DONNELLEY FINANCIAL SAVINGS PLAN

NOTES TO FINANCIAL STATEMENTS DECEMBER 31, 2018 and 2017

NOTE 1 – PLAN DESCRIPTION

The following description of the Donnelley Financial Savings Plan (the “Plan”) is provided for general information purposes only. For more complete information, refer to the Summary Plan Description and the Plan document, including any modifications and amendments thereto.

General

The Plan is a defined contribution profit sharing plan sponsored by Donnelley Financial LLC, (the “Company”), that went into effect on September 2, 2016, and is designed to allow eligible employees to save for retirement on a tax-advantaged basis. The Plan is intended to qualify as a cash or deferred arrangement under Section 401(k) of the Internal Revenue Code of 1986, as amended (the “Code”), and is subject to the Employee Retirement Income Security Act of 1974, as amended (“ERISA”).

Administration

The Plan is administered by the Plan’s Benefits Committee and its delegates. The Plan’s assets are held in the Donnelley Financial Savings Plan Trust (the “Trust”). The Northern Trust Company (the “Trustee”) serves as the trustee of the Trust and custodian of the Plan’s assets. Great West Financial, operating under the brand name Empower Retirement, is the Plan’s recordkeeper.

Eligibility

Generally, all employees of the Company and its U.S. subsidiaries are eligible to become Plan members (“participants”), unless they are part of a bargaining unit that does not participate in the Plan. Except with respect to certain contingent employees, eligible employees are not required to satisfy any service or age requirements to participate in the Plan and, accordingly, become eligible to participate in the Plan on their first day of employment with the Company or one of its participating affiliates. Elections to participate in the Plan are effective as soon as administratively practicable. The Plan has automatic enrollment provisions pursuant to which eligible employees are automatically enrolled 30 days after being hired, in each case unless the employee opts out of automatic enrollment or elects to be enrolled earlier. Individuals who are automatically enrolled make contributions on a before-tax basis equal to 3% of eligible compensation.

Contributions

Eligible employees may elect to make before-tax, after-tax and Roth 401(k) contributions under the Plan. Subject to certain limitations, the contribution election percentages allowed are from 1%-85% of eligible compensation for before-tax, after-tax and Roth 401(k) contributions, and the total of all elections cannot exceed 85% of eligible compensation. Before-tax, after-tax and Roth 401(k) contributions are funded by payroll deductions and must be made in whole percentages of employee eligible earnings, although contributions designated as “catch-up” contributions (made by those over age 50) must be designated in whole dollar amounts. Participants can change contribution elections at any time.

The Plan permits the Company to provide a discretionary matching contribution. The Company made a discretionary matching contribution for the 2018 plan year in an amount equal to \$1,221,080. Matching contributions, when made, are contributed to the Plan in cash and invested according to the participant’s investment elections.

Employees may also roll over amounts to the Plan that were distributed from certain types of eligible retirement plans and individual retirement accounts.

Participant Accounts

Each participant’s account is credited with the participant’s contributions and the Company’s matching contributions and profit sharing contributions, if any, and allocations of Plan earnings. Participant accounts are charged with an allocation of administrative expenses. Allocations are based on participant earnings, account balances, defined

DONNELLEY FINANCIAL SAVINGS PLAN

NOTES TO FINANCIAL STATEMENTS DECEMBER 31, 2018 and 2017

monthly charges or specific participant transactions, as defined in the Plan document and periodic participant disclosures. The benefit to which a participant is entitled is the participant's vested account balance (reduced by any of the outstanding Plan loans as of the distribution date).

Vesting and Forfeited Accounts

Participants are always 100% vested in their before-tax, after-tax, Roth 401(k) and rollover contributions and investment earnings thereon. Except with respect to certain members of collective bargaining units and certain other members, participants first hired before January 1, 2012 are always 100% vested with respect to discretionary matching contributions (and earnings thereon). As of December 31, 2017, participants first hired on or after January 1, 2012 were not vested in such discretionary matching contributions (and earnings thereon) until earning three years of service under the Plan. Effective January 1, 2017, the Plan was amended to provide that participants who are employed with the Company or a participating employer on or after January 1, 2017 are always 100% vested with respect to discretionary matching contributions (and earnings thereon).

At December 31, 2018 and 2017, forfeited non-vested accounts totaled \$81,248 and \$51,713, respectively. These accounts will be used to reduce future employer contributions or administrative expenses. During 2018, employer contributions and expenses were not reduced by forfeited non-vested accounts.

