Contributions – Under Internal Revenue Code ("IRC") Section 401(k), participants may contribute up to 100% of their compensation, subject to 2018 annual limits of $18,500 and an additional $6,000 for catch-up contributions for participants that are age 50 or older. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. Participants may stop or change their contribution elections at any time.

As defined by the Plan, the Sponsor may make discretionary matching contributions based on a percentage of a participant's elective deferral contributions. During 2018, the Sponsor made matching contributions of 100% of the first 3% of participant's elective deferral contributions. The Sponsor may also make discretionary profit sharing contributions. During the year ended December 31, 2018, the Sponsor did not make any profit sharing contributions.

Vesting – Participants are fully vested in their elective contributions, as well as any rollover contributions, plus or minus any earnings or losses thereon. Vesting in the Sponsor's discretionary contributions and the earnings or losses thereon is based upon years of continuous service, as defined in the Plan document, as follows:

Years of Service	Vested Percentage
1	0%
2	20%
3	40%
4	60%
5	80%
6	100%

Notwithstanding the above, participants shall become fully vested upon their date of death.

Participant Accounts – Each participant's account is credited and/or reduced with the participant's elective deferral contributions and distributions, the Sponsor's contribution, and an allocation of the Plan's investment earnings/losses, investment fees and any administrative expenses paid out of the Plan. Allocations are based on either participant's compensation or account balance as defined in the Plan.

Note 1—Description of the Plan (continued)

Investment Options – The Plan's assets are held and managed by the custodian. The participants direct the investment of their account balance and may select from various investment options offered by the Plan. Participants may change their investment option selections on any business day as defined by the Plan.

Notes Receivable from Participants – Participants may have up to three loans outstanding at any time and may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance on the date of the note. Notes should be repaid within five years unless the note is for the purchase of a primary residence in which case the repayment schedule is extended to a reasonable period of time, not to extend fifteen years. Interest accrues at the prevailing commercial rate for notes of similar types and ranged from 4.25% to 6.25% at December 31, 2018. The notes are collateralized by the participants' vested interest in their account balance. Principal and interest payments with respect to the notes are credited solely to the account of the borrowing participant from which the note was made through payroll deductions.

Notes receivable from participants are measured at their unpaid principal balances plus any accrued but unpaid interest. Delinquent participant notes are reclassified as distributions based upon the terms of the Plan document.

Hardship Distributions – Hardship distributions are permitted if the distribution is due to expenses incurred or necessary for medical care described in IRC Section 213(d), purchase of a principal residence, payment of tuition, to prevent eviction from or foreclosure of the principal residence, or any other condition which the Commissioner of the Internal Revenue Service ("IRS") deems an immediate and financial need of the participant. Participant voluntary contributions are suspended for six months after receipt of a hardship distribution.

Payment of Benefits – Participants are allowed in-service withdrawals of their vested interest in his or her account upon attainment of retirement age or in the event of a financial hardship. Upon termination of service due to death, disability, or retirement, participants or their designated beneficiary may receive the value of their vested interest in his or her account as a lump sum distribution. Participants 59 ½ years of age or older can obtain benefits from the Plan without penalties. Participants should refer to the Plan documents for a full description of the distribution methods offered by the Plan.

Forfeitures – Forfeitures occur when a participant terminates employment and has not vested in a portion of the Sponsor contribution amounts. Forfeitures, if any, are used to reduce future Sponsor contributions to the Plan. During the year ended December 31, 2018, approximately $2,600 was used to reduce Sponsor contributions. At both December 31, 2018 and 2017, forfeitures account totaled $0.

Note 2—Summary of significant accounting policies

Basis of Accounting – The accompanying financial statements are prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP").

Use of Estimates – The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Payment of Benefits – Benefits are recorded when paid.

Note 2—Summary of significant accounting policies (continued)

Investment Valuation and Income Recognition – Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net depreciation includes the Plan's losses and gains on investments bought and sold as well as held during the year.

Administrative Expenses – Certain expenses of maintaining the Plan are paid directly by the Sponsor and are excluded from these financial statements. Fees related to the administration of notes receivable from participants and distributions are charged directly to the participant's account and are included in administrative expenses. The Sponsor pays substantially all professional service expenses and investment management fees incurred by the Plan. These expenses include professional fees related to the preparation of the Plan's tax returns, attorney fees, and recordkeeping/trustee's fees.

Notes Receivable from Participants – Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2018. If a participant ceases to make loan repayments and the Plan administrator deems the participant loan to be in default, the participant note receivable balance is reduced and a benefit payment is recorded as defaulted distribution based upon terms of the Plan document.

Note 3—Information certified by the custodian (unaudited)

The Plan management has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. John Hancock Life Insurance Company, the custodian of the Plan as of December 31, 2018, has certified to the completeness and accuracy of the following data included in the accompanying financial statements.

- Investments at fair value, as shown on the statements of net assets available for benefits as of December 31, 2018 and 2017.
- Notes receivable from participants as of December 31, 2018 and 2017.
- Net depreciation in fair value of investments, interest income, and interest income on notes receivable from participants as shown in the statement of changes in net assets available for benefits for the year ended December 31, 2018.
- Schedule of Assets (Held at End of Year) – Form 5500, Schedule H, Part IV, Line 4i as of December 31, 2018.

The Plan's independent auditors did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedule.

Note 4—Fair value measurements

U.S. GAAP defines fair value as the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction value hierarchy which requires an entity to maximize the use of observable inputs when measuring fair value.

