of the underlying assets owned by the fund, minus its liabilities, and then divided by the number of shares outstanding.

The preceding methods may produce a fair value calculation that may not be indicative of net realizable value or reflect future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in different fair measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's investment assets at fair value as of December 31, 2018 and 2017.

	Assets at Fair Value as of December 31, 2018			
	Level 1	Level 2	Level 3	Total
Mutual funds	$ 1,251,918	$ -	$ -	$ 1,251,918
Investment assets measured at NAV				1,705,461
Total investment assets at fair value				$ 2,957,379

Note 3: Fair Value Measurements (Continued)

	Assets at Fair Value as of December 31, 2017			
	Level 1	Level 2	Level 3	Total
Mutual funds	$ 899,350	$ -	$ -	$ 899,350
Investment assets measured at NAV				1,867,403
Total investment assets at fair value				$ 2,766,753

The following table summarizes investments for which fair value is measured using the NAV per share practical expedient as of December 31, 2018 and 2017. There are no participant redemption restrictions for these investments; the redemption notice period is applicable only to the Plan.

Investment	2018 Fair Value	2017 Fair Value	Unfunded Commitment	Redemption Frequency	Redemption Notice Period
Collective investment trust funds	$ 1,507,805	$ 1,786,964	N/A	Daily	None
Pooled separate accounts	197,656	80,439	N/A	Daily	None

Note 4: Guaranteed Investment Contract

The Plan invests in a FBRIC with Principal Life Insurance Company (Principal Life) in the form of a guaranteed investment contract (GIC). Principal Life maintains the contributions in a general account. The account is credited with earnings (losses) on the underlying investments and charged for participant withdrawals and administrative expenses. Principal Life is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan. The GIC is fully benefit-responsive and is carried at contract value. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The crediting interest rate is based on a formula agreed upon with the issuer, but may not be less than 1%. Such interest rates are reviewed on an annual basis for resetting. The average yield was 1.71% and 1.58% for the years ended December 31, 2018 and 2017, respectively. The crediting yield was 1.80% and 1.70% for the years ended December 31, 2018 and 2017, respectively.

Certain events limit the Plan's ability to transact at contract value with Principal Life, including plan termination and other events as specified in the GIC. The Plan administrator does not believe that any events which would limit the Plan's ability to transact at contract value with participants or the issuer are probable of occurring. The GIC permits Principal Life to terminate the agreement prior to the scheduled maturity date upon providing an announcement of termination to the Plan administrator.

Note 5: Information Prepared and Certified by the Trustee

The plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Certain information disclosed in the accompanying financial statements and supplemental schedule, including investments and notes receivable from participants held at December 31, 2018 and 2017, net depreciation in fair value of investments, dividends, and interest income on notes receivable from participants for the year ended December 31, 2018, was obtained or derived from information supplied to the plan administrator and certified as complete and accurate by Principal, the Trustee of the Plan.

Note 6: Related-Party and Party-in-Interest Transactions

Certain plan investments are managed by the Trustee, as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. These transactions are not considered prohibited transactions under the ERISA regulations. Fees paid by the Plan to the Trustee for administrative expenses amounted to $720 for the year ended December 31, 2018. Certain employees of the Company provide administrative services for the Plan and are not reimbursed for their services from the Plan.

Notes receivable from participants also qualify as party-in-interest transactions, which are exempt from the prohibited transaction rules of ERISA.

Note 7: Plan Termination

Although it has not expressed the intention to do so, the Company has the right under the Plan to terminate the Plan subject to the provisions of ERISA.

Note 8: Tax Status

Effective January 1, 2018, in connection with a plan amendment, the Plan adopted a Volume Submitter Profit-Sharing Plan (Volume Submitter Plan) sponsored by Principal Life. The Volume Submitter Plan obtained its latest determination letter on August 8, 2014, in which the IRS stated that the Volume Submitter Plan, as then designed, was in compliance with applicable requirements of the Internal Revenue Code (IRC). The Plan has been amended since receipt of the determination letter. However, the Plan administrator believes the Plan is currently designed, and being operated, in compliance with applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Note 9: Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Note 10: Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements at December 31, 2018 and 2017, to Form 5500:
