NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2018 and 2017

1. DESCRIPTION OF THE PLAN

The following description of House of Spices (India) 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

(a) General

The Plan is a defined contribution plan under Section 401(k) of the Internal Revenue Code ('IRC"), covering all eligible employees of House of Spices (India) Inc. (the "Company"), who are age twenty-one (21) or older and have 90 days of service. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). The Board of Trustees is responsible for the oversight governance of the Plan. The Plan's Investment Committee determines the appropriateness of the Plan's investment offerings, monitors investment performance and reports to the Plan's Board of Trustees.

(b) Contributions

Each year, participants may contribute up to 100% of pre-tax annual compensation as defined in the Plan subject to certain limitations. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan currently offers various pooled separate accounts ('PSA"), and collective trust accounts as investment options for participants. The Company may make a discretionary matching contribution. Discretionary contributions are allocated using annual pay for the plan year. The percentage of the Company elective deferral contribution matched, if any, is a percentage determined by the Company and applies to all eligible persons for the entire year. The matching Company discretionary contribution is invested as directed by the participant.

(c) Participant Accounts

Individual accounts are maintained for each Plan participant. Each participant's account is credited with the participant's contributions and the Company's discretionary matching contributions, as well as allocations of Plan earnings (losses) and charged with an allocation of administrative expenses. Allocations are based on participant earnings, account balances, or specific participant transactions as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

(d) Vesting

Participants are vested immediately in their contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts is based on years of continuous service. A participant is 100 percent vested after five years.

1. DESCRIPTION OF THE PLAN (continued)

(e) Payment of Benefits

On termination of service due to death, disability or retirement, a participant (or their beneficiary) may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account, or annual installments over a 10-year period. For termination of service for other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution. A participant may receive hardship distributions, as defined, from their deferral contribution account. If the vested balance is $5,000 or less, the Plan Administrator may distribute a participant's benefit without their consent within a reasonable period of time after severance from employment.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

(a) Basis of Accounting

The financial statements of the Plan are prepared under the accrual method of accounting.

Investments held by a defined-contribution plan are required to be reported at fair value, except for fully-benefit responsive investment contracts. Contract value is the relevant measure for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants normally would receive if they were to initiate permitted transactions under the terms of the Plan.

(b) Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America ("GAAP") requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

(c) Investment Valuation and Income Recognition

Investments are reported at fair value (except for fully benefit-responsive investment contracts, which are reported at contract value). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Investment Committee determines the Plan's valuation policies utilizing information provided by the investment advisors, custodians and insurance company. See Note 5 for a discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont'd)

(d) Payment of Benefits

Benefits are recorded when paid.

(e) Operating Expenses

Certain operating expenses of the Plan are paid by the Company and are therefore excluded from these financial statements. Investment-related expenses are included in net appreciation of fair value of investments.

(f) Subsequent Events

The Plan has evaluated subsequent events through October 14, 2019 the date the financial statements were available to be issued.

(g) New Accounting Standards

In July 2015, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") 2015-12, Plan Accounting: Defined Benefit Pension Plans; Defined Contribution Plans and Health and Welfare Benefit Plans. ASU 2015-12 amended Accounting Standards Codification ("ASC") 962 Plan Accounting-Defined Contribution Pension Plans and 965 Health and Welfare Benefit Plans. Contract value will be the only required measure for fully benefit-responsive investment contracts. Fully benefit-responsive investment contracts are measured, presented, and disclosed only at contract value. Plans will no longer have to disclose individual investments that represent 5 percent or more of net assets available for benefits and the disclosure of net appreciation (depreciation) for investments by general type, requiring only presentation of net appreciation (depreciation) in investments in the aggregate.

In May, 2015, the FASB issued Accounting Standards Update (ASU) No. 2015-07, Disclosures for Investments in Certain Entities that Calculate Net Asset Value per Share (or its Equivalent), which amends the disclosure requirements of Accounting Standards Codification Topic 820, Fair Value Measurements and Disclosures, for reporting entities that measure the fair value of an investment using the net asset value (NAV) per share (or its equivalent) as a practical expedient. The amendments in ASU 2015-07 removes the requirement to categorize within the fair value hierarchy and make certain disclosure for all investments for which fair value is measured using the NAV per share practical expedient.

The amendments have been applied retrospectively and are effective for annual periods beginning after December 15, 2015, with early application permitted.

Their adoption is not expected to have a material effect on the Plan's statements of net assets available for benefits or statement of changes in net assets available for benefits.

