The following description of the McCullough-Hyde Memorial Hospital, Inc. Pension Plan (the Plan) provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution 403(b) plan covering all employees of McCullough-Hyde Memorial Hospital, Inc. (the Plan Sponsor). Employees are eligible to participate in the Plan immediately upon hire. Upon reaching one year of service, the participant becomes eligible for the employer match and non-elective contributions. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA).

Contributions

Each year participants may contribute a percentage or dollar amount of their annual compensation to the Plan, as defined in the plan document. Unless specifically instructed by the employee, new employees are automatically enrolled in the Plan, deferring 5% of their pre-tax compensation. This percentage increases annually by 1%, up to a maximum deferral of 10%. Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions. Participants may also roll over amounts representing distributions from other qualified defined contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan, including mutual funds, a pooled separate account, and fully benefit-responsive investment contracts.

Plan Sponsor matching contributions are made at a rate of 25% of employee contributions equal to 2% of compensation, as defined by the Plan (compensation not to exceed \$37,500). The Plan Sponsor may vary the rate of matching contributions from plan year to plan year. A participant must defer at least 2% of compensation in order to receive a matching contribution. For 2018 and 2017, the Plan Sponsor also made a non-elective contribution of 2% of compensation (compensation not to exceed \$37,500). The Company matching and non-elective contributions are allocated amongst investment options based on the participant's selected allocation percentages.

Participant accounts

Each participant's account is credited with the participant's contributions and allocations of (a) the Plan Sponsor's matching and non-elective contributions and (b) plan earnings, and charged with (a) an allocation of administrative fees and expenses paid out of the Plan and (b) decreases in investment value. Allocations of non-elective contributions are based on participant's compensation, allocations of matching contributions are based on participant's contributions, and allocations of plan earnings are based on account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are vested immediately in their contributions, and earnings thereon. Participants are fully vested in the Plan Sponsor matching and non-elective contributions after three years of credited service.

Notes receivable from participants

Participants may borrow a minimum of \$1,000 up to a maximum equal to \$50,000 or 50% of their vested account balance, whichever is less. The loans are secured by the balance in the participant's account and bear interest at rates from 3.00% to 6.25%, as determined on the date the loan is issued. Principal and interest are paid ratably through payroll deductions.

Notes receivable from participants are measured at their unpaid principal balance plus accrued but unpaid interest. Delinquent notes receivable from participants are reclassified as distributions based upon the terms of the plan document.

Expenses of the Plan

The Plan pays certain administrative expenses. The Plan Sponsor provides other administrative services at no cost to the Plan, which are excluded from these financial statements. Investment loss is stated net of investment fees.

Forfeited accounts

Participant forfeitures of Plan Sponsor matching and non-elective contributions are first used to pay plan expenses. The remaining balance may be used to reduce the Plan Sponsor matching and non-elective contributions. At December 31, 2018 and 2017, forfeited non-vested accounts totaled \$1,574 and \$4, respectively. During 2018, forfeited non-vested accounts of \$188 were used to pay Plan Sponsor matching and non-elective contributions and \$4,806 were used to pay plan expenses.

Plan termination

Although it has not expressed any intent to do so, the Plan Sponsor has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA.

Payment of benefits

On termination of service due to death, disability or retirement, or any other reason, a participant may elect to receive either a lump-sum or various annuity options equal to the value of the participant's vested balance in his or her account. Participants may also elect to receive an in-service withdrawal upon attaining age 59½ or apply for hardship withdrawals, subject to approval by the plan administrator.

Net assets of withdrawing participants

No participants had elected to withdraw from the Plan prior to December 31, 2018 that had not received distributions before year end.

2. Summary of accounting policies

Basis of accounting

The financial statements of the Plan are prepared under the accrual method of accounting in accordance with accounting principles generally accepted in the United States of America.

