NOTES TO FINANCIAL STATEMENTS

Note 1. Description of Plan

The following description of The Kennedy Group, Inc. 401(k) Profit Sharing Plan and Trust (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General:

The Plan is a defined contribution plan covering all eligible employees of The Kennedy Group, Inc. and its wholly owned subsidiary Florida Marking Products, LLC as well as an adopting employer Enterprise Labels, LLC (collectively the "Company"), who are at least twenty-one years old and have completed three months of service. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"), as amended.

Contributions:

Each year, participants may contribute up to 95 percent of pretax annual compensation, as defined by the Plan. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans (rollover). Participants direct the investment of their contributions into various investment options offered by the Plan. The Company contributes 50 percent of the first 6 percent of compensation that the participant contributes to the Plan. Additional profit sharing amounts may be contributed at the option of the Company. There were no additional profit sharing amounts for the year ended December 31, 2018. Contributions are subject to certain Internal Revenue Service ("IRS") limitations.

Participant Accounts:

Each participant's account is credited with the participant's contribution and the Company matching contributions, as well as allocations of the Company's profit sharing contribution and Plan earnings. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting:

Participants are vested immediately in their contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts is based on years of continuous service at a rate of 20 percent per year starting with two years of vesting service. A participant is 100 percent vested after six years of credited service.

Notes Receivable From Participants:

Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50 percent of their account balance. The loans are secured by the balance in the participant's account. The loan interest rate, determined yearly, is set at 1 percent above the prime rate, as defined. Principal and interest is paid ratably through monthly payroll deductions.

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

Note 1. Description of Plan (Continued)

Payment of Benefits:

Upon termination, death, disability, or retirement, a participant may elect to receive either a lump sum amount equal to the value of the participant's vested interest in his or her account, or annual installments over a specified term.

Withdrawals:

Participants who have attained the age of 59½ may withdraw all or part of their account. Participants under the age of 59½ may withdraw all or part of their tax-deferred contributions only for reasons that qualify as a financial hardship, as defined under federal law.

Forfeitures:

At December 31, 2018 and 2017, forfeited nonvested accounts totaled \$1,832 and \$16,945, respectively. These accounts will be used to reduce future employer contributions. Also, in 2018, the employer contributions were reduced by \$60,252 from forfeited nonvested accounts.

Note 2. Summary of Significant Accounting Policies

- A. Basis of Accounting – The financial statements are prepared on the accrual basis of accounting.

Investment contracts held by a defined contribution plan are required to be reported at fair value, except for fully benefit-responsive investment contracts. Contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan.

- B. Use of Estimates – The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

- C. Investment Valuation and Income Recognition – Investments are reported at fair value (except fully benefit-responsive investment contracts, which are reported at contract value). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Notes 4 and 5 for discussion of fair value measurements and guaranteed investment contract, respectively.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

Note 2. Summary of Significant Accounting Policies (Continued)

- D. Notes Receivable From Participants – Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when incurred. No allowance for credit losses has been recorded as of December 31, 2018 and 2017. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be in default, the participant loan balance is reduced and the benefit payment is recorded.
- E. Excess Contributions Payable – Amounts payable to participants for contributions in excess of amounts allowed by the IRS are recorded as a liability with a corresponding reduction to contributions. The Plan distributed the 2018 and 2017 excess contributions to the applicable participants prior to March 15, 2019 and 2018, respectively.
- F. Payments of Benefits – Benefits are recorded when paid.
- G. Expenses – Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net depreciation in fair value of investments.
- H. Subsequent Events – The Plan has evaluated subsequent events through October 4, 2019, which is the date the financial statements were available to be issued.

Note 3. Unaudited Information

The plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the Trustee has certified to the completeness and accuracy of all investments and notes receivable from participants reflected in the statements of net assets available for benefits at December 31, 2018 and 2017, the supplemental schedule at December 31, 2018, the related investment and loan interest activity reflected in the statement of changes in net assets available for benefits for the year ended December 31, 2018, and investment related information in the accompanying notes to the financial statements. This information is unaudited by independent accountants.

Note 4. Fair Value Measurements

The Plan estimates the fair value of financial instruments using available market information and other generally accepted valuation methodologies. The inputs used to measure fair value are classified into three levels:

Level 1 – Quoted market prices in active markets for identical assets and liabilities.

Level 2 – Observable market-based inputs or unobservable inputs that are corroborated by market data.

THE KENNEDY GROUP, INC. 401(k) PROFIT SHARING PLAN AND TRUST

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

Note 4. Fair Value Measurements (Continued)

Level 3 – Unobservable inputs in which little or no market data exists.

The following is a description of the valuation methodology used for plan assets measured at fair value:

- The fair value of investments held in pooled separate accounts is based on their reported net asset value ("NAV"). The NAV is based primarily on observable inputs, the market value of the underlying investments, and is classified as Level 2.

The method described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. There have been no changes in the methodology used from 2017 to 2018. Furthermore, while the Plan believes its valuation method is appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2018 and 2017:

Assets at Fair Value as of December 31, 2018				
	Level 1	Level 2	Level 3	Total
Pooled separate accounts	\$ -	\$7,298,300	\$ -	\$7,298,300

Assets at Fair Value as of December 31, 2017				
	Level 1	Level 2	Level 3	Total
Pooled separate accounts	\$ -	\$8,261,367	\$ -	\$8,261,367

Note 5. Guaranteed Investment Contract

The Plan holds an investment in an unallocated investment contract (the "guaranteed investment contract"). The contract that the Plan holds meets the fully benefit-responsive investment contract criteria and, therefore, is reported at contract value. Contract value is the relevant measure for fully benefit-responsive investment contracts because this is the amount received by participants if they were to initiate permitted transactions under the terms of the Plan. Contract values represent contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Voya maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

Note 5. Guaranteed Investment Contract (Continued)

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The crediting interest rate is based on a formula agreed upon with the issuer. Such interest rates are reviewed at least annually for resetting.

The guaranteed investment contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date. Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the Plan documents (including complete or partial plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the plan sponsor or other plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The plan administrator does not believe that any events which would limit the Plan's ability to transact at contract value with participants are probable of occurring.

Note 6. Party-in-Interest Transactions

Certain plan investments are shares/units of funds managed by Voya. Voya is the Trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions.

Note 7. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100 percent vested in their employer contributions.

Note 8. Federal Income Tax Status

The IRS has previously ruled, in a determination letter dated March 31, 2014, that the prototype standardized model on which this Plan is based qualifies under Section 401(a) of the Internal Revenue Code ("IRC") and is, therefore, not subject to tax under present income tax laws. The Plan has been amended since this date. However, the plan administrator believes the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

The plan administrator has analyzed the tax positions taken by the Plan and has concluded that, as of December 31, 2018, there are no uncertain positions taken or expected to be taken that would require such recognition or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

Note 9. Risks and Uncertainties

The Plan holds various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.
