For the Years Ended December 31, 2018 and 2017*

NOTE 1 – PLAN DESCRIPTION

The following description of the JR Manufacturing (the “Company”) 401(k) Plan (the “Plan”) provides only general information. Participants should refer to the Plan document for more complete information.

A. GENERAL

The Plan is a defined contribution and profit sharing plan covering all employees of the Company who are U.S. residents, and have completed one year of eligible service and are age 18 or older. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (“ERISA”), as amended.

B. EMPLOYEE CONTRIBUTIONS

Under the Plan, participants are allowed to defer between one percent and 100 percent of eligible compensation up to applicable ERISA contribution limits for the year. “Compensation” is defined as a participant’s W-2 earnings plus any section 125 earnings. Participants may change deferral elections the first day of the Plan year and the first day of the seventh month of the Plan year. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions.

C. EMPLOYER CONTRIBUTIONS

The Company makes matching contributions equal to a discretionary percentage on behalf of eligible participants.

D. PARTICIPANT ACCOUNTS

Each participant account is credited with the participant’s contribution and allocations of employer contributions, plan earnings, and distribution fees (if applicable). Allocations are based on participant earnings or account balances, as defined.

E. NOTES RECEIVABLE FROM PARTICIPANTS

Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50 percent of the vested account balance. Participants are allowed one loan at any given time. The loan is secured by the balance in the participant’s account and bears interest at a rate determined by the Plan administrator. Principal and interest are paid ratably through payroll deductions and are recorded when received. Loan repayments may be made over a period not to extend beyond five years, unless such loan is used to acquire a principal residence in which the repayment period may be up to thirty years.

F. PAYMENT OF BENEFITS

On termination of service due to death, disability, or other reasons, a participant can choose to have a distribution of his/her account balance equal to the value of his/her vested interest. In the case of early distribution at age 59 ½, the participant may elect to withdraw all or some of his/her salary reduction contributions (including any earnings thereon).

NOTE 1 – PLAN DESCRIPTION – (CONTINUED) –

G. VESTING

In the case of the employer's matching contributions, the Plan uses a graduated scale for vesting:

<u>Full Years of Service</u>	<u>Vested Percentage</u>
Less than 1	0%
1	20%
2	40%
3	60%
4	80%
5 or more	100%

A participant becomes fully vested upon attainment of normal retirement age while an employee, death while an employee or upon suffering a disability while an employee.

H. TERMINATION PRIORITIES

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contribution at any time and to terminate the Plan subject to the provisions of ERISA. In the event of termination or partial termination, each participant would become immediately 100 % vested in their account balance.

NOTE 2 – ACCOUNTING POLICIES

A. FINANCIAL REPORTING FRAMEWORK

The accompanying financial statements are prepared according to accounting principles generally accepted in the United States of America ("GAAP"), as promulgated by the Financial Accounting Standards Board ("FASB") in the Accounting Standards Codification ("ASC").

B. BASIS OF ACCOUNTING

The financial statements of the Plan are prepared on the accrual basis of accounting.

C. ESTIMATES

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

D. INVESTMENT VALUATION AND INCOME RECOGNITION

The Plan's investments are stated at fair value (except for the fully benefit-responsive investment contract, which is stated at contract value). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 8 for a discussion of fair value measurements.

NOTE 2 – ACCOUNTING POLICIES – (CONTINUED) –

D. INVESTMENT VALUATION AND INCOME RECOGNITION – (CONTINUED) –

Investment income is recorded when earned, on the accrual basis, and allocated to each participant's account daily based on the number of shares held in each participant account. Purchases and sales of securities are recorded on a trade-date basis. Net appreciation (depreciation) includes the plan's gains and losses on investments bought and sold as well as held during the year. Dividends are recorded on the ex-dividend date. Interest income is recorded on the accrual basis.

E. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate risk, market risk, and credit risk. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

F. NOTES RECEIVABLE FROM PARTICIPANTS

Notes receivable from participants are measured at the unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the plan document. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2018 and 2017.

G. PAYMENT OF BENEFITS

Benefits are recorded when paid.

H. PLAN EXPENSES

Certain expenses relating to the administration of the Plan have been paid by the Company and are not significant to the operation of the Plan.

I. SUBSEQUENT EVENTS

The Plan evaluated subsequent events through October 14, 2019, which is the financial statement issuance date. All items which are required for disclosure have been included in the accompanying financial statements and notes thereto.

NOTE 3 – FORFEITED ACCOUNTS

In accordance with Plan documents, forfeited funds can be used to restore returning participants' accounts and to reduce future employer contributions. Forfeitures of \$9,105, were used to offset the employer match in the Plan year ended December 31, 2018. Forfeited, non-vested account balances amounted to \$0 as of December 31, 2018 and 2017.

