Capstone Mechanical, LLC 401(k) Plan

Notes to Financial Statements

December 31, 2018 and 2017

(1) Description of Plan

The following description of the Capstone Mechanical, LLC (the "Company") 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

(a) General

The Plan is a 401(k) salary reduction profit sharing plan covering all full-time employees of Capstone Mechanical, LLC (the "Company"), who are at least eighteen years of age and have ninety days of service. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). The Plan administrator is responsible for oversight of the Plan, including determining the appropriateness of the Plan's investment offerings and monitoring investment performance.

(b) Contributions

Contributions to the Plan may consist of funds contributed by the Company, employees, and roll-over contributions. Each year, participants may contribute up to the maximum statutory amount of pretax annual compensation, as defined in the Plan. Participants are also eligible to make catch-up contributions and may contribute amounts representing distributions from other qualified defined benefit or contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan. Under safe harbor provisions, the Company is required to make an annual contribution of 3% of eligible compensation. In addition, the Company may choose to make a discretionary contribution to the Plan for a particular plan year. Contributions are subject to certain limitations.

(c) Participant Accounts

Each participant's account is credited with the participant's contributions, the employer matching contribution, and an allocation of (a) the Company's discretionary contribution and (b) Plan earnings. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant annual earnings or account balances, as defined in the Plan. The benefit to which a participant is entitled is the benefit that can be provided from the participant's account.

Capstone Mechanical, LLC 401(k) Plan

Notes to Financial Statements
(Continued)

(1) Description of Plan (continued)

(d) Vesting

Participants are vested immediately in their contributions, Company safe harbor provision contributions, plus actual earnings thereon. Company discretionary contributions are 20% vested to the participant after two full years of service, 20% for each additional year of service and 100 % vested after six years. Participants become 100% vested in all accounts upon death, disability, or retirement at or after age sixty-five. Upon termination of employment, non-vested balances are forfeited.

(e) Notes Receivable from Participants

Participants may borrow from the vested portion of their fund accounts a minimum of $ 1,000 up to a maximum equal to the lesser of $ 50,000 or 50% of their account balance. The loans are secured by the balance in the participant's account and bear interest at rates from 4.25% to 6.25%, which is commensurate with the local prevailing rates as determined by the Plan administrator. Principal and interest is paid ratably through monthly payroll deductions.

(f) Payment of Benefits

On termination of service, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account or annual installments.

(g) Forfeited Accounts

Net assets available for benefits at December 31, 2018 and 2017 include certain forfeited non-vested accounts. The Plan may use forfeited non-vested account balances to cover administrative expenses or reduce contributions of the Company. As of December 31, 2018 and 2017, the amounts in the forfeited non-vested accounts were $308 and $2,656, respectively. These accounts will be used to reduce future employer contributions or to pay plan expenses. $4,273 and $8,928 was used to pay administrative expenses in 2018 and 2017, respectively.

(2) Summary of Significant Accounting Policies

(a) Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting. Investments held by a defined contribution plan are required to be reported at fair value, except for fully benefit-responsive investment contracts. Contract value is the relevant measurement for the portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants normally would receive if they were to initiate permitted transactions under the terms of the Plan.

(b) Investments

The Plan's investments are stated at fair value (except for fully benefit responsive investment contracts, which are reported at contract value). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 9 for further discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade date basis. Interest income is recorded on an accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

(c) Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are paid. Delinquent participant loans are recorded as distributions based on the terms of the Plan document.

(d) Payment of Benefits

Benefits are recorded when paid.

(2) Summary of Significant Accounting Policies (continued)

(e) Administrative Expenses

Certain expenses of maintaining the Plan are paid by the Plan, unless otherwise paid by the Company. Expenses that are paid by the Company are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation (depreciation) of fair value of investments.

(f) Income Taxes

The Plan recognizes the effect of income tax positions only if those positions are more likely than not of being sustained. Recognized income tax positions are measured at the largest amount that is greater than 50% likely of being realized. Changes in recognition or measurement are reflected in the period in which the change in judgment occurs.

(g) Use of Estimates

The preparation of financial statements in accordance with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

(3) Investments

The Plan's investments, all of which are participant directed, consisted of the following at December 31, 2018 and 2017:

	2018	2017
Mutual funds	$ 1,083,485	1,200,908
Investment contracts with an insurance company	308,042	207,007
	$ 1,391,527	1,407,915

(3) Investments (continued)

See additional information on the fair value of investments at Note 9.

