THE AHLSTROM-MUNKSJO GROUP RETIREMENT PLAN FOR U.S. EMPLOYEES

NOTES TO FINANCIAL STATEMENTS

NOTE 1 - DESCRIPTION OF PLAN

The following description of The Ahlstrom-Munksjo Group Retirement Plan for U.S. Employees (the Plan), formerly the Ahlstrom Group Retirement Plan for U.S. Employees, provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a noncontributory defined benefit plan covering certain salaried and certain hourly employees of the following participating companies at December 31, 2018 and 2017:

- Ahlstrom-Munksjo USA Inc.
- Ahlstrom-Munksjo Filtration LLC (Madisonville, Taylorville and Mount Holly Springs sites)
- Ahlstrom-Munksjo North America LLC

The Plan also provides benefits for certain participants of former participating employers. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Plan Amendments

The Plan was amended on October 14, 2017 to change the name of the Plan to the Ahlstrom-Munksjo Group Retirement Plan for U.S. Employees in connection with the Company's merger with Swedish company Munksjö Oyj in April 2017.

The Plan was amended effective December 31, 2017 to merge the assets and participants of the Retirement Plan for Hourly Paid Employees of Ahlstrom-Munksjo Filtration LLC - Madisonville and Taylorville Locations into the Plan. See Note 10 for the details of the plan merger and transfer of assets.

Eligibility

Prior to May 1, 2006, all eligible employees who were employed by a participating employer and who were not members of a collective bargaining agreement were eligible for plan participation on the first day of the month following the attainment of age 21 and the completion of one year of service. Effective May 1, 2006, employees who first complete an hour of service on or after that date shall not be eligible to participate in the Plan.

Plan Freeze

The Plan was amended to provide that no additional benefit service will be credited after December 31, 2010 for calculating benefits under the Plan. Final average earnings used for calculating benefits include earnings only through December 31, 2017.

Benefits

Pension benefits provided under the terms of the Plan include those for normal retirement, early retirement, late retirement, disability retirement and death.

THE AHLSTROM-MUNKSJO GROUP RETIREMENT PLAN FOR U.S. EMPLOYEES

NOTES TO FINANCIAL STATEMENTS

Under normal retirement (age 65), the Plan provides for three benefit formulas depending upon which participating employer the participant was employed with. Employees of all the current participating companies are subject to the same benefit formula. Annual benefits calculated under these three formulas are a factor of final average earnings, years of benefit service and covered compensation for Social Security purposes. The benefit for early retirement is calculated the same as under normal retirement, except that it is reduced by 5/12% for each full month that the benefit commencement date precedes the normal retirement date.

Late retirement benefits are calculated the same as under normal retirement, except that final average earnings and years of service include the period from the normal retirement date to the actual retirement date.

Death benefits are provided by the Plan before and after retirement. Monthly benefits provided to the surviving spouse are a factor of the participant's age at date of death, final average earnings, years of service, covered compensation for Social Security purposes and the age of the surviving spouse. Death benefits are not provided to participants with less than five years of vesting service.

Vesting

Eligible employees become fully vested under the Plan upon completion of five years of service. In connection with the plan freeze, all active participants became fully vested effective December 31, 2010.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 6 for a discussion of fair value measurements.

Purchases and sales of securities are recorded on the trade date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits

Benefit payments to participants are recorded upon distribution.

For the year ended December 31, 2018, benefits paid to participants include a true-up payment of approximately \$2,286,000 related to the purchase of guaranteed annuity contracts which were originally processed during 2016.

Amounts allocated to withdrawing participants that had been processed and approved for payment prior to December 31, 2018 and 2017, but not yet paid as of that date, totaled \$494,357 and \$452,686, respectively.

THE AHLSTROM-MUNKSJO GROUP RETIREMENT PLAN FOR U.S. EMPLOYEES

NOTES TO FINANCIAL STATEMENTS

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein; disclosure of contingent assets and liabilities; and the actuarial present value of accumulated plan benefits at the date of the financial statements. Accordingly, actual results may differ from those estimates.

