Employees can elect to contribute to the Plan with payroll deductions up to 90% of total compensation. The amount of employee contributions is not to exceed the maximum deferral amount indicated by the Internal Revenue Service (IRS). Participants who have attained age 50 before the end of the Plan year are eligible to make catch up contributions. Employees are automatically enrolled to contribute 3%, unless the employee affirmatively elects otherwise. The Company will make non-discretionary matching contributions to the Plan for 100% of an employee's contribution up to 6% of the employee's compensation. The employee and Company contributions are allocated to the respective investment funds based on the employee's election.

The Company may make contributions for a plan year designated as "qualified nonelective employer contributions" as defined by the Plan documents.

c) Participant accounts

Each participant's account is credited with the participant's and employer contributions and plan earnings, and charged with any distributions made to the participant. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

d) Notes receivable - participant loans

Participants may borrow from their fund accounts up to a maximum of 50 percent of their vested account balance or $50,000 minus the highest outstanding loan balance in the participants' account during the last 12 months. The loans are secured by the balance in the participant's account and bear interest at a rate commensurate with local prevailing rates as determined by the Plan administrator. Principal and interest are paid ratably through biweekly payroll deductions over a period established at the time the loan is made. Interest rates were between 4.25% and 6.25% for loans outstanding at December 31, 2018 and 2017.

e) Forfeitures

When termination of participation in the Plan occurs, the non-vested portion of the participant's account, as defined by the Plan, represents forfeitures. If the participant is re-employed and fulfills certain requirements, as defined in the Plan, the participant's account will be reinstated. Forfeitures can be used to pay administrative expenses incurred by the Plan, and then they must be used first to restore previous forfeitures of participants' accounts that met the criteria to be reinstated before they can be used to reduce employer contributions. In 2018 and 2017, forfeitures in the amount of $563 and $-0-, respectively, were used to reduce the employer contributions into the Plan. Forfeitures of $11 and $-0- were available to offset future administrative expenses and Employer contributions at December 31, 2018 and 2017, respectively.

1) Description of plan (continued)

f) Vesting
Participants are fully vested in the portion of their account representing their contributions plus actual earnings thereon at all times. The portion of each participant's account representing Company matching contributions vests immediately.

g) Payments of benefits
On termination of employment, death, disability, or retirement, a participant may elect to receive a lump-sum amount equal to the value of the participant's vested balance in his or her account. A participant may withdraw all or part of their rollover contributions at any time. Withdrawals from the tax-deferred contributions may only be made after attaining age 59 ½ or due to financial hardship, as defined by the Plan. Balances under $1,000 may be paid out at the discretion of the Company, as defined in the Plan documents. Benefit payments to participants are recorded upon distribution.

2) Summary of significant accounting policies

a) Basis of accounting
The financials statements of the Plan are prepared using the accrual method of accounting. Investment contracts held by a defined-contribution plan are required to be reported at fair value.

b) Use of estimates
The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosures of contingent assets and liabilities. Actual results could differ from those estimates.

c) Payment of benefits
Benefits are recorded when paid.

d) Investment valuation and income recognition
Investments are stated at fair market value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 10 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

e) Notes receivable - participant loans
Notes receivable from participants are measured at the unpaid principal balance plus unpaid accrued interest. Defaulted loans, as defined by the Plan, are deemed distributed and recorded as benefits paid to participants in the statement of changes in net assets available for benefits. Deemed distributions recorded at December 31, 2018 and 2017 were $14,108 and $5,442, respectively.

f) Plan expenses
Administrative expenses paid by the Plan arise from processing fees and participant fees that are allocated among the respected participants.

3) Plan termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. If the Plan is terminated, participants are 100% vested in their account balance.

4) Risks and uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the value of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

5) Related party transactions

The Plan invests in pooled separate accounts offered and managed by the custodian. Transactions in such investments qualify as party-in-interest transactions which are exempt from the prohibited transaction rules. The payment of administrative expenses by the Plan constitutes related party fees.

