Report of Independent Auditors

Investments and Benefits Committee
LORD Corporation

We have audited the accompanying financial statements of LORD Corporation Erie Hourly Employees' Savings Plan, which comprise the statements of net assets available for benefits as of December 31, 2018 and 2017, and the related statement of changes in net assets available for benefits for the year ended December 31, 2018, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in conformity with U.S. generally accepted accounting principles; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free of material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of LORD Corporation Erie Hourly Employees' Plan at December 31, 2018 and 2017, and the changes in its net assets available for benefits for the year ended December 31, 2018, in conformity with U.S. generally accepted accounting principles.

Supplemental Schedule

Our audit was conducted for the purpose of forming an opinion on the financial statements as a whole. The accompanying supplemental schedule of assets (held at end of year) as of December 31, 2018, is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States. In our opinion, the information is fairly stated, in all material respects, in relation to the financial statements as a whole.

Very truly yours,

October 14, 2019

LORD Corporation
Erie Hourly Employees' Savings Plan
Notes to Financial Statements
December 31, 2018

1. Description of Plan

The following description of the LORD Corporation Erie Hourly Employees' Savings Plan (the Plan) provides general information about the Plan's provisions. LORD Corporation (LORD, Employer, or the Company) is the Plan sponsor. Participants should refer to the Plan document and summary plan description for a more complete description of the Plan's provisions, copies of which may be obtained from the Plan sponsor.

General

The Plan is a defined contribution plan that is designed to provide an incentive for eligible employees to save for retirement by deferring a basic employee contribution and acquiring matching contributions from LORD under the conditions and limitations set forth in the Plan document. Eligible participants are automatically enrolled in the Plan upon hire unless they affirmatively decline to participate.

Fidelity Management Trust Company is the trustee and recordkeeper for the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA).

Participant Contributions

Each year, participants may contribute up to 50% of pretax annual compensation, as defined in the Plan. Participants may also contribute amounts representing distributions from other qualified plans (rollover contributions). If automatically enrolled, a participant's deferral is set at 5% of eligible compensation until changed by the participant. Participants who have attained age 50 before the end of the year are eligible to make catch-up contributions. All contributions are subject to certain limitations of the Internal Revenue Code (the Code). Effective January 1, 2019, an eligible participant is set to automatically enroll at a deferral rate of 6% of eligible compensation until changed by the participant.

Company Matching Contributions

The Company makes matching contributions, which aggregated with the Employer's share of forfeitures, shall equal 40% of the first 5% of compensation contributed to the Plan in the form of basic employee contributions for each participant, determined on the basis of each pay period, for the relevant six month period. This match is referred to as the Initial Match. The matching contribution percentage may be increased above 40% at the discretion of the Plan Sponsor. This discretionary match, if any, is referred to as the Supplemental Match. Matching contributions, other than deemed made from Employer securities held in trust from terminated members, are made in Employer securities. Effective January 1, 2019, the Company shall make matching contributions, which aggregated with the Employer's share of forfeitures, shall equal 66.7% of the first 6% of compensation contributed to the Plan in the form of basic employee contributions for each participant. Further, matching contributions will be made in cash.

LORD Corporation
Erie Hourly Employees' Savings Plan
Notes to Financial Statements (continued)

1. Description of Plan (continued)

Investment of Participant Contributions

Participants direct their elective contributions into one or more investment options administered by Fidelity Institutional Retirement Services Company, a qualified investment manager. Additionally, participants can choose to invest outside of these selected funds through the Fidelity BrokerageLink Account, which is a brokerage account for retirement portfolios. Participants can change their future contribution amounts or investment options on a daily basis. Participants who are automatically enrolled have their contributions invested in the applicable designated target fund based on their age until they change their election.

Conversion Out of LORD Corporation Stock

Fully vested participants can cash out a portion of their LORD stock and invest in any of the investment options offered by the Plan. This conversion option is permitted semi-annually, in April and September. Stock may be converted in amounts up to 20% of the total shares owned. Whenever the shares of Employer stock held are equal to \$5,000 or less, only 100% of such shares can be liquidated. LORD stock held in an account of a terminated employee follows mandatory liquidation procedures, not to extend beyond a five-year period. Effective February 14, 2019, the Plan froze all liquidation and redemptions of LORD Common Stock.

Participant Accounts

Each participant's account is credited with the participant's contributions and allocations of the Company's matching contributions and Plan earnings, and is charged with an allocation of administrative expenses. Plan earnings are allocated based on the participant's share of net earnings or losses of their respective elected investment options. Allocations of administrative expenses are based on the participant's account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon; and become 100% vested in the value of their Company matching contributions in the event of death, disability, or upon attaining age 65 or the early retirement date. Otherwise, vesting in the Company's matching contributions are determined on the basis of 20% for each full year of employment. A participant is 100% vested after five years of credited service.

