Belcan Retirement Savings Plan

Notes to Financial Statements

December 31, 2018 and 2017

1. Plan Description

The following description of the Belcan Retirement Savings Plan (the "Plan") provides only general information. Participants should refer to the Plan documents for a more complete description of the Plan's provisions.

General and Participation

The Plan is a defined contribution plan established on October 1, 1985 covering eligible employees of Belcan LLC (the "Company") and the following affiliates that have adopted the Plan ("Participating Employer"): (a) Belcan Engineering Group, LLC; (b) Belcan Services Group Limited Partnership (c) Kentah Group Inc., effective December 31, 2017, and (c) Intercom Federal System Corporation effective December 31, 2017, (collectively, the "Plan Sponsor"). To be eligible to participate in the Plan, an individual must be an employee of the Company or a Participating Employer who has completed at least three months of service, attained at least age 21, and who is not: (1) co-op student; or (2) eligible to participate in the Belcan Services Group Limited Partnership Retirement Savings Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended ("ERISA") and the Internal Revenue Code of 1986, as amended (the "Code").

On December 31, 2017, the Kentah Group Inc. 401(k) Savings Plan and the Intercom Federal Systems Corporation 401(k) Plan were merged with the Plan. Participant accounts were transferred to the Plan in January 2018. As such, a receivable to the Plan of \$8,925,075 and \$4,670,806 existed as of December 31, 2017 from the Kentah Group Inc. 401(k) Savings Plan and Intercom Federal Systems Corporation 401(k) Plan, respectively. An additional \$388,869 in assets were included in the January 2018 transfer associated with additional investment appreciation between December 31, 2017 and the January 2018 asset transfer date.

Administration and Trustee

The Plan is administered by a committee (the "Committee") comprised principally of management. The Committee appointed Bank of America, N.A. ("Bank of America") as trustee. Bank of America is designated as the trustee and investment manager of the Plan. Bank of America invests and holds all contributions made by the Plan administrator and allocates the amounts among the funds as directed by participants. An affiliate of Bank of America is recordkeeper of the Plan.

Contributions

Participants may contribute to the Plan, on a pre-tax basis, 401(k) contributions and catch-up contributions (up to limits set by the Plan and the Code). The Plan provides for automatic enrollment of eligible employees at a 3% deferral rate, but participants may stop these automatic contributions at any time or elect a different contribution percentage. Eligible employees on December 31, 2017 as a result of the Kentah Group Inc. 401(k) Savings Plan and Intercom Federal Systems Corporation 401(k) Plan mergers must take affirmative elections to participate in the plan. All subsequent newly hired employees of Kentah Group Inc. and Intercom Federal Systems are subject to the Plan's automatic enrollment provisions. The Company and the Participating Employer may, at their discretion, match participants' 401(k) contributions, up to the limit determined by the Company and Participating Employers, at a rate of 50% of the first 4% of eligible compensation.

Additionally, the Plan accepts direct rollovers from other plans and arrangements, and rollover contributions from participants. Participants who have attained the age of 50 before the end of the Plan year are eligible to make catch-up contributions at an additional \$6,000 in 2018 and 2017, to the Plan per year.

Belcan Retirement Savings Plan

Notes to Financial Statements

December 31, 2018 and 2017

Participant Accounts

Participants are immediately 100% vested in their contributions, catch-up contributions and rollover contributions, as adjusted for earnings and losses thereon. Vesting in matching contributions is generally based on years of service. A participant becomes vested at a rate of 20% per year and is 100% vested after being credited with 5 years of service. Also, if while employed by the Company, a Participating Employer, or an affiliated company, the participant reaches normal retirement age, become disabled, or dies, the participant becomes fully vested.

Vesting

Participants are immediately 100% vested in their contributions, catch-up contributions and rollover contributions, as adjusted for earnings and losses thereon. Vesting in matching contributions is generally based on years of service, which is defined as completion of 1,000 hours or more during the Plan year. A participant becomes vested at a rate of 25% per year and is 100% vested after being credited with 5 years of service. Also, if while employed by the Company, the participant reaches normal retirement age, become disabled, or dies, the participant becomes fully vested.

Investments

Upon enrollment into the Plan, a participant may direct employee and employer contributions in 1% increments into various investment options available under the Plan. Participants may reallocate their investments at any time during the year. Accordingly, all investments are participant directed.

Benefits

Distributions may generally be made to a participant upon the participant's termination of employment with the Company, Participating Employers and all affiliated companies. Additionally, prior to termination from employment, a participant may withdraw all or a portion of his vested account balance upon attaining age 59½, incurring a financial hardship (if certain requirements are satisfied) or if called to military duty (if certain requirements are satisfied). Benefits shall be paid to participants in the form of lump sum or installment payments upon termination of employment.

Death Benefits

Upon death, a participant's vested account balance remaining in the Plan will be paid to the participant's beneficiary.

Notes Receivable From Participants

Participants may borrow up to \$50,000 (reduced as required by the Code) or 50% of their vested account balance in the Plan, whichever is less. The maximum term of a loan is 5 years. A participant may only have up to two loans outstanding. The loans are secured by the balance in the participant's account and bear interest at a rate determined by the plan administrator. Principal and interest are paid ratably through payroll deductions. A participant must generally repay any loan in full within 90 days of the participant's termination of employment with the Company and Participating Employers. At December 31, 2018 and 2017, participant loan interest rates in effect ranged from 4.25% to 6.25% and 4.25% to 4.50%, respectively, with various maturity dates through 2023.