The standard describes three levels of inputs that may be used to measure fair value:

Level 1 – Inputs to the valuation methodology are quoted prices available in active markets for identical investments as of the reporting date;

Level 2 – Inputs to the valuation methodology are other than quoted prices in active markets, which are either directly or indirectly observable as of the reporting date, and fair value can be determined through the use of models or other valuation methodologies; and

Level 3 – Inputs to the valuation methodology are unobservable inputs in situations where there is little or no market activity for the asset or liability and the reporting entity makes estimates and assumptions related to the pricing of the asset or liability including assumptions regarding risk.

A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. The following is a description of the valuation methodologies used for instruments measured at fair value, including the general classification of such instruments pursuant to the valuation hierarchy, if applicable. There have been no changes in the methodologies used at December 31, 2018 and 2017.

Pooled Separate Accounts – These investments are public investment vehicles valued using the net asset value ("NAV") provided by the administrator of the fund. The NAV is used as a practical expedient to estimate fair value, and is based on the value of the underlying assets owned by the fund, minus its liabilities, and then divided by the number of shares outstanding. This practical expedient is not used when it is determine to be probable that the fund will sell the investment for an amount different than the reported NAV. Transactions (purchases and sales) may occur daily. These investments measured using the NAV practical expedient are exempt from classification under the fair value hierarchy.

Guaranteed Interest Accounts – These investments are made by the Plan in an Unallocated Group Fixed Annuity Contract which is invested in the general assets of the custodian who guarantees a fixed interest rate. The NAV for the investment contract is $1. See Note 5 for valuation methodology used to determine the NAV. The investment contracts are classified within Level 3 of the valuation hierarchy.

The methods described above many produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Note 4—Fair value measurements (continued)

Below are the Plan's financial instruments as of December 31, 2018 and 2017, carried at fair value on a recurring basis by the fair value hierarchy levels described above.

	As of December 31, 2018			
	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	Total Fair Value
Guaranteed interest accounts*	$ -	$ -	$ 5,696	$ 5,696
Pooled separate accounts measured at NAV *[(a)]				1,771,059
Investments, at fair value				$ 1,776,755

	As of December 31, 2017			
	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	Total Fair Value
Guaranteed interest accounts*	$ -	$ -	$ 5,362	$ 5,362
Pooled separate accounts measured at NAV *[(a)]				1,676,794
Investments, at fair value				$ 1,682,156

(a) Investments that are measured at fair value using the NAV per share (or its equivalent) as a practical expedient have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the amounts presented in the statements of net assets available for benefits. As of December 31, 2018 and 2017, pooled separate accounts had no unfunded commitments and redemptions are processed daily with a no notice period.

* Amounts are unaudited. See Note 3.

The table below sets forth a summary of changes in fair value of the Plan's Level 3 investment assets for the year ended December 31, 2018:

Beginning fair value	$ 5,362
Contributions	620
Interest	60
Distributions	(346)
Ending fair value	$ 5,696

Note 5—Guaranteed interest accounts

The Plan offers a non-benefit responsive guaranteed interest account with a 3 and 5 year term, which are similar in concept to bank certificates of deposit, with a guaranteed interest rate which is credited to contributions for the term of the certificates, provided that contributions are held until the certificate maturity date. A minimum guaranteed interest rate is set by the custodian for each guaranteed interest account, with the yearly minimum guaranteed interest rate never to be less than 0%. The custodian maintains the contributions in a general account. Principal contributions made are guaranteed and not subject to invasion for any charges or fees under the contract. The account is credited with interest on the underlying investments on a daily basis and charged for participant withdrawals and administrative expenses. The funds are included in the financial statements at fair value (contributions plus interest credited, less all applicable charges and fees, market value adjustments, if any, and distributions from the funds) as reported to the Plan by the custodian. The average yields based on actual earnings for the contract for the year ended December 31, 2018 and 2017, was 0.37% and 0.30%, respectively. The crediting interest rate to participants as of December 31, 2018 and 2017, was 0.60% and 1.05%, respectively.

Note 6—Parties-in-interest transactions

Plan investments and the related transactions as of December 31, 2018 and 2017, and for the year ended December 31, 2018, were in investment funds managed by the custodian; therefore, these investments and transactions qualify as party-in-interest transactions. Fees paid during the year for accounting and other services rendered by parties-in-interest were based on customary and reasonable rates for such services.

Notes receivable from participants are also considered to be party-in-interest transactions because they are transacted with Plan participants.

Note 7—Plan termination

Although it has not expressed any intent to do so, the Plan Sponsor has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of termination of the Plan, participants will become 100% vested in their accounts.

Note 8—Income tax status

The IRS has determined that the non-standardized prototype 401(k) profit sharing plan is designed in accordance with applicable sections of the IRC and informed the Recordkeeper of such in a letter dated March 31, 2014. The Plan administrator believes that the Plan is currently being operated in compliance with the applicable requirements of the IRC and, therefore, the related trust is exempt from taxation.

U.S. GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. Plan management has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2018 and 2017, there are no uncertain tax positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to audit by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 9—Risks and uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Management is monitoring investment market conditions and the impact the conditions are having on the Plan's investment portfolio. Due to the volatility of the financial markets, there is uncertainty regarding the impact which continued volatility might have on the Plan's investment portfolio.

Note 10—Subsequent events

The Plan evaluated all events subsequent to the statements of net assets available for benefits date of December 31, 2018 through October 10, 2019, which is the date the financial statements were available to be issued, and has determined that there are no subsequent events that require disclosure.