Plan Expenses

In accordance with the plan trust document, expenses incident to the operation of the Plan, including premiums for termination insurance payable to the Pension Benefit Guaranty Corporation (PBGC), fees for professional services and the costs of such other technical or clerical assistance as may be required shall be paid out of the trust fund, to the extent not paid for by the employer.

Risks and Uncertainties

Contributions to the Plan and the actuarial present value of accumulated plan benefits are determined based upon certain assumptions pertaining to interest rates, inflation rates and employee compensation and demographics, all of which are subject to change. Due to uncertainties inherent in the estimation process, it is at least reasonably possible that changes in these estimates and assumptions in the near term could be material to the financial statements.

Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term, and those changes could materially affect the amounts reported in the statements of net assets available for benefits.

Subsequent Events

Subsequent events were evaluated through October 10, 2019, the date the financial statements were available to be issued.

NOTE 3 - CERTIFICATION BY THE INVESTMENT TRUSTEE

Information presented in the accompanying statements and schedules as of and for the years ended December 31, 2018 and 2017 for investments and investment income was derived, without audit, from information certified to be complete and accurate by SEI Private Trust Company (SEI), the trustee, as permitted by the election made by the plan administrator under 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

THE AHLSTROM-MUNKSJO GROUP RETIREMENT PLAN FOR U.S. EMPLOYEES

NOTES TO FINANCIAL STATEMENTS

NOTE 4 - ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS

Accumulated plan benefits are those estimated future periodic payments, including lump-sum distributions that are attributable under the Plan's provisions to the service employees have rendered as of the benefit information date. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries. Benefits payable under all circumstances - retirement, death, disability and termination of employment - are included to the extent they are deemed attributable to employee service rendered to the valuation date.

The actuarial present value of accumulated plan benefits as determined by the Plan's independent actuary is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal or retirement) between the valuation date and the expected date of payment.

The significant actuarial assumptions used in the valuations as of January 1, 2019 and 2018 are as follows:

	2019	2018
Mortality rates	RP-2014 adjusted to 2006 Projected with Scale MP-2018	RP-2014 adjusted to 2006 Projected with Scale MP-2017
Discount rate	7.50% per annum	7.50% per annum
Retirement age	Various rates of retirement from ages 60 to 70	Various rates of retirement from ages 60 to 70
Cost of living adjustments	3% increase in CPI	3% increase in CPI
Future increases in Social Security	2.50% per annum	2.75% per annum

In addition, benefits for some foreign nationals under this Plan are assumed to be zero.

The foregoing actuarial assumptions are based on the presumption the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

The amount recorded as benefits paid to participants on the statement of changes in accumulated plan benefits for the year ended December 31, 2017 of \$4,678,668 include an offset of \$849,758 representing overpayments in 2016 that were returned to the Plan in 2017. This amount represents the difference between the amount recorded as benefits paid to participants on the statement of changes in net assets available for benefits for the year ended December 31, 2017.

THE AHLSTROM-MUNKSJO GROUP RETIREMENT PLAN FOR U.S. EMPLOYEES

NOTES TO FINANCIAL STATEMENTS

NOTE 5 - FUNDING POLICY

The Company has voluntarily agreed to make annual contributions to the Plan sufficient to provide the Plan with assets with which to pay pension benefits to plan participants. The amounts contributed to the Plan are determined by the Company on the basis of (a) annual actuarial valuations of the Plan by an independent consulting actuary, (b) the maximum amount permitted by law or regulation as a federal income tax deduction, and (c) the minimum amount certified by the actuary as necessary during any plan year to avoid an accumulated funding deficiency as defined by ERISA. The Company did not make a contribution to the Plan in 2018 or 2017. The Plan has met the minimum funding requirements of ERISA for the years ended December 31, 2018 and 2017.

NOTE 6 - FAIR VALUE MEASUREMENTS

Accounting principles generally accepted in the United States of America establish a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described below:

Level 1

Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2

Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3

Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs. Assets valued using the net asset value practical expedient are not required to be reported within the hierarchy.

