1. Description of Plan

The following description of the Laird Plastics, Inc. Profit Sharing and Retirement Savings Plan, (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General:

The Plan is a defined contribution plan covering substantially all non-union employees of Laird Plastics, Inc. (the "Company"). The Plan was established effective August 31, 1963, and is designed to operate as an employee savings and profit-sharing plan which complies with Section 401(k) and the regulations thereunder of the Internal Revenue Code of 1986, as amended (the "Code") and is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Plan Administration:

The Plan is administered by the Company. Fidelity Management Trust Company (the "Trustee") serves as a trustee of the Plan. The Trustee is responsible for the management and control of Plan assets held by the trust. Certain administrative functions are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan.

Eligibility:

Substantially all employees of the Company who meet certain eligibility requirements, as defined, can participate in the Plan. Generally, an employee becomes eligible after reaching age 21 and completing three months of service, as defined, with the Company.

Employee Contributions:

Eligible employees can make contributions to the Plan in variable amounts based on a percentage of their compensation, subject to limits set forth in the Plan.

Employer Contributions:

In 2018 and 2017, the Company matched 50% of each participant's contributions, not to exceed 3% of the participant's compensation. Additional discretionary contributions are determined annually by the Company's Board of Directors, subject to limits set forth in the Plan and taking into account the Company's profits, matching contributions and other business factors. The Company did not make a discretionary contribution in 2018 or 2017.

Participant Accounts:

Each participant's account is credited with the participant's and the Company's contributions and a pro rata allocation of any Plan earnings, net of administrative expenses. Amounts are allocated based on participant directed elections.

1. Description of Plan (continued)

Vesting:

Participants are at all times fully vested in their employee contributions. Vesting in the Company's matching and discretionary contributions of each participant's account is based on years of service, as follows:

Less than one year	0%
One year	20%
Two years	50%
Three or more years	100%

Payment of Benefits:

Upon termination of service, a participant may receive a lump-sum amount equal to the vested value of his or her account, or upon disability or retirement, a participant may elect to receive monthly, quarterly, or annual installments. Death benefits may be paid in a lump-sum or installments, as elected by a named beneficiary.

Forfeitures:

Forfeited nonvested accounts during 2018 were $43,372. The forfeited accounts are used to reduce future Company contributions.

Investment Management Fees and Operating Expenses:

Investment management fees and operating expenses charged to the Plan for investments in the various funds are deducted from income earned on a daily basis and are reflected as a component of net depreciation in fair value of investments.

Notes Receivable from Participants:

Participants are allowed to borrow against their individual vested accounts. Loan amounts are limited to 50% of a participant's vested balance up to a maximum of $50,000, with an interest rate that approximates the current market rates. At December 31, 2018 the interest rate on outstanding loans ranged from 3.25% to 5.50%. The loans are secured by the balance in the participant's account. Principal and interest is paid ratably through payroll deductions.

2. Summary of Significant Accounting Policies

Basis of Accounting:

The financial statements have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP").

2. Summary of Significant Accounting Policies (continued)

Use of Estimates:

The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and the changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition:

The Plan's investments in registered investment companies (mutual funds) reflect the fair value of the underlying investments of the individual funds. Such fair values are based on quoted prices. See note 4 for discussion of fair value measurements.

Purchases and sales of investments are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants:

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent notes receivable from participants are recorded as a distribution based upon the terms of the Plan document. No allowance for credit losses has been recorded as of December 31, 2018 and 2017.

Risks and Uncertainties:

The Plan provides for investment options in various investments. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statements of net assets available for benefits.

Recent Accounting Pronouncements:

The Plan's management continuously monitors and reviews all current accounting pronouncements and standards from the Financial Accounting Standards Board and other authoritative sources of U.S. GAAP. As of December 31, 2018, there were no new pronouncements, interpretations or staff positions that had or were expected to have a significant impact on the financial statements of the Plan.

Subsequent Events:

The plan has evaluated subsequent events through October 10, 2019 the date the financial statements were available to be issued.

3. Information Certified by Trustee

The Trustee of the Plan holds the Plan's investment assets and executes transactions thereon. Financial information relating to those assets, including investments held at December 31, 2018 and 2017, and net depreciation in fair value of investments, interest, dividends, investment management fees, and reportable transactions for the year ended December 31, 2018, if any, is included in the accompanying financial statements based on information provided by the Trustee. Such information has been certified by the Trustee as being complete and accurate.

