NOTE 1 – DESCRIPTION OF PLAN

The following description of the Westell Technologies, Inc. and Subsidiaries (the "Company") 401(k) Plan (the "Plan") provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

Effective February 5, 2018, all plan assets were transferred to the Vanguard Fiduciary Trust Company as a result of the Plan changing trustee and record-keeper service providers.

General: The Plan, established on January 1, 1990 and restated effective January 1, 2016, is a profit sharing plan that includes a cash or deferred arrangement intended to qualify under Internal Revenue Code ("IRC") Section 401(k). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Eligibility: An employee must be 18 years of age and classified as a "Covered Employee" to be eligible for all contributions. A "Covered Employee" excludes any individual whose employer does not withhold income or employment taxes and file Form W-2 with the Internal Revenue Service due to an independent contractor status, leased employee, non-resident alien who does not receive United States source income, and any self-employed individual. All eligible employees may participate in the Plan on the first payday of the month following their hire date.

Contributions: Employees may defer up to 100 percent of wages on a pre-tax basis or after-tax basis. Effective July 1, 2014 the Plan includes an automatic enrollment feature where the Company will automatically withhold 3% of compensation from an employee's pay each payroll period and contribute that amount to the Plan as a pre-tax 401(k) deferral unless the employee makes a contrary election. The Plan also allows for Company matching or profit sharing contributions on a discretionary basis. There were no profit sharing contributions authorized for the year ended December 31, 2018. The Board of Directors approved a matching component to the Plan consisting of a 50% matching contribution on the first 4% of salary contributed to the Plan by eligible employees. Employer matching contributions are capped at $500 per employee. During the year ended December 31, 2018 the Company contributed $55,911 in matching contributions. Contributions are subject to certain limitations. Plan participants direct the investment of their contributions and the Company matching contributions and profit sharing contributions into the various investment options offered by the Plan.

Participant Accounts: Each participant's account is credited with the participant's contributions and allocations of (a) the Company's contributions and (b) account earnings and (c) forfeitures of employer profit sharing contributions, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. Each participant directs the investment of his or her account to any of the investment options available under the Plan.

Retirement, Death and Disability: A participant is entitled to 100 percent of his or her account balance upon retirement, death or disability.

Vesting: Participants are immediately vested in all contributions to the Plan plus actual earnings thereon.

Payment of Benefits: On termination of service due to death, disability, or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account, or monthly installments over a period certain not to exceed the life expectancy of the participant, or the joint life expectancy of the participant and beneficiary. Account withdrawals must begin by the April 1 of the calendar year following the calendar year in which the participant attains age 70½. Benefits to participants are recorded when paid. The Plan allows for in-service withdrawals at age 59 ½ or for Hardship purposes.

NOTE 1 – DESCRIPTION OF PLAN (Continued)

Notes Receivable from Participants: Participants may borrow from their fund accounts a minimum of $250 up to a maximum of 50% of their vested account balance, or $50,000, whichever is less. The loans are secured by the vested balance in the participant's account and bear interest at a rate commensurate with local prevailing rates as determined by the plan administrator. Repayments of the amounts borrowed are scheduled as after-tax payroll deductions over a maximum of five years.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting: The financial statements of the Plan are prepared under the accrual basis of accounting.

Investment Valuation and Income Recognition: The Plan's investments are reported at fair value. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants: Notes receivable from participants are reported at their unpaid principal balance plus any accrued but unpaid interest, with no allowance for credit losses, as repayments of principal and interest are received through payroll deductions and the notes are collateralized by the participants' account balances.

Payment of Benefits: Benefits are recorded when paid.

Estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures, and actual results may differ from these estimates.

Risks and Uncertainties: The Plan invests in various investments. Investments are exposed to various risks such as interest rate, market liquidity, and credit risks. Due to the level of risk associated with certain investments, it is at least reasonably possible that changes in the values of investments will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

NOTE 3 – RIGHTS UPON PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue contributions at any time and terminate the Plan, subject to the provisions of ERISA.

