LADDAWN, INC. 401(k) PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2018 AND 2017

Note 1. Description of Plan

The following description of the Laddawn, Inc. (the Company) 401(k) Plan (the Plan) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

The Plan is a defined contribution plan covering all employees of Laddawn, Inc. who are age eighteen or older and have completed two months of consecutive service. The Plan's entry dates are the first day of each calendar month. Effective January 1, 2017, participants are automatically enrolled into the plan unless they specifically opt to not participate. Automatically enrolled participants default contribution is 3%. The Plan is subject to the provisions of the Employee Retirement Income Security Act (ERISA).

Effective August 23, 2018, Laddawn, Inc. was purchased by Berry Global. The Plan is currently fully operational, however, intends to merge with the Berry Global Plan before the end of 2019.

Participants may contribute up to 100% of pretax or after-tax annual compensation or $18,500 as defined in the Plan. Participants age fifty and older may make a "catch up" contribution of an additional $6,000. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. Participants direct their contributions and Company contributions, if any, within various investment options offered by the Plan through Fidelity Management Trust Company. Each year, the Company, at the discretion of its Board of Directors, may make an annual matching contribution or a profit-sharing contribution. In 2018, the Company contributed 50% of the first 6% of base compensation that each participant contributed to the plan. Contributions are subject to certain limitations. The Company contributed $455,483 to the Plan in 2018.

Each participant's account is credited with the participant's contribution, the Company matching contribution (if any) and the Company non-elective contribution (if any), an allocation of Plan earnings and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Participants are immediately vested in their voluntary contributions plus actual earnings thereon. Vesting in the Company matching contributions is based on years of continuous service. A participant is 100% vested after three years of credited service.

At December 31, 2018 and 2017, forfeited accounts totaled $1,384 and $605, respectively. These accounts will be used to offset future plan expenses and future employer contributions. In 2018, the Plan Sponsor used forfeited accounts to reduce employer contributions by $27,489.

Note 1. Description of Plan (cont.)

Participants may borrow from their accounts a minimum of $1,000 up to a maximum of $50,000 or 50% of the vested portion of their individual accounts, whichever is less. Loans must be repaid within five years unless the proceeds are used to buy a primary residence. The loans are secured by the balance in the participant's account and bear interest at rates that range from 5.25% to 7.25%, which is commensurate with local prevailing rates as determined by the plan administrator. Principal and interest are paid ratably through weekly payroll deductions.

On termination of service, for any reason, a participant may elect to receive a lump-sum amount equal to the value of the participant's vested interest in his or her account. Withdrawals may be made under certain other circumstances in accordance with the Plan document.

Participants are allowed to take hardship distributions from the Plan. Participants must meet all qualifications as defined by the Internal Revenue Service and have no other financial resources to draw from.

Note 2. Summary of Significant Accounting Policies

The financial statements are prepared on the accrual method of accounting.

Investments held by a defined contribution plan are required to be reported at fair value, except for fully benefit-responsive investment contracts. Contract value is the relevant measure for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants normally would receive if they were to initiate permitted transactions under the terms of the plan.

Management uses estimates and assumptions in preparing financial statements in accordance with accounting principles generally accepted in the United States of America. Those estimates and assumptions affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities, and the reported additions to and deductions from assets. Actual results could vary from the estimates that were used.

The Plan's investments are stated at fair market value, except for fully benefit-responsive investment contracts, which are reported at contract value. Quoted market prices are used to value investments. Shares of mutual funds are valued at the net asset value of shares held by the Plan at year end. Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the gains and losses on investments bought and sold as well as held during the year.

The Plan invested in a collective trust in 2017. The value for this collective trust was based on the net asset value of the fund as reported by the custodian, Fidelity Management Trust Company. The Statement of Net Assets Available for Benefits and the Statement of Changes in Net Assets Available for Benefits presents the net asset value of the investment.

Benefits are recorded when paid.