NOTE 4 – INFORMATION PREPARED AND CERTIFIED BY CUSTODIAN

The Plan's investments are held in a trust fund administered by Voya Financial, the custodian of the Plan. The following information included in the accompanying financial statements and supplemental schedule was obtained from data that has been prepared and certified to as complete and accurate by the custodian:

- Investments, as shown in the statements of net assets available for benefits as of December 31, 2018 and 2017.
- Net appreciation (depreciation) of the fair value of investments, interest and dividends and interest income on notes receivable from participants, as shown in the statement of changes in net assets available for benefits for the year ended December 31, 2018.

The Plan's independent accountants did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedule.

NOTE 5 – INVESTMENT CONTRACT WITH INSURANCE COMPANY

The Plan has entered into a traditional fully benefit-responsive investment contract with Voya Financial Inc. The total contract value of the Plan's investment is \$155,557 and \$87,226 at December 31, 2018 and 2017, respectively. Voya Financial, Inc. maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan. The crediting interest rate is determined at least monthly.

This contract meets the fully benefit-responsive investment contract criteria and therefore is reported at contract value. Contract value is the relevant measure for fully benefit-responsive investment contracts because this is the amount received by participants if they were to initiate permitted transactions under the terms of the Plan. Contract value, as reported to the Plan by Voya Financial, Inc., represents contributions made under the contract, plus earnings, less participant withdrawals, and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

The Plan's ability to receive amounts due is dependent on the issuer's ability to meet its financial obligations. The issuer's ability to meet its contractual obligations may be affected by future economic and regulatory developments.

Certain events outside the normal operation of the trust that cause a withdrawal would limit the Plan's ability to transact at contract value with Voya Financial, Inc. Examples of such events include, but are not limited to, partial or complete legal termination of the trust or a unit-holder, tax disqualification of the trust or a unit-holder, and certain trust amendments if issuers' consent is not obtained. However, as of December 31, 2018, the occurrence of an event outside the normal operation of the trust that would cause a withdrawal from an investment contract is not considered to be probable.

In addition, issuers of investment contracts have certain rights to terminate a contract and settle at an amount that differs from contract value. For example, certain breaches by the trust of its obligations, representations, or warranties under the terms of the investment contract can result in its termination at

market value. Investment contracts may also provide for termination with no payment obligation from the issuer if the performance of the contract constitutes a prohibited transaction under ERISA or other applicable law. As of December 31, 2018, the Plan administrator does not believe the occurrence of such an event is probable. There are no reserves against contract value for credit risk of the contract issuer or otherwise.

NOTE 6 – PARTY-IN-INTEREST

Certain Plan investments are shares of mutual funds managed by Voya, the custodian of the Plan. Therefore, these investments qualify as party-in-interest transactions. Also, the plan has notes receivable from participants that qualify as party-in-interest transactions. Investments in mutual funds managed by Voya and notes receivable from participants total \$5,074,570 and \$5,007,963 as of December 31, 2018 and 2017, respectively.

NOTE 7 – TAX STATUS

The Plan obtained its latest determination letter on March 31, 2014, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The Plan has been amended since receiving the determination letter. However, the Plan Administrator and the Plan's tax counsel believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, no provision for income taxes has been included in the Plan's financial statements, as the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2015.

NOTE 8 – FAIR VALUE MEASUREMENTS

The Plan's investments are reported at fair value in the accompanying statements of net assets available for benefits (except the fully benefit-responsive investment contract, see Note 5). The accounting framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3).

In accordance with the framework, the Plan groups assets and liabilities measured at fair value into three levels based on the markets in which the assets and liabilities are traded and the reliability of the assumptions used to determine fair value. These levels are described as follows:

- Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
- Level 2 - Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; and inputs that are derived principally from or corroborated by observable market data by correlation or other means.

*Notes to the Financial Statements
For the Years Ended December 31, 2018 and 2017*

NOTE 8 – FAIR VALUE MEASUREMENTS – (CONTINUED) –

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

- Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2018 and December 31, 2017.

- *Pooled Separate Accounts:* separate accounts are valued at their "accumulation unit value" (AUV). The separate account is valued daily as the number of accumulation units held multiplied by the AUV. The AUV is determined daily based on the net asset value of shares of the underlying fund, the fund's dividends and the Plan's contract account charges. Since the AUV is determined based on a combination of the fund NAV and the separate account charges, Level 2 was deemed the proper classification.

The following table classifies the investments measured at fair value on a recurring basis by level within the fair value hierarchy as of December 31, 2018:

	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Total</u>
Mutual funds	\$ -	\$ 6,281,498	\$ -	\$ 6,281,498

Investment measured at contract value				155,557
Total Investments				\$ 6,437,055

The following table classifies investments measured at fair value on a recurring basis by level within the fair value hierarchy as of December 31, 2017:

	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Total</u>
