NOTE A - DESCRIPTION OF THE PLAN

The following description of the Ironshore USA 401(k) Plan (the "Plan") provides only general information about the Plan's provisions. Participants should refer to the Plan document and summary plan description for a more complete description of the Plan's provisions, copies of which may be obtained from the plan sponsor.

[1] General:

The Plan was a defined contribution plan covering substantially all full-time employees of Ironshore Services, Inc., Ironshore Management, Inc., and Ironshore Insurance Services, LLC, wholly owned subsidiaries of Ironshore Holdings (U.S.) Inc., (the "Company" or "Plan Sponsor"). The Company is a wholly-owned subsidiary of Ironshore, Inc., which was acquired by Liberty Mutual Insurance Company on May 1, 2017. Ironshore Underwriting Services, Inc., Excess Risk Reinsurance, Inc. and Zodiac Insurance Services, Inc. were also participating employers in the Plan. Employees were eligible to participate in the Plan on the first day of each month immediately following commencement of employment. Eligible participants who did not elect to enroll in the Plan were automatically enrolled after 30 days of service. Effective May 15, 2017, eligibility excluded part time and temporary employees as well as interns.

Effective December 31, 2018, pursuant to Unanimous Consent of the Board of Directors and Plan amendment, the Ironshore USA 401(k) Plan was merged into the Liberty Mutual 401(k) Plan (the "Surviving Plan"). Concurrently, the Ironshore USA 401(k) Plan was amended to delete provisions that permitted the Company to make discretionary employer contributions while establishing provisions to remit the discretionary contributions related to wages earned during the year ended December 31, 2018, as defined, to the Surviving Plan. On December 31, 2018, Plan assets of approximately $94,728,000, including investments of approximately $93,728,000 and notes receivable from participants of approximately $1,000,000, were transferred to the Surviving Plan. Employer true up contributions of approximately $307,000 related to contributions deposited during the year ended December 31, 2018 were accrued in the accompanying financial statements and deposited into the Surviving Plan on March 29, 2019. A related liability for transfer to related plan was also recorded for such amounts. Pursuant to Plan amendment effective December 31, 2018, employer discretionary contributions equal to 4% of eligible compensation, as defined by the Surviving Plan, earned during the year ended December 31, 2018 amounting to approximately $2,541,000 were deposited in the Surviving Plan on March 26, 2019 to the respective participant accounts.

The Plan was subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). The Human Resources Department ("HR") of the Company was responsible for the general administration of the Plan. The trustee of the Plan was Fidelity Management Trust Company (the "Trustee") and the recordkeeper was Fidelity Workplace Services, LLC.

[2] Contributions:

Participants were able to contribute up to 90% of annual compensation subject to certain limitations, as defined by the Plan. Participants who had attained age 50 before the end of the Plan year were eligible to make catch-up contributions. Participants were also able to contribute amounts representing distributions from other qualified defined benefit or contribution plans.

The Plan included an auto-enrollment provision whereby all newly eligible employees were automatically enrolled in the Plan unless they affirmatively elected not to participate in the Plan. Automatically enrolled participants had their deferral rate set at 6% of eligible compensation. The Plan also had an escalation feature whereby the deferral rate was increased annually each January by 1% up to a maximum of 10%.

NOTE A - DESCRIPTION OF THE PLAN (CONTINUED)

[2] Contributions: (continued)

The Company matched 100% of the participant contributions, up to 6% of compensation, as defined in the Plan. Prior to December 31, 2018, an additional discretionary non-contributory match could be made at the option of the Company's Board of Directors to participants of the Plan. Participants were required to be employed on the last day of the Plan year in order to participate in the Company's discretionary contributions.

Participants directed the investment of participant and employer contributions into various investment options offered by the Plan and were able to change their investment option on a daily basis. If a participant was automatically enrolled, their contributions were invested in the applicable lifecycle fund based on the participant's age and expected retirement date until the participant changed their election. In no event may participant pre-tax and after-tax contributions exceed any statutory limitations.

Participants were able to change their contribution percentage elections as of the first of each month. Participants were able to revoke their contribution election at any time.

[3] Participant accounts:

Each participant's account was credited with the participant's contribution and allocations of (a) the Company's matching contributions and (b) allocations of Plan earnings, and charged with an allocation of administrative expenses. Plan earnings were allocated based on the participant's share of net earnings or losses of their respective elected investment options. Allocations of administrative expenses were based on the participant's account balances, as defined. The benefit to which a participant was entitled was the benefit that could be provided from the participant's vested account.

