Brake Parts Inc LLC 401(k) Plan

Notes to Financial Statements

Note 1. Description of Plan

The following description of the Brake Parts Inc LLC 401(k) Plan (the Plan) provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General: The Plan is a defined contribution plan which was established effective January 1, 2013 for the benefit of eligible employees of Brake Parts Inc LLC (the Company).

The plan document was restated through adoption of a non-standardized prototype plan sponsored by Merrill Lynch, Pierce, Fenner & Smith, Incorporated (MLPF&S), effective January 1, 2018. The restatement was a result of change in trustee from Wells Fargo Bank, N.A. to Bank of America, N.A. (BOA). MLPF&S is an affiliate of BOA and serves as recordkeeper.

Eligibility: Eligible employees, as defined, are eligible to defer compensation by contributing to the Plan and receive Company matching and profit sharing contributions. Employees enter the Plan on the first of the month following date of employment. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions: Participants are automatically enrolled to make salary deferral contributions of 3 percent of compensation, as defined. Unless a participant changes their deferral election, an automatic increase of 1 percent per year will be made until salary deferral contributions reach 6 percent of compensation, as defined. Participants may defer up to 50 percent from eligible compensation. Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans.

Company matching contributions may be made at the discretion of the Company. Such amounts are credited among the accounts of participants who have made compensation reductions during the year. In 2018, the Company provided discretionary matching contributions of 100 percent of eligible wages up to 4 percent of employee deferral contributions.

In addition to the matching contribution, the Company may make a profit sharing contribution which is determined and approved by the Board of Directors annually. No profit sharing contribution was made in 2018. Contributions are subject to certain limitations.

The plan agreement contains various limitations on the amount of employee and employer contributions to the Plan, in accordance with Sections 401 and 415 of the Internal Revenue Code (IRC) on a pre-tax or post-tax basis. The maximum amount of compensation a participant can defer is \$18,500. Participants age 50 and over may make catch-up contributions up to an additional \$6,000.

Roth 401(k) contributions: The Plan allows for Roth Elective Deferrals that are includible in participant's gross income at the time deferred and have been irrevocably designated as Roth Elective Deferrals by participant.

Participant accounts: Each participant's account is credited with the participant's contributions and Company matching contributions, if any, as well as allocations of the Company's profit sharing contribution and plan earnings, and is charged with an allocation of administrative expenses. Allocations are based on participant compensation, account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Brake Parts Inc LLC 401(k) Plan

Notes to Financial Statements

Note 1. Description of Plan (Continued)

Vesting: Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the remainder of their accounts is based on years of continuous service. A participant is 100 percent vested after two years of credited service. In the event of death, disability or retirement at designated ages, participants become fully vested.

Investment options: Upon enrollment in the Plan, a participant may direct contributions into a variety of investments as more fully described in the Plan's literature. Participants may change their investment options at any time.

Forfeitures: At December 31, 2018 and 2017, forfeited nonvested accounts totaled \$50,808 and \$300, respectively. Forfeitures of terminated participants' nonvested accounts are used to reduce Company contributions or plan expenses. For the year ended December 31, 2018, \$9,918 of the forfeitures were used to reduce Plan expenses. The plan used the remaining forfeitures in 2019.

Notes receivable from participants: Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum amount equal to the lesser of \$50,000, reduced by the excess of the participant's highest outstanding loan balance on their account during the prior 12-month period or 50 percent of their account balance. Note terms range from 1-5 years or up to 10 years if used for the purchase of a primary residence. Participants may only have one note outstanding at a time. The notes are collateralized by the balance in the participant's account and bear interest at the prime rate plus 1 percent as of the quarter ended prior to the note origination and fixed for the loan term. Interest rates ranged from 4.25 percent to 6.25 percent at December 31, 2018. Principal and interest payments are paid through payroll deductions.

Payment of benefits: If a participant terminates for any reason, the Plan provides for benefits to be paid in the form of a lump sum. The Plan also allows for hardship distributions, as defined, and distributions upon the age of 59 ½.

Subsequent events: The Plan Administrator has evaluated subsequent events for potential recognition and/or disclosure through October 15, 2019, the date the financial statements were available to be issued.

Note 2. Summary of Significant Accounting Policies

Basis of accounting: The financial statements of the Plan are prepared on the accrual basis of accounting.

Investment valuation and income recognition: Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Pension Board determines the Plan's valuation policies utilizing information provided by the investment custodian. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes receivable from participants: Notes receivable from participants are measured at their unpaid principal balances plus any accrued but unpaid interest. Notes in default are treated as distributions based upon the terms of the plan document surrounding defaults.

Brake Parts Inc LLC 401(k) Plan

Notes to Financial Statements

Note 2. Summary of Significant Accounting Policies (Continued)

Use of estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities as of the date of the financial statements. Actual results could differ from those estimates.

Payment of benefits: Benefits are recorded when paid.

Expenses: Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Fees related to plan administration are either charged directly to participant accounts or are included in administrative expenses.

