Independent Auditors' Report

To the Participants and Plan Administrator of
Reynolds Memorial Hospital, Inc. 403(b) Plan

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of the Reynolds Memorial Hospital, Inc. 403(b) Plan (the "Plan"), which comprise the statement of net assets available for benefits as of December 31, 2018, and the related statement of changes in net assets available for benefits for the year then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's ("DOL") Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 ("ERISA"), the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 10, which was certified by Great-West Life and Annuity Insurance Company, the custodian of the Plan, except for comparing such information with the related information included in the financial statements. We have been informed by the plan administrator that the custodian holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the custodian as of and for the year ended December 31, 2018, that the information provided to the plan administrator by the custodian is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion on the 2018 financial statements. Accordingly, we do not express an opinion on the 2018 financial statements referred to in the first paragraph.

Other Matter - 2017 Financial Statements

The financial statements of the Plan as of December 31, 2017, were audited by predecessor auditors. As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 (ERISA), the plan administrator instructed the predecessor auditors not to perform, and they did not perform, any auditing procedures with respect to the information certified by Great West Life and Annuity Insurance Company, the custodian of the Plan. Their report, dated July 20, 2018, indicated that (a) because of the significance of the information that they did not audit, there were unable to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion and accordingly, they did not express an opinion on the financial statements and (b) the form and content of the information included in the financial statements other than that derived from the information certified by the Custodian, were presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

Report on Form and Content in Compliance With DOL Rules and Regulations 2018

The form and content of the information included in the 2018 financial statements, other than that derived from the information certified by the custodian, has been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

Reynolds Memorial Hospital, Inc. 403(b) Plan

Notes to Financial Statements

December 31, 2018 and 2017

1. Description of the Plan

The following description of the Reynolds Memorial Hospital, Inc. 403(b) Plan (the "Plan") provides only general information. Participants should refer to the plan document for a more complete description of the Plan's provisions. The Plan was sponsored by Reynolds Memorial Hospital, Inc. (the "Company").

General

The Plan, which was established January 1, 2008, was a defined contribution plan which allowed participation by all Company employees. It was subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

On December 19, 2018, the Board approved a resolution to merge the Plan with the West Virginia University Hospitals, Inc. 403(b) Retirement Savings Plan, effective December 31, 2018. This plan merger will have no impact to participant benefit accruals and is merely an effort to consolidate administration on the part of the plan sponsor.

Contributions

The contributions to the Plan consisted entirely of participant salary deferrals. Each year, participants may have elected to contribute up to 100 percent of pretax annual compensation, as defined by the Plan, up to the maximum limits of the Internal Revenue Code ("IRC"). Participants who had attained age 50 before the end of the plan year were eligible to make catch-up contributions. Participants may have also contributed amounts representing distributions from other qualified defined benefit or defined contribution plans (rollover). Participant contributions to the Plan were recorded in the period that payroll deductions were made from participants. Participants directed the investment of their contributions into various investment options offered by the Plan. The Plan does not provide for Company contributions.

Participant Accounts

Each participant's account was credited with the participant's contribution and allocations of the Plan's earnings, and charged with an allocation of administrative expenses (if any) that were paid by the Plan. Allocations were based on participant earnings, account balances, or specific participant transactions, as defined. The benefit to which a participant was entitled was the benefit that may have been provided from the participant's vested account.

Vesting

Participants were immediately vested in their voluntary contributions plus actual earnings thereon.

Notes Receivable from Participants

Participants were not permitted to borrow from their fund accounts.

Payment of Benefits

On termination of service due to death, disability, retirement, or other reasons, a participant may have elected to receive a lump-sum, partial, or annual installment payment amounts equal to the value of the participant's vested interest in their account. In addition, the Plan allowed for hardship distributions if certain criteria were met.

2. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Investments held by a defined contribution plan are required to be reported at fair value, except for fully benefit-responsive investment contracts. Contract value is the relevant measure for the portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants normally would receive if they were to initiate permitted transactions under the terms of the Plan.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosures of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value (except for fully benefit-responsive investment contracts, which are reported at contract value). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Plan management determines the Plan's valuation policies utilizing information provided by the custodian. See Note 3 for a discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net depreciation includes gains and losses on investments bought and sold as well as held during the year.

Expenses

Certain expenses of maintaining the Plan are paid by the Plan, unless otherwise paid by the Company. Expenses that are paid by the Company are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net depreciation of fair value of investments.

Payment of Benefits

Benefits are recorded when paid.

Recent Accounting Standards

In August 2018, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") No. 2018-13, *Disclosure Framework - Changes to the Disclosure Requirements for Fair Value Measurement*. ASU No. 2018-13 modifies the disclosure requirements for fair value measurements in Topic 820, *Fair Value Measurement*. The amendments are based on the concepts in the FASB Concepts Statement, *Conceptual Framework for Financial Reporting - Chapter 8: Notes to Financial Statements*, which the FASB finalized on August 28, 2018. ASU No. 2018-13 is effective for fiscal years beginning after December 15, 2019. Early adoption is permitted. Management is currently assessing the impact that ASU No. 2018-13 will have on the Plan's financial statements.