Note 3. Information Prepared and Certified by Custodians

The following information included in the accompanying financial statements and supplemental schedule was obtained from data that has been prepared and certified as complete and accurate by the custodians. Fidelity Management Trust Company certification was obtained for 2018. Great-West Trust Company, LLC, Great-West Life & Annuity insurance Company and Fidelity Management Trust Company certification was obtained for 2017:

	2018	2017
Investments at Fair Value:		
Interest Bearing Cash	19,183	-
Units of Mutual Funds	14,364,853	15,130,712
Units of Stable Value Fund	146,440	194,722

Total	15,067,844	15,805,643
Investment Loss	(1,192,380)	
Benefit Payments and Administrative Expenses	1,378,796	

Note 4. Fair Value Measurements

U.S. Generally accepted accounting principles establish a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;

Note 4. Fair Value Measurements (cont.)

Level 2
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2018 and 2017.

Common stocks, corporate bonds and U.S. government securities: Valued at the closing price reported on the active market on which the individual securities are traded.

Mutual funds: Valued at the net asset value (NAV) of shares held by the plan at year end.

Stable value fund: Valued at the NAV of units of a bank of collective trust. The NAV, as provided by the custodian, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Participant transactions (purchases and sales) may occur daily.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

(a) In accordance with Subtopic 820-10, certain investments that were measured at net asset value per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statements of net assets available for benefit.

The Plan's policy is to recognize transfers between Levels 1 and 2 and into and out of Level 3 as of the event or change in circumstances that caused the transfer. For the years ended December 31, 2018 and 2017, there were no transfers between Levels 1 and 2 and no transfers into or out of Level 3.

Investments Measured Using the Net Asset Value per Share Practical Expedient:

The following table summarizes investments for which fair value is measured using the net asset value per share practical expedient as of December 31, 2018 and 2017. There are no participant redemption restrictions for these investments; the redemption notice period is applicable only to the Plan.

Note 5. Investment Contract with Insurance Company

In 2006, the Plan entered into a fully benefit-responsive guaranteed investment contract with Great-West. Great-West Life & Annuity Insurance Company, Inc. maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. Effective March 2018 the fully benefit-responsive investment contract with Great-West has been closed and all remaining assets were transferred to funds held at Fidelity Management Trust Company.

Because the guaranteed investment contract meets the criteria to be considered fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. The guaranteed investment contract is presented on the face of the statement of net assets available for benefits at contract value. Contract value represents contributions made under the contract plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The contract value of the investment contract was $44,255 at December 31, 2017 ($0 at December 31, 2018). The interest crediting rate and average yield was 1.10% for the year ended December 31, 2017 (0% for the year ended December 31, 2018). The crediting interest rate is based on a formula agreed upon with the issuer, and is reset quarterly.

Certain events limit the ability of the plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the plan documents (including complete or partial plan termination or merger with another plan), (2) changes to the plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the plan sponsor or other plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The Plan administrator believes the occurrence of such events that would also limit the Plan's ability to transact at contract value with Plan participants is not probable of occurring.

DECEMBER 31, 2018 AND 2017

Note 6. Excess Contributions Payable

Amounts payable to participants totaling $38,359 in 2017 ($0 in 2018) for contributions in excess of amounts allowed by the IRS are recorded as excess contributions payable and excess deferrals paid to participants. The Plan distributed the 2017 excess contributions prior to March 15, 2018.

Note 7. Party in Interest

Certain Plan investments are shares of mutual funds managed by Fidelity Management Company, the investment custodian as defined by the Plan, therefore, these transactions qualify as party in interest transactions. Fees paid by the Plan for the investment management services totaled $4,887 for the year ended December 31, 2018. O'Connor Maloney & Company, P.C. received a portion of the audit fee from the Plan in the amount of $9,558 for the year ended December 31, 2018. This transaction qualifies as a party in interest transaction.

Note 8. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of assets available for benefits.

Note 9. Plan Termination

The Plan intends to be fully operational with employer contributions through most of 2019. The Plan intends to merge with the Berry Global Plan before the end of 2019. The Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their employer contributions.

Note 10. Tax Status

The Company has a Prototype Plan and Trust Agreement. The Internal Revenue Service has determined, by a letter, that the prototype plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code. The Plan has been amended since receiving the determination letter. However, the Plan administrator believes that the Plan is currently being operated in compliance with the applicable requirements of the Internal Revenue Code and, therefore, believes that the Plan is qualified, and is tax-exempt. Management does not believe the Plan's financial statements include any uncertain tax positions. Generally, the Plan's Forms 5500 remain subject to examination for a period of three years.

Note 11. Date Through Which Subsequent Events Have Been Evaluated
