1. Description of the Plan

The following description of the Reynolds Memorial Hospital Retirement Plan (the "Plan") provides only general information. Participants should refer to the plan document for a more complete description of the Plan's provisions. The Plan was sponsored by Reynolds Memorial Hospital, Inc. (the "Company").

General

The Plan, which was established January 1, 1987, and amended and restated effective January 1, 2016, was a non-participant directed defined contribution plan covering all employees of the Company who had one year of service, were age nineteen or older, and had worked 500 or more hours during the plan year. The plan had a "safe harbor" feature which permitted contributions to participants who had not attained 500 hours under certain circumstances. The Plan was subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

On December 19, 2018, the Board approved a resolution to merge the Plan with the West Virginia University Health System 401(k) Plan, effective December 31, 2018. This plan merger will have no impact to participant benefit accruals and is merely an effort to consolidate administration on the part of the plan sponsor.

Contributions

Participant contributions to the Plan were not permitted. The Company's contribution was determined on an annual basis. The Company contributed to the Plan during 2018 and 2017 an amount equal to 3 percent of eligible compensation of all participants eligible to share in an allocation of the contribution. Contributions were subject to certain limitations.

Participant Accounts

Each participant's account was credited with the Company's contribution and allocations of the Plan's earnings, and charged with an allocation of administrative expenses (if any) that were paid by the Plan. Allocations were based on participant earnings, account balances, or specific participant transactions, as defined. The benefit to which a participant was entitled was the benefit that may have been provided from the participant's vested account.

Vesting

Participants were fully vested upon completion of three years of service. The funds of any participant who terminated employment prior to vesting were placed into a frozen account. If the participant did not return to work within five years, the frozen account was allocated to the remaining participants in the same proportion that each participant's contribution bore to the total contribution of all participants.

Notes Receivable from Participants

Participants were not permitted to borrow from their fund accounts.

Payment of Benefits

On termination of service due to death, disability, retirement, or other reasons, a participant may have elected to receive a lump-sum, partial, or annual installment payment amounts equal to the value of the participant's vested interest in their account. Hardship withdrawals were not permitted by the Plan.

2. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosures of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Plan management determines the Plan's valuation policies utilizing information provided by the custodian. See Note 3 for a discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net depreciation includes gains and losses on investments bought and sold as well as held during the year.

Expenses

Certain expenses of maintaining the Plan are paid by the Plan, unless otherwise paid by the Company. Expenses that are paid by the Company are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net depreciation of fair value of investments.

Payment of Benefits

Benefits are recorded when paid.

Recent Accounting Standards

In August 2018, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") No. 2018-13, *Disclosure Framework - Changes to the Disclosure Requirements for Fair Value Measurement*. ASU No. 2018-13 modifies the disclosure requirements for fair value measurements in Topic 820, *Fair Value Measurement*. The amendments are based on the concepts in the FASB Concepts Statement, *Conceptual Framework for Financial Reporting - Chapter 8: Notes to* Financial *Statements*, which the FASB finalized on August 28, 2018. ASU No. 2018-13 is effective for fiscal years beginning after December 15, 2019. Early adoption is permitted. Management is currently assessing the impact that ASU No. 2018-13 will have on the Plan's financial statements.

Subsequent Events

The Plan has evaluated subsequent events for recognition or disclosure through October 15, 2019, the date the financial statements were available to be issued.

3. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under authoritative guidance are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly, such as:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observables and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2018 and 2017.

Cash and cash equivalents are valued at the quoted NAV of shares held by the Plan at year end.

Government agency and corporate obligations are valued using pricing models maximizing the use of observable inputs for similar securities.

Municipal obligations are valued using pricing models maximizing the use of observable inputs for similar securities. This includes basing value on yields currently available on comparable securities of issuers with similar credit ratings. When quoted prices are not available for identical or similar bonds, the bond is valued under a discounted cash flows approach that maximizes observable inputs, such as current yields of similar instruments, but includes adjustments for certain risks that may not be observable, such as credit and liquidity risks or a broker quote if available.

Mutual funds are valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily NAV and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Equities are valued at the closing price reported on the active market on which the individual securities are traded.

The Plan held no assets at December 31, 2018. The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2017.

	Assets at Fair Value as of December 31, 2017			
	Level 1	Level 2	Level 3	Total
Cash and cash equivalents	$ 151,979	$ -	$ -	$ 151,979
U.S. government agency obligations	-	1,420,069	-	1,420,069
Municipal obligations	-	489,752	-	489,752
Corporate obligations	-	4,439,277	-	4,439,277
Mutual funds	4,561,769	-	-	4,561,769
Equities	10,455,238	-	-	10,455,238
Total assets at fair value	$ 15,168,986	$ 6,349,098	$ -	$ 21,518,084

4. Administration of Plan Assets

The Plan's assets are administered under a contract with WesBanco Trust and Investment Services, the custodian of the Plan. The custodian invests funds received from contributions, investment sales, interest, and dividend income and makes distribution payments to participants.

5. Related Party and Party In Interest Transactions

Certain of the Plan's investments are managed by the custodian, and therefore, these transactions qualify as party in interest transactions. Fees incurred by the Plan for the investment manager services are included in net depreciation in the fair value of the investment, as they are paid through revenue sharing, rather than a direct payment. These transactions qualify as party in interest transactions.

Certain administrative functions of the Plan are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan.

6. Plan Termination

Although it has not expressed any intent to do so, the Company has the right to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants will become 100 percent vested in their Company contributions.

7. Tax Status

The IRS has determined and informed the Company by a letter dated August 12, 2010, that the Plan and related trust are designed in accordance with applicable sections of the IRC. Although the Plan has been amended since receiving the determination letter, the plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and therefore believes that the Plan is qualified and the related trust is tax exempt.

Accounting principles generally accepted in the United States of America require management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

8. Risks and Uncertainties

Prior to the Plan merger described in Note 1, the Plan invested in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statements of Net Assets Available for Benefits.

9. Information Certified by Custodian

The plan administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA for 2018 and 2017. Accordingly, the custodian of the Plan has certified to the completeness and accuracy of all investments reported in the accompanying Statements of Net Assets Available for Benefits as of December 31, 2018 and 2017, and the related investment activity reported in the Statement of Changes in Net Assets Available for Benefits and the supplemental Schedule H, Line 4(j) - Schedule of Reportable Transactions for the year ended December 31, 2018.