Subsequent Events

The Plan has evaluated subsequent events for recognition or disclosure through October 15, 2019, the date the financial statements were available to be issued.

3. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under authoritative guidance are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly, such as:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observables and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2018 and 2017.

Mutual funds are valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the U.S. Securities and Exchange Commission. These funds are required to publish their daily net asset value ("NAV") and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

The Plan held no assets at December 31, 2018. The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2017.

Assets at Fair Value as of December 31, 2017				
	Level 1	Level 2	Level 3	Total
Mutual funds	\$ 3,539,871	\$ -	\$ -	\$ 3,539,871
Total assets at fair value	\$ 3,539,871	\$ -	\$ -	\$ 3,539,871

4. Fully Benefit-Responsive Investment Contract

Prior to the plan merger described in Note 1, the Plan held a fully benefit-responsive guaranteed investment contract with Great-West Life and Annuity Insurance Company ("Great-West"). Great-West maintained the contributions in a general account. The account was credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer was contractually obligated to repay the principal and a specified interest rate that was guaranteed to the Plan. The crediting interest rate was based on a formula agreed upon with the issuer. Such interest rates were reviewed on a quarterly basis for resetting. The contract could not have been terminated before the scheduled maturity date.

The contract met the fully benefit-responsive investment contract criteria and therefore was reported at contract value. Contract value was the relevant measure for fully benefit-responsive investment contracts because this was the amount received by participants if they were to initiate permitted transactions under the terms of the Plan. Contract value, as reported to the Plan by Great-West, represented contributions made under the contract, plus earnings, less participant withdrawals, and administrative expenses.

The Plan's ability to receive amounts due in accordance with fully benefit-responsive investment contracts was dependent on the third-party issuer's ability to have met its financial obligations. The issuer's ability to have met its contractual obligations may have been affected by future economic and regulatory developments. There were no reserves against contract value for credit risk of the contract issuer or otherwise.

Certain events might have limited the ability of the Plan to transact at contract value with the contract issuer. These events may have been different under each contract. Examples of such events include the following:

1. The Plan's failure to qualify under the applicable section the IRC or the failure of the trust to be tax-exempt under the applicable section of the IRC;
2. Premature termination of the contracts;
3. Plan termination or merger;
4. Changes to the Plan's prohibition on competing investment options;
5. Bankruptcy of the plan sponsor or other plan sponsor events (for example, divestitures or spinoffs of a subsidiary) that significantly affect the Plan's normal operations.

No events were probable of occurring that might have limited the ability of the Plan to transact at contract value with the contract issuers and that also would limit the ability of the Plan to transact at contract value with the participants.

In addition, certain events allowed the issuer to terminate the contracts with the Plan and settle at an amount different from contract value. Those events may have been different under each contract. Examples of such events include the following:

1. An uncured violation of the Plan's investment guidelines;
2. A breach of material obligation under the contract;
3. A material misrepresentation;
4. A material amendment to the agreements without the consent of the issuer.

5. Administration of Plan Assets

The Plan's assets are administered under a contract with Great-West, the custodian of the Plan. The custodian invests funds received from contributions, investment sales, interest, and dividend income and makes distribution payments to participants.

6. Related Party and Party In Interest Transactions

Certain of the Plan's investments are managed by the custodian, and therefore, these transactions qualify as party in interest transactions. Fees incurred by the Plan for the investment manager services are included in net depreciation in the fair value of the investment, as they are paid through revenue sharing, rather than a direct payment. These transactions qualify as party in interest transactions.

Certain administrative functions of the Plan are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan.

7. Plan Termination

Although it has not expressed any intent to do so, the Company has the right to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA.

8. Tax Status

The Plan has been designed to qualify under Section 403(b) of the IRC. The plan administrator believes the Plan is operating in accordance with the applicable requirements of Section 403(b) of the IRC and therefore believes the Plan is qualified and the related custodial accounts are tax-exempt.

Accounting principles generally accepted in the United States of America require management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

9. Risks and Uncertainties

Prior to the Plan merger described in Note 1, the Plan invested in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statements of Net Assets Available for Benefits.

As of December 31, 2017, the Plan had investments of \$1,379,276 that were concentrated in three funds.

10. Information Certified by Custodian

The plan administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA for 2018 and 2017. Accordingly, the custodian of the Plan has certified to the completeness and accuracy of all investments reported in the accompanying Statements of Net Assets Available for Benefits as of December 31, 2018 and 2017, and the related investment activity reported in the Statement of Changes in Net Assets Available for Benefits for the year ended December 31, 2018.
