1. Plan Description

The following description of the BABS 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan document for a more comprehensive description of the Plan's provisions.

a) *General* – The Plan is a 401(k) defined contribution plan covering all full-time employees of Bay Area Building Solutions, Inc. (the "Company"). The Plan also covers employees of Cypress Gulf Development Corporation. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

b) *Eligibility and Participant Contributions* – All eligible employees who are at least 21 years of age, have completed three months of service, are not temporary employees or part of a collective bargaining agreement, may participate in the Plan. Each year, participants may elect to make pre-tax contributions to the Plan as defined in the Plan document. Participants may modify their contribution percentage at any time. Participants may also contribute amounts representing distributions from other qualified plans ("rollover contributions"). Catch-up contributions, as defined in the Internal Revenue Code ("IRC"), are permissible for eligible participants who are at least age 50 or will attain age 50 before the end of the calendar year. All participant contributions during a Plan year are subject to maximum dollar limitations established by the IRC. For the year ended December 31, 2018, the total maximum allowable tax-deferred contribution to the Plan under the IRC from employee sources was $18,500, plus catch-up contributions of $6,000 for eligible employees.

c) *Company Contributions* – The Company makes a safe-harbor matching contributions to participants. The Company matches 100 percent participant contributions up to 3 percent of compensation contributed to the Plan and 50% of contributions up to 5 percent of compensation contributed to the Plan.

d) *Participants Accounts* – A separate individual account is established for each participant in the Plan. Each participant's account is credited with the participant's contribution, any discretionary contribution and allocations of investment earnings and administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a

participant is entitled is the benefit that can be provided from the participant's vested account

e) *Vesting* – Participants' contributions, rollover contributions plus actual earnings thereon and Company safe-harbor contributions are 100% vested.

f) *Investment Options* – Upon enrollment in the Plan, a participant is required to direct their contributions plus actual earnings thereon to be invested in any of the investment options offered by the Plan. Participants have the ability to modify their investment options daily.

g) *Payment of Benefits* – Upon termination of service due to death, disability or retirement, a participant becomes 100% vested and may elect to receive an amount equal to the value of the participant's vested interest in his or her account in either a lump-sum amount or annuity payments. Participants may also withdraw funds from their account when they reach the age of 65 or in the event of financial hardship. Benefits are recorded as deductions from net assets available for benefits when paid.

h) *Notes receivable from Participants* –Participants may borrow for any purpose, up to lesser of 50% of the participant's vested account balance or $50,000. Loans are repayable over a period of up to five years, unless the proceeds are used to purchase a primary residence, in which case the loan is repayable over a period of up to ten years. Loans are secured by the participant's account balance and evidenced by a promissory note. Interest rates on outstanding loans are stated at a rate commensurate with local prevailing rates, as determined by the Plan administrator. All loans, principal plus interest, are repaid through participant payroll deductions.

i) *Administrative expenses* –The Employer pays certain administrative fees associated with the Plan. Fees paid by the Plan relating to Plan investments will generally be allocated among the accounts of all participants in the Plan proportionately based on the value of account balances or number of participants in the Plan. Expenses specifically incurred by, or attributable to, a participant may be allocated directly to a specific participants account. Administrative functions are performed by certain employees of the Employer. No such employees receive compensation from the Plan.

2. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual method of accounting, in accordance with accounting principles generally accepted in the United States of America.

Use of Estimates

The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan to make estimates and assumptions that affect the reported amounts of net assets and changes therein. Actual results could differ from these estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value (except for the fully benefit-responsive investment contract, which is reported at contract value). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (the exit price). See Note 5 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits

Benefits are recorded when paid.

Administrative Expenses

Certain administrative costs of the Plan are paid directly by the Company.

3. Subsequent Events

The Plan has evaluated events and transactions occurring subsequent through October 14, 2019, the date the financial statements were available to be issued.

Effective July 1, 2019 the Plan Adoption Agreement was amended to include adopting employer Got Concrete, LLC into the BABS 401(k) Plan.