LORD Corporation
Erie Hourly Employees' Savings Plan
Notes to Financial Statements (continued)

1. Description of Plan (continued)

Forfeitures

Upon termination of employment, participants forfeit their non-vested balances. If a participant is rehired within a five-year period, the forfeited contributions are reinstated if the participant repays to the Plan the entire amount which was distributed following their termination. Forfeited balances of terminated participants' non-vested accounts are used to reduce future Company matching contributions first, with remaining forfeitures, if any, used to reduce Plan expenses. Unallocated forfeited balances as of December 31, 2018 and 2017 were \$46,447 and \$44,780, respectively, and forfeitures used to reduce Company contributions for 2018 were \$0.

Participant Loans

Participants may borrow from their basic contribution and rollover accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. Loan terms may not exceed five years. A participant may not have more than two loans outstanding at any point in time. The loans are secured by the balance in the participant's account and bear interest at rates ranging from 6.25% to 7.75%, which is commensurate with local prevailing rates in effect on the loan origination date. Principal and interest is paid ratably through payroll deductions or direct payments. If the loan is not repaid, it will automatically be treated as a taxable distribution to the participant.

Payment of Benefits

Upon retirement, disability, or death, a participant whose vested account balance exceeds \$1,000 may elect to roll the balance over to an eligible retirement plan or receive cash installments, in a lump sum or as a partial payout with the remainder payable in cash installments. If the employee terminates employment for any reason other than retirement, disability, or death, the participant may receive a rollover to an eligible retirement plan or a lump sum distribution equal to their vested account balance. A participant whose vested account balance is \$1,000 or less and has not commenced receiving installment payments will automatically receive an immediate lump-sum distribution equal to their vested account balance.

If a participant's vested accrued benefit exceeds \$1,000 but does not exceed \$5,000, this benefit is payable to the participant prior to his/her normal retirement date without his/her consent. If the participant does not elect to have this benefit rolled over to an eligible retirement plan or paid directly to themselves, the Plan administrator will direct an automatic rollover to an individual retirement plan designated by the Plan administrator in accordance with IRC § 7701(a)(37).

LORD Corporation
Erie Hourly Employees' Savings Plan
Notes to Financial Statements (continued)

1. Description of Plan (continued)

In-service withdrawals are available in certain limited circumstances, as defined by the Plan document. At any time after the employee attains age 59½, a participant may make a partial or full withdrawal of vested amounts in Plan accounts. Hardship withdrawals are allowed for active employees incurring an immediate and heavy financial need, as defined by the Plan document. Hardship withdrawals are strictly regulated by the Internal Revenue Service (IRS) and a participant must exhaust all available loan options and available distributions prior to requesting a hardship withdrawal.

Investment and Administrative Expenses

The Plan's administrative expenses are paid by either the Plan or the Company, as provided by the Plan's provisions. Administrative expenses paid by the Plan can include recordkeeping, audit and trustee fees. Expenses relating to purchases, sales, or transfers of the Plan's investments are charged to the particular investment fund to which the expenses relate. Expenses that are paid by the Company are excluded from these financial statements.

Stock Rights

Any Employer stock received as a stock dividend, a stock split, or as a result of a reorganization of the Employer shall be allocated to the Employer securities to which they are attributable. Any cash dividends received on Employer stock are allocated to the participant's Employer Securities Dividend Account and invested pursuant to their direction.

Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event the Plan terminates, participants will become 100% vested in their accounts.

2. Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements have been prepared on the accrual basis of accounting.

Notes Receivable from Participants

Notes receivable from participants represent participant loans that are recorded at their unpaid principal balance plus any accrued but unpaid interest. Interest income on notes receivable from participants is recorded when it is earned. Related fees are recorded as administrative expenses and are recorded when they are incurred. No allowance for credit losses has been recorded as of December 31, 2018 or 2017. If a participant ceases to make loan repayments and the Plan administrator deems the participant loan to be in default, for Department of Labor 5500 form reporting purposes, the participant loan balance is reduced and a benefit payment is recorded.

Erie Hourly Employees' Savings Plan
Notes to Financial Statements (continued)

2. Summary of Significant Accounting Policies (continued)

Payment of Benefits

Benefits are recorded when paid.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates that affect the amounts reported in the financial statements and accompanying notes and supplemental schedule. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments held by the Plan are stated at fair value. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (an exit price).