Use of estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment valuation and income recognition

Investments are reported at fair value (except for fully benefit-responsive investment contracts, which are reported at contract value). Fair value of a financial instrument is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Investment Committee determines the Plan's valuation policies utilizing information provided by the investment advisors and trustees. See Note 6 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net depreciation in fair value of investments includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Risks and uncertainties

The Plan utilizes various investment instruments, including mutual funds, a pooled separate account and fully benefit-responsive investment contracts. Investment securities, in general, are exposed to various risks such as interest rate, credit and overall market volatility risks. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the Statement of Net Assets Available for Benefits.

Benefits

Benefit payments are recorded when paid.

3. Voluntary compliance

During the years ended December 31, 2015 through 2018, certain computational errors were identified relating to participant deferrals, contributions calculations, and inconsistent application of the Plan's automatic enrollment and deferral increase provisions that became effective in 2014. Corrective contributions to participant accounts, including lost earnings, have been identified and quantified by the Plan Sponsor. The estimate for the corrective contributions was based upon the plan provisions and was limited by various Internal Revenue Code regulations. A total of \$180,073 was recorded as corrective contributions receivable as of December 31, 2018 in the accompanying Statement of Net Assets Available for Benefits, with funding of the contributions anticipated to occur in 2020. The estimate includes investment earnings and losses which were determined based upon a blended average of the earnings under the Plan for the plan years 2015 through 2018. These amounts will be remitted by the Company and credited to participants' accounts. No provision for income taxes has been included in the Plan's financial statements related to the foregoing matters because the Company believes that the Plan continues to be qualified, and the related trust continues to be tax-exempt.

4. Transactions with related parties

The Plan permits the payment of administrative expenses to be made from the Plan's assets and for them to be allocated either proportionately based on the value of the account balances or as an equal dollar amount based on the number of participants in the Plan. Additional administrative expenses of the Plan may be paid for by the Company. Expenses relating to specific participant transactions (i.e., distribution request, loan setup, etc.) are charged directly against the appropriate participant's account.

Certain plan investments are managed by Transamerica Financial Life Insurance Company, Inc. (TFLIC), State Street Bank and Trust Company, and Variable Annuity Life Insurance Company (VALIC), trustees for the Plan. These transactions qualify as party-in-interest transactions.

5. Tax status

The Plan has been designed to qualify under Section 403(b) of the Internal Revenue Code (IRC). The terms of the Plan have been prepared to conform to sample language provided by the IRS in Revenue Procedures 2007-71. The IRS does not have a determination letter program for 403(b) plans and, therefore, the Plan has not applied for a determination letter. The plan administrator intends to apply for a determination letter on the Plan once the IRS opens such a program. The Plan is required to operate in conformity with the IRC to maintain the tax-exempt status for plan participants under Section 403(b).

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2015.

6. Fair value measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

- Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
- Level 2: Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.
- Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in methodologies used at December 31, 2018 and 2017.

<i>Mutual funds:</i>	Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the U.S. Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.
<i>Pooled separate account:</i>	Valued using the practical expedient of NAV. This account invests primarily in mutual funds and fixed maturity securities measured based on outside pricing data. Transfers out of a pooled separate account are allowed at any time, with no advance notice.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2018 and 2017. Classification within the fair value hierarchy table is based on the lowest level of any input that is significant to the fair value measurement.

	Assets at Fair Value as of December 31, 2018			
	Level 1	Level 2	Level 3	Total
Mutual funds	\$ 15,522,273	\$ -	\$ -	\$ 15,522,273
Total assets in the fair value hierarchy	15,522,273	-	-	15,522,273
Investments measured at NAV (a)	-	-	-	999,722
Investments at fair value	<u>\$ 15,522,273</u>	<u>\$ -</u>	<u>\$ -</u>	<u>\$ 16,521,995</u>

	Assets at Fair Value as of December 31, 2017			
	Level 1	Level 2	Level 3	Total
Mutual funds	\$ 17,692,808	\$ -	\$ -	\$ 17,692,808
Total assets in the fair value hierarchy	17,692,808	-	-	17,692,808
Investments measured at NAV (a)	-	-	-	966,996
Investments at fair value	<u>\$ 17,692,808</u>	<u>\$ -</u>	<u>\$ -</u>	<u>\$ 18,659,804</u>

(a) Certain investments that were measured at NAV per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the Statement of Net Assets Available for Benefits.

