PHYSICIAN'S CHOICE IN CARE 401(K) PLAN

December 31, 2018

NOTE A--DESCRIPTION OF PLAN

The following brief description of Physician's Choice in Care 401(k) Plan is provided for general information purposes only. Participants should refer to the Plan Agreement for more complete information.

General: The Plan was established and effective January 1, 2018. The Plan is a defined contribution plan covering all employees of Physician's Choice in Care, LLC. (the "Company"), except non-resident aliens, part time, and union employees. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The policy of the Organization is to absorb all costs of the Plan administration except for service charges on certain transactions.

Contributions: Eligible employees that have obtained 60 days of service are eligible to participate in the plan the first day of the following month immediately after satisfaction of eligibility requirements. Eligible employees may contribute up to the maximum percent of their compensation as pretax or after tax contributions for the plan year. Such maximum contributions are subject to limitations imposed by the Internal Revenue Code. Eligible participants are eligible to make catch-up contributions and receive a matching catch-up contribution.

Eligible employees are also eligible to receive a matching contribution. The company will make matching "ADP test safe harbor contributions" to the account of each participant. The company contributes a matching amount equal to 100% of the employee's contribution to the plan up to 3% of eligible compensation, plus 50% of the amount contributed from 3% to 5% of eligible compensation.

Participants' Accounts: Each participant's account is credited with the participant's contributions and allocation of (a) the Organization contribution and (b) Plan earnings. Allocations are based on the participant's qualified compensation or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's account.

Vesting: Participants are immediately vested in their voluntary contributions and actual earnings thereon. Vesting of employer safe harbor matching contributions are based on safe harbor matching, which is immediately 100% vested.

The Plan has vesting for employer discretionary profit sharing matching contributions that are based on a participant's years of service. A participant vests 20% in the Plan for each continuous year of service starting in the second year through the sixth year and is fully vested after the sixth year of service.

Notes Receivable from Participants: Participants may borrow from their account balances with interest charged at a rate equal to the "prime rate" plus 1%, which remains in effect for the duration of the loan. Loan terms range from one to five years. The minimum loan is \$1,000 and the maximum loan is the lesser of \$50,000 less the highest outstanding loan balance during the one-year period prior to the new loan application date, or 50% of the participant's account balance less any current outstanding loan balance. The loans are secured by the balance in the participants' account. Principal and interest are paid ratably through payroll deductions. A participant can only have one loan currently outstanding from the Plan. All outstanding loan balances will become due and payable in their entirety upon severance of employment unless directly rolled over (if otherwise permitted) to another employer's plan.

As of December 31, 2018, the Plan had loans receivable from participants with principal balances totaling \$1,866.

Investment Options: Upon enrollment in the Plan, a participant may direct contributions to a selection of investments with the trustee of the Plan.

NOTE A--DESCRIPTION OF PLAN--Continued

Participants may change the allocation of their account in the different funds and other investments at any time.

Distributions: Upon retirement, disability, or death, a participant or beneficiary may receive the entire amount credited to the participant's account under various distribution options, including lump sum payments or installment payments if subject to required minimum distributions. Extended payouts are generally limited to the lifetimes of the participant and designated beneficiary. Required minimum distributions must begin within a prescribed period after the participant attains the age of 70 1/2. On termination of service, the participant's vested balance will be paid to the participant in any manner permitted by the Plan and agreed-upon by the participant and Plan administrator. Distributions may be made as soon as administratively feasible following severance of employment for every participant. In service distributions are permitted for a participant who is 59 1/2 years or older.

NOTE B--SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting: The financial statements of the Plan are prepared using the accrual method of accounting.

Estimates: The preparation of financial statements in conformity with generally accepted accounting principles requires the Plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Investment Valuation and Income Recognition: Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's trustees determine the Plan's valuation policies utilizing information provided by the investment advisers, custodians and insurance company. See note D for discussion of fair value measurement.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year. Capital gain distributions are included in dividends.

Notes Receivable from Participants: Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the plan document.

Payment of Benefits: Benefits are recorded when paid.

Expenses: Certain expenses of maintaining the Plan are paid by the Plan, unless otherwise paid by the Company. Expenses that are paid by the Company are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included with investment expenses.

NOTE C--INVESTMENTS

Plan investments were held in a selection of mutual funds with UMB Bank as custodian and Plan trustee as well as an insurance contract held by Security Benefit Life Insurance Company. As permitted by 29 CFR 2520.103-8 of the Department of Labor Rules and Regulations for Reporting and Disclosures under ERISA, investment assets

held by UMB Bank and Security Benefit Life Insurance Company and transactions related to those assets, were excluded from the scope of our audit. The trustee has certified that the information prepared by them regarding these assets is complete and accurate.

The participant-directed funds appreciated (depreciated) in value by \$(64,001).

NOTE D--FAIR VALUE MEASUREMENTS

Certain Plan investments are reported at fair value in the accompanying Statement of Net Assets Available For Benefits. The methods used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority, and Level 3 inputs are unobservable and have the lowest priority. Next, Level 2 inputs are used when identical assets cannot be identified, but quoted prices for similar assets in active markets are available. Level 3 inputs were only used when Level 1 or Level 2 inputs were not available. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments.