The following is a description of the valuation methodology used for assets measured at fair value:

Money Market and Mutual Funds

Money market and mutual funds are valued at the quoted price of shares held by the Plan at year end.

THE AHLSTROM-MUNKSJO GROUP RETIREMENT PLAN FOR U.S. EMPLOYEES

NOTES TO FINANCIAL STATEMENTS

There have been no changes in the methodologies used at December 31, 2018 and 2017.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2018 and 2017:

	2018			
	Level 1	Level 2	Level 3	Total
Money market and mutual funds	\$ 90,163,876	\$ -	\$ -	\$ 90,163,876
Investments at Fair Value	\$ 90,163,876	\$ -	\$ -	\$ 90,163,876
	2017			
	Level 1	Level 2	Level 3	Total
Money market and mutual funds	\$ 103,045,433	\$ -	\$ -	\$ 103,045,433
Investments at Fair Value	\$ 103,045,433	\$ -	\$ -	\$ 103,045,433

There were no transfers between levels of investments during the years ended December 31, 2018 and 2017.

NOTE 7 - PARTY-IN-INTEREST TRANSACTIONS

Certain plan investments are shares of mutual funds managed by affiliates of SEI. SEI is the trustee and investment manager of the Plan, and, therefore, these transactions qualify as party-in-interest transactions. Other parties-in-interest include recordkeepers and professional service firms who provide services to the Plan. Certain employees of the Company who participate in the Plan perform administrative services to the Plan at no cost to the Plan.

THE AHLSTROM-MUNKSJO GROUP RETIREMENT PLAN FOR U.S. EMPLOYEES

NOTES TO FINANCIAL STATEMENTS

NOTE 8 - INCOME TAX STATUS

The Internal Revenue Service (IRS) has determined and informed the Company by a letter dated March 15, 2017 that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (the Code). The plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the Code. Therefore, the plan administrator believes the Plan is qualified and the related trust is tax exempt.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

NOTE 9 - PLAN TERMINATION

Although it has not expressed any intention to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA.

In the event the Plan is terminated, the net assets of the Plan will be allocated to the participants and beneficiaries of the Plan in accordance with ERISA and its related regulations and the plan document.

Generally, benefits are provided in the following order:

- a. Annuity benefits that former employees or their beneficiaries have been receiving for at least three years, or that employees eligible to retire for that three-year period would have been receiving if they had retired with benefits in the normal form of annuity under the Plan. The priority amount is limited to the lowest benefit that was payable (or would have been payable) during those three years. The amount is further limited to the lowest benefit that would be payable under plan provisions in effect at any time during the five years preceding plan termination.
- b. Other vested benefits insured by the PBGC, a U.S. Government agency, up to the applicable limitations discussed below.
- c. All other vested benefits (that is, vested benefits not insured by the PBGC).
- d. All nonvested benefits.

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination. However, there is a statutory ceiling, which is adjusted periodically, on the amount of an individual's monthly benefit that the PBGC guarantees. For plan terminations occurring during 2018, that ceiling is \$5,608 per month. That ceiling

THE AHLSTROM-MUNKSJO GROUP RETIREMENT PLAN FOR U.S. EMPLOYEES

NOTES TO FINANCIAL STATEMENTS

applies to those pensioners who elect to receive their benefits in the form of a single-life annuity and are at least 65 years old at the time of retirement or plan termination (whichever comes later). For younger annuitants or for those who elect to receive their benefits in some form more valuable than a single-life annuity, the corresponding ceilings are actuarially adjusted downward.

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations and may also depend on the financial condition of the plan sponsor and the level of benefits guaranteed by the PBGC.

NOTE 10 - PLAN MERGER AND TRANSFER

On December 31, 2017, the assets of the Retirement Plan for Hourly Paid Employees of Ahlstrom-Munksjo Filtration LLC - Madisonville and Taylorville Locations (Madisonville and Taylorville Plan) were merged with and into the Plan. A summary of net assets transferred into the Plan is as follows:

Money market and mutual funds	\$ 9,207,371
Accrued income	<u>10,472</u>
Net Assets Transferred into the Plan	\$ <u>9,217,843</u>

In connection with the merger, the frozen benefit obligations of 163 participants were transferred into the Plan of which 29 are currently receiving benefits. Benefits under the Madisonville and Taylorville Plan were frozen as of December 31, 2010, and no new employees have been eligible to participate since May 1, 2006.