Notes Receivable from Participants

Participants are permitted to borrow up to the lesser of 50% of their vested before-tax, after-tax, Roth 401(k), matching and rollover account balance, or \$50,000, reduced by the highest outstanding loan balance in the last 12 months. The minimum loan amount is \$1,000. Subject to certain exceptions for historical loans and loans originated under other plans, participants are allowed only one outstanding loan at any time and the maximum loan repayment period is four and a half years. The loans are secured by the balance in the participants' accounts and bear interest at a rate equal to 1% over the prime rate, as published in the Wall Street Journal. The participant pays an administrative fee of \$50 to the Plan's recordkeeper, Empower Retirement, at the inception of the loan. Principal and interest is paid ratably through payroll deductions.

Benefit Payments and Withdrawals

A participant's account balance may be distributed on retirement or other termination of employment. Distributions may be made in the form of lump sum distribution of all or a portion of the participant's account, or in installment payments. Investments in the brokerage account may be distributed in-kind. All other payments are made in cash.

A participant may withdraw his or her after-tax contributions and rollover contributions, and the value of the participant's Fund B account, if any, at any time, and may withdraw an amount from his or her vested account (other than the value of his or her TRASOP account, if any) while he or she is still employed if he or she incurs a financial hardship, or has attained age 59.5. A participant may withdraw all or part of his or her before-tax or Roth 401(k) contributions if he or she is in the uniformed services while on active duty for more than 30 days. A participant may withdraw any portion of his or her vested account after attaining age 70.5, and will be required to begin taking distributions of his or her vested account beginning on April 1 following the calendar year of the later of attainment of age 70.5 or termination of employment.

Investment Options

Participants are permitted to direct how their account balance under the Plan is invested. Subject to certain restrictions, participants can change investment elections on a daily basis. As of December 31, 2018 and 2017, the following investment options were offered under the Plan:

Core Investment Funds— investment funds that invest in different asset classes, such as fixed income funds, bond funds, stock funds, and funds that invest in alternative investments.

Target Date Funds— mix of investments in core investment funds that automatically reduce their level of equity risk over time and target retirement at age 65.

DONNELLEY FINANCIAL SAVINGS PLAN

NOTES TO FINANCIAL STATEMENTS DECEMBER 31, 2018 and 2017

Conservative Income Fund— a conservative portfolio comprised of a mix of investments in core investment funds with equity risk maintained lower than any Target Date Fund.

Self-Directed Brokerage Account— participants may invest a portion of their account balance under the Plan in investment options not otherwise offered under the Plan, such as certain mutual funds, stocks, or bonds, by directing such portion of their account balance to be invested through a self-directed brokerage account under the Plan.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The accompanying financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America (“US GAAP”). The accounts of the Plan are maintained on the accrual basis of accounting. Investments held by a defined contribution plan are required to be reported at fair value, except for fully benefit-responsive investment contracts. Contract value is the relevant measure for the portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants normally would receive if they were to initiate permitted transactions under the terms of the Plan.

Use of Estimates

The preparation of financial statements in conformity with US GAAP requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

The Plan’s investments are stated at fair value (except for fully benefit-responsive investment contracts, which are reported at contract value). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements, including details on inputs, valuation techniques and the fair value levels within the fair value hierarchy.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation or depreciation of investments included in the accompanying Statement of Changes in Net Assets available for Benefits includes realized gains or losses from the sale of investments during the year, the change in unrealized appreciation or depreciation in the fair value of investments held during the year and any investment related expenses, such as investment manager fees.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. No allowance for credit losses has been recorded as of December 31, 2018 and 2017. Fees related to the administration of notes receivable from participants are included in the principal amount borrowed and are charged directly to a participant by reducing the amount of principal disbursed to the participant at loan origination.

Payment of Benefits

Benefit payments to participants are recorded when paid.

Administrative Expenses

Certain expenses of maintaining the Plan are paid by the Plan, unless otherwise paid by the Company. Expenses paid by the Company include audit fees, legal fees, and some other administrative fees and are excluded from these financial statements. Administrative expenses paid by the Plan include recordkeeping fees, investment consulting

DONNELLEY FINANCIAL SAVINGS PLAN

NOTES TO FINANCIAL STATEMENTS DECEMBER 31, 2018 and 2017

fees, custody fees, and most other administrative fees. Investment related expenses paid by the Plan, such as investment management fees are included in net appreciation/(depreciation) in fair value of investments.

