INDEPENDENT AUDITOR'S REPORT

To the Plan Trustees of the
Go2Partners Profit Sharing/Stock Ownership Plan
Des Plaines, Illinois

Report on the Financial Statements

We have audited the accompanying financial statements of the Go2Partners Profit Sharing/Stock Ownership Plan (the Plan), which comprise the statements of net assets available for benefits as of December 31, 2018 and 2017, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Plan management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Plan's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of Go2Partners Profit Sharing/Stock Ownership Plan as of December 31, 2018 and 2017, and the changes in its net assets available for benefits for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Emphasis of Matter

As discussed in Note 4 of the financial statements, investments amounting to $3,765,536 and $4,236,228 as of December 31, 2018 and 2017, respectively, have fair value estimated by the trustees in the absence of readily ascertainable fair values. Because of the inherent uncertainty of valuation, those estimated values may differ significantly from the values that would have been used had a ready market for the securities existed, and the differences could be material. Our opinion is not modified with respect to this matter.

Other Matter

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule of assets (held at end of year) and schedule of delinquent participant contributions are presented for the purpose of additional analysis and are not a required part of the financial statements but are supplemental information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Such information is the responsibility of the Plan's management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

1. DESCRIPTION OF PLAN

The following description of the Go2Partners Profit Sharing/Stock Ownership Plan (the Plan) provides only general information. Participants should refer to the plan document for a more complete description of the Plan's provisions.

General

Print Management Partners, Inc., d/b/a Go2Partners (the Company) established the Go2Partners Profit Sharing/Stock Ownership Plan as of February 1, 1996. The Plan is designed to comply with Section 4975(e)(7) and the regulations thereunder of the Internal Revenue Code of 1986 (IRC), as amended, and is subject to the applicable provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended. The Plan is administered by the trustees, who control and manage the operations of the Plan. The Plan is a defined contribution plan containing both a 401(k) plan feature as well as a company stock noncontributory component, the assets of which are invested in common stock of the Company. The following description of the Plan provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

Contributions

Each year, participants may contribute up to 100% of pre-tax annual compensation, as defined in the Plan. Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans.

The Company may also make discretionary matching or profit sharing contributions. For the years ended December 31, 2018 and 2017, contributions were $0 and $5,039, respectively. Contributions are subject to certain limitations as mandated by the Internal Revenue Code (IRC).

Due to Plan Sponsor

To facilitate necessary liquidity to effect certain plan transactions, the Plan has a lending arrangement in place with the Company in which certain funds are to be reimbursed to the Company by the Plan and are reported on the plan financials as a liability. The management of the Company and the Plan's tax counsel believe that this arrangement is in compliance with the applicable requirements of the IRC.

The Company advances amounts to the Plan to redeem participants who have terminated or elected to diversify their account balance as discussed later in Note 1 (Due to Plan Sponsor).

1. DESCRIPTION OF PLAN (Continued)

Due to Plan Sponsor (Continued)

As of December 31, 2018 and 2017, these advances were $517,386 and $200,226, respectively.

Investment Options

Participants may direct all their 401(k) contributions among one or more funds subject to the allocation limitations set forth in the Plan. Changes in allocation of future contributions and transfers among funds of presently invested contributions are permitted pursuant to the Plan's provisions. Company contributions are made in the form of company stock to the ESOP account.

Participant Accounts

The Plan is a defined contribution plan under which a separate individual account is established for each participant. Each participant's account is credited as of the last day of each plan year with an allocation of shares of the Company's common stock released by the trustee from the unallocated account and forfeitures of terminated participants' nonvested accounts (if any). Only those participants who are eligible employees of the Company as of the last day of the plan year will receive an allocation. Allocations are determined by management and are distributed evenly between active employees at year end. There was no allocation of shares of the Company's common stock to participants for the year ended December 31, 2017. For the year ended December 31, 2018, the plan sponsor allocated forfeited shares of stock in the amount of $37,008 to all eligible employees.

Participants have the right to direct the trustees how to vote company stock allocated to their account with regard to approval of the sale of the Company, and recapitalization or consolidation of the Company. As a participant reaches certain age limits, the participant can elect to have their investment diversified as provided for in the Plan.

Each participant may also establish a participant directed 401(k) account. The 401(k) account is credited with the participant's contribution and allocations of (a) the Company's contribution(s) and (b) plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account balance.

Vesting

Participants are vested immediately in their contributions plus actual earnings thereon. Vesting in the Company stock, the Company's matching and discretionary profit sharing contributions portion of their accounts is based on the following table:

1. DESCRIPTION OF PLAN (Continued)

Vesting (Continued)

Years of Service	Percentage
2	20%
3	40%
4	60%
5	80%
6	100%

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of $1,000 up to the maximum equal to the lesser of $50,000 or 50% of their account balance, less defaulted loans (if any). The loans are secured by the balance in the participants account and bear interests at 3.75% to 5.25%, which are commensurate with local prevailing rates as determined by the plan administrator. The term of the loan may not exceed 5 years or 15 years if the loan proceeds will be used to acquire the principal residence of the participant. Principal and interest is paid ratably through payroll deductions.

Payment of Benefits

On termination of services, disability, or retirement, a participant may receive a lump sum equal to the value of the participant's vested interest in his or her account. Under certain circumstances a participant may receive a hardship distribution.

Under the provisions noted above, qualified participants may elect to receive the cash distribution in a single lump sum, direct rollover into an IRA, or in annual installments over a period of years based on the participant's vested account balance. Separated employees with balances less than $1,000 receive a forced distribution. The amount of company stock to be distributed is based upon the immediately preceding valuation date. Distributions are made in cash or, if a participant elects, in the form of company common stock plus cash for any fractional share of common stock. The Plan repurchases the shares of company stock and transfers to the unallocated shares account. The Company makes an advance to the Plan for the value of the shares and the cash is deposited into the participant-directed portion of the Plan. The participant then may elect to take a cash distribution.

Under the provisions of the Plan, the Company is obligated to repurchase participant shares, which have been distributed under the terms of the Plan if the shares are not publicly traded or if the shares are subject to trading limitations. For the years ended December 31, 2018 and 2017, the Plan distributed and the Plan repurchased from participants 9,420 and 3,203 shares, respectively, at the current appraised value. Repurchased shares are held by the Plan in an unallocated account.

1. DESCRIPTION OF PLAN (Continued)

Administrative Expenses

Certain expenses of maintaining the Plan are paid by the Company and are excluded from these financial statements. The Plan also pays certain investment advisory and plan administration fees from plan assets. Loan administration and distribution fees are charged directly to the participant's account and are included in administrative expenses. Certain investment-related expenses are included in net appreciation (depreciation) of fair value of investments.

Voting Rights

Each participant is entitled to exercise voting rights attributable to the shares allocated to his or her account and is notified by the trustee prior to the time that such rights are to be exercised. The trustee is not permitted to vote any allocated share for which instructions have not been given by a participant. The trustee is required, however, to vote any unallocated shares on behalf of the collective best interests of plan participants and beneficiaries.

Diversification

A participant may elect annually, within 60 days after the fair market value of the Company stock is announced to participants to liquidate a portion of their ESOP stock and reinvest the proceeds into other funds offered within the Plan. Participants under age 55 may, with the approval of the trustee, elect year to liquidate 100% of the Company stock and reinvest into other funds within the Plan. Participants who are at least age 55 may elect each year to liquidate on a cumulative basis, up to 20% of the number of shares of company stock in his account. Upon termination of employment, 100% of the value of the Company stock account is transferred to the 401(k) account. Participants who elect to diversify receive a cash distribution transferred into their 401(k) account where they select an investment allocation from the 401(k) menu.

Forfeited Accounts

As of December 31, 2018 and 2017, there were unused forfeitures of $67 and $2,334, respectively. These amounts will be used to offset future company stock contributions due to redeem terminated participants.

In 2018 and 2017, $2,334 and $0, respectively, were reallocated to eligible plan participants.

Other Income

During the years ended December 31, 2018 and 2017, $0 and $20,502, respectively, were received by the Plan to offset expenses. In addition, during 2018 and 2017, these funds were used to pay administrative expenses of $0 and $27,074, respectively. As of December 31, 2018 and 2017, $86 and $81, respectively, were available to reduce future plan expenses.

1. DESCRIPTION OF PLAN (Continued)

Put Option

Under federal income tax regulations, the employer stock that is held by the Plan and its participants and is not readily tradable on an established market, or is subject to trading limitations, includes a put option. The put option is a right to demand that the Company buy any shares of its stock distributed to participants for which there is no market. The put price is representative of the current appraised value of the stock. The Company can pay for the purchase with interest over a period of five years. The purpose of the put option is to ensure that the participant has the ability to ultimately obtain cash.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America (USGAAP) requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Trustees determine the Plan's valuation policies utilizing information provided by the investment advisers, custodians, and appraiser for company stock. See Note 3 for discussion of fair value measurements.

The investment in the Company common shares is valued as of December 31, 2018 and 2017 at $3,765,536 and $4,236,228, respectively, based upon an appraisal performed by an independent valuation firm, and approved by the Plan's management.

Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Dividends

When declared, dividends paid by the Company on shares allocated to a participant's account are accrued and distributed quarterly to the participants unless a participant elects to reinvest his or her dividends. The election to reinvest some or all dividends paid with respect to the Company common stock is available to participants as soon as they become eligible under the Plan and may be changed 30 days prior to the beginning of a calendar quarter. Participants are fully vested in all reinvested dividends.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest, less amounts defaulted (if any). Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2018 or 2017. Defaulted notes receivable from participants are recorded as a distribution based upon the terms of the plan document.

New Accounting Pronouncements

In August 2018, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) No. 2018-13, *Changes to the Disclosure Requirements for Fair Value Measurements*. This standard is intended to improve the effectiveness of disclosures in the notes to the financial statements and modify the disclosure requirements on fair value measurements in Topic 820, *Fair Value Measurements.* ASU No. 2018-13 is effective for fiscal years beginning after December 15, 2019, with early adoption permitted. The Company is currently evaluating the impact of this ASU.

Payment of Benefits

Benefits are recorded when paid.

Subsequent Events

Subsequent events are events or transactions that occur after year end but before financial statements are issued or are available to be issued. These events and transactions either provide additional evidence about conditions that existed at year end, including the estimates inherent in the process of preparing financial statements (that is, recognized subsequent events), or provide evidence about conditions that did not exist at year end but arose after that date (that is, nonrecognized subsequent events).

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Subsequent Events (Continued)

The Plan has evaluated subsequent events through October 14, 2019, which was the date that these financial statements were available for issuance, and determined that there were no significant nonrecognized subsequent events through that date.

3. FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under Topic 820 are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access at the measurement date.

Level 2: Inputs to the valuation methodology other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly, such as:

a. Quoted prices for similar assets or liabilities in active markets,

b. Quoted prices for identical or similar assets or liabilities in inactive markets,

c. Inputs other than quoted prices that are observable for the asset or liability, and

d. Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full-term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

3. FAIR VALUE MEASUREMENTS (Continued)

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2018 and 2017.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-ended mutual funds that are registered with the U.S. Securities and Exchange Commission. These funds are required to publish their daily net asset value and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Company stock: Fair value of Print Management Partners, Inc. common stock is based upon an annual appraisal by an independent appraiser. This appraisal was based upon a combination of the market and income valuation techniques. The appraiser took into account historical and projected cash flow, net income, return on assets, return on equity, market comparables, and estimated fair value of company assets and liabilities.

Collective trust: A stable value fund that is composed primarily of fully benefit-responsive investment contracts that is valued at the net asset value of units of the bank collective trust. The net asset value is used as a practical expedient to estimate fair value. This practical expedient would not be used if it is determined to be probable that the fund will sell the investment for an amount different from the reported net asset value. Participant transactions (purchases and sales) may occur daily. If the Plan initiates a full redemption of the collective trust, the issuer reserves the right to require 12 months' notification in order to ensure the securities liquidation will be carried out in an orderly business manner.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

3. FAIR VALUE MEASUREMENTS (Continued)

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2018 and 2017:

	Assets at Fair Value as of December 31, 2018			
Description	Level 1	Level 2	Level 3	Total
Mutual funds	$ 11,722,328	$ -	$ -	$ 11,722,328
Company stock	-	-	3,765,536	3,765,536
TOTAL	$ 11,722,328	$ -	$ 3,765,536	15,487,864
Investments measured at net asset value [(a)]				1,430,375
INVESTMENTS AT FAIR VALUE				$ 16,918,239

	Assets at Fair Value as of December 31, 2017			
Description	Level 1	Level 2	Level 3	Total
Mutual funds	$ 14,443,604	$ -	$ -	$ 14,443,604
Company stock	-	-	4,236,228	4,236,228
TOTAL	$ 14,443,604	$ -	$ 4,236,228	18,679,832
Investments measured at net asset value [(a)]				-
INVESTMENTS AT FAIR VALUE				$ 18,679,832

(a) In accordance with Subtopic 820-10, certain investments that were measured at net asset value per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statements of net assets available for benefits.

3. FAIR VALUE MEASUREMENTS (Continued)

Investments Measured Using the Net Asset Value per Share Practical Expedient

The following table presents the fair value, unfunded commitments, redemption frequency, and redemption notice period for plan investments for which fair value is measured using the net asset value per share practical expedient as of December 31, 2018 and 2017:

	Fair Value		Unfunded Commitment			
Investment	2018	2017	2018	2017	Redemption Frequency	Redemption Notice Period
RelianceMetLife GAC Series 25157 CLS 0	$ 1,430,375	$ -	$ -	$ -	Daily	None

Changes in Fair Value Levels

The Plan assesses the levels of the investments at each measurement date, and transfers between levels are recognized on the actual date of the event or change in circumstances that caused the transfer in accordance with the Plan's accounting policy regarding the recognition of transfers between levels of the fair value hierarchy. For the years ended December 31, 2018 and 2017, there were no such transfers.

4. NONPARTICIPANT-DIRECTED LEVEL 3 INVESTMENTS

The Plan's company stock investment, at December 31, 2018 and 2017, is presented in the following table:

	2018		2017	
	Allocated	Unallocated	Allocated	Unallocated
Number of shares	102,931	14,742	110,851	6,822

Estimated fair value	3,293,792	471,744	3,990,636	245,592

Information about the net assets and significant components of the changes in net assets relating to the Level 3 company stock is as follows:

	2018	2017

5. PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants would become 100% vested in their employer contributions. Any unallocated assets of the Plan shall be allocated to participant accounts and distributed in such a manner as the Company may determine.

6. TAX STATUS

The Internal Revenue Service (IRS) has determined and informed the Company by letter dated March 25, 2015, that the Plan is designed in accordance with applicable sections of the IRC. The Plan has been amended since receiving the determination letter. However, the plan administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable provisions of the IRC.

USGAAP requires plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more-likely-than-not would not be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2018 and 2017, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

7. PARTY-IN-INTEREST TRANSACTIONS

The Plan's assets, which include 117,673 common shares of company stock, are held by the trustees of the Plan. Transactions involving the funds administered by the Company are considered party-in-interest transactions. These transactions are not, however, considered prohibited transactions under 29 CFR 4089(b) of the ERISA regulations.

7. PARTY-IN-INTEREST TRANSACTIONS (Continued)

Certain other plan investments are shares of mutual funds, managed by American Funds, the custodian, and therefore, these transactions qualify as party-in-interest. Fees paid by the Plan for investment management services were included as a reduction of the return earned on each fund. The Plan issues loans to participants, which are secured by the vested balance in the participant's accounts and certain administrative fees related to the administration of the Plan were paid by the Plan or by the Company. These transactions qualify as party-in-interest. Employees of the Company provide administrative services to the Plan for which no fees are charged.

8. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities and company stock. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, and to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in the value of investment securities and common stock will occur in the near term and that such changes could materially affect the participants' account balances and the amounts reported in the statements of net assets available for benefits.

9. REFUNDS PAYABLE TO PARTICIPANTS

Excess contributions and earnings payable represents amounts withheld from participants in excess of IRS limitations that are to be refunded at year end. As of December 31, 2018 and 2017, $0 and $6,042, respectively, of excess contributions and earnings thereon are required to be refunded prior to December 31 of the subsequent year. These amounts were refunded to participants prior to March of the year following the plan year end. Excess contributions and earnings are netted against contributions and interest income in the statements of changes in net assets available for benefits.

10. PROHIBITED TRANSACTIONS

During 2018, the Company failed to remit to the Plan's trustee certain employee contributions totaling $458, respectively, within the period prescribed by Department of Labor's regulations. Delays in remitting contributions to the trustee were due to administrative errors, and the Company has made contributions to the affected participants' accounts to compensate those participants for potential lost income due to the delays.

INDEPENDENT AUDITOR'S REPORT

To the Plan Trustees of the
Go2Partners Profit Sharing/Stock Ownership Plan
Des Plaines, Illinois

Report on the Financial Statements

We have audited the accompanying financial statements of the Go2Partners Profit Sharing/Stock Ownership Plan (the Plan), which comprise the statements of net assets available for benefits as of December 31, 2018 and 2017, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Plan management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Plan's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of Go2Partners Profit Sharing/Stock Ownership Plan as of December 31, 2018 and 2017, and the changes in its net assets available for benefits for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Emphasis of Matter

As discussed in Note 4 of the financial statements, investments amounting to $3,765,536 and $4,236,228 as of December 31, 2018 and 2017, respectively, have fair value estimated by the trustees in the absence of readily ascertainable fair values. Because of the inherent uncertainty of valuation, those estimated values may differ significantly from the values that would have been used had a ready market for the securities existed, and the differences could be material. Our opinion is not modified with respect to this matter.

Other Matter

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule of assets (held at end of year) and schedule of delinquent participant contributions are presented for the purpose of additional analysis and are not a required part of the financial statements but are supplemental information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Such information is the responsibility of the Plan's management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

1. DESCRIPTION OF PLAN

The following description of the Go2Partners Profit Sharing/Stock Ownership Plan (the Plan) provides only general information. Participants should refer to the plan document for a more complete description of the Plan's provisions.

General

Print Management Partners, Inc., d/b/a Go2Partners (the Company) established the Go2Partners Profit Sharing/Stock Ownership Plan as of February 1, 1996. The Plan is designed to comply with Section 4975(e)(7) and the regulations thereunder of the Internal Revenue Code of 1986 (IRC), as amended, and is subject to the applicable provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended. The Plan is administered by the trustees, who control and manage the operations of the Plan. The Plan is a defined contribution plan containing both a 401(k) plan feature as well as a company stock noncontributory component, the assets of which are invested in common stock of the Company. The following description of the Plan provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

Contributions

Each year, participants may contribute up to 100% of pre-tax annual compensation, as defined in the Plan. Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans.

The Company may also make discretionary matching or profit sharing contributions. For the years ended December 31, 2018 and 2017, contributions were $0 and $5,039, respectively. Contributions are subject to certain limitations as mandated by the Internal Revenue Code (IRC).

Due to Plan Sponsor

To facilitate necessary liquidity to effect certain plan transactions, the Plan has a lending arrangement in place with the Company in which certain funds are to be reimbursed to the Company by the Plan and are reported on the plan financials as a liability. The management of the Company and the Plan's tax counsel believe that this arrangement is in compliance with the applicable requirements of the IRC.

The Company advances amounts to the Plan to redeem participants who have terminated or elected to diversify their account balance as discussed later in Note 1 (Due to Plan Sponsor).

1. DESCRIPTION OF PLAN (Continued)

Due to Plan Sponsor (Continued)

As of December 31, 2018 and 2017, these advances were $517,386 and $200,226, respectively.

Investment Options

Participants may direct all their 401(k) contributions among one or more funds subject to the allocation limitations set forth in the Plan. Changes in allocation of future contributions and transfers among funds of presently invested contributions are permitted pursuant to the Plan's provisions. Company contributions are made in the form of company stock to the ESOP account.

Participant Accounts

The Plan is a defined contribution plan under which a separate individual account is established for each participant. Each participant's account is credited as of the last day of each plan year with an allocation of shares of the Company's common stock released by the trustee from the unallocated account and forfeitures of terminated participants' nonvested accounts (if any). Only those participants who are eligible employees of the Company as of the last day of the plan year will receive an allocation. Allocations are determined by management and are distributed evenly between active employees at year end. There was no allocation of shares of the Company's common stock to participants for the year ended December 31, 2017. For the year ended December 31, 2018, the plan sponsor allocated forfeited shares of stock in the amount of $37,008 to all eligible employees.

Participants have the right to direct the trustees how to vote company stock allocated to their account with regard to approval of the sale of the Company, and recapitalization or consolidation of the Company. As a participant reaches certain age limits, the participant can elect to have their investment diversified as provided for in the Plan.

Each participant may also establish a participant directed 401(k) account. The 401(k) account is credited with the participant's contribution and allocations of (a) the Company's contribution(s) and (b) plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account balance.

Vesting

Participants are vested immediately in their contributions plus actual earnings thereon. Vesting in the Company stock, the Company's matching and discretionary profit sharing contributions portion of their accounts is based on the following table:

1. DESCRIPTION OF PLAN (Continued)

Vesting (Continued)

Years of Service	Percentage
2	20%
3	40%
4	60%
5	80%
6	100%

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of $1,000 up to the maximum equal to the lesser of $50,000 or 50% of their account balance, less defaulted loans (if any). The loans are secured by the balance in the participants account and bear interests at 3.75% to 5.25%, which are commensurate with local prevailing rates as determined by the plan administrator. The term of the loan may not exceed 5 years or 15 years if the loan proceeds will be used to acquire the principal residence of the participant. Principal and interest is paid ratably through payroll deductions.

Payment of Benefits

On termination of services, disability, or retirement, a participant may receive a lump sum equal to the value of the participant's vested interest in his or her account. Under certain circumstances a participant may receive a hardship distribution.

Under the provisions noted above, qualified participants may elect to receive the cash distribution in a single lump sum, direct rollover into an IRA, or in annual installments over a period of years based on the participant's vested account balance. Separated employees with balances less than $1,000 receive a forced distribution. The amount of company stock to be distributed is based upon the immediately preceding valuation date. Distributions are made in cash or, if a participant elects, in the form of company common stock plus cash for any fractional share of common stock. The Plan repurchases the shares of company stock and transfers to the unallocated shares account. The Company makes an advance to the Plan for the value of the shares and the cash is deposited into the participant-directed portion of the Plan. The participant then may elect to take a cash distribution.

Under the provisions of the Plan, the Company is obligated to repurchase participant shares, which have been distributed under the terms of the Plan if the shares are not publicly traded or if the shares are subject to trading limitations. For the years ended December 31, 2018 and 2017, the Plan distributed and the Plan repurchased from participants 9,420 and 3,203 shares, respectively, at the current appraised value. Repurchased shares are held by the Plan in an unallocated account.

1. DESCRIPTION OF PLAN (Continued)

Administrative Expenses

Certain expenses of maintaining the Plan are paid by the Company and are excluded from these financial statements. The Plan also pays certain investment advisory and plan administration fees from plan assets. Loan administration and distribution fees are charged directly to the participant's account and are included in administrative expenses. Certain investment-related expenses are included in net appreciation (depreciation) of fair value of investments.

Voting Rights

Each participant is entitled to exercise voting rights attributable to the shares allocated to his or her account and is notified by the trustee prior to the time that such rights are to be exercised. The trustee is not permitted to vote any allocated share for which instructions have not been given by a participant. The trustee is required, however, to vote any unallocated shares on behalf of the collective best interests of plan participants and beneficiaries.

Diversification

A participant may elect annually, within 60 days after the fair market value of the Company stock is announced to participants to liquidate a portion of their ESOP stock and reinvest the proceeds into other funds offered within the Plan. Participants under age 55 may, with the approval of the trustee, elect year to liquidate 100% of the Company stock and reinvest into other funds within the Plan. Participants who are at least age 55 may elect each year to liquidate on a cumulative basis, up to 20% of the number of shares of company stock in his account. Upon termination of employment, 100% of the value of the Company stock account is transferred to the 401(k) account. Participants who elect to diversify receive a cash distribution transferred into their 401(k) account where they select an investment allocation from the 401(k) menu.

Forfeited Accounts

As of December 31, 2018 and 2017, there were unused forfeitures of $67 and $2,334, respectively. These amounts will be used to offset future company stock contributions due to redeem terminated participants.

In 2018 and 2017, $2,334 and $0, respectively, were reallocated to eligible plan participants.

Other Income

During the years ended December 31, 2018 and 2017, $0 and $20,502, respectively, were received by the Plan to offset expenses. In addition, during 2018 and 2017, these funds were used to pay administrative expenses of $0 and $27,074, respectively. As of December 31, 2018 and 2017, $86 and $81, respectively, were available to reduce future plan expenses.

1. DESCRIPTION OF PLAN (Continued)

Put Option

Under federal income tax regulations, the employer stock that is held by the Plan and its participants and is not readily tradable on an established market, or is subject to trading limitations, includes a put option. The put option is a right to demand that the Company buy any shares of its stock distributed to participants for which there is no market. The put price is representative of the current appraised value of the stock. The Company can pay for the purchase with interest over a period of five years. The purpose of the put option is to ensure that the participant has the ability to ultimately obtain cash.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America (USGAAP) requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Trustees determine the Plan's valuation policies utilizing information provided by the investment advisers, custodians, and appraiser for company stock. See Note 3 for discussion of fair value measurements.

The investment in the Company common shares is valued as of December 31, 2018 and 2017 at $3,765,536 and $4,236,228, respectively, based upon an appraisal performed by an independent valuation firm, and approved by the Plan's management.

Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Dividends

When declared, dividends paid by the Company on shares allocated to a participant's account are accrued and distributed quarterly to the participants unless a participant elects to reinvest his or her dividends. The election to reinvest some or all dividends paid with respect to the Company common stock is available to participants as soon as they become eligible under the Plan and may be changed 30 days prior to the beginning of a calendar quarter. Participants are fully vested in all reinvested dividends.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest, less amounts defaulted (if any). Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2018 or 2017. Defaulted notes receivable from participants are recorded as a distribution based upon the terms of the plan document.

New Accounting Pronouncements

In August 2018, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) No. 2018-13, *Changes to the Disclosure Requirements for Fair Value Measurements*. This standard is intended to improve the effectiveness of disclosures in the notes to the financial statements and modify the disclosure requirements on fair value measurements in Topic 820, *Fair Value Measurements.* ASU No. 2018-13 is effective for fiscal years beginning after December 15, 2019, with early adoption permitted. The Company is currently evaluating the impact of this ASU.

Payment of Benefits

Benefits are recorded when paid.

Subsequent Events

Subsequent events are events or transactions that occur after year end but before financial statements are issued or are available to be issued. These events and transactions either provide additional evidence about conditions that existed at year end, including the estimates inherent in the process of preparing financial statements (that is, recognized subsequent events), or provide evidence about conditions that did not exist at year end but arose after that date (that is, nonrecognized subsequent events).

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Subsequent Events (Continued)

The Plan has evaluated subsequent events through October 14, 2019, which was the date that these financial statements were available for issuance, and determined that there were no significant nonrecognized subsequent events through that date.

3. FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under Topic 820 are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access at the measurement date.

Level 2: Inputs to the valuation methodology other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly, such as:

a. Quoted prices for similar assets or liabilities in active markets,

b. Quoted prices for identical or similar assets or liabilities in inactive markets,

c. Inputs other than quoted prices that are observable for the asset or liability, and

d. Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full-term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

3. FAIR VALUE MEASUREMENTS (Continued)

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2018 and 2017.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-ended mutual funds that are registered with the U.S. Securities and Exchange Commission. These funds are required to publish their daily net asset value and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Company stock: Fair value of Print Management Partners, Inc. common stock is based upon an annual appraisal by an independent appraiser. This appraisal was based upon a combination of the market and income valuation techniques. The appraiser took into account historical and projected cash flow, net income, return on assets, return on equity, market comparables, and estimated fair value of company assets and liabilities.

Collective trust: A stable value fund that is composed primarily of fully benefit-responsive investment contracts that is valued at the net asset value of units of the bank collective trust. The net asset value is used as a practical expedient to estimate fair value. This practical expedient would not be used if it is determined to be probable that the fund will sell the investment for an amount different from the reported net asset value. Participant transactions (purchases and sales) may occur daily. If the Plan initiates a full redemption of the collective trust, the issuer reserves the right to require 12 months' notification in order to ensure the securities liquidation will be carried out in an orderly business manner.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

3. FAIR VALUE MEASUREMENTS (Continued)

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2018 and 2017:

	Assets at Fair Value as of December 31, 2018			
Description	Level 1	Level 2	Level 3	Total
Mutual funds	$ 11,722,328	$ -	$ -	$ 11,722,328

Investments measured at net asset value [(a)]				1,430,375
INVESTMENTS AT FAIR VALUE				$ 16,918,239

	Assets at Fair Value as of December 31, 2017			
Description	Level 1	Level 2	Level 3	Total

INVESTMENTS AT FAIR VALUE				$ 18,679,832

(a) In accordance with Subtopic 820-10, certain investments that were measured at net asset value per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statements of net assets available for benefits.

3. FAIR VALUE MEASUREMENTS (Continued)

Investments Measured Using the Net Asset Value per Share Practical Expedient

The following table presents the fair value, unfunded commitments, redemption frequency, and redemption notice period for plan investments for which fair value is measured using the net asset value per share practical expedient as of December 31, 2018 and 2017:

	Fair Value		Unfunded Commitment			
Investment	2018	2017	2018	2017	Redemption Frequency	Redemption Notice Period
RelianceMetLife GAC Series 25157 CLS 0	$ 1,430,375	$ -	$ -	$ -	Daily	None

Changes in Fair Value Levels

The Plan assesses the levels of the investments at each measurement date, and transfers between levels are recognized on the actual date of the event or change in circumstances that caused the transfer in accordance with the Plan's accounting policy regarding the recognition of transfers between levels of the fair value hierarchy. For the years ended December 31, 2018 and 2017, there were no such transfers.

4. NONPARTICIPANT-DIRECTED LEVEL 3 INVESTMENTS

The Plan's company stock investment, at December 31, 2018 and 2017, is presented in the following table:

	2018		2017	
	Allocated	Unallocated	Allocated	Unallocated
Number of shares	102,931	14,742	110,851	6,822

5. PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants would become 100% vested in their employer contributions. Any unallocated assets of the Plan shall be allocated to participant accounts and distributed in such a manner as the Company may determine.

6. TAX STATUS

The Internal Revenue Service (IRS) has determined and informed the Company by letter dated March 25, 2015, that the Plan is designed in accordance with applicable sections of the IRC. The Plan has been amended since receiving the determination letter. However, the plan administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable provisions of the IRC.

USGAAP requires plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more-likely-than-not would not be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2018 and 2017, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

7. PARTY-IN-INTEREST TRANSACTIONS

The Plan's assets, which include 117,673 common shares of company stock, are held by the trustees of the Plan. Transactions involving the funds administered by the Company are considered party-in-interest transactions. These transactions are not, however, considered prohibited transactions under 29 CFR 4089(b) of the ERISA regulations.

7. PARTY-IN-INTEREST TRANSACTIONS (Continued)

Certain other plan investments are shares of mutual funds, managed by American Funds, the custodian, and therefore, these transactions qualify as party-in-interest. Fees paid by the Plan for investment management services were included as a reduction of the return earned on each fund. The Plan issues loans to participants, which are secured by the vested balance in the participant's accounts and certain administrative fees related to the administration of the Plan were paid by the Plan or by the Company. These transactions qualify as party-in-interest. Employees of the Company provide administrative services to the Plan for which no fees are charged.

8. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities and company stock. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, and to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in the value of investment securities and common stock will occur in the near term and that such changes could materially affect the participants' account balances and the amounts reported in the statements of net assets available for benefits.

9. REFUNDS PAYABLE TO PARTICIPANTS

Excess contributions and earnings payable represents amounts withheld from participants in excess of IRS limitations that are to be refunded at year end. As of December 31, 2018 and 2017, $0 and $6,042, respectively, of excess contributions and earnings thereon are required to be refunded prior to December 31 of the subsequent year. These amounts were refunded to participants prior to March of the year following the plan year end. Excess contributions and earnings are netted against contributions and interest income in the statements of changes in net assets available for benefits.

10. PROHIBITED TRANSACTIONS

During 2018, the Company failed to remit to the Plan's trustee certain employee contributions totaling $458, respectively, within the period prescribed by Department of Labor's regulations. Delays in remitting contributions to the trustee were due to administrative errors, and the Company has made contributions to the affected participants' accounts to compensate those participants for potential lost income due to the delays.