Summary of Plan Provisions

Ahlstrom-Munksjo Group Retirement Plan for U.S. Employees (see Appendix A for former Madisonville and Taylorville Plan)

This exhibit summarizes the major provisions of the Plan. It is not intended to be, nor should it be interpreted as a complete statement of all plan provisions. To the extent that this summary does not accurately reflect the plan provisions, then the results of this valuation may not be accurate.

Effective date

January 1, 1985. Most recent: Third Amendment adopted December 28, 2017.

Plan Year

January 1 through December 31.

Eligibility for Participation

All employees who are employed by a participating employer and who are not members of a collective bargaining agreement are eligible for plan participation on the first day of the month following the attainment of age 21 and the completion of one Year of Service. Employees hired or rehired on or after May 1, 2006 are not eligible to participate in the plan. See Sec 3.1(b) for Transfers in after 5/1/2006.

Solely for purposes of becoming a Plan Participant, a "Year of Service" means a 12 month period during which an Employee has completed at least 1,000 Hours of Service, beginning on his Employment Date or Reemployment Date. If an Employee does not complete 1,000 Hours of Service during the 12 months beginning on his Employment Date or Reemployment Date, the 12 month period shall become the Plan Year, beginning with the first Plan Year beginning after such date.

Effective Dec 31, 2017, the Retirement Plan for Hourly Paid Employees of Ahlstrom-Munksjo Filtration LLC - Madisonville and Taylorville Locations (the "Madisonville and Taylorville Plan") was merged into this plan. See Appendix A for former Madisonville and Taylorville Plan plan provisions.

Entry Date

The valuation date coincident with or next following the date on which the employee becomes a participant. This is now a hard frozen plan with no new entrants.

Vesting Service

Vesting Service includes all periods of employment, with continuous and fractional periods of service aggregated and any fractional part of a year rounded to the nearest whole month. Plan participants as of December 31, 2010 are fully vested in their benefits as of December 31, 2010. Periods of absence of less than one year shall count as Vesting Service. Vesting Service shall include any period that the Participant is Disabled.

Benefit Service

Benefit Service includes all periods of employment, with discontinuous and fractional periods of service aggregated and any fractional part of a year counted as a full year, including any period while the employee is disabled. No additional Benefit Service is credited to any participant after December 31, 2010. Periods of absence less than one year shall count as Benefit Service.

Compensation

Compensation includes base salary, overtime pay, bonuses and incentive compensation, sales commissions and incentives, and any amounts deferred under salary reduction agreements.

Final Average Compensation

Final Average Earnings is the total amount of earnings for the 60 consecutive months producing the highest total, divided by five. No earnings after December 31, 2017 are taken into account for purposes of determining Final Average Earnings.

Covered Compensation

Average of Social Security taxable wage bases for the 35 calendar years ending with the year in which the Participant attains Social Security retirement age.

Accrued Benefit

The participant's accrued benefit at any given date is determined under the normal retirement formula, but is based on current Benefit Service, final average earnings, and covered compensation.

Normal Retirement

Eligibility: The first day of the month coinciding with or next following 65th birthday

Benefit (Income): Current: The annual retirement benefit is based on one of the formulas below depending on which Participating Employer the participant is employed with.

Formula A - 1.4% of Final Average Earnings times Benefit Service plus .65% of Final Average Earnings in excess of Covered Compensation times the lesser of Benefit Service and 35 years. An automatic cost-of-living adjustment (COLA) is applied on each January 1 to the benefit after the benefit commences for employees who commenced employment prior to November 29, 1994. See COLA definition below

Formula B - 1.4% of Final Average Earnings times Benefit Service plus .65% of Final Average Earnings in excess of Covered Compensation times the lesser of Benefit Service and 35 years.