NOTE 3 – GALLIARD STABLE VALUE FUND

As of December 31, 2017, the Plan assets included benefit-responsive investment contracts via investment in the Galliard Stable Value Fund (“the Fund”), an investment option of the Plan. The Plan solely owned the Fund, and therefore the Plan owned the Fund’s underlying contracts and investments. During 2018, the Plan changed the stable value investment option from the Fund to a collective trust fund and no longer directly held benefit-responsive investment contracts as of December 31, 2018.

The Fund primarily invested in security-backed contracts issued by insurance companies and other financial institutions. A security-backed contract is an investment contract issued by an insurance company or other financial institution, backed by a portfolio of bonds or units of a collective fund that are owned by the Fund. The portfolio underlying the contract is maintained separately from the contract issuer’s general assets, usually by a third party custodian. These contracts typically allow for realized and unrealized gains and losses on the underlying assets to be amortized, usually over the duration of the underlying investments, through adjustment to the future interest crediting rate, rather than reflected immediately in the net assets of the Fund. The security-backed contracts are designed to reset their respective crediting rates on a quarterly basis and cannot credit an interest rate that is less than 0%. The issuer guarantees that all qualified participant withdrawals will be at contract value.

The Fund’s investments were reported at contract value, except for a short-term investment collective trust fund used for liquidity, which was at fair value. Contract value is the relevant measure for fully benefit-responsive investment contracts because this is the amount received by participants if they were to initiate permitted transaction under the terms of the Plan. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals, and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

Risks arise when entering into any investment contract due to the potential inability of the issuer to meet the terms of the contract. In addition, security-backed contracts have the risk of default or the lack of liquidity of the underlying portfolio assets. The credit risk of each issuer was evaluated and monitored through Galliard’s credit analysis, and the underlying portfolio assets were rated investment grade at the time of purchase.

The primary variables impacting the future crediting rates of security-backed contracts include:

- The current yield of the assets underlying the contract;
- The duration of the assets underlying the contract; and
- The existing difference between the fair value and contract value of the assets within the contract.

The crediting rate of security-backed contracts will track current market yields on a trailing basis. The rate reset allows the contract value to converge with the fair value of the underlying portfolio over time, assuming the portfolio continues to earn the current yield for a period of time equal to the current portfolio duration.

Security-backed contracts generally provide for withdrawals associated with certain events which are not in the ordinary course of Fund operations and are paid with a market value adjustment. Events that may trigger a market value adjustment can include the following:

- Material amendments to the Fund’s structure or administration;
- Changes to the participating plans’ competing investment options including the elimination of equity wash provisions;
- Complete or partial termination of the Fund, including merger with another fund;
- The failure of the Fund to qualify for exemption from federal income taxes or any required prohibited transaction exemption under the ERISA;

DONNELLEY FINANCIAL SAVINGS PLAN

NOTES TO FINANCIAL STATEMENTS DECEMBER 31, 2018 and 2017

- The redemption of all or a portion of the interests in the Fund held by a participating plan including withdrawals due to the removal of a specifically identifiable group of employees from coverage under the participating plan, the closing or sale of a subsidiary, employing unit, or affiliate, the bankruptcy or insolvency of a plan sponsor, the merger of the plan with another plan, or the plan sponsor's establishment of another tax qualified defined contribution plan;
- Any change in law, regulation, ruling, administrative or judicial position, or accounting requirement, applicable to the Funds or participating plans; and
- The delivery of any communication to plan participants designed to influence a participant not to invest in the Fund.

As of December 31, 2017, the Fund did not believe that the occurrence of any such market value event, which would limit the Fund's ability to transact at contract value with participants, was probable. Participants could redeem their shares at any time at contract value. However, there was a 90 day equity wash restriction for transfers from the Stable Value Fund to the brokerage option.

NOTE 4 – FAIR VALUE MEASUREMENTS

Various inputs are used in determining the fair value of the Plan's investments. These inputs are categorized in the three tier value hierarchy, which prioritizes valuation methodology based on the reliability of inputs, as listed below:

Level 1 – Valuations based on quoted prices for identical assets and liabilities in active markets.

Level 2 – Valuations based on observable inputs other than quoted prices included in Level 1, such as quoted prices for similar assets and liabilities in active markets, quoted prices for identical or similar assets and liabilities in markets that are not active, or other inputs that are observable or can be corroborated by observable market data.