For years ended December 31, 2018 and 2017, there were no significant transfers between Levels 1 and 2 and no transfers in or out of Level 3.

7. Fully benefit-responsive investment contracts

The Plan holds traditional investment contracts. These contracts meet the fully benefit-responsive investment contract criteria and therefore are reported at contract value. Contract value is the relevant measure for fully benefit-responsive investment contracts because this is the amount received by participants if they were to initiate permitted transactions under the terms of the Plan. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals, and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

The traditional investment contracts held by the Plan are guaranteed investment contracts. The contract issuer is contractually obligated to repay the principal and interest at a specified interest rate that is guaranteed to the Plan. The crediting rate is based on a formula established by the contract issuer, but may not be less than 3%. The crediting rate is reviewed on a semi-annual basis for resetting. The contracts cannot be terminated before the scheduled maturity date.

The Plan's ability to receive amounts due is dependent on the issuer's ability to meet its financial obligations. The issuer's ability to meet its contractual obligations may be affected by future economic and regulatory developments.

Certain events might limit the ability of the Plan to transact at contract value with the contract issuer. These events may be different under each contract. Examples of such events include the following:

- The Plan's failure to qualify under Section 401(a) of the IRC or the failure of the trust to be tax-exempt under Section 501(a) of the IRC
- Premature termination of the contracts
- Changes to the Plan's prohibition on competing investment options
- Bankruptcy of the plan sponsor or other plan sponsor events (for example, divestitures or spinoffs of a subsidiary) that significantly affect the Plan's normal operations

No events are probable of occurring that might limit the ability of the Plan to transact at contract value with the contract issuers and that also would limit the ability of the Plan to transact at contract value with participants.

In addition, certain events allow the issuer to terminate the contracts with the Plan and settle at an amount different from contract value. Those events may be different under each contract. Examples of such events include the following:

- An uncured violation of the Plan's investment guidelines
- A breach of material obligation under the contract
- A material misrepresentation
- A material amendment to the agreements without the consent of the issuer

8. Reportable transactions

No reportable transactions were noted in 2018 and 2017.

9. Information certified by the Plan's trustees

The plan administrator has elected the method of annual reporting compliance as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, TFLIC, State Street Bank and Trust Company, and VALIC, the trustees of the Plan, have certified that the following information included in the accompanying financial statements and supplemental schedule is complete and accurate:

- Investments, the fully benefit-responsive investment contracts, and notes receivable from participants, as shown in the Statement of Net Assets Available for Benefits as of December 31, 2018
- Net investment loss and interest income on notes receivable from participants as shown in the Statement of Changes in Net Assets Available for Benefits for the year ended December 31, 2018
- Schedule H, Line 4(i) – Schedule of Assets (Held at End of Year) as of December 31, 2018

The Plan's independent accountants did not perform auditing procedures with respect to this information, except for comparing such information included in the financial statements and supplemental schedule.

10. Fidelity bonding requirements

The Plan was covered by a \$500,000 bond in 2018 and 2017.

11. Subsequent events

The plan administrator has evaluated subsequent events through October 14, 2019, the date the financial statements were available to be issued. The Plan was amended effective January 1, 2019, with the following changes to the Plan resulting from this amendment:

- Unless specifically instructed by the employee, new employees are automatically enrolled in the Plan, deferring 3% of their pre-tax compensation and this percentage increases annually by 1%, up to a maximum deferral of 10%.
- The Company elected to match up to 100% of the first 1% of compensation that a participant contributes to the Plan, subject to IRS limitations.
- The Company will make nonelective employer contributions in the amount of 1.5% of compensation that an eligible participant receives during the plan year.

Furthermore, effective January 22, 2019, the Plan transitioned to a new trustee, Empower Retirement. The plan administrator is not aware of any additional subsequent events that would require recognition or disclosure in the Plan's financial statements.
