1 - DESCRIPTION OF THE PLAN

General

The San Diego Union-Tribune, LLC Retirement Plan (the "Plan") is a defined benefit pension plan designed to provide retirement benefits to eligible employees of the Plan's sponsor, The San Diego Union-Tribune, LLC (the "Company" or "Plan Administrator"). The Plan is a defined benefit plan, which provides pension benefits for certain employees of the Company and employees of Copley Press, Inc. The Plan was amended effective January 1, 1987, to incorporate several changes in laws and regulations; as a result, participant benefits are calculated under the Plan prior to December 31, 1986 (the "Prior Plan"), or the Plan subsequent to January 1, 1987. The accrual of future service benefits for all participants was frozen on January 31, 2009. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). The following description provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

Plan Administration

The Employer Pension Plan Committee is responsible for the general administration of the Plan. The Bank of New York Mellon, N.A. ("Trustee") is the Trustee of the Plan.

Benefits and Vesting

Until the Plan was frozen on January 1, 2009, all non-union and certain union employees to whom the Plan has been extended were eligible for participation in the Plan on January 1 following their employment date. Those employees covered by collective bargaining agreements were eligible to participate in the Plan only when their bargaining agreement provided for such participation.

Participants who have completed five years of service with the Company or have reached the age of 65 are fully vested. Upon the pension freeze date, all participants became fully vested in the Plan.

Benefits paid to vested employees who were not employed after January 1, 1987, and who retired thereafter shall be determined under the provisions of the Prior Plan. Benefits paid to vested employees whose employment extended or commenced beyond December 31, 1986, and who thereafter retire shall be determined under the provisions of the Plan. Married participants' benefits are paid in the form of a qualified joint and 50% survivor annuity unless the participant elects another form of benefit. The Plan permits early retirement upon attainment of the age of 55 and 5 years of vesting service or at any age with 25 years of credited service.

If a participant who has commenced receiving benefits dies, the participant's spouse may be entitled to a continuation of benefits as determined by the joint and survivor option elected by the participant. If a participant dies and has five or more years of vested service or has attained the age of 65, the spouse shall receive a monthly benefit equal to the monthly benefit, which would have been payable to the spouse if the participant had retired immediately prior to his or her death.

Federal law limits the amount of annual compensation on which benefits can be calculated ($275,000 for 2018) and the amount of the maximum annual benefit ($220,000 for 2018). These limitations are subject to adjustment each year by the Secretary of the Treasury.

1 - DESCRIPTION OF THE PLAN, CONTINUED

Termination Provisions

Although it has not expressed any intent to do so, the Company has the right to discontinue its contributions at any time and to terminate the Plan, subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts, and Plan assets will be distributed in accordance with ERISA. Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations and may also depend on the financial condition of the Plan sponsor and the level of benefits guaranteed by the Pension Benefit Guaranty Corporation ("PBGC").

Expenses of the Plan

The Plan incurs administrative expenses directly related to the Plan which consist primarily of Trustee fees, PBGC fees, investment management fees, actuarial and other legal and accounting fees. These expenses are reported on the statements of changes in net assets available for benefits as administrative expenses. Expenses relating to purchases, sales or transfers of the Plan's investments are charged to the particular investment fund to which the expenses relate.

2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan have been prepared under the accrual method of accounting in accordance with United States generally accepted accounting principles ("U.S. GAAP") from data provided to the Plan Administrator by the Trustee, which the Trustee has certified as being complete and accurate.

Use of Estimates

The preparation of the Plan's financial statements in conformity with U.S. GAAP requires the Plan Administrator to make estimates and assumptions that affect the reported amounts of net assets available for benefits and the accumulated plan benefits at the date of the financial statements and the changes in the net assets available for benefits and changes in accumulated plan benefits during the reporting period and, when applicable, disclosure of contingent assets and liabilities at the date of the financial statements. Actual results could differ significantly from those estimates.

Funding Policy

The Company contributes such amounts as are necessary to provide assets sufficient to meet the benefits to be paid to participants and satisfy the ERISA minimum funding requirements. The Plan has met the ERISA minimum funding requirements for the years ended December 31, 2018 and 2017.

2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, CONTINUED

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (see "Note 5 – Fair Value Measurements and Disclosures"). Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) of fair value of investments includes the Plan's gains and losses on the investments bought and sold, as well as held during the year.

Benefits Payments

Benefits are recorded when paid.