Investment Valuation and Income Recognition (continued)

The Plan's Investment and Benefits Committee is responsible for determining the Plan's valuation policies and analyzing information provided by the valuation specialists, investment advisers, custodian and insurance company that is used to determine the fair value of the Plan's investments. See Note 4 for further discussion and disclosures related to fair value measurements, including instruments that are categorized within Level 3 of the fair value hierarchy.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded as earned. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

New Accounting Pronouncements

In August 2018, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) 2018-13, *Fair Value Measurement (Topic 820): Disclosure Framework – Changes to the Disclosure Requirements for Fair Value Measurement*, (ASU 2018-13). ASU 2018-13 is effective for fiscal years beginning after December 15, 2019. Early application is permitted. Management is still evaluating the impact of adopting this guidance.

Subsequent Events

On April 29, 2019, the Company announced that it has entered into a definitive merger agreement with Parker Hannifin Corporation (Parker). The merger has not yet closed as of the date of this report and there are no expected changes to the Plan.

Management evaluated subsequent events for the Plan through October 14, 2019, the date the financial statements were available to be issued.

3. Nonparticipant-Directed Investments

Information about the net assets and the significant components of changes in net assets related to the nonparticipant-directed investment is as follows:

	December 31	
	2018	2017
LORD Corporation Master Savings Trust	\$ 12,628,180	\$ 10,383,192

	Year Ended December 31, 2018
Change in net assets:	
Contributions, non-cash	\$ 150,687
Plan interest in net income of master trust	2,925,922
Benefits paid to participants	(283,432)
Transfers to participant-directed investments	(882,411)
	<u>\$ 1,910,766</u>

4. Fair Value Measurements

The fair value framework establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The fair value hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets and liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described below.

Level 1 – Unadjusted quoted prices in active markets that are accessible to the reporting entity at the measurement date for identical assets and liabilities.

Level 2 – Inputs other than quoted prices in active markets for identical assets and liabilities that are observable either directly or indirectly for substantially the full term of the asset or liability. Level 2 inputs include the following:

- Quoted prices for similar assets and liabilities in active markets

LORD Corporation
Erie Hourly Employees' Savings Plan
Notes to Financial Statements (continued)

4. Fair Value Measurements (continued)

- Quoted prices for identical or similar assets or liabilities in markets that are not active
- Observable inputs other than quoted prices that are used in the valuation of the asset or liabilities (e.g., interest rate and yield curve quotes at commonly quoted intervals)
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means

Level 3 – Unobservable inputs for the asset or liability (i.e., supported by little or no market activity). Level 3 inputs include management's own assumption about the assumptions that market participants would use in pricing the asset or liability (including assumptions about risk).

The level in the fair value hierarchy within which the fair value measurement is classified is determined based on the lowest level input that is significant to the fair value measure in its entirety.

Following is a description of the valuation techniques and inputs used for each general type of investment measured at fair value by the Plan. There have been no changes in the methodologies used at December 31, 2018 and 2017.

Registered Investment Company Funds (Mutual Funds): Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily Net Asset Value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Collective Trust Funds: Valued at the NAV of units of a collective trust. The NAV, as provided by the custodian, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities, and then divided by the number of units outstanding. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV.

Pooled Separate Account: Valued at the NAV equivalent of the Plan's interest in New York Life's Pooled Separate Account No. 25 as of the valuation date. The NAV (or its equivalent), as provided by the custodian, is used as a practical expedient to estimate fair value.

Plan Interest in LORD Corporation Master Savings Trust: A description of the valuation methodology is in Note 5.

LORD Corporation
Erie Hourly Employees' Savings Plan
Notes to Financial Statements (continued)

4. Fair Value Measurements (continued)

Additional investments purchased through the BrokerageLink® investment option include the following additional types of investments:

Common Stocks: Valued at the closing price reported on the active market on which the individual securities are traded.

Certificates of Deposit – Traded: Valued at fair value by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the credit-worthiness of the issuer.

Real Estate Investment Trusts and Publicly Traded Limited Partnership Interests: Valued at the NAV traded closest to year-end for units held, adjusted for activity between the trading date and the valuation date, if deemed appropriate.

The following tables set forth by fair value hierarchy level the Plan's assets carried at fair value:

Assets at Fair Value as of December 31, 2018

Level 3 Gains and Losses

The table below sets forth a summary of changes in the fair value of the Plan's Level 3 assets for the year ended December 31, 2018.

	Plan Interest in LORD Corporation Master Savings Trust

Changes in Fair Value Levels

The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period.

Plan management has evaluated the significance of transfers between levels based upon the nature of the financial instrument and size of the transfer relative to total net assets available for benefits. For the years ended December 31, 2018 and 2017, there were no significant transfers in or out of levels 1, 2 or 3.