Recent accounting pronouncement: In August 2018, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) 2018-13, *Fair Value Measurement (Topic 820): Disclosure Framework-Changes to the Disclosure Requirements for Fair Value Measurement*, which modifies the disclosure requirements for fair value measurements by removing, modifying, or adding certain disclosures. ASU 2018-13 is effective for all entities for fiscal years, and interim periods within those fiscal years, beginning after December 15, 2019. An entity is permitted to early adopt any removed or modified disclosures and delay adoption of the additional disclosures until their effective date. The Plan is currently evaluating the impact of this new standard on its financial statements.

Note 3. Information Certified and Provided by Bank of America, N.A., the current Trustee, and Wells Fargo Bank, N.A. (Wells Fargo), the former Trustee

Note 4. Fair Value Measurements

Accounting Standards Codification (ASC) 820, *Fair Value Measurements and Disclosures*, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under ASC 820 are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2018 and 2017.

Shares of registered investment companies: Valued at the daily closing price as reported by the fund. Shares of registered investment companies held by the Plan are open ended mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The shares of registered investment companies held by the Plan are deemed to be actively traded.

Brake Parts Inc LLC 401(k) Plan

Notes to Financial Statements

Note 4. Fair Value Measurements (Continued)

Common/collective trust fund: Valued at the NAV of units of the common/collective trust fund. The NAV, as provided by the trustee, is used as a practical expedient to estimating fair value. The NAV is based upon the fair value of the underlying investments comprising the trust less its liabilities. The practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2018:

	2018			
	Level 1	Level 2	Level 3	Total
Shares of registered investment companies	\$ 42,679,758	\$ -	\$ -	\$ 42,679,758
Total assets in fair value hierarchy	\$ 42,679,758	\$ -	\$ -	42,679,758
Investment measured at NAV (a)				8,616,416
Investments at fair value				<u>\$ 51,296,174</u>

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2017:

	2017			
	Level 1	Level 2	Level 3	Total
Shares of registered investment companies	\$ 43,959,257	\$ -	\$ -	\$ 43,959,257
Total assets in fair value hierarchy	\$ 43,959,257	\$ -	\$ -	43,959,257
Investment measured at NAV (a)				8,297,422
Investments at fair value				<u>\$ 52,256,679</u>

In accordance with Subtopic 820-10, certain investments that were measured at NAV per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit the reconciliation of the fair value hierarchy to the line items presented in the statements of net assets available for benefits.

The following table sets forth the fair value of investments in certain funds that calculate net asset value per share (or its equivalent) at December 31, 2018 and 2017:

Investment	Fair Value		Unfunded Commitment	Redemption Frequency	Redemption Notice Period
	2018	2017			
Common/collective fund	<u>\$ 8,616,416</u>	<u>\$ 8,297,422</u>	<u>\$ -</u>	Daily	12 months*

*Redemption Notice Period is at the plan level.

Brake Parts Inc LLC 401(k) Plan

Notes to Financial Statements

Note 4. Fair Value Measurements (Continued)

Changes in Fair Value Levels

To assess the appropriate classification of investments within the fair value hierarchy, the availability of market data is monitored. Changes in economic conditions or valuation techniques may require the transfer of investments from one fair value level to another. In such instances, the transfer is reported at the end of the reporting period.

Plan management evaluates the significance of transfers between levels based upon the nature of the investment and size of the transfer relative to total net assets available for benefits. For the year ended December 31, 2018, there were no transfers in or out of Level 3.

Note 5. Related-Party Transactions

Certain plan investments consist of common/collective funds and registered investment companies managed by Bank of America, N.A., the trustee of the Plan, and, therefore, these transactions qualify as party-in-interest. Merrill Lynch, Pierce, Fenner & Smith, Incorporated (MLPF&S), an affiliate of the trustee, serves as the Plan's recordkeeper and, therefore, these transactions qualify as party-in-interest transactions. Total administrative expenses incurred by the Plan from its service providers amounted to \$71,778 for the year ended December 31, 2018.

Certain employees of the Company provide administrative services to the Plan. These employees are not paid by the Plan. Certain other expenses of the Plan are paid by the Company.

Note 6. Plan Termination

Although it has not expressed any intent to do so, the Company may discontinue its contributions at any time and terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants will become 100 percent vested in their accounts.

Note 7. Income Tax Status

Effective January 1, 2018, the Plan adopted a non-standardized form of a prototype profit sharing plan sponsored by MLPF&S dated March 31, 2014. The prototype plan has received an opinion letter from the Internal Revenue Service as to the prototype plan's qualified status. The prototype plan opinion letter has been relied upon by this Plan. The Plan has been amended since receipt of the opinion letter. The Plan Administrator believes the Plan is designed and is being operated in compliance with the applicable provisions of the IRC.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the organization has taken an uncertain position that more likely than not would not be sustained upon examination.

The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax period in progress.

Brake Parts Inc LLC 401(k) Plan

Notes to Financial Statements

Note 8. Risks and Uncertainties

Investment securities, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the value of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Note 9. Reconciliation of Financial Statements to Form 5500
