1. DESCRIPTION OF PLAN

The following description of Dattner Architects 401(k) Retirement Savings Plan (the "Plan") provides only general information. For a more complete description of the Plan's provisions, refer to the Plan document.

General

The Plan is a defined contribution plan established on January 1, 1996, covering all eligible employees of Dattner Architects D.P.C. (the "Plan Sponsor" or the "Company"). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). The Plan is administered by the Company. Fidelity Management Trust Company (the "Trustee") serves as the trustee to the Plan.

Eligibility

Employees who have attained the age of 21 years or older and have completed at least six months of service as defined in the Plan document during the Plan year are eligible to participate in the Plan.

Contributions

Each year, participants may contribute up to 90% of pretax annual compensation, as defined in the Plan document. Participants may also make rollover contributions from other qualified defined benefit or contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions.

The Plan Sponsor provides matching contributions which match 100% of the first 3% of the eligible participants' compensation and 50% of the next 2% of the eligible participants' compensation up to a maximum of 4% of the employee's eligible compensation. For the year ended December 31, 2018, matching contributions were $321,755.

The Plan Sponsor, at its sole discretion, may also make a profit-sharing contribution for employees who have completed 1,000 hours of service during the Plan year and are employed on the last day of the Plan year. For the year ended December 31, 2018, there were no profit-sharing contributions.

Participants' Accounts

Each participant's account is credited with the participant's contribution and allocations of (a) the Company's matching contribution and (b) Plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

1. DESCRIPTION OF PLAN (CONTINUED)

Notes Receivable from Participants

Participants may borrow from their fund accounts up to a maximum equal to the lesser of a) $50,000, or b) 50% of the participant's vested account balance. A participant may have up to two loans outstanding at any given time. The loans are secured by the balance in the participant's account and bear interest at a rate commensurate with market rates for similar loans. Participant loans must generally be fully repaid within five years, unless the loan was for the purchase of a primary residence or a leave of absence from employment. At December 31, 2018, interest rates on outstanding loans ranged from 4.25% - 5.50%, maturing on various dates through March 2023.

If a participant fails to make a payment under the terms of the note, that participant will be considered in default. In the event of default, the note receivable shall become due and payable immediately, and interest will continue to accrue until the entire note receivable balance is repaid. The Plan will take all reasonable actions to collect the balance owed. Under certain circumstances, the defaulted note could be considered a distribution from the Plan and could be considered income to the participant. In any event, failure to repay a note will reduce the benefit a participant would otherwise be entitled to receive from the Plan.

Vesting

Participants are vested immediately in their contributions plus actual earnings thereon. Vesting in the Company's matching contribution portion of their accounts plus actual earnings thereon is based on years of service as follows:

Years of Service Completed	Vesting Percentage
1	0%
2	20%
3	40%
4	60%
5	80%
6	100%

Participant Distributions

Upon termination of service due to death, disability or retirement, a participant may elect to receive either a lump-sum amount equal to the participant's vested interest in his or her account or annual installments over a period of not more than their assumed life expectancy as determined at the time of distribution. For termination of service for other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution.

Forfeited Accounts

Forfeitures are retained in the Plan and may first be used to pay administrative expenses. Any remaining amounts will be used to reduce future employer contributions payable under the Plan. At December 31, 2018 and 2017, the nonvested accounts totaled $14,914 and $16,801, respectively. For the year ended December 31, 2018, $2,125 from forfeited nonvested accounts was utilized to reduce administrative expenses.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The accompanying financial statements were prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP").

Use of Estimates

The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 8 for a discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Fair Value Measurements

Financial Accounting Standards Board Accounting Standards Codification ("FASB ASC") 820, *Fair Value Measurement*, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). Categorization within the valuation hierarchy is based upon the lowest level of input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs. Under the standard, fair value is defined as the exit price, or the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants as of the measurement date.

The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

> Level 1 inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
>
> Level 2 inputs to the valuation methodology include: quoted prices for similar assets or liabilities in active markets; quoted prices for identical assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; and, inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.
>
> Level 3 inputs to the valuation methodology are unobservable and significant to the fair value measurement.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan document.

Administrative Expenses

Certain expenses of maintaining the Plan are paid by the Plan, unless otherwise paid by the Company. Expenses that are paid by the Company are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment-related expenses are netted against "Net depreciation in fair value of investments."

Payment of Benefits

Benefits are recorded when paid to participants.

Subsequent Events

In accordance with FASB ASC 855, *Subsequent Events*, the Company has evaluated subsequent events through October 14, 2019, the date on which these financial statements were available to be issued. There were no material subsequent events that required recognition or additional disclosure in these financial statements.

3. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

4. PLAN TERMINATION

Although it has not expressed any intention to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their employer discretionary contribution and be entitled to the entire amount of their account balance.