Level 3 – Valuations based on unobservable inputs reflecting the Plan's own assumptions, consistent with reasonably available assumptions made by other market participants.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of the input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description by major asset categories of the valuation methodologies and levels used for determining fair value. There have been no changes in the methodology used during the period ended December 31, 2018 and 2017.

Cash – Carrying value approximates fair value. Cash is classified as Level 1.

Equity securities – The values of individual equity securities, primarily common stock and exchange traded real estate investment trusts, are based on quoted prices in active markets. As such, these assets are classified as Level 1.

Self-directed brokerage accounts – The individually managed self-directed brokerage accounts are also classified as Level 1 since the underlying investments are actively traded on a market or exchange.

Collective trust funds – The fair values of participation units held in collective trusts are based on the net asset value ("NAV") reported by the fund managers as of the financial statement dates and recent transaction prices, but are not quoted on active markets. The NAV is used as a practical expedient. Each collective trust provides for daily redemptions by the Plan at reported NAVs per share, with 15 days' advance notice required.

Registered investment companies – Valued at the daily closing price as reported by the fund. Investments held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily NAV and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded (Level 1 measurements).

The valuation methodologies described above may generate a fair value calculation that may not be indicative of net realizable value or future fair values. While the Plan believes the valuation methodologies used are appropriate, the use of different methodologies or assumptions in calculating fair value could result in different amounts. The Plan

DONNELLEY FINANCIAL SAVINGS PLAN

NOTES TO FINANCIAL STATEMENTS DECEMBER 31, 2018 and 2017

invests in assets in which valuation is determined by NAV. The Plan believes that the NAV is representative of fair value at the reporting date, as there are no significant restrictions on redemption of these investments or other reasons to indicate that the investment would be redeemed at an amount different than the NAV.

The fair values of the Plan's investments within the fair value hierarchy as of December 31, 2018 and 2017 were as follows:

* In accordance with U.S. GAAP, certain investments that are measured at NAV per share (or its equivalent) as a practical expedient are not classified in the fair value hierarchy as of December 31, 2018 and 2017. The fair value amounts presented in this table for such investments are intended to permit reconciliation of the fair value hierarchy to the investments at fair value presented in the statements of net assets available for benefits.

NOTE 5 – TAX STATUS OF THE PLAN

The Plan obtained its latest determination letter on September 21, 2017, in which the Internal Revenue Service ("IRS") stated that the Plan, as then designed, was in compliance with the applicable requirements of the Code, including Sections 401(a) and 401 (k) of the Code, and the Trust is tax-exempt under Section 501(a) of the Internal Revenue Code.

U.S. GAAP requires the plan administrator to evaluate tax positions taken by the Plan. The financial statement effects of an uncertain tax position are recognized when the position is more likely than not, based on the technical merits, to be sustained upon examination by taxing jurisdictions. The Plan has recognized no tax interest or penalties related to uncertain tax positions. The Plan could be subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

NOTE 6 – PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to terminate the Plan at any time subject to the provisions of ERISA. In the event of Plan termination, the rights of the participants in their account balances will, to the extent not already vested, become 100% vested.

NOTES TO FINANCIAL STATEMENTS DECEMBER 31, 2018 and 2017

NOTE 7 – RELATED PARTY AND PARTY-IN-INTEREST TRANSACTIONS

Certain plan investments are managed by the Trustee. Fees paid by the Plan to the Trustee for investment management services are party-in-interest transactions, for which there is an exemption. In addition, notes receivable from participants constitute a party-in-interest transaction for which there is an exemption.

NOTE 8 – RISKS AND UNCERTAINTIES

The Plan provides various options for investing in securities. Investment securities are exposed to various risks, such as interest rate, market and credit risk. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in risks in the near term could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits and the statement of changes in net assets available for benefits.

As of December 31, 2018 and 2017, the Plan had investments of \$90,736,772 and \$134,966,845, respectively, which were concentrated in two funds.

NOTE 9 – INFORMATION CERTIFIED BY THE TRUSTEE (Unaudited)

The Plan administrator has elected the method of annual reporting permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the Trustee has certified that the following data included in the accompanying financial statements is complete and accurate as specified:

- Plan investments and notes receivable from participants as shown in the statements of net assets available for plan benefits as of December 31, 2018 and 2017;
- Investment loss and interest income on notes receivable from participants as shown in the statement of changes in net assets available for plan benefits for the year ended December 31, 2018;
- Supplemental Schedule H, Line 4i – Schedule of Assets (Held at End of Year) as of December 31, 2018.

The Plan's independent accountants did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedule.