[4] Vesting:

Participants were immediately vested in their contributions, plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts, plus actual earnings thereon, was as follows:

Years of Credited Service	Vesting
1 year	33%
2 years	66%
3 years	100%

[5] Notes receivable from participants:

Notes receivable from participants were measured at their unpaid principal balance, plus any accrued but unpaid interest. Participants were able to borrow from their fund accounts a minimum of $1,000, up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance, not less than $10,000. Loan terms ranged from one to five years; however, terms could have exceeded five years for the purchase of a primary residence. The $50,000 limit was reduced by the participant's highest outstanding loan balance during the preceding 12 month period. The loans were secured by the balance in the participant's account and bore interest at a rate commensurate with local prevailing rates as determined by the Plan administrator. Interest rates on outstanding loan balances ranged from 4.25% to 7.50%. Principal and interest were paid ratably through payroll deductions. A participant may not have more than one loan outstanding at any point in time. Delinquent notes receivable from participants were reclassified as distributions based upon the terms of the Plan document. If a participant terminates employment with the Company, the entire outstanding principal and accrued interest was immediately due and payable.

NOTE A - DESCRIPTION OF THE PLAN (CONTINUED)

[6] Payment of benefits:

Upon separation from service with the Company due to death, disability, attainment of retirement age or termination, a participant whose vested account balance exceeded $1,000 was able to elect to receive either a lump-sum or installment payments on a quarterly or annual basis. A participant whose vested account balance was $1,000 or less and has not commenced receiving installment payments automatically received an immediate lump-sum distribution equal to their vested account balance.

In-service withdrawals were available in certain limited circumstances, as defined by the Plan. Hardship withdrawals were allowed for participants incurring an immediate and heavy financial need, as defined by the Plan. Hardship withdrawals are strictly regulated by the Internal Revenue Service ("IRS") and a participant must have exhausted all available loan options and available distributions prior to requesting a hardship withdrawal.

[7] Forfeitures:

The portion of a participant's account balance which was not vested upon their termination of employment will be forfeited. Forfeited nonvested accounts were used to reduce future Company contributions and pay Plan expenses. During the final year ended December 31, 2018, forfeitures of approximately $364,000 and $167,000 were used to reduce employer contributions and Plan expenses, respectively. Forfeited nonvested accounts available at December 31, 2018 and 2017 were $0 and $288,968, respectively.

[8] Administrative expenses:

The Plan's administrative expenses are paid by either the Plan or the Company, as provided by the Plan's provisions. Administrative expenses paid by the Company include recordkeeping and trustee fees. Expenses relating to purchases, sales or transfers of the Plan's investments are charged to the particular investment fund to which the expenses relate. Fees related to participant initiated transactions are charged to the respective participants. Expenses that are paid by the Company are excluded from the financial statements.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

[1] Basis of accounting:

The financial statements are prepared on the accrual method of accounting.

[2] Investment valuation and income recognition:

The Plan's investments were reported at fair value. Fair value was the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note D for discussion of fair value measurements.

Purchases and sales of securities were recorded on a trade-date basis. Interest income was recorded on the accrual basis. Dividends were recorded on the ex-dividend date. Net realized and unrealized depreciation in the fair value of investments includes the Plan's gains and losses on investments bought and sold as well as held during the year.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

[3] Payment of benefits:

Benefits were recorded when paid.

[4] Plan expenses:

Substantially all expenses, with the exception of fees related to notes receivable from participants and other participant initiated transactions, incurred in connection with the administration of the Plan were paid by the Company.

[5] Use of estimates:

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan administrator to make estimates and assumptions that affect the reported amounts in the financial statements and changes therein, and when applicable, disclosure of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

[6] Recently accounting pronouncement:

In August 2018, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update No. 2018-13 ("ASU 2018-13"), *Fair Value Measurement (Topic 820) Disclosure Framework-Changes to the Disclosure Requirements for Fair Value Measurement*. The amendments in this update apply to all entities that are required to make disclosures about recurring or nonrecurring fair value measurements. Certain of the disclosures that are required by the amendments are not required for nonpublic entities. ASU 2018-13, eliminates, adds and modifies certain disclosure requirements for fair value measurements as part of its disclosure framework project. ASU 2018-13 is effective for fiscal years beginning after December 15, 2019 and interim periods within those fiscal years. The amendments on changes in unrealized gains and losses, the range and weighted average of significant unobservable inputs used to develop Level 3 fair value measurements, and the narrative description of measurement uncertainty should be applied prospectively for only the most recent annual period presented in the year of adoption. All other amendments should be applied retrospectively to each period for which the financial statements are presented. Early adoption is permitted. An entity is permitted to early adopt any removed or modified disclosures and delay adoption of the additional disclosures until their effective date.

The Plan elected to early adopt ASU 2018-13 as of and for the year ended December 31, 2018. The amendment has been applied prospectively and retrospectively to applicable amendments as defined above for all periods presented.

NOTE C - INVESTMENT CERTIFICATION

The Plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the U.S. Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, Fidelity Management Trust Company, the Trustee of the Plan, has certified to the completeness and accuracy of all investments and related investment activity and notes receivable from participants and related activity in the accompanying statements of net assets available for benefits as of December 31, 2018 and 2017, and the statement of changes in net assets available for benefits for the final year ended December 31, 2018.