3 - ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS

Accumulated plan benefits are those future periodic payments that are attributable under the Plan's provisions to the service employees have rendered. The actuarial present value of accumulated plan benefits is determined by the Plan's actuary based on beginning of year convention and is that amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the present value of future payments (through discounts for interest) and the probability of payment (by means of decrements for events such as death, withdrawal, or early retirement) between the valuation date and the expected date of payment. Certain assumptions require the use of management estimates which could differ from actual results. The significant actuarial assumptions used in the valuation as of January 1, 2018 and 2017, are as follows:

Interest rate	6.99%
Retirement ages	From 6% at age 55 to 100% at age 65
Mortality rates	Non-disabled participants: RP-2014 Total Employee and Healthy Annuitant Mortality Tables projected with Mortality Improvement Scale MP-2017 Disabled participants: Revenue Ruling 96-7 Disabled Mortality Table

The foregoing actuarial assumptions are based upon the presumption that the Plan will continue in its frozen state. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

Actuarial present values of accumulated benefits were prepared by the actuary as of January 1, 2018 and 2017 for the fiscal years ended December 31, 2018 and 2017, respectively.

3 - ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS, CONTINUED

The actuarial present value of accumulated plan benefits at January 1, 2018 (the most recent valuation date), as determined by the Plan's actuary, is as follows:

Vested Benefits		
Participants currently receiving payments	$	54,833,783
Inactive participants		116,972,876
Active participants		14,134,258
Total vested benefits		185,940,917
Non-Vested Benefits		822,172
Actuarial present value of accumulated plan benefits	$	186,763,089

The changes in the actuarial present value of accumulated plan benefits for the year January 1, 2017 to 2018, as determined by the Plan's actuary, were as follows:

Actuarial present value of accumulated plan benefits at January 1, 2017	$	181,729,591
Increase during the year attributable to:		
Interest due to decrease in discount period		12,121,039
Benefits paid to participants or their beneficiaries		(16,934,354)
Assumption changes		5,706,401
Accumulation of benefits and Plan experience		4,140,412
Net increase		5,033,498
Actuarial present value of accumulated plan benefits at January 1, 2018	$	186,763,089

4 – FINANCIAL INFORMATION CERTIFIED BY THE PLAN'S TRUSTEE (UNAUDITED)

The Plan Administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the Plan Administrator instructed the independent auditors not to perform any auditing procedures with respect to the following information certified as complete and accurate by the Trustee and party-in-interest as defined by ERISA, as of and for the years ended December 31, 2018 and 2017, except for comparing such information certified by the Trustee to information included in the Plan's financial statements and supplemental schedules. This information consists of the following:

	2018	2017
Investments, at fair value:		
Corporate stock - common	$ 11,041,321	$ 11,437,549
Common collective trusts	3,582,140	3,635,301

5 - FAIR VALUE MEASUREMENTS

Investment Valuation and Leveling

FASB Accounting Standards Codification ("ASC") Topic 820 for Fair Value Measurements and Disclosures provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements).

NOTE 5 - FAIR VALUE MEASUREMENTS, CONTINUED

Investment Valuation and Leveling, Continued

The three levels of the fair value hierarchy under FASB ASC 820 are as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets.

Level 2 Significant observable inputs other than quoted prices in active markets for which inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

In establishing a fair value hierarchy for the Plan's investments in accordance with ASC 820, the following value methodologies were used for each type of investment:

Corporate stocks - common – Valued at the closing price reported on the active market for which the individual securities are traded.

Mutual funds – Valued at quoted market prices that represent the net asset value ("NAV") of shares held by the Plan at year-end.

Common/collective trusts, interest in the 103-12 entity, and limited partnerships – Valued at the NAV established by the funds' sponsor on the last business day of the plan year, based on the fair value of the assets underlying the funds. The redemption restrictions on the common/collective trust funds range from none to a 90- day minimum notification. The interest in the 103-12 entity requires a ten business day written notice prior to month end with payments made seven days after the next valuation date. The limited partnerships, which are invested in private equities and corporate credit instruments, require a 45-day redemption period provided that the withdrawal date occurs at least 12 full months following the date of the initial contribution, which was March 1, 2010.