5. TAX STATUS

The Plan uses a prototype plan document sponsored by the Trustee, which received an opinion letter from the Internal Revenue Service ("IRS") dated March 31, 2014, stating that the prototype document satisfied the provisions of the IRC. Although the Plan has been amended since receiving the determination letter, the Plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and therefore, believes the Plan is qualified and the related trust is tax-exempt. Therefore, no provision for income taxes has been included in the Plan's financial statements.

5. TAX STATUS (CONTINUED)

U.S. GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan and has concluded that as of December 31, 2018 and 2017, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits in progress for any tax periods.

6. INFORMATION CERTIFIED BY THE PLAN TRUSTEE

The following table summarizes investment and other asset information regarding the Plan as of December 31, 2018 and 2017, and for the year ended December 31 2018, included in the Plan's financial statements and supplemental schedule, that were prepared by or derived from information prepared by the Trustee and furnished to the Plan administrator. The Plan administrator has obtained a certification from the Trustee that such information is complete and accurate.

7. PARTY-IN-INTEREST TRANSACTIONS

Certain administrative functions are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan. Additionally, certain Plan expenses are paid directly by the Company.

Certain Plan investment options consist of shares of registered investment companies managed by an affiliate of the Trustee. Accordingly, these transactions qualify as party-in-interest transactions.

8. FAIR VALUE MEASUREMENTS

The following tables summarize the Plan's investments measured at fair value on a recurring basis, categorized by U.S. GAAP's valuation hierarchy at December 31, 2018 (audited) and 2017 (compiled):

	Assets at Fair Value as of December 31, 2018			
Description	Level 1	Level 2	Level 3	Total
Registered investment companies	$ 10,355,146	$ -	$ -	$ 10,355,146
Cash equivalent	386,791	-	-	386,791
Total assets at fair value hierarchy	$ 10,741,937	$ -	$ -	10,741,937
Total investments at fair value				$ 10,741,937

Total assets at fair value hierarchy	$ 11,105,816	$ -	$ -	11,105,816
Total investments at fair value				$ 11,105,816

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2018 and 2017.

Registered investment companies: are valued at quoted market prices, which represent the net asset value of the securities held in such funds and are classified as Level 1 investments.

Cash equivalents: are primarily invested in money market funds and highly liquid U.S. government securities. The cash funds are valued at the per unit amounts reported daily by such funds, which approximates fair value.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

9. RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500

1. DESCRIPTION OF PLAN

The following description of Dattner Architects 401(k) Retirement Savings Plan (the "Plan") provides only general information. For a more complete description of the Plan's provisions, refer to the Plan document.

General

The Plan is a defined contribution plan established on January 1, 1996, covering all eligible employees of Dattner Architects D.P.C. (the "Plan Sponsor" or the "Company"). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). The Plan is administered by the Company. Fidelity Management Trust Company (the "Trustee") serves as the trustee to the Plan.

Eligibility

Employees who have attained the age of 21 years or older and have completed at least six months of service as defined in the Plan document during the Plan year are eligible to participate in the Plan.

Contributions

Each year, participants may contribute up to 90% of pretax annual compensation, as defined in the Plan document. Participants may also make rollover contributions from other qualified defined benefit or contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions.

The Plan Sponsor provides matching contributions which match 100% of the first 3% of the eligible participants' compensation and 50% of the next 2% of the eligible participants' compensation up to a maximum of 4% of the employee's eligible compensation. For the year ended December 31, 2018, matching contributions were $321,755.

The Plan Sponsor, at its sole discretion, may also make a profit-sharing contribution for employees who have completed 1,000 hours of service during the Plan year and are employed on the last day of the Plan year. For the year ended December 31, 2018, there were no profit-sharing contributions.

Participants' Accounts

Each participant's account is credited with the participant's contribution and allocations of (a) the Company's matching contribution and (b) Plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

1. DESCRIPTION OF PLAN (CONTINUED)

Notes Receivable from Participants

Participants may borrow from their fund accounts up to a maximum equal to the lesser of a) $50,000, or b) 50% of the participant's vested account balance. A participant may have up to two loans outstanding at any given time. The loans are secured by the balance in the participant's account and bear interest at a rate commensurate with market rates for similar loans. Participant loans must generally be fully repaid within five years, unless the loan was for the purchase of a primary residence or a leave of absence from employment. At December 31, 2018, interest rates on outstanding loans ranged from 4.25% - 5.50%, maturing on various dates through March 2023.

If a participant fails to make a payment under the terms of the note, that participant will be considered in default. In the event of default, the note receivable shall become due and payable immediately, and interest will continue to accrue until the entire note receivable balance is repaid. The Plan will take all reasonable actions to collect the balance owed. Under certain circumstances, the defaulted note could be considered a distribution from the Plan and could be considered income to the participant. In any event, failure to repay a note will reduce the benefit a participant would otherwise be entitled to receive from the Plan.