NOTE D - FAIR VALUE MEASUREMENTS

FASB's Accounting Standards Codification ("ASC") 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. The framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements), and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy were described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include: (1) quoted prices for similar assets or liabilities in active markets; (2) quoted prices for identical or similar assets or liabilities in inactive markets; (3) inputs other than quoted prices that are observable for the asset or liability; or (4) inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy was based on the lowest level of any input that was significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following was a description of the valuation methodologies used for investment assets measured at fair value. There have been no changes in the methodologies used as of December 31, 2018 and 2017.

Mutual funds – Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan were open-ended mutual funds that were registered with the Securities and Exchange Commission. These funds were required to publish their daily net asset value ("NAV") and to transact at that price. The mutual funds held by the Plan were deemed to be actively traded.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods were appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth, by level, within the fair value hierarchy, the Plan's investment assets at fair value as of December 31, 2017:

Investment Assets at Fair Value as of December 31, 2017
(*in thousands)*

	Level 1	Level 2	Level 3	Total
Money market accounts	$ 2,284	$ -	$ -	$ 2,284
Mutual funds	95,650	-	-	95,650
Total investment assets in the fair value hierarchy	$ 97,934	$ -	$ -	$ 97,934

Investment assets prior to the Plan Transfer (Note A[1]) were recorded at fair value using Level 1 inputs.

NOTE D - FAIR VALUE MEASUREMENTS (CONTINUED)

Changes in Fair Value Levels

The availability of observable market data was monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another.

NOTE E - TAX STATUS

The Plan had adopted a Volume Submitter Profit Sharing Plan with CODA sponsored by Fidelity Management & Research Company. On March 31, 2014, the IRS stated in an advisory letter that the volume submitter adopted by the Plan, as then designed, was in compliance with applicable requirements of the Internal Revenue Code ("IRC") and therefore, the related trust was exempt from taxation. The Plan had been amended since receiving the letter. However, the Plan administrator believes that the Plan was designed and operated in compliance with the applicable requirements of the IRC. Therefore, the Plan administrator believes that the Plan was qualified and the related trust was tax-exempt**.**

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by a government authority. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2018, there were no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan was subject to routine examinations by taxing jurisdictions; however, there were currently no examinations for any tax periods in progress.

NOTE F - RELATED-PARTY AND PARTY-IN-INTEREST TRANSACTIONS

Certain Plan investments were shares of mutual funds managed by Fidelity Investments Institutional. Fidelity Workplace Services provides recordkeeping services for the Plan. Fidelity Investments Institutional, Fidelity Workplace Services and Fidelity Management Trust Company are companies under Fidelity Investments. Fidelity Management Trust Company was the trustee as defined by the Plan and, therefore, transactions with Fidelity Investments Institutional qualified as party-in-interest transactions. In addition, participants were charged administrative expenses for distributions and loan withdrawals and other participant initiated transaction fees by Fidelity Workplace Services, and these transactions qualify as party-in-interest transactions. Total fees paid by the Plan approximated $59,000 for the final year ended December 31, 2018.

The Trustee provides certain administrative services to the Plan and receives revenue from mutual fund providers for services the Trustee provides to the funds. This revenue was used to offset certain amounts owed to the Trustee for its administrative services to the Plan. If the revenue received by the Trustee from such mutual fund service providers exceeds the amounts owed, the Trustee remits the excess to the Plan pursuant to the service agreement. Such amounts may be applied to pay Plan administrative expenses or allocated to the accounts of the participants, depending on the Plan's provisions. During the final year ended December 31, 2018, approximately $47,000 was used to offset Plan expenses.

NOTE G - RISKS AND UNCERTAINTIES

The Plan invested in various investment securities. Investment securities were exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it was at least reasonably possible that changes in the values of investment securities will occur in the near term, and that such changes could materially affect the participants' account balances and the amounts reported in the statements of net assets available for benefits.

Volatility in the financial markets may significantly impact the subsequent valuation of the Plan's investments. Accordingly, the valuation of investments at December 31, 2018 may not necessarily be indicative of amounts that could be realized in a current market exchange.

NOTE H - PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their Company contributions.

NOTE I - MUTUAL FUND FEES

Investments in mutual funds were subject to sales charges in the form of front-end loads, back-end loads or 12b-1 fees. 12b-1 fees, which were ongoing fees allowable under Section 12b-1 of the Investment Company Act of 1940, were annual fees deducted to pay for marketing and distribution costs of the funds. These fees were deducted prior to the allocation of the Plan's investment earnings activity, and thus not separately identifiable as an expense.

NOTE J - RECONCILIATION TO FORM 5500

The following is a reconciliation of decrease in net assets available for benefits per the financial statements to Form 5500 for the year ended December 31, 2018:

Total (decrease) in net assets available for benefits per the financial statements	$ (101,244,000)
Change in participant loan amounts deemed distributed for tax purposes	1,000
Total (decrease) in net assets available for benefits per Form 5500	$ (101,243,000)

NOTE K - SUBSEQUENT EVENTS

The Plan has evaluated subsequent events through October 8, 2019, the date the financial statements were available to be issued.