NOTE 5 - FAIR VALUE MEASUREMENTS, CONTINUED

Investment Valuation and Leveling, Continued

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2018:

	Level 1	Level 2	Level 3	Total
Corporate stocks - common	$ 11,041,321	$ -	$ -	$ 11,041,321
Mutual funds	65,438,172	-	-	65,438,172
Total investments	$ 76,479,493	$ -	$ -	$ 76,479,493

Investments valued at net asset value:	
Common collective trusts	3,582,140
Limited partnerships	23,560,150
103-12 investment entity	15,092,946
Total investments, at fair value	$ 118,714,729

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2017:

	Level 1	Level 2	Level 3	Total
Corporate stocks - common	$ 11,437,549	$ -	$ -	$ 11,437,549
Mutual funds	73,076,057	-	-	73,076,057
Total investments	$ 84,513,606	$ -	$ -	$ 84,513,606

Investments valued at net asset value:	
Common collective trusts	3,635,301
Limited partnerships	29,601,557
103-12 investment entity	17,697,172
Total investments, at fair value	$ 135,447,636

NOTE 6 – RECEIVABLE FOR SECURITIES SOLD

The Plan had an investment in the Platinum Partners Credit Opportunity Fund ("PPCO"). In September 2015, the Plan sent notification requesting redemption of that investment and therefore the amount is reflected as a receivable on the Statement of Net Assets Available for Benefits as of December 31, 2018 and 2017. PPCO was forced into receivership and liquidation and in order to more closely reflect the best estimate of collectability, the Plan Administrator has applied a reserve of 50% (or $8,661,418) against the amount expected to be redeemed from PPCO.

NOTE 7 - TAX STATUS OF THE PLAN

The Plan obtained its latest determination letter on November 5, 2015, in which the Internal Revenue Service ("IRS") states that the Plan, as amended and restated on January 1, 2015, is in compliance with the applicable requirements of the Internal Revenue Code ("IRC"). The Plan Administrator believes that the Plan, as adopted and amended, was operating within the guidelines of the IRC, and was exempt. Accordingly, no provisions for federal income taxes has been provided in the accompanying financial statements.

U.S. GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by the Department of Labor or IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan Administrator believes it is no longer subject to income tax examination for years prior to 2015.

NOTE 8 - PARTY-IN-INTEREST TRANSACTIONS

Certain Plan investments are managed by an affiliate of the Trustee. Any purchases and sales of these investments, while considered party-in-interest transactions under ERISA regulations, are permitted under the provisions of the Plan and are specifically exempt from the prohibitions of party-in-interest transactions under ERISA.

NOTE 9 - RISKS AND UNCERTAINTIES

The investment allocation of the Plan is directed by the Company. Such investments are exposed to various risks, such as interest rate, market risk, and credit risk. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investments securities, it is at least reasonably possible that changes in the value of investment securities in the near term could materially affect the amount reported in the statements of net assets available for benefits and the funding status of the Plan.

Some of the Plan's investments may be illiquid, and the Plan may not be able to vary the portfolio in response to changes in economic and other conditions. Some of the investments that are purchased and sold are traded in private, unregistered transactions and are therefore subject to restrictions on resale or otherwise have no established trading market. In addition, if the Plan is required to liquidate all or a portion of its portfolio quickly, the Plan may realize significantly less than the value at which it previously recorded those investments.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change due to uncertainty inherent in the estimations and assumptions process. It is at least reasonably possible that changes in these estimates and assumptions in the near term could be material to the financial statements.

As of December 31, 2018 and 2017, the Plan had investments of $44,521,240 and $45,730,138, respectively that were concentrated in three funds.

NOTE 10 – RECONCILIATION TO THE FORM 5500

There are no material reconciling items between the net assets reported in the audited financial statements and the Schedule H of the Form 5500 as of and for the years ended December 31, 2018 and 2017.

NOTE 11 - SUBSEQUENT EVENTS

In accordance with FASB ASC 855, "Subsequent Events," the Plan Administrator has evaluated events or transactions occurring after December 31, 2018, the Statements of Net Assets Available for Benefits date, through October 11, 2019, the date the financial statements were ready to be issued, and determined there were no events or transactions that would materially impact the financial statements for the year ended December 31, 2018.

Schedule SB, Part V - Statement of Actuarial Assumptions/Methods

The following assumptions and methods are prescribed by ERISA.

Funding interest rates

For 2018 Plan Year: Segment Rates with four-month lookback, constrained in accordance with relevant legislation as follows:

	Unconstrained Rates*	Rates Reflecting Corridor**
First Segment Rate	1.75%	3.92%
Second Segment Rate	3.76%	5.52%
Third Segment Rate	4.66%	6.29%
Effective Rate	4.10%	5.75%

For 2017 Plan Year: Segment Rates with four-month lookback, constrained in accordance with relevant legislation as follows:

	Unconstrained Rates*	Rates Reflecting Corridor**
First Segment Rate	1.52%	4.16%
Second Segment Rate	3.80%	5.72%
Third Segment Rate	4.79%	6.48%
Effective Rate	4.17%	5.95%

* Used for maximum tax-deduction purposes

** Used for minimum funding and benefit restriction purposes

Mortality

Mortality tables mandated by PPA as specified in IRS Regulation 1.430(h)(3)-1[1], applied on a static basis.