6) Information certified by the Plan's trustee (unaudited)

The following is a summary of the investment information regarding the Plan as of December 31, 2018 and 2017, and for the years then ended, included in the Plan's financial statements and supplementary schedules, that was prepared by or derived from information prepared by Reliance Trust Company as of December 31, 2018 and Fidelity Management Trust Company as of December 31, 2017, the trustees of the Plan, and furnished to the plan administrator. The plan administrator has obtained certifications from the trustees that such information is complete and accurate.

	2018	2017
Investments:		
Mutual funds	$ 11,941,610	$ 12,155,066
Common/collective trust	1,091,477	1,230,061
Notes receivable – participant loans	779,162	683,256
Investment income:		
Interest and dividends	524,961	702,633
Interest from notes receivable – participant loans	34,215	23,603
Net (depreciation) appreciation in fair value investments	(1,282,016)	1,382,156

7) Investments

The Plan's investments are held by Reliance Trust Company at December 31, 2018 and Fidelity Management Trust Company at December 31, 2017. The Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) (depreciated) appreciated in value by $(1,282,016) and $1,382,156 in 2018 and 2017, respectively.

8) Income tax status

The plan received a favorable opinion letter from the Internal Revenue Service dated March 31, 2014, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code ("IRC"). Although the Plan has been amended since receiving the letter, including amendments made to comply with recent law changes, the Plan administrator believes the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC and, therefore, believes that the Plan is qualified, and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Department of Labor and Internal Revenue Service. The plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for a period of three years from the filing of those returns.

9) Common/collective trusts (managed income portfolio)

The Plan has entered into a benefit-responsive investment contract. The fund distributes income in the form of units, and provides a constant unit redemption value. The fund invests in fully benefit-responsive investment contracts (FBRICs) and is presented at fair value based on its NAV. As a result, the Plan is an indirect investor in fully benefit-responsive investment contracts since the Plan itself does not directly invest in FBRICs. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. A common/collective trust issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan. There are no reserves against contract value for credit risk of the contract issuer or otherwise. The crediting interest rate is based on a formula agreed upon with the issuer.

10) Fair Value Measurement

Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820, *Fair Value Measurements*, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level l measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

10) Fair Value Measurement (continued)

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for measuring assets measured at fair value. There have been no changes in the methodologies used at December 31, 2018 and 2017.

Mutual funds: Valued at the net asset value (NAV) of shares held by the plan at year end.

Common/collective trusts: This investment is a common collective trust fund. The unit value is determined by dividing the fund's NAV by the total number of participating plans' units outstanding. There are no unfunded commitments related to this fund as of December 31, 2018 and 2017, and amounts can be redeemed daily without restriction. The NAV is used as a practical expedient to estimate fair value.

The method described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation method is appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2018:

	Assets at Fair Value as December 31, 2018			
	Level 1	Level 2	Level 3	Total
Total assets in the fair value hierarchy, mutual funds	$11,941,610	-	-	$11,941,610
Investments measured at net asset value (a)				1,091,477
Total assets at fair value				$13,033,087

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2017:

	Assets at Fair Value as December 31, 2017			
	Level 1	Level 2	Level 3	Total
Total assets in the fair value hierarchy, mutual funds	$12,155,066	$ -	$ -	$12,155,066
Investments measured at net asset value (a)				1,230,061
Total assets at fair value				$13,385,127

10) Fair Value Measurement (continued)

a) Certain investments are measured at fair value using the NAV per share (or its equivalent) practical expedient have not been categorized in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the amounts presented in the balance sheet.

b) The Following table sets forth additional disclosures of Plan's investments whose fair value is estimated using NAV per share (or its equivalent) as of December 31, 2018 and 2017:

	Fair Value		Unfunded	Redemption	Redemption
	2018	2017	Commitment	Frequency	Notice Period
Common collective trust fund	$ 1,091,477	$ 1,230,061	$ -	Daily	None

11) Subsequent events

The Plan has evaluated subsequent events through the date of the auditors' report, the date which the financial statements were available to be issued. There were no material subsequent events that required recognition or additional disclosures in these financial statements.