4. Fair Value Measurements

The Plan defines fair value as an exit price, representing the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. As such, fair value is a market-based measurement that should be determined based on assumptions that market participants would use in pricing an asset or liability. As a basis for considering such assumptions, Accounting Standards Codification ("ASC") 820 "Fair Value Measurements" establishes a three-level fair value hierarchy that prioritizes the inputs used to measure fair value. The three levels of inputs used to measure fair value are as follows:

Level 1	Quoted prices in active markets for identical assets or liabilities.
Level 2	Observable inputs other than quoted prices included in Level 1, such as quoted prices for similar assets and liabilities in active markets; quoted prices for identical or similar assets and liabilities in markets that are not active; or other inputs that are observable or can be corroborated by observable market data.
Level 3	Unobservable inputs that are supported by little or no market activity and are significant to the fair value of the assets or liabilities. This includes certain pricing models, discounted cash flow methodologies and similar techniques that use significant unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value as of December 31, 2018 and 2017:

Mutual Funds and Money Market Funds – Fair values for these investments are based on quoted prices in active markets and are therefore classified within Level 1 of the fair value hierarchy.

4. Fair Value Measurements (continued)

Common Collective Trusts – Common collective trusts are valued based on the information reported by the investment advisor using the audited financial statements of the common collective trust at year-end. The Plan's investments in collective interest trusts are valued based upon the net asset value of units owned by the Plan at year-end. The fair value of the Plan's investments is based on the net asset values of the underlying open-end mutual funds. The Plan's investments in collective trusts are classified as Level 2 investments.

The following tables summarize financial assets and liabilities measured at fair value on a recurring basis as of December 31, 2018 and 2017, segregated among the appropriate levels within the fair value hierarchy.

Description	Fair Value	Fair Value Measurements at December 31, 2018		
		Level 1	Level 2	Level 3
Assets:				
Mutual Funds	$ 44,819,848	$ 44,819,848	$ -	$ -

		Level 1	Level 2	Level 3
Assets:

Total Investments, at Fair Value	$ 48,681,826	$ 47,313,384	$ 1,368,422	$ -

5. Investment Contract with Insurance Company

The Plan follows ASC 962 Plan Accounting – Defined Contribution Plan issued by the Financial Accounting Standards Board, which specifies the accounting for investment contracts issued by either an insurance enterprise or other entity.

5. Investment Contract with Insurance Company (continued)

The Fidelity Advisor Stable Value Fund (the "Stable Value Fund") is a benefit-responsive investment contract entered into with the Trustee. The Stable Value Fund is included in the statements of net assets available for benefits at contract value as determined by the Trustee using the market approach based on market prices of similar contracts. Contract value is the relevant measure for fully benefit-responsive investment contracts, because this is the amount received by participants if they were to initiate permitted transactions under the terms of the Plan. Contract value, as reported to the Plan by the Trustee, represents contributions made under the contract, plus earnings, less participant withdrawals, and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

Certain events, such as the premature termination of the contract by the Plan or the termination of the Plan, would limit the Plan's ability to transact at contract value with the Trustee. The Plan administrator believes the occurrence of such events or events that would also limit the Plan's ability to transact at contract value with Plan participants is not probable.

6. Tax Status

The Internal Revenue Service has determined by a letter dated March 31, 2014, that the Plan and related trust as then designed, was in accordance with applicable sections of the Code. The Plan has been amended since receiving the determination letter, however, the Plan's management believes the Plan is currently designed and being operated in compliance with applicable requirements of the Code. Therefore, no provision for income taxes has been included in the accompanying financial statements.

Plan management has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2018 and 2017, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to audit by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

7. Administrative Expenses

The Company performs certain services for the Plan for which no fee is charged. Additionally, the Company paid approximately $9,300 of other expenses related to the administration of the Plan for 2018.

8. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan, upon giving written notice to all parties concerned, to terminate the Plan subject to the provisions of ERISA.

9. Related Party Transactions

Certain Plan investments and related transactions as of December 31, 2018 and 2017, and for the year ended December 31, 2018 were in investment funds managed by the Trustee; therefore, these investments and transactions qualify as party-in-interest transactions. The Plan's transactions with its third-party administrator and record-keeper also qualify as party-in-interest transactions. These transactions are not considered prohibited by statutory exemptions under ERISA.