Calculation of Lump Sums

Lump sums were valued using the substitution of mortality form under proposed IRC § 1.430(d)-1(f)(4) as updated by IRS notice 2017-60, which revised the mortality table applicable to lump sums paid starting in 2018 to a unisex version of the RP-2014 tables. The interest rates are based on the three-tier segment rates (reflecting relevant legislation) and applicable PPA mortality under 417(e)(3)(b) as of the decrement date.

Disability mortality table

Mortality is based on the Revenue Ruling 96-7 Disabled Mortality Table.

[1] Based on the option under 1.430(h)(3)-1(f)(2) to defer the updated mortality basis to 2019.

Schedule SB, Part V - Statement of Actuarial Assumptions/Methods (continued)

Future increases in Maximum Benefits and Plan Compensation Limitations

As required by regulations, no future increases are assumed in the IRC Section 415 benefit limitation of $220,000 as of January 1, 2018 or the IRC Section 401(a)(17) compensation limit of $275,000 as of January 1, 2018.

Actuarial cost method

The Funding Target is the present value of accrued benefits based on compensation and service to date. The Target Normal Cost is the present value of benefits expected to be accrued during the current plan year, reflecting the effect of expected compensation increases during the year and including expected plan administrative expenses to be paid from plan assets during the year.

Late Retirement Factor

Deferred Vested participants over the age of 65 have their benefits actuarially increased to their current age. Actuarial equivalence mortality is based on the Male Rates of the 1983 Group Annuity Mortality Table and the Interest Rate is 7.5%.

The San Diego Union-Tribune LLC Retirement Plan
EIN/PN: 26-4538894 / 001

Schedule SB, Part V - Statement of Actuarial Assumptions/Methods (continued)

The following assumptions were selected by the plan's enrolled actuary. The asset valuation method was selected by the plan sponsor and is an acceptable method under PPA. Assumptions were based on an examination of historical experience or trends developed by the prior actuary. Buck reviewed for reasonableness and at this time deems the assumption to be indicative of future experience.

Expenses

Expected plan expenses of $3,606,263 were added to the Target Normal Cost. The expense load is based on the prior's non-PBGC plan related expenses adjusted with an inflation rate of 3.00%, plus this year's PBGC premium.

Frequency of optional payment forms

Active participants are assumed to elect a lump sum upon retirement.

80% of terminated and vested participants under age 60 at the valuation date are assumed to elect a lump sum at age 60. The remaining terminated and vested participants are assumed to elect a life annuity at age 65. This assumption has been updated to reflect actual plan experience where previously it was assumed all terminated and vested participants elect a life annuity at age 65.

Marital percentage

60% of participants are assumed to be married at death. Husbands are assumed to be 4 years older than their wives.

Asset valuation method

The Actuarial Value of Assets is Market Value as of the valuation date, including discounted receivable contributions, reduced by 2/3 and 1/3 of the gain/(loss) in the prior 2 years, respectively. The gain/(loss) for each period is determined as the actual return on Market Value during the period less the expected return on Market Value based on an assumed earnings rate chosen by the actuary but required by PPA to be not greater than the applicable third segment rate. The resulting value is constrained to be within a corridor of 90% to 110% of Market Value, including discounted receivable contributions. The expected asset return assumption was based on an analysis of long term expected returns for the asset classes in which the plan's assets were invested as of the measurement date.

	Actuary's Assumption	Third Segment Rate	Reflecting PPA Limit
2018 Expected Return	6.99%	6.29%	6.29%
2017 Expected Return	6.99%	6.48%	6.48%
2016 Expected Return	6.99%	6.65%	6.65%

Future actuarial measurements

Future actuarial measurements may differ significantly from current measurements due to plan experience differing from that anticipated by the economic and demographic assumptions, changes expected as part of the natural operation of the methodology used for these measurements, and changes in plan provisions, applicable law or regulations. An analysis of the potential range of such future differences is beyond the scope of this report.

Summary of Changes from the January 1, 2017 Valuation

- The mortality tables[1] used for funding purposes reflects an additional year of mortality improvement as required by PPA.
- The interest rate basis was updated to the current rates as specified in IRS Regulation 1.430(h)(2)-1. These rates are constrained in accordance with relevant legislation.
- The assumption changes listed above increased the funding target by approximately $9.4 million.

[1] Based on the option under 1.430(h)(3)-1(f)(2) to defer the updated mortality basis to 2019.
