1. DESCRIPTION OF THE PLAN

The following description of Melgar Retirement Plan (Plan) provides general information only. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General
The Plan was formed on September 1, 2018 by Melgar Facility Maintenance, LLC Melgar Janitorial Solutions (Employer). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions
The Plan document provides, among other things, that participants may contribute up to 100% of the compensation they receive from the Employer during the plan year, up to the maximum contribution allowed by the Internal Revenue Service, in the form of a pre-tax contribution.

Individual accounts are established for each participant. Each individual account is credited with the sum of all contributions made on behalf of the participant, plus Plan earnings minus an allocation of expenses of the Plan. Each participant is always 100% vested in his individual account. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Upon having contributions remitted to the Plan, a participant may direct contributions credited to their account to any of the investment options.

Participants may redirect future contributions or exchange existing account balances at any time.

Retirement benefits
The participant is entitled to the amount in his account, after reaching the older of normal retirement age or age 59 1/2. The benefit is paid in the form of a lump-sum distribution, partial payment, installment payments, or annuity contracts or at the election of the participant the distribution may be rolled over to another qualified plan.

Death benefits
In the event that a participant dies before retirement, unless elected otherwise, the amount accumulated in the participant's account is paid in a lump-sum distribution to the participant's beneficiary.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting
These financial statements have been prepared utilizing the accrual method of accounting. Under this method of accounting, additions and deductions to net assets available for benefits are identified with specific periods of time and are recorded as earned and incurred, respectively, without regard to the date of receipt or payment.

Valuation of Investments and Income Recognition
The Plan's investments are stated at fair value. Quoted market prices are used to value investments. Shares of mutual funds are valued at the net asset value held by the Plan at year-end.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Payment of Benefits
Benefits are recorded when paid.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Forfeited Accounts
Forfeitures that are attributable to employer matching are used to reduce the employer matching contributions for the plan year in which such forfeitures occur. At December 31, 2018, forfeited non-vested accounts was $0.

Use of Estimates
The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

3. TAX STATUS

Although the Plan has not received a determination letter from the Internal Revenue Service, the Plan administrator and Employer believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the Internal Revenue Code (IRC.)

4. PRIORITIES UPON TERMINATION

Although there has not been any expressed intent to do so, in the event the Plan terminates, each participant shall have a non-forfeitable right in the assets then remaining, after the payment of all administrative expenses and benefits previously approved. Each participant will receive a portion of the total remaining assets in the same ratio as his or her account bears to the aggregate amount of all participants' accounts.

5. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

7. FAIR VALUE MEASUREMENTS

Financial Accounting Standards Board, Accounting Standards Codification section 820, Fair Value Measurements ("ASC 820"), establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under ASC 820 are described as follows:

Level 1: Unadjusted quoted prices in active markets for identical assets or liabilities at the measurement date. Level 1 has the highest priority in the hierarchy.

Level 2: Observable inputs other than quoted prices included within Level 1 for the assets or liabilities, either directly or indirectly observable. This include (a) quoted prices for similar assets or liabilities in active markets; (b) quoted prices for identical or similar assets or liabilities in markets that are not active; (c) inputs other than quoted prices that are observable for the asset or liability; and (d) inputs that are derived principally from or corroborated by observable market data by correlation or other means.

Level 3: Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities. This reflects the plan's own assumptions about the assumptions market participants would use to price an asset based on the best information available in the circumstances. Level 3 has the lowest priority in the hierarchy.

The following table provides information by level on the fair value of the Plan's investments as of December 31, 2018.

	Level 1	Level 2	Level 3	Fair Value
Registered investment companies	$ 45,514	$ -	$ -	$ 45,514
	$ 45,514	$ -	$ -	$ 45,514