(4) Information Certified by the Trustee

The financial information included in the Plan financial statements, except for employer contributions receivable, employee contributions receivable, contributions, benefits paid to participants, and administrative expenses, have been derived from information certified as complete and accurate by Principal Life Insurance Company, custodian of the Plan, in accordance with Section 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure, under ERISA.

(5) Tax Status

The Plan is using a standardized prototype profit-sharing plan document. In a letter dated March 31, 2014, the Internal Revenue Service ("IRS") indicated the standardized form of the Plan is acceptable under Section 401 of the Internal Revenue Code (the "Code"). The opinion of the IRS on the acceptability of the form of the Plan is not a ruling or determination as to whether the Plan qualifies under Code section 401(a). The Plan has been amended since receiving this acceptability letter. However, the Plan Administrator believes the Plan is currently designed and operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, no provision for income taxes has been included in the Plan's financial statements.

(6) Plan Termination

Although it has not expressed any interest to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their employer accounts.

(7) Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statements of Net Assets Available for Benefits.

(8) Party-In Interest Transactions

Certain Plan investments are shares of mutual funds, pooled separate accounts, and an investment contract – general account managed by the Principal Life Insurance Company. The Principal Life Insurance Company is the custodian as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions.

The Plan has not considered Company contributions to the Plan or benefits paid by the Plan to participants as party-in-interest transactions.

(9) Fair Value Measurements

Generally accepted accounting principles establish a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to measurements involving significant unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are as follows:

- Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities in active markets that the Plan has the ability to access at the measurement date.
- Level 2 inputs are inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly.
- Level 3 inputs are unobservable inputs for the asset or liability.

The level in the fair value hierarchy within which a financial instrument in its entirety falls is based on the lowest level input that is significant to the fair value measurement in its entirety.

The following methods and assumptions were used to estimate the fair value of each class of financial instruments:

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-ended mutual funds that are registered with the SEC. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are designed to be actively traded.

(9) Fair Value Measurements (continued)

Pooled separate accounts: The pooled separate accounts invest in underlying mutual funds that trade on an established market. The pooled separate is valued daily at the net asset value ("NAV") of units in the account. The NAV, as provided by the custodian, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the account. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Participant transactions (purchases and sales) may occur daily. The ability to exchange units of a pooled separate account may be restricted in the event that the Plan or participant engages in trading patterns which are detrimental to the account or the underlying investments. Trading restrictions apply to transfer into an investment fund; transfers out of the pooled separate account are allowed at any time.

Investment contract with an insurance company – general account: The Plan's investment contract with an insurance company – general account is valued using the net asset value (NAV) of the units as determined by Principal Life Insurance Company ("Principal Life"). The NAV is used as a practical expedient to estimate fair value. This practical expedient would not be used if it is determined to be probable that Principal Life would sell the underlying investment for an amount different than the reported NAV. Participant transactions (purchases and sales) may occur daily. If the Plan initiates a full redemption of the annuity contract with Principal Life, Principal Life reserves the right to require 30 days notification in order to ensure that securities liquidations will be carried out in an orderly business manner. There are no unfunded commitments as of December 31, 2018 and 2017.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

(9) Fair Value Measurements (continued)

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2018 and 2017:

			Fair Value Measurements Using		
		Fair Value December 31, 2018	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Mutual funds	$	1,083,485	1,083,485	-	-
Total assets in the fair value hierarchy		1,083,485	1,083,485	-	-
Investments measured at net asset value (a)		308,042			
Investments at fair value	$	1,391,527			

			Fair Value Measurements Using		
		Fair Value December 31, 2017	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Mutual funds	$	1,200,908	1,200,908	-	-
Total assets in the fair value hierarchy		1,200,908	1,200,908	-	-
Investments measured at net asset value (a)		207,007			
Investments at fair value	$	1,407,915			

(a) In accordance with generally accepted accounting principles, certain investments that were at net asset value per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hiererchy to the line item presented in the statement of net assets available for benefits.

(10) Subsequent Events

The Plan has evaluated subsequent events from the date of the statement of net assets available for benefits through October 3, 2019, the date at which the financial statements were available to be issued, and determined there are no items to disclose.