4. Information Prepared and Certified by the Trustee

The Plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's ("DOL") Rules and Regulation for Reporting and Disclosure under ERISA.

Principal has certified that the following data included in the accompanying financial statements and supplemental schedule is complete and accurate:

- Investments and notes receivable from participants, as shown in the statements of net assets available for benefits as of December 31, 2018 and 2017.
- Net investment (loss), interest and dividend income, and interest income on notes receivable from participants, as shown in the Statement of Changes in Net Assets Available for Benefits for the year ended December 31, 2018.
- Schedule H, Part IV - Line 4i – Schedule of Assets (Held at End of Year), December 31, 2018.

The Plan's independent certified public accountants did not perform auditing procedures with respect to this information, except for comparing such information certified by Ascensus and Principal to the related information included in the financial statements and supplemental schedules.

5. Fair Value Measurements

Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") 820, *Fair Value Measurements*, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under ASC 820 are described below:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value:

Pooled separate accounts (PSA) – valued at NAV which is based on the value of the underlying assets owned by the PSA minus any liabilities, and then divided by the number of shares outstanding.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different estimate of fair value at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value.

	Investment Assets at Fair Value as of December 31, 2018			
	Level 1	Level 2	Level 3	Total
Pooled separate accounts	–	$1,508,470	–	$1,508,470
Total investments at fair value	–	$1,508,470	–	$1,508,470

	As of December 31, 2017 (Unaudited)			
	Level 1	Level 2	Level 3	Total
Pooled separate accounts	–	$1,422,827	–	$1,422,827
Total investments at fair value	–	$1,422,827	–	$1,422,827

6. Guaranteed investment contract

In 2018, the Plan entered into a fully benefit-responsive guaranteed investment contract with Principal. Principal maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan. The crediting rate is based on a formula established by the contract issuer but may not be less than 3 percent. The crediting rate is reviewed on a semiannual basis for resetting. The guaranteed investment contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

This contract meets the fully benefit-responsive investment contract criteria and therefore is reported at contract value. Contract value is the relevant measure for fully benefit-responsive investment contracts because this is the amount received by participants if they were to initiate permitted transactions under the terms of the Plan. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals, and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

The Plan's ability to receive amounts due is dependent on the issuer's ability to meet its financial obligations. The issuer's ability to meet its contractual obligations may be affected by future economic and regulatory developments.

Certain events might limit the ability of the Plan to transact at contract value with the issuer. Such events include (1) amendments to the Plan documents (including complete or partial Plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan sponsor or other Plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA (5) premature termination of the contract which subjects the contract to a 5% surrender charge. No events are probable of occurring that might limit the ability of the Plan to transact at contract value with the contract issuers and that also would limit the ability of the plan to transact at contract value with the participants.

7. Risks and Uncertainties

The Plan utilizes various investment instruments, which are exposed to various risks, such as interest rates, credit, and overall market volatility. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the financial statements.

8. Related Party Transactions

Fees for investment management and administrative services paid by the Plan to

Principal, the record keeper of the Plan, qualify as party-in-interest transactions, were $2,326 for the year ended December 31, 2018.

9. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their accounts.

10. Tax Status

The Internal Revenue Service has determined and informed the Company by a letter dated March 31, 2014 that the Prototype Plan is designed in accordance with applicable sections of the IRC. Although the Plan has been amended since receiving the determination letter, the Plan Administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC, and accordingly is exempt from taxation.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the plan and recognize a tax liability (or asset) if the plan has taken an uncertain tax position that more likely than not would not be sustained upon examination by the internal Revenue Service. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of both December 31, 2018 and 2017, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements.

The Plan is subject to routine audits by taxing jurisdictions, although no audits are currently in process. The Plan administrator believes it is no longer subject to income tax examinations for years prior to December 31, 2015.

11. Reconciliation of Financial Statements to Form 5500