3. INFORMATION PREPARED AND CERTIFIED BY TRUSTEE

The plan administrator has elected the alternative method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the Principal Life Insurance Company ("Principal"), the trustee of the Plan, has certified to the completeness and accuracy of all investments reflected on the accompanying Statements of Net Assets Available for Benefits as of December 31, 2018 and 2017, the related investment activity reflected in the Statement of Changes in Net Assets Available for Benefits for the year ended December 31, 2018 and the supplemental Schedule of Assets (Held at End of Year) as of December 31, 2018:

	December 31,	
	2018	2017
Pooled separate accounts	$450,951	$389,035
Collective investment trusts	$707,941	$599,298
Net appreciation (depreciation) on collective investment trusts	$ (46,393)	$ 55,468
Net appreciation (depreciation) in fair value of pooled separate accounts	$ (25,192)	$ 41,340

4. FAIR VALUE MEASUREMENTS

The fair value measurement accounting literature establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy consists of three broad levels: Level 1 inputs consist of adjusted quoted prices in active markets for identical assets and have the highest priority. Level 2 inputs consist of observable inputs other than quoted prices for identical assets (Level 1). Level 3 inputs are unobservable and have the lowest priority. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. Level 2 inputs are used for investments for which level 1 inputs were not available. Level 3 inputs would only be used if Level 1 or Level 2 inputs were not available. Level 3 inputs would only be used if level 1 or Level 2 inputs were not available.

Level 2 Fair Value Measurements

Pooled Separate Accounts ("PSA's"): PSA's consist of a wide variety of underlying investments such as equities, preferred stock, bonds, real estate and mutual funds. The net asset value ("NAV") of a PSA is based on the market value of its underlying investments but the PSA NAV is not a publicly quoted price in an active market. The NAV of each of the PSA's is calculated in a manner consistent with GAAP for investment companies and is determinative of its fair value and represents the price at which the Plan would be able to initiate a transaction. PSA's that invest in publicly quoted mutual funds and exchange-traded equity securities determine the fair value of those underlying funds and securities based on quoted prices of identical assets. The fair value of the underlying fixed income securities is based on third-party pricing vendors that utilize observable market information

4. FAIR VALUE MEASUREMENTS (cont'd)

Collective Investment Trusts ("CIT's"): CIT's are valued at the NAV of units of a collective trust. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient would not be used if it is determined to be probable that the fund will sell the investment for an amount different from the reported NAV. Participant transactions (purchases and sales) may occur daily. If the Plan to initiates a full redemption of the collective investment trust, the issuer reserves the right to require 12 months' notification in order to ensure that securities liquidations will be carried out in an orderly business manner.

The following table sets forth, by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2018 and 2017.

December 31, 2018	Fair Value	Fair Value Measurements at the End of the Reporting Period Using Other Observable Inputs (Level 2)
Pooled separate accounts	$ 450,952	$ 450,952
Common/collective Investment Trusts	$ 707,941	$ 707,941
Investments at fair value	$ 1,158,893	$ 1,158,893

December 31, 2017	Fair Value	Other Observable Inputs (Level 2)
Pooled separate accounts	$ 389,035	$389,035
Common/collective Investment Trusts	$ 599,298	$599,525
Investments at fair value	$ 988,333	$988,560

Gains and losses included in changes in net assets available for benefits for the year ended December 31, 2018 and 2017 are reported in net appreciation in fair value of investments.

The Plan's policy is to recognize transfers between Levels 1 and 2 and into and out of Level 3 as of the date of the event or change in circumstances that caused the transfer. For the year ended December 31, 2018, there were no significant transfers between Levels 1 and 2 and no transfers out of Level 3.

5. RELATED PARTY TRANSACTIONS AND PARTY IN INTEREST TRANSACTIONS

Certain Plan investments are managed by Principal. Principal is the trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. Fees incurred and paid directly by the Plan for the investment management services are included in net appreciation in fair value of the investments on the statement of changes in net assets held for benefits.

All of these party-in-interest transactions are exempt from the prohibited transaction rules of ERISA.

6. PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100 percent vested in their employer contributions.

7. TAX STATUS

The Internal Revenue Service has determined and informed the Company by letter dated March 31, 2014, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code ("IRC"). Although the Plan has been amended since receiving the determination letter, the Plan administrator believes that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC and, therefore, believes that the Plan is qualified, and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require the plan administer to evaluate tax positions taken by the Plan and recognize a tax liability for any uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by tax authorities; however, there are currently no audits for any tax periods in progress.

8. RISKS AN UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

9. RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500

The following is a reconciliation of net assets available for benefits per the financial statements at December 31, 2018 and 2017 to Form 5500:

	2018	2017
Net assets available for benefits per the Financial statements	$1,158,893	$ 993,337
Net assets available for benefits per the Form 5500	$1,158,893	$ 993,337

Corrective distributions paid are recorded on the Form 5500 for excess contributions from the prior-year end together with the earnings related to such excess contributions in the year paid. For the year ended December 31, 2018 there were no corrective distributions.