Vesting

Participants are vested immediately in their contributions plus actual earnings thereon. Vesting in the Company's matching contribution portion of their accounts plus actual earnings thereon is based on years of service as follows:

Years of Service Completed	Vesting Percentage
1	0%
2	20%
3	40%
4	60%
5	80%
6	100%

Participant Distributions

Upon termination of service due to death, disability or retirement, a participant may elect to receive either a lump-sum amount equal to the participant's vested interest in his or her account or annual installments over a period of not more than their assumed life expectancy as determined at the time of distribution. For termination of service for other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution.

Forfeited Accounts

Forfeitures are retained in the Plan and may first be used to pay administrative expenses. Any remaining amounts will be used to reduce future employer contributions payable under the Plan. At December 31, 2018 and 2017, the nonvested accounts totaled $14,914 and $16,801, respectively. For the year ended December 31, 2018, $2,125 from forfeited nonvested accounts was utilized to reduce administrative expenses.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The accompanying financial statements were prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP").

Use of Estimates

The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 8 for a discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Fair Value Measurements

Financial Accounting Standards Board Accounting Standards Codification ("FASB ASC") 820, *Fair Value Measurement*, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). Categorization within the valuation hierarchy is based upon the lowest level of input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs. Under the standard, fair value is defined as the exit price, or the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants as of the measurement date.

The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

> Level 1 inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
>
> Level 2 inputs to the valuation methodology include: quoted prices for similar assets or liabilities in active markets; quoted prices for identical assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; and, inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.
>
> Level 3 inputs to the valuation methodology are unobservable and significant to the fair value measurement.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan document.

Administrative Expenses

Certain expenses of maintaining the Plan are paid by the Plan, unless otherwise paid by the Company. Expenses that are paid by the Company are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment-related expenses are netted against "Net depreciation in fair value of investments."

Payment of Benefits

Benefits are recorded when paid to participants.

Subsequent Events

In accordance with FASB ASC 855, *Subsequent Events*, the Company has evaluated subsequent events through October 14, 2019, the date on which these financial statements were available to be issued. There were no material subsequent events that required recognition or additional disclosure in these financial statements.

3. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

4. PLAN TERMINATION

Although it has not expressed any intention to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their employer discretionary contribution and be entitled to the entire amount of their account balance.

5. TAX STATUS

The Plan uses a prototype plan document sponsored by the Trustee, which received an opinion letter from the Internal Revenue Service ("IRS") dated March 31, 2014, stating that the prototype document satisfied the provisions of the IRC. Although the Plan has been amended since receiving the determination letter, the Plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and therefore, believes the Plan is qualified and the related trust is tax-exempt. Therefore, no provision for income taxes has been included in the Plan's financial statements.

5. TAX STATUS (CONTINUED)

U.S. GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan and has concluded that as of December 31, 2018 and 2017, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits in progress for any tax periods.

6. INFORMATION CERTIFIED BY THE PLAN TRUSTEE

The following table summarizes investment and other asset information regarding the Plan as of December 31, 2018 and 2017, and for the year ended December 31 2018, included in the Plan's financial statements and supplemental schedule, that were prepared by or derived from information prepared by the Trustee and furnished to the Plan administrator. The Plan administrator has obtained a certification from the Trustee that such information is complete and accurate.

7. PARTY-IN-INTEREST TRANSACTIONS

Certain administrative functions are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan. Additionally, certain Plan expenses are paid directly by the Company.

Certain Plan investment options consist of shares of registered investment companies managed by an affiliate of the Trustee. Accordingly, these transactions qualify as party-in-interest transactions.

8. FAIR VALUE MEASUREMENTS

The following tables summarize the Plan's investments measured at fair value on a recurring basis, categorized by U.S. GAAP's valuation hierarchy at December 31, 2018 (audited) and 2017 (compiled):

	Assets at Fair Value as of December 31, 2018			
Description	Level 1	Level 2	Level 3	Total
Registered investment companies	$ 10,355,146	$ -	$ -	$ 10,355,146

Cash equivalent	497,529	-	-	497,529
Total assets at fair value hierarchy	$ 11,105,816	$ -	$ -	11,105,816
Total investments at fair value				$ 11,105,816

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2018 and 2017.

Registered investment companies: are valued at quoted market prices, which represent the net asset value of the securities held in such funds and are classified as Level 1 investments.

Cash equivalents: are primarily invested in money market funds and highly liquid U.S. government securities. The cash funds are valued at the per unit amounts reported daily by such funds, which approximates fair value.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

9. RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500

The following is a reconciliation of net assets available for benefits reflected in the financial statements to the Plan's Form 5500 at December 31, 2018 and 2017:
