INDEPENDENT AUDITOR'S REPORT

To the Plan Administrator and Plan Committee of the
Fahs Construction Group, Inc. Employee Stock Ownership Plan:

Report on the Financial Statements
We have audited the accompanying financial statements of the Fahs Construction Group, Inc. Employee Stock Ownership Plan (the Plan), which comprise the statements of net assets available for benefits as of December 31, 2018 and 2017, and the related statement of changes in net assets available for benefits for the year ended December 31, 2018, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements
Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility
Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Plan's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion
In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Fahs Construction Group, Inc. Employee Stock Ownership Plan as of December 31, 2018 and 2017, and the changes in its net assets available for benefits for the year ended December 31, 2018 in accordance with accounting principles generally accepted in the United States of America.

Report on Supplemental Information
Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule of assets (held at end of year), referred to as "supplemental information," is presented for the purpose of additional analysis and is not a required part of the financial statements but is supplemental information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Such information is the responsibility of the Plan's management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

1. DESCRIPTION OF PLAN

The following description of the Fahs Construction Group, Inc. Employee Stock Ownership Plan (the Plan) is provided for general information purposes only. Participants should refer to the Plan Document for a more complete description of the Plan's provisions.

General

Fahs Construction Group, Inc. (the Company), sponsors a qualified employee stock ownership plan (ESOP) that covers substantially all non-union employees. As a leveraged ESOP, it is designed to comply with Section 4975(e)(7) and the regulations thereunder of the Internal Revenue Code of 1986, as amended (the Code), and is subject to the applicable provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA).

The Plan purchased Company common stock using the proceeds of loans and holds the stock in a trust established under the Plan. The principal borrowings are to be repaid by fully deductible Company contributions to the trust fund. As the Plan makes each payment of principal and interest, an appropriate percentage of stock will be allocated to eligible employees' accounts in accordance with applicable regulations under the Code.

The borrowings are collateralized by the unallocated shares of common stock and are guaranteed by the Company. The lender has no rights against shares once they are allocated under the ESOP. Accordingly, the financial statements of the Plan as of December 31, 2018 and 2017, and for the year ended December 31, 2018, present separately the assets and liabilities and changes therein pertaining to:

(a) The accounts of employees with vested rights in allocated common stock (allocated) and
(b) Common stock not yet allocated to employees (unallocated).

Administration of Plan Assets

The Plan is administered by the Plan Committee comprising up to four persons appointed by the Company's Board of Directors. An individual on and also elected by the Company's Board of Directors is the Trustee of the Plan. The Plan's assets, which consist principally of Company common shares, are held by the Trustee of the Plan.

Company contributions are held and managed by the Trustee, which invests cash received, interest, and dividend income and makes distributions to participants. The Trustee also administers the payment of interest and principal on the loan, which is reimbursed to the Trustee through contributions as determined by the Company.

Officers or employees of the Company or its subsidiaries perform certain administrative functions. No such officer or employee receives compensation from the Plan. Administrative expenses for the Trustee's fees are paid directly by the Company.

Eligibility

The Plan covers substantially all employees of the Company who have attained twenty-one years of age and who have completed a year of service (1,000 hours, as defined) during the eligibility computation period. The eligibility computation period is defined as the initial twelve consecutive month period commencing the date the employee first performs an hour of service for the Company. Eligibility is retroactive to the first day of the Plan year during which the employee completed a year of service.

1. DESCRIPTION OF PLAN (Continued)

Employer Contributions
The Company is obligated to make contributions in cash to the Plan equal to the amount necessary to enable the Plan to make its regularly scheduled payments of principal and interest due on its term loan. Employee contributions are not permitted.

Payment of Benefits
Distributions from the Plan will be made when a participant retires, dies, otherwise terminates employment with the Company, or attains the early Retirement Age. Distributions are made in cash (or, if a participant elects, in the form of Company securities). During 2018 and 2017, the Company contributed cash to the Plan to pay benefits in the amount equal to 53,176.735 shares and 47,704.345 shares, respectively, at prices determined from the independent appraisal referred to in Note 4.

Hardship Withdrawals
Hardship withdrawals from the Plan are permitted under certain circumstances.

Termination
The Company reserves the right to terminate the Plan at any time, subject to Plan provisions. Upon such termination of the Plan, the interest of each participant in the trust fund will be distributed to such participant or his or her beneficiary at the time prescribed by the Plan terms and the Code. Upon termination of the Plan, the Plan Committee appointed by the Company and the trust shall direct the Trustee to pay all liabilities and expenses of the trust fund and to sell shares of financed common stock held in the loan suspense account to the extent it determines such sale to be necessary in order to repay the loan.

Participant Accounts
The Plan is a defined contribution plan under which a separate individual account is established for each participant. Each participant's account is credited as of the last day of each plan year with an allocation of shares of the Company's common stock released by the Trustee from the unallocated account and forfeitures of terminated participants' non-vested accounts. Only those participants who are eligible employees of the Company as of the last day of the Plan year will receive an allocation. Allocations are based on a participant's eligible compensation, relative to total eligible compensation. Plan earnings/losses are allocated to each participant's account based on the ratio of the participant's beginning of the year account balance to all participants' beginning of the year account balances.

Vesting
If a participant's employment with the Company ends for any reason other than retirement, permanent disability or death, he or she will vest in the balances in his or her account based on total years of service with the Company. Participants become 20% vested after 2 years of service and vest ratably over the next four years, becoming 100% vested after 6 years of service.

Put Option
Under Federal income tax regulations, the employer stock that is held by the Plan and its participants and is not readily determinable on an established market, or is subject to trading limitations, includes a put option. The put option is a right to demand that the Company buy any shares of its stock distributed to participants for which there is no market. The put price is representative of the fair market value of the stock. The Company can pay for the purchase with interest over a period of five years. The purpose of the put option is to ensure that the participant has the ability to ultimately obtain cash.

1. DESCRIPTION OF PLAN (Continued)

Diversification

Diversification is offered to participants close to retirement so that they may have the opportunity to move part of the value of their investment in Company common stock into investments that are more diversified. Participants who are at least age 55 with at least 10 years of participation in the Plan may elect to diversify a portion of their account. Diversification is offered to each eligible participant over a six-year period. In each of the first five years, a participant may diversify up to 25 percent of the number of post-1986 shares allocated to his or her account, less any shares previously diversified. In the sixth year, the percentage changes to 50 percent. Participants who elect to diversify receive a cash distribution.

Forfeitures

Forfeitures are allocated to each participant's account based upon the relation of the participant's covered compensation to total covered compensation for the Plan year. Forfeitures of terminated non-vested account balances allocated to remaining participants at December 31, 2018 and 2017 totaled 11,329.300 shares and 13,162.061 shares, respectively.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan were prepared in accordance with accounting principles generally accepted in the United States of America.

Payment of Benefits

Benefit payments are recorded when paid.

Investment Valuation and Income Recognition

The shares of the Company's common stock are valued at fair value. Fair value is determined by an annual independent appraisal.

Purchases and sales of securities are recorded on a trade-date basis. Realized gains and losses from security transactions are reported on the valuation report. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

The ASC 820 framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair market value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets and liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under ASC 820 are described below:

- Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets and liabilities in active markets that the Plan has the ability to access.

- Level 2 - Inputs to the valuation methodology include:

    - Quoted prices for similar assets or liabilities in active markets;
    - Quoted prices for identical or similar assets or liabilities in inactive markets;
    - Inputs other than quoted prices that are observable for the asset or liability;
    - Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

- Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Investment Valuation and Income Recognition (Continued)
The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

A description of where the Plan's investments fall within the ASC 820 hierarchy is provided in Note 4.

Estimates
The preparation of financial statements in accordance with accounting principles generally accepted in the United States requires the Plan Administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Risks and Uncertainties
The Plan invests in one type of investment security. This investment security is exposed to various risks, such as interest rate, market, and credit risk. Due to the level of risk associated with this investment security, it is at least reasonably possible that changes in the value of this investment security will occur in the near term and that such changes could materially affect the amounts reported in the accompanying financial statements.

Reclassifications
Certain reclassifications have been made to the prior year information to conform to the current year presentation.

3. INVESTMENTS

The Plan's investments are as follows at December 31:

	2018			2017		
	Allocated	Unallocated	Total	Allocated	Unallocated	Total
Number of shares	1,329,801	888,021	2,217,822	1,249,072	968,750	2,217,822
Cost	$ 8,665,627	$ 6,127,343	$14,792,970	$ 8,108,596	$ 6,684,374	$14,792,970
Market	$ 4,135,681	$ 2,761,745	$ 6,897,426	$ 3,647,290	$ 2,828,750	$ 6,476,040

4. FAIR VALUE MEASUREMENTS

The Plan's assets at fair value, within the fair value hierarchy, are as follows at December 31, 2018:

	Level 1	Level 2	Level 3	Total
Investment in sponsor company common stock	$ -	$ -	$ 6,897,426	$ 6,897,426

The Plan's assets at fair value, within the fair value hierarchy, are as follows at December 31, 2017:

	Level 1	Level 2	Level 3	Total
Investment in sponsor company common stock	$ -	$ -	$ 6,476,040	$ 6,476,040

Level 3 Gains and Losses

The fair value of the Plan's level 3 assets changed as follows for the year ended December 31, 2018:

Balance at beginning of year	$ 6,476,040
Unrealized gains included in changes in net assets available for benefits	421,386
Balance at end of year	$ 6,897,426

Gains (realized and unrealized) included in changes in net assets for the period above are reported in net appreciation in fair value of investments in the Statement of Changes in Net Assets Available for Benefits.

Following is a description of the valuation methodology used for assets measured at fair value. There have been no changes in the methodology used at December 31, 2018 and 2017.

Investment in sponsor company common stock: valued at fair value determined by an annual independent appraisal. This appraisal was based on the income approach utilizing the capitalization of cash flow method consistent with prior years. The appraiser took into account historical and projected cash flow and net income, return on assets, return on equity, market comparables and estimated fair value of Company assets and liabilities. Unobservable inputs include internally-generated financial projections, discount rate derived from weighted average cost of capital calculations, and discount for lack of marketability.

Plan management accumulates the data for the appraiser from historical and projected financial information of the Company. The appraiser prepares a report of estimated per share value that a participant will receive upon distribution. Management annually reviews the appraisal report and the procedures applied by the appraiser to determine if techniques used are appropriate.

The method described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation method is appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

5. LOANS PAYABLE

In 2009, the Plan entered into an $11,162,970 loan agreement with the Company, with payments commencing in December 2010. The proceeds of the loan were used to purchase 1,617,822 shares of the Company's common stock. Unallocated shares are collateral for the loan. The loan bears interest at 5.25% and matures in December 2029. Principal and interest on this note shall be due payable in twenty consecutive annual installment payments of $914,831. To the extent that the Plan makes advance payments, future year payments can be deferred. For administrative convenience, the debtor and creditor may mutually agree to postpone such payments until the deductible contribution deadline prescribed in Section 404(a)(6) of the Internal Revenue Code. The principal balance outstanding on this loan payable was $7,995,251 and $8,465,636 at December 31, 2018 and 2017, respectively. During 2018, the Plan made principal payments of $470,385, which were made in relation to contributions declared in 2017. During 2017, the Plan had made principal payments of $446,922, which were made in relation to contributions declared in 2016. At December 31, 2018 and 2017, the Plan had principal payments due of $495,080 and $470,385 related to contributions declared for 2018 and 2017, respectively.

The annual future principal payments of the loan are as follows at December 31:

2019	$ 1,016,152
2020	548,428
2021	577,221
2022	607,525
2023	639,420
Thereafter	4,606,505
	$ 7,995,251

6. TAX STATUS

The Plan obtained its latest determination letter on May 2, 2014, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable provisions of the Code. Therefore, no provision for income taxes has been included in the Plan's financial statements.

7. PARTY-IN-INTEREST TRANSACTIONS

All of the Plan's investments are invested in the Company's common stock. As such, transactions between the Company and the Plan are party-in-interest transactions.

8. RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500

While total net assets available for benefits and the total change in net assets available agree between the financial statements and Form 5500 for 2018 and 2017, certain classifications differ between the financial statements and Form 5500.

9. SUBSEQUENT EVENTS

Subsequent events have been evaluated through October 15, 2019, which is the date the financial statements were available to be issued.