Plan benefits at termination/retirement will be reduced for any benefits accrued under certain prior plans for benefits earned in foreign subsidiaries or Canadian affiliates, or for retirement systems outside the U.S. for non-U.S. citizens and for whom the company, or its parent, are required to contribute, which apply to the same years of service considered under the Plan.

Early Retirement

Eligibility: First day of the month coincident with or next following age 55 with 10 years of vesting service.

Benefit: The benefit determined under the normal retirement benefit formula based on service at early retirement date, and reduced by 5/12% for each full month by which the date of benefit commencement precedes Normal Retirement Date.

Late Retirement

Eligibility: First of any month after Normal Retirement Date.

Benefit: The benefit determined under the normal retirement benefit formula based on service and earnings to actual retirement date.

Deferred Vested Retirement Benefit

Eligibility: On termination of employment with at least 5 years of vesting service (graded vesting beginning at 3 years for Kamyr participants as of January 1, 1993).

Benefit: The participant's accrued benefit is payable as a deferred pension commencing at his normal retirement date or provided the participant had at least 10 years of vesting service, a reduced benefit payable on the first day of any month following attainment of age 55.

Pre-Retirement Death Benefit in Active Service

Eligibility: Death of a married active vested participant.

Benefit:

- a) Before 5 Years (3 years for Kamyr participants as of January 1, 1993) of Vesting Service - none.
- b) After 5 Years (3 years for Kamyr participants as of January 1, 1993) of Vesting Service but before Age 55 – Surviving spouse's benefit is payable monthly for life at the date the employee would have attained age 65 and is equal to the benefit the spouse would have received if the employee had separated from service on the date of death, survived to age 65, retired under a 50% joint and survivor annuity, and died immediately thereafter. Such benefit is to be reduced (increased) 1% for each full year in excess of 5 full years that the surviving spouse is younger (older) than the deceased participant).
- c) After 10 Years of Vesting Service and Age 55 –Surviving spouse's benefit is payable monthly for life and is equal to the unreduced benefit the spouse would have received if the employee had retired under a 50% joint and survivor benefit immediately before his death. Description of Actuarial Methods

Asset Valuation Method

The Actuarial Value of assets used in the development of plan contributions phases in recognition of the difference between the actual return on Market Value and the expected return on Market Value over a three-year period at 33.33% per year. The Actuarial Value is adjusted, if necessary, to comply with the IRC Sec. 430 requirement that the Actuarial Value of assets be within the range of 90% to 110% of the Market Value of assets. This method is equivalent to the smoothed market value method without phase-in described in Approval 3.16 of Revenue Procedure 2000-40.

Actuarial Cost Method

Funding Target Liability: Unit Credit Actuarial Cost Method.

Maximum Liability: Projected Unit Credit Actuarial Cost Method. The allocation of projected benefits between past years and future years is in proportion to the applicable rates of benefit accrual under the Plan.

Description of Actuarial Assumptions

Changes in Actuarial Assumptions as of January 1, 2018

The valuation reflects the application of the current BBA corridor in the determination of the interest rates used for developing the Plan's minimum required contribution and AFTAP (for benefit restriction purposes) as required by law. The interest rate used before and after the adjustments are more fully described in the next section.

Interest Rates

Valuation: Segment rates for the Valuation Date (i.e., January). The rates are shown below.

	2018		2017	
Segment	Before Adjustment	After Adjustment	Before Adjustment	After Adjustment

2nd	3.68%	5.52%	3.77%	5.72%
3rd	4.53%	6.29%	4.73%	6.48%

The rates before adjustment are the standard 24-month segment rates determined under the pre-MAP-21, pre-HATFA, and pre-BBA laws. They are used in the determination of the Plan's maximum tax deductible contribution.

The rates after adjustment reflect the application of the applicable corridor around the 25-year average rates. They are used in the determination of the Plan's minimum required contribution and AFTAP for benefit restriction purposes.

PBGC premium: PBGC spot segment rates for the month preceding the premium payment year. This method was last elected for the 2014 plan year. The rates are shown below.