Forfeited Accounts

Forfeited matching contributions are used to reduce future matching contributions, or to pay the Plan's administrative expenses. At December 31, 2018 and 2017, forfeited accounts totaled approximately \$100,000 and \$300,000, respectively. During the years ended December 31, 2018 and 2017, approximately \$700,000 and \$200,000, respectively, were used to reduce matching contributions.

2. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements are prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

Use of Estimates

The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the accompanying financial statements and disclosures. Accordingly, actual results could differ from these estimates.

Valuation of Investments and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for a discussion of fair value measurements.

Investment contracts held by a defined contribution plan are required to be reported at fair value.

The change in the unrealized difference between cost and fair value of investments held is reflected in the statements of changes in net assets available for benefits as net appreciation (depreciation) in fair value of investments. Gains and (losses) on dispositions of investments are recognized at the time of disposition with the amount of gain or (loss) determined on a specific identification basis. Interest income is recorded on an accrual basis. Dividends are recorded on the ex-dividend date.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus accrued but unpaid interest. Related fees are recorded as administrative expenses and are expensed when they are incurred. Delinquent notes receivable from participants are reclassified as distributions based upon the terms of the plan document. No allowance for credit losses has been recorded as of December 31, 2018 and 2017.

Contributions

Employee contributions are made through regular payroll deductions and are paid into the Plan bi-weekly along with company and participating employer matching contributions.

Payment of Benefits

Benefits are recorded upon distribution.

Administrative Expenses

Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Fees related to the administration of notes receivable from participants and payment of benefits are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation in fair value of investments.

Risks and Uncertainties

The Plan invests in various investment securities that are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the value of investment securities will occur in the near term and that such changes could materially affect participants' account balance and the amounts reported in the statements of net assets available for benefits and statements of changes in net assets available for benefits.

3. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets to identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels are described as follows:

Level 1 Inputs are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs include quoted prices for similar assets or liabilities in active markets, quoted prices for identical or similar assets or liabilities in inactive markets, inputs other than quoted prices that are observable for the asset or liability, and inputs derived from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2018 and 2017:

Cash (interest-bearing): Valued at original cost plus accrued interest or at amortized cost as reported by the financial institution associated with the interest-bearing account.

Mutual Funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Common/Collective Trust: Valued based on the net asset value (NAV) of units held by the Plan at year end. The net asset value of units held by the Plan is based on the fair value of the underlying investments held by the fund less its liabilities (discussed below). Generally, under ordinary market conditions, all common/collective trust positions provide daily market liquidity to plan participants and the Plan. Participant transactions (issuances and redemptions) may occur daily. Were the Plan to initiate a full redemption of its interest in the common/collective trust, however, the trustee of the common/collective trust fund could impose restrictions to the extent that it is determined a full redemption could disrupt the

Notes to Financial Statements

liquidity or management of the fund. There are no unfunded commitments for investments in the common/collective trust.

The Federated Capital Preservation trust is composed of fully benefit-responsive investment contracts. The Fund is valued using a \$1 NAV and is primarily invested in fixed income securities. The Fund may invest in such securities directly or indirectly through commingled investment vehicles. The underlying investments of a fully benefit-responsive investment contract are fair valued using readily available market quotations; units or shares of commingled investment vehicles held by the Fund will be valued using the stated NAVs for such units or shares. If market quotations are not readily available for any security or if the Trustee reasonably determines that a market quotation does not accurately reflect the fair value of a security in good faith using various indicia of value, furnished by third parties, including pricing services. There are no reserves against contract value for credit risk of the contract issuers or otherwise. The average yield and crediting interest rates were approximately 2.11% and 2.01% for the year ended December 31, 2018 and 1.81% and 1.68% for the year ended December 31, 2017, respectively. The crediting interest rate is based on formulas agreed upon with the issuers; there is a 0% minimum credit rate gross of fees. Such interest rates are reviewed monthly for resetting.

The preceding methods may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Fair Value Hierarchy

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2018 and 2017:

	2018

⁽¹⁾ Certain investments that are measured at fair value using the net asset value per share (or its equivalent practical expedient) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the amounts presented in the Statements of Net Assets Available for Benefits.

4. Income Tax Status

The Plan obtained its latest determination letter on December 31, 2015, in which the Internal Revenue Service (IRS) ruled that the Plan, as then designed, was in compliance with the applicable requirements of the Code. The Plan has been amended since receiving the determination letter. However, the Plan administrator believes that the Plan is currently designed and being operated in accordance with the applicable requirements of the Code in all material respects. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2018, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2015.

5. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan. If the Plan is terminated, participants will become 100% vested in their accounts, to the extent they are not already vested.

7. Related Party Transactions

Certain Plan investments are mutual funds managed by Bank of America, N.A. Bank of America is the trustee of the Plan, therefore, these transactions and fees earned by them, qualify as party-in-interest transactions. The Plan also maintains notes receivables from participants which are exempt from prohibited transactions rules. The Company also provides certain accounting, recordkeeping and administrative services to the Plan for which it is not compensated.

8. Subsequent Event

The Plan Sponsor has evaluated subsequent events through October 14, 2019, the date the financial statements were available to be issued. No matters were identified that would materially impact the financial statements or require disclosure.