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liabilities fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement using techniques to maximize observable inputs and minimize unobservable inputs.

NOTE D--FAIR VALUE MEASUREMENTS--Continued

The following is a description of the valuation methodologies used for assets measured at fair value.

Mutual Funds - Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily NAV and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

The following table sets forth, by level within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2018.

	Assets at Fair Value as of December 31, 2018				
	Level 1	Level 2	Level 3	NAV	Total
Mutual Funds	\$ 423,001	\$ -	\$ -	\$ -	\$ 423,001
	<u>\$ 423,001</u>	<u>\$ -</u>	<u>\$ -</u>	<u>\$ -</u>	<u>\$ 423,001</u>

NOTE E--GUARANTEED INVESTMENT ACCOUNTS
WITH INSURANCE COMPANIES

In 2018, the Plan had a traditional fully benefit-responsive guaranteed investment account with Security Financial Resources, Inc. totaling \$35,581. Interest and dividend income includes interest of \$312 on the guaranteed investment account in 2018. Security Benefits Life Insurance Company maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment account issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan. The crediting rate is based on a formula established by the contract issuer. The crediting rate is reviewed on a quarterly basis for resetting. The guaranteed investment contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

The contracts meet the fully benefit-responsive investment contract criteria and therefore reported at contract value. Contract value is the relevant measure for fully benefit-responsive investment contracts because this is the amount received by participants if they were to initiate permitted transactions under the terms of the Plan. Contract value, as reported to the Plan by Security Benefit Life Insurance Company, represents contributions made under the contract, plus earnings, less participant withdrawals, and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

The Plan's ability to receive amounts due is dependent on the issuer's ability to meet its financial obligations. The issuer's ability to meet its contractual obligations may be affected by future economic and regulatory developments.

Certain events might limit the ability of the Plan to transact at contract value with the issuer. Such events include (1) amendments to the Plan documents (including complete or partial Plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan sponsor or other Plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant

withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA, (5) premature termination of the contract. No events are probable of occurring that might limit the ability of the Plan to transact at contract value with the contract issuers and that also would limit the ability of the Plan to transact at contract value with the participants.

In addition, certain events allow the issuer to terminate the contract with the Plan and settle at an amount different from contract value. Such events include (1) an uncured violation of the Plan's investment guidelines, (2) a breach of material obligation under the contract, (3) a material misrepresentation, (4) a material amendment to the agreement without the consent of the issuers.

NOTE F--PLAN STATUS

Although it has not expressed any intent to do so, the Organization has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. At the time of Plan termination, participants will become 100% vested in their accounts.

NOTE G--TAX STATUS

The Plan is qualified under the appropriate section of the Internal Revenue Code (IRC) and, accordingly, the Plan's net investment income is exempt from income taxes. The Plan operates under the Prototype Plan of its trustees. A determination letter has been obtained for the Prototype Plan. The Plan sponsor believes that the Plan as designed is currently being operated in compliance with the applicable requirements of the IRC and continues to be tax exempt.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken uncertain tax positions that more-likely-than-not would not be sustained upon examination by applicable taxing authorities. The Plan has concluded that, as of December 31, 2018, there are no uncertain tax positions taken, or expected to be taken, that would require recognition of a liability or that would require disclosure in the financial statements.

The Plan is subject to routine audits by taxing jurisdictions. However, currently, no audits for any tax periods are in progress. The Plan is subject to income tax examinations for the plan year ended December 31, 2018.

NOTE H--TRANSACTIONS WITH PARTIES-IN-INTEREST

The Plan invests in mutual funds managed by the Plan's custodian as defined by the Plan, therefore, these transactions qualify as party-in-interest transactions. Notes receivable from Plan participants and the related interest income are also considered party-in-interest transactions.

NOTE H--TRANSACTIONS WITH PARTIES-IN-INTEREST--Continued

Administrative fees related to the administration of the Plan are paid with Plan forfeitures or by the Plan sponsor.

Certain Administrative expenses, including the audit fee, are paid by the Company. The Company has the option, but not the obligation, to pay any of the Plan's administrative expenses. In addition, certain administrative functions are performed by officers or employees of the Organization for which the officer or employee receives no compensation from the Plan nor is the Plan charged by the Organization for these services.

NOTE J--RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statement of Net Assets Available for Benefits.

NOTE K--DELINQUENT DEFERRALS

During initial set up of the plan, deferral percentages for some employees were incorrectly added to the payroll system. This resulted in under-deferrals for these participants. The error was identified and corrected by management for payrolls going forward. However, the Plan Sponsor had not corrected the missed deferral. As

of the report date, the amount of correction for the missed deferral has not been determined. The amount is not expected to be material to the plan as a whole and has not been reported as a receivable to the plan as of December 31, 2018. It is management's intent to determine the amounts by participant and make the correction as soon as possible.

NOTE L--SUBSEQUENT EVENTS

The Plan has evaluated subsequent events through October 11, 2019, the date which the financial statements were available to be issued.