NOTE 4 – UNAUDITED INFORMATION – CERTIFIED INVESTMENTS AND NOTES RECEIVABLE FROM PARTICIPANTS

Substantially all information pertaining to the Plan's investments and notes receivable from participants included in the financial statements, including the associated investment income (loss) and interest earned on notes receivable from participants, was obtained or derived from information supplied to the plan administrator and certified as complete and accurate by the Wells Fargo Bank, N.A., the trustee of the Plan as of December 31, 2017 and for the period from January 1, 2018 through February 5, 2018 and by the Vanguard Fiduciary Trust Company, the trustee of the Plan as of December 31, 2018 and for the period from February 6, 2018 through December 31, 2018. This information has not been audited by independent accountants.

NOTE 5 – FAIR VALUE MEASUREMENTS

Fair value is the price that would be received by the Plan for an asset or paid by the Plan to transfer a liability (an exit price) in an orderly transaction between market participants on the measurement date in the Plan's principal or most advantageous market for the asset or liability. Fair value measurements are determined by maximizing the use of observable inputs and minimizing the use of unobservable inputs. The hierarchy places the highest priority on unadjusted quoted market prices in active markets for identical assets or liabilities (Level 1 measurements) and gives the lowest priority to unobservable inputs (Level 3 measurements). The three levels of inputs within the fair value hierarchy are defined as follows:

Level 1: Quoted prices (unadjusted) for identical assets or liabilities in active markets that the plan has the ability to access as of the measurement date.

Level 2: Significant other observable inputs other than Level 1 prices, such as quoted prices for similar assets or liabilities, quoted prices in markets that are not active, and other inputs that are observable or can be corroborated by observable market data.

Level 3: Significant unobservable inputs that reflect a plan's own assumptions about the assumptions that market participants would use in pricing an asset or liability.

In some cases, a valuation technique used to measure fair value may include inputs from multiple levels of the fair value hierarchy. The lowest level of significant input determines the placement of the entire fair value measurement in the hierarchy. Transfers between hierarchy measurement levels are recognized as of the beginning of the reporting period.

The following descriptions of the valuation methods and assumptions used by the Plan to estimate the fair values of investments apply to investments held directly by the Plan:

Mutual funds: The fair values of mutual fund investments are determined by obtaining quoted prices on nationally recognized securities exchanges (Level 1 inputs).

Collective trusts: The fair values of participation units held in collective trusts are based on their net asset values, as reported by the fund managers of the collective trusts and as supported by the unit prices of actual purchase and sale transactions occurring as of or close to the financial statement date. The collective trust held directly by the Plan provides for daily redemptions by the Plan at reported net asset values per share, with no advance notice requirement.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Investments measured at fair value on a recurring basis which are held directly by the Plan are summarized below.

* Investments measured at fair value using net asset value per share (or its equivalent) as a practical expedient have not been classified in the fair value hierarchy. The fair value amounts presented in the hierarchy tables for such investments are intended to permit reconciliation of the fair value hierarchy to the investments at fair value line item presented in the statement of net assets available for benefits.

NOTE 6 – PARTY-IN-INTEREST TRANSACTIONS

Parties-in-interest are defined under Department of Labor regulations as any fiduciary of the Plan, any party rendering service to the Plan, the employer, and certain others. Certain administrative functions are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan. Some administrative expenses of the Plan are paid directly by the Company. The Plan holds units of mutual funds and collective trust funds issued by trustees of the Plan or affiliates of the trustees and therefore, these transactions and the Plan's payment of trustee fees, investment management and administrative fees to trustees or affiliates of the trustees of the Plan qualify as party-in-interest transactions. Notes receivable from participants also reflect party-in-interest transactions.

NOTE 7 – TAX STATUS

The Internal Revenue Service issued an opinion letter dated March 31, 2014, indicating that the prototype adopted by the Plan, as then designed, was in compliance with applicable requirements of the IRC. Although the Plan has been amended since receiving the determination letter, Plan management believes that the Plan is designed and being operated in compliance with the applicable requirements of the IRC.

U.S. GAAP requires plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2018 and 2017, there are no uncertain tax positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2015.

NOTE 8 – SUBSEQUENT EVENTS

Plan management has evaluated subsequent events for recognition and disclosure through October 14, 2019, which is the date the financial statements were available to be issued.