5. Plan Interest in LORD Corporation Master Savings Trust

The Plan is a participant in the LORD Corporation Salaried, Hourly & Exempt Employee's Savings Trust ("LORD Corporation Master Savings Trust" or "the Trust"). The Trust was created for the purpose of receiving, holding, investing, and disbursing the assets of the employee savings plans sponsored by LORD Corporation. The assets of the Trust are held by PNC Bank (Trustee).

LORD Corporation
Erie Hourly Employees' Savings Plan
Notes to Financial Statements (continued)

5. Plan Interest in LORD Corporation Master Savings Trust (continued)

The sole investment of the Trust is shares of LORD Corporation Paired Class B Common Stock and Class C Preferred Stock, which is valued by an independent valuation specialist semi-annually and other dates at the Plan Administrator's discretion. Although the income, cost and market valuation approaches are considered, emphasis is placed on the market approach (guideline company methodology) with an adjustment for a discount for lack of marketability.

Dividends on LORD Corporation stock are deposited in cash to each participant's account with the same allocation mix as the participant-directed contributions.

Investment income (loss) from the Trust is allocated among the individual participating plans based upon the shares of LORD Paired Class B Common Stock - Class C Preferred Stock allocated to each plan. The Trust is reported on a cash basis. Accrued investment income is reflected on the financial statements for each plan. All other changes in net assets available for benefits are specifically identified and are allocated to each plan. Accordingly, contributions, benefits paid to participants and transfers are all reflected on the financial statements for each plan.

Each participating plan's interest in the Trust is based on shares held at the beginning of the year plus shares for current year contributions and earnings less distributions. At December 31, 2018 and 2017, the Plan's interest in the net assets of the LORD Corporation Master Savings Trust was 10.50% and 10.23%, respectively.

The following tables present the net assets of the Trust and the Plan's interest in those balances at December 31, 2018 and 2017:

		2018	
		Master Savings Trust	Plan's Interest in Master Savings Trust
Investment, at estimated fair value:

5. Plan Interest in LORD Corporation Master Savings Trust (continued)

Investment income for the Trust during the year ended December 31, 2018 is as follows:

Net appreciation in fair value of investments	\$ 25,269,095
LORD stock dividend	2,014,224
Total investment income	<u>\$ 27,283,319</u>

6. Risks and Uncertainties

The Plan invests in various investments that are exposed to various risks, such as interest rate, market volatility, and credit risks. Due to the level of risk associated with certain investments, it is at least reasonably possible that changes in the values of investments will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

7. Reconciliation of Financial Statements to the Form 5500

The following is a reconciliation of additions to and deductions from net assets per the financial statements for the year ended December 31, 2018, to the Form 5500:

Total additions per the financial statements	\$ 6,031,098
Add: Investment advisory fees included in net appreciation of fair value of investments	<u>2,400</u>
Total income per the Form 5500	<u>\$ 6,033,498</u>
Total deductions per the financial statements	\$ 5,127,776

8. Related-Party and Party in Interest Transactions

Certain Plan investments are shares of mutual funds managed by Fidelity Management Trust Company (Fidelity), which is the trustee and recordkeeper for the Plan and, therefore, these transactions qualify as party-in-interest transactions. The Plan invests in the common stock of the Company through the LORD Corporation Master Savings Trust. The Plan holds New York Life's Pooled Separate Account No. 25, which invests in a pool of securities managed by New York Life, the issuer. These transactions qualify as party-in-interest transactions; however, they are exempt from the prohibited transaction rules under ERISA. During 2018, the Plan received \$211,665 in stock dividends from the Company.

The Plan participates in a Revenue Credit Program (RCP) with Fidelity where revenue sharing credits are held in an unallocated account to be used to pay Plan expenses. At December 31, 2018 and 2017, the RCP account balances were \$2,347 and \$184, respectively. The total revenue sharing credits earned during the year ended December 31, 2018 was \$4,545. Investment advisory fees and administrative fees paid from this RCP account in 2018 was \$2,400. Other investment related expenses are included in net appreciation of fair value of investments.

9. Tax Status

The Plan has received a determination letter from the IRS dated October 30, 2017, stating that the Plan is qualified under Section 401(a) of the Code and therefore the related trust is exempt from taxation. Subsequent to this determination by the IRS, the Plan was amended. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualified status. The Plan administrator and the Plan's tax counsel believe the Plan is being operated in compliance with the applicable requirements of the Code and therefore, believe the Plan, as amended, is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. Plan management has analyzed the tax positions taken by the Plan, and has concluded that there are no uncertain positions taken or expected to be taken. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.
